## PREFACE

The Mississippi Code of 1972, which became effective on November 1, 1973, is the culmination of nearly four years of effort on the part of the Legislature, the Attorney General's office and the publishers, which brings together provisions of general statutory law having a common subject matter into a more orderly and logical framework of code titles and chapters, and employing a modern and effective section numbering system. A major by-product of the code revision will be the state-owned magnetic computer tape containing the Mississippi Code of 1972, which will be of invaluable assistance to the Legislature and to the state.

The enabling act for the code was a recommendation of the Mississippi State Bar, which resulted in the consideration and passage of Senate Bill 1964, Chapter 465, Laws of 1970, signed into law by Governor John Bell Williams.

The Code Committee provided for in that act was comprised of A. F. Summer, Attorney General, Heber Ladner, Secretary of State, Representative Edgar J. Stephens, Jr., Chairman, House Appropriations Committee, Senator William G. Burgin, Jr., Chairman, Senate Appropriations Committee, Representative H. L. Meredith, Jr., Chairman, House Judiciary "A" and Judiciary en banc Committees, Senator E. K. Collins, Chairman, Senate Judiciary "A" and Judiciary en banc Committees, Representative Ney McKinley Gore, Jr., Chairman, House Judiciary "B" Committee, and Senator William E. Alexander, Chairman, Senate Judiciary "B" Committee. In 1972, Representative Marby Robert Penton and Senator Herman B. Decell, Chairman of House and Senate Judiciary "B" Committees, respectively, became members of the Committee, replacing Representative Gore and Senator Collins, Senator Alexander having been appointed Chairman of Senate Judiciary "A" and Judiciary en banc Committees. The Deputy Attorney General, Delos H. Burks, served the Code Committee as Secretary. Special Assistant Attorney General Fred J. Lotterhos, under the supervision of the Attorney General, was assigned the principal responsibility for the supervision of the recodification, including the consideration and treatment of some 16,000 sections of code manuscript.

Final legislative approval was given to the Mississippi Code of 1972 by passage of Senate Bill 2034, Laws of 1972, which was signed by Governor William L. Waller on April 26, 1972.

The Code Committee is of the opinion that the recodification has been thoroughly and well accomplished, and will result in a greatly improved repository of the general statutory law of the state.

A. F. SUMMER  
ATTORNEY GENERAL

## **PUBLISHER'S FOREWORD**

This 2014 Replacement Volume 10A of the Mississippi Code of 1972 Annotated, along with the newly recompiled 2007 Replacement Volume 10, represents material appearing in the original 1973 Volume 10 and the 1996 Replacement Volume 10, the 2001 Replacement Volume 10A and the 2007 Replacement Volume 10A, as well as reflecting amendments, repeals, and new Code provisions enacted by the Mississippi Legislature through the 2014 Regular and 1st and 2nd Extraordinary Legislative Sessions.

This volume contains the text of Title 37, Chapters 37 through 177, and the full text of Title 39, of the Mississippi Code of 1972 Annotated, as amended through the 2014 Regular and 1st and 2nd Extraordinary Legislative Sessions.

Case annotations are included based on decisions of the State and federal courts in cases arising in Mississippi. Many of these cases were decided under the former statutes in effect prior to the enactment of the Code of 1972. These earlier cases have been moved to pertinent sections of the Code where they may be useful in interpreting the current statutes. Annotations to collateral research references are also included.

To better serve our customers by making our annotations more current, LexisNexis has changed the sources that are read to create annotations for this publication. Rather than waiting for cases to appear in printed reporters, we now read court decisions as they are released by the courts. A consequence of this more current reading of cases, as they are posted online on LexisNexis, is that the most recent cases annotated may not yet have print reporter citations. These will be provided, as they become available, through later publications.

This publication contains annotations taken from decisions of the Mississippi Supreme Court and the Court of Appeals and decisions of the appropriate federal courts. These cases will be printed in the following reporters:

Southern Reporter, 3rd Series  
United States Supreme Court Reports  
Supreme Court Reporter  
United States Supreme Court Reports, Lawyers' Edition, 2nd Series  
Federal Reporter, 3rd Series  
Federal Supplement, 2nd Series  
Federal Rules Decisions  
Bankruptcy Reporter

Additionally, annotations have been taken from the following sources:

American Law Reports, 6th Series  
American Law Reports, Federal Series  
Mississippi College Law Review  
Mississippi Law Journal:

Finally, published Opinions of the Attorney General and opinions of the Ethics Commission have been examined for annotations.

### **ADVANCE CODE SERVICE**

Three times a year, at roughly quarterly intervals between delivery of Code supplement pocket parts, we publish the Mississippi Advance Code Service pamphlets. These pamphlets contain updated statutory material and annotations to Attorney General opinions, research and practice references, and recent court decisions construing the Code. Each pamphlet is cumulative, so that each is a "one-stop" source of case notes updating those in your Code bound volumes and pocket parts.

### **ADVANCE SHEETS**

The Advance Sheets consist of a series of pamphlets issued in the spring. The series reproduces the acts passed by the Mississippi Legislature and

## USER'S GUIDE

approved by the Governor during the legislative session. Features include tables showing the impact of legislation on sections of the Mississippi Code of 1972 Annotated, and a cumulative index. These pamphlets enable the user to receive a preview of approved legislation prior to supplement availability, and serve as an excellent source of legislative history.

## AMENDMENT NOTES

Every time a Code provision is amended, we prepare a note describing the effect of the amendment. By reading the note, you can ascertain the impact of the change without having to check the former statute itself.

Amendment notes are retained in the Supplement until the bound volume is replaced, at which time notes from all but the last two years are deleted.

Amendment notes are available online from 1991 until the present in the Mississippi Legislative Archive.

## ANALYSES

Each title, chapter, and article appearing in a bound volume or supplement is preceded by an analysis. The analysis details the scope of the title, chapter, and article and enables you to see at a glance the content of the title, chapter, and article without resorting to a page-by-page examination in the bound volume or supplement.

## ATTORNEY GENERAL OPINIONS

Opinions of the Attorney General for the State of Mississippi have been read for constructions of Mississippi law. Notes describing the subject matter of the opinions have been placed under relevant Code provisions under the heading "Attorney General Opinions." The citation at the end of each note refers to the person requesting the opinion, the date of the opinion, and the opinion number.

## CODE STATUS

The Mississippi Code of 1972 Annotated is Mississippi's official code and is considered evidence of the statute law of the State of Mississippi (see § 1-1-8). The Code was enacted by Chapter 394 of the Laws of 1972, which was signed by the Governor on April 26, 1972.

Title 1, Chapters 1 through 5 of the Code contain statutes governing the status and construction of the Code.

## COMPARABLE LEGISLATION FROM OTHER STATES

Notes to comparable legislation from other states appear for uniform laws, interstate compacts, statutory provisions pertaining to reciprocity and coop-

## USER'S GUIDE

eration with other states, and various important statutes of general interest. Other states' statutes that are similar in subject matter and scope to those of Mississippi are cited, generally, under the first section of the chapter or article to which they pertain. Occasionally, comparable legislation pertains to only one section, in which case it is cited under that section rather than at the chapter or article level.

See also *Federal Aspects*.

## COURT RULES

The Mississippi Court Rules are published separately by LexisNexis in a fully annotated softcover volume which is replaced annually and supplemented semi-annually.

The Court Rules volume contains statewide rules of procedure of the state courts, the local rules of the United States district courts and bankruptcy courts for Mississippi, and the rules of the United States Court of Appeals for the Fifth Circuit. Rules are received from the courts and edited only for stylistic consistency. For further information, see the Preface to the Mississippi Court Rules volume.

## CROSS REFERENCES

Cross references refer you to notes under other Code sections, that may affect a law or place it in context. Cross references also are used under repealed provisions to refer you to an existing law on a similar subject. Cross references do not cite all related statutes, however, since these can be identified by using the General Index.

See also *Comparable Legislation from other States* and *Federal Aspects*.

## EDITOR'S NOTES

Editor's notes are notes prepared by the Publisher that contain information about important or unusual features of a law, or special circumstances surrounding passage of the law, that are not apparent from the law's text.

See also *Effective Dates*.

## EFFECTIVE DATES

Absent a specific effective date provision within an act, Mississippi laws generally take effect upon approval date, which is the date the act is signed into law by the Governor. Acts affecting voting rights and procedures take effect on the date the United States Attorney General interposes no objection under § 5 of the Voting Right Act of 1965.

## USER'S GUIDE

### FEDERAL ASPECTS

Notes to federal legislation that is similar in subject matter and scope to the laws of Mississippi are referenced throughout the Code. In addition, the Code contains the United States Code Service citation for any federal law that is referred to in a Mississippi statute by its popular name or by its session law designation.

See also *Comparable Legislation from other States*.

### INDEX

The Code is completely indexed in two softcover Index volumes, which are updated and replaced annually. In addition, each volume of the Code is followed by its own index. As accurate and thorough as the Index is, your best defense against index wild goose chases is familiarity with indexing techniques. To that end, an explanatory Foreword to the Index appears in the first Index volume.

### JOINT LEGISLATIVE COMMITTEE NOTES

Joint Legislative Committee notes are included in the Code to describe codification decisions made by the Mississippi Joint Legislative Committee on Compilation, Revision and Publication of Legislation. Examples of Committee actions that warrant the inclusion of a note are the integration of multiple amendments to a single Code section during the same legislative session, and the correction of typographical errors appearing in the Code.

### JUDICIAL DECISIONS

Every reported case from the Supreme Court of Mississippi, the Court of Appeals of Mississippi, federal district courts for Mississippi, the federal Fifth Circuit Court of Appeals and the United States Supreme Court has been read for constructions of Mississippi law. These constructions are noted under pertinent sections of the statutes or Mississippi Constitution provisions, under the heading "Judicial Decisions." Where a decision has been reviewed by a higher court, subsequent judicial history and disposition is noted in the case note if such disposition has any bearing on the annotated material. Where two or more decisions state the same rule of law, the case citations are cumulated under one case note.

Case notes are grouped together under headings called "catchlines." The catchlines identify the basic subject matter of the case notes and assist the user in locating pertinent notes. Catchlines are numbered and arranged thematically, with "In general" first. Where there are two or more catchlines, an analysis, listing all the catchlines, precedes the annotations.

Frequently, statutes carry notes to cases that arose under earlier laws on the same subject. Case notes are retained so long as the editor believes the note

## USER'S GUIDE

will have some relevance under current law, though of course the relevance may be diminished by later changes in the law. These case notes appear under the heading "Decisions under former law."

## ORGANIZATION AND NUMBERING SYSTEM

The Code is organized by titles, chapters, articles, subarticles, undesignated centered headings and sections. Analyses at the beginning of each title, chapter, article, and subarticle help you understand the internal arrangement of each Code unit (see *Analyses*).

Odd numbers are generally used for the numbering of titles, chapters and sections. Even numbers have been used for some chapters and sections so that a particular new chapter or section might be logically placed with other chapters and sections dealing with the same or similar subject matter. Similarly, the use of numbers with decimal points has been used for some sections in order that they may be inserted among other sections pertaining to the same subject.

The title, chapter, and section for each Code section is revealed by its section number. Thus, in the designation "§ 1-3-65," the first digit ("1") means the provision is in Title 1 ("Laws and Statutes"); the second ("3") indicates Chapter 3 ("Construction of Statutes"); and the last two digits ("65") mean the 65th section in that chapter ("Construction of terms generally").

Articles and subarticles are not reflected by section number designations.

Within sections, subsections and paragraphs usually are designated following this pattern: (1)(a)(i)1. or (1)(a)(i)A. A distinctive indention scheme is applied to suggest the relative value of each unit within this hierarchy.

## PLACEMENT OF NOTES

Where a note pertains to a single statute section, it will of course be set out following that section. In many instances, however, a note applies equally to several statute sections or to an entire chapter or article. If the pertinent sections are scattered, or few in number, the note will be duplicated for each section. But where the note applies to all or most of the sections in a chapter or article, we prevent the space-consuming repetition of notes by placing the note at the very beginning of the chapter or article.

## REPLACEMENT VOLUMES

The Code is periodically updated and streamlined by the replacement of volumes. Although a current set of the Code contains all currently applicable statutes, we encourage you to retain replaced volumes and their supplement pockets parts for historical reference.

## USER'S GUIDE

### RESEARCH AND PRACTICE REFERENCES

Citations to references in American Jurisprudence, American Jurisprudence Pleading and Practice, American Jurisprudence Proof of Facts, American Jurisprudence Trials, American Law Reports, First through Sixth Series, ALR Federal, Corpus Juris Secundum, various other treatises and practice guides, and Mississippi law journals are given under this heading, wherever the references appear to discuss the statute under which the citation appears, or a topic related to the statute. These citations are intended only to give you a starting point for your library research. The Mississippi law journals include Mississippi Law Journal and Mississippi College Law Review.

### SOURCE NOTES

Each section of the Code is followed by a brief note showing the acts of the Legislature on which it is based, including the act that originally enacted the section and any subsequent amendments.

The source note follows the section text, preceding any other annotations for the section. Information in the source note is listed in chronological order, with the most recent information listed last. If a section has been renumbered, the former number will appear in the source note. :

The tables volume should also be consulted when researching the history of a statutory section, since it contains cross reference tables that provide a statutory citation for each section of the session laws and the date each act went into effect.

### STATUTE HEADINGS

Headings or "catchlines" for Code sections and subsections are generally created and maintained by the publisher. They are mere catchwords and are not to be deemed or taken as the official title of a section or as a part of the section. Your suggestions for the improvement of particular catchlines are invited.

### TABLES

The Mississippi Code of 1972 Annotated contains several tables that can assist you in your research. These are published in the Statutory Tables volume of the Code, and include the following:

- Sections of the Code of 1930 carried into the Code of 1942.
- Sections of the Code of 1942 carried into the Code of 1972.
- Allocation of Acts of Legislature, 1931 — 1972.
- Allocation of Acts of Legislature, 1972 — present.
- Consolidated Tables of amendments and repeals of 1942 Code sections.

**Editor’s Note** — Former Section 37-39-3 provided that the provisions of this chapter were an alternative means to purchase supplies and make contracts therefor.

**§ 37-39-5. School boards shall make and maintain list of supplies and equipment regularly used in schools.**

It shall be the duty of each school board to make or cause to be made, a list of supplies and equipment, including quality specifications when applicable, regularly used in the schools under its supervision, and to maintain such a list in the office of the school district or county superintendent of education or other executive officer of the board. Such list shall be used by the board in obtaining competitive bids for supplies or equipment to be purchased, and shall be available to any interested persons.

Former Section 37-39-9 authorized the designation of purchasing agents, specified their authority, and provided for emergency purchasing procedures.

Former Section 37-39-11 required that notice of intention to let contracts or to make purchases be given by publication or posting.

Former Section 37-39-13 exempted certain non-competitive items and items with fixed prices from competitive bidding requirements.

**§ 37-39-15. Purchase of supplies or equipment for schools.**

(2) Supplies that are perishable or foods purchased for use in connection with the school lunch and homemaking programs shall be exempted from competitive bid requirements. However, each school board shall adopt and place in its minutes definite policies for guidance of agents of such boards in

11. Under former law.

**1.-10. [Reserved for future use.]**

**11. Under former law.**

It is the duty of public authorities such as school trustees to accept the bid involving the least expenditure of public funds. *Parker Bros. v. Crawford*, 219 Miss. 199, 68 So. 2d 281 (1953).

Under this section [Code 1942, § 9027] which provides that the board of trustees of school districts shall let construction contracts go to the lowest and best bidder, the trustees are not compelled to award a contract to the lowest bidder who is financially responsible but they have discretionary power to pass upon the honesty and integrity of the bidder necessary to a

faithful performance of the contract, upon his skill and business judgment, his experience and his facilities for carrying out the contract, previous conduct under other contracts and the quality of previous work as well as his pecuniary ability. *Parker Bros. v. Crawford*, 219 Miss. 199, 68 So. 2d 281 (1953).

Public boards and officials are vested with a sound discretion in making the determination as to who is the lowest and best bidder, and their decisions if based upon an honest and reasonable exercise of the discretion as vested in them will not be interfered with by the courts; however, such public authorities must always exercise a real discretion based upon facts reasonably tending to support their decision. *Parker Bros. v. Crawford*, 219 Miss. 199, 68 So. 2d 281 (1953).

### **§ 37-39-17. Restrictions on purchases in small quantities; contracts may be awarded for delivery at different points.**

Purchases of items regularly used in connection with school operation shall not be made in small quantities for the purpose of circumventing the law requiring competitive bids or quotations, but shall be purchased by contract whenever feasible. School boards shall have the authority, however, to award such contracts for supplies or equipment to be delivered to different points in the school district or county, to different bidders, when the best interests of the district or county warrant such action. Reasons for awarding such contracts to different bidders for different areas in the district shall be recorded on the minutes of the school board. In no event shall the price paid exceed the lowest and best bid received.

**§ 37-39-21. Bonds of purchasing agents.**

The purchasing agent of any school board, before entering upon his official duties in such capacity, shall furnish a good and sufficient surety bond in the penal sum of Fifty Thousand Dollars (\$50,000.00), with sufficient surety. Such bonds shall be payable, conditioned and approved in the manner provided by law, and shall be filed and recorded in the office of the clerk of the chancery court in which the school district is located. The premium on said bond shall be paid out of the school district(s) maintenance fund(s).

**ATTORNEY GENERAL OPINIONS**

If an employee is acting in both capacities of principal and purchasing agent, one bond in the amount of \$50,000 will not suffice. Such an employee must be covered for \$25,000 for the duties of principal pursuant to Section 37-9-31 and \$50,000 for the duties of a purchasing agent under Section 37-39-21 for a total coverage of \$75,000. Middleton, April 26, 1996, A.G. Op. #96-0222.

Section 37-39-21 is written in the singular which would indicate that any and all purchase agents must be covered by an individual bond pursuant to Section 25-1-15(2). Middleton, April 26, 1996, A.G. Op. #96-0222.

The wording of 37-39-21 requires a purchase agent to be covered by an individual bond for \$50,000. Under Section 25-33-1 a Notary Public is a separate office covered by an entirely different statutory scheme and such Notary would be required to provide an individual bond of \$5,000 for the performance of this duty. Therefore a purchasing agent who also acts as a Notary Public would be required to provide two individual bonds the total amount of which would be \$55,000. Middleton, April 26, 1996, A.G. Op. #96-0222.

**§ 37-39-23. Joint purchases of supplies and services by school boards of public school districts authorized.**

The school boards of all public school districts may, in their discretion, enter into an agreement, not inconsistent with the provisions of this chapter, to act jointly in the purchase of maintenance, operational and scholastic services, supplies and materials and equipment.

It is the purpose of this section to enable the school systems to achieve economies of scale through increased purchasing power to the end that the education tax revenues be utilized efficiently.

**§ 37-39-25. Resolution authorizing joint purchases; joint purchasing agent.**

(1) The school boards which choose to act jointly as authorized by section 37-39-23 shall adopt resolutions to that effect which shall be recorded on the minutes of the school boards and copies of which shall be filed with the clerk of the chancery court of the county in which such school districts are located.

(2) The school board may appoint a purchasing agent who shall be responsible, subject to the approval of the board, for all purchases of competitively priced services, materials and supplies. The purchasing agent shall be bonded in accordance with Section 37-39-21. The purchasing agent shall serve all of the school districts acting jointly. There shall not be a separate purchasing agent for the separate districts which are acting jointly.

(3) The purchasing agent for the county school boards shall arrange for purchase, storage and distribution of supplies and materials purchased jointly. The costs involved in purchase, transportation, storage, administration and any other activity regarding joint purchases by the school boards shall be shared among the participating districts on a pro rata basis.

All rules and regulations adopted and promulgated by the State Board of Education relating to school district bus drivers shall also be applicable to drivers of privately owned buses transporting public school district children.

All rules and regulations adopted and promulgated by the State Board of Education pursuant to the authority conferred by this section shall be spread at large upon the minutes of the State Board of Education and copies thereof shall be furnished to all school boards not less than thirty (30) days prior to the effective date of such rules and regulations.

The provisions of this chapter are applicable to school districts and the transportation of students enrolled in public school districts. Charter schools authorized by the Mississippi Charter School Authorizer Board are exempt from the provisions of this chapter.

The introductory paragraph is set out as it appears in the amendment by Laws 2013, ch. 497.

**Amendment Notes** — The 2013 amendment inserted “relating to the transportation of students enrolled in the public school districts, including rules and regulations” at the end of the introductory paragraph; inserted “district” following “public school” throughout; and added the last paragraph.

## JUDICIAL DECISIONS

### 1. In general.

A school board’s purchase of two deluxe commercial “activity buses” without approval from the State Department of Education was unlawful since §§ 37-41-1, -81, -85, and -101 require state approval before purchasing vehicles for the transportation of pupils; however, personal liability for the illegal expenditures would not be im-

posed on board members since a school district is empowered with the authority to purchase transportation equipment, so that the school board’s object was lawful and there was merely a mistaken exercise in legal power in that state approval was not sought. *Smith v. Dorsey*, 599 So. 2d 529 (Miss. 1992).

### **§ 37-41-2. Interference with operation of school bus; penalty.**

(a) It shall be unlawful for any individual, other than a student scheduled to be a passenger upon that particular bus, a member of the public school administration or faculty, or a law enforcement official, to directly or indirectly interfere in any way with passenger ingress and egress or the operation, including unauthorized boarding thereof, of a bus used in public school student transportation unless permission has been obtained as prescribed by pertinent rules and regulations promulgated by the state board of education or the local school authorities.

(b) Upon conviction of violation of any provision of this section, such individual shall be guilty of a misdemeanor and shall be subject to a fine of not to exceed five hundred dollars (\$500.00), imprisonment in the county jail for a period not to exceed six (6) months, or both. Any person under the age of seventeen (17) who violates any provision of this section shall be treated as delinquent within the jurisdiction of the youth court.

### **§ 37-41-3. Pupils entitled to transportation.**

Pupils of legal school age, which shall include kindergarten pupils, and in actual attendance in the public schools who live a distance of one (1) mile or more by the nearest traveled road from the school to which they are assigned by the school district in which they are enrolled shall be entitled to transportation within the meaning of this chapter. Nothing contained in this section shall be construed to bar any child from such transportation where he or she lives less than one (1) mile and is on the regular route of travel of a school bus and space is available in such bus for such transportation. No state funds shall be paid for the transportation of children living within one (1) mile of the school, except as otherwise provided in this chapter, and such children shall not be included in transportation reports. In the development of route plans, economy shall be a prime consideration. There shall be no duplication of routes except in circumstances where it is totally unavoidable. The State Department of Education shall have authority to investigate school bus routing when there is reason to believe the provisions of this statute are being violated. The State Board of Education shall have authority to withhold transportation funds when school districts fail to correct unnecessary route duplication. Provided further, that all school districts are hereby authorized to lease or contract with any public or private individual, partnership, corporation, association, agency

or other organization for the implementation of transportation of pupils as provided for in this section.

The school boards may provide transportation to such crippled and physically handicapped children as may be designated by such boards, when the failure to do so would result in undue hardship, even though the children are not otherwise entitled to transportation under the provisions of this chapter. The State Department of Education shall require all school districts during the 1993-1994 school year to equip school buses with properly designed seat belts to protect such physically handicapped children, and school districts are authorized to expend funds therefor from nonminimum program or other sources.

Where space is available, students attending junior colleges shall be allowed transportation on established routes in district-owned buses. However, no additional funds shall be allocated or expended for such purposes, and such persons shall not be included in transportation reports.

Children enrolled in special or alternative programs approved by school boards may be provided transportation even though such children are not otherwise entitled to transportation under the provisions of this chapter. No additional funds shall be allocated or expended for such purpose, and such children shall not be included in transportation reports.

**Editor's Note** — Laws of 1990, Chapter 589, § 35, amended this section effective July 1, 1990, provided that the Legislature by concurrent resolution adopted by the House and Senate in session prior to July 1, 1990 declare that sufficient funds were dedicated and made available for the implementation of Chapter 589. Funds, however, were not made available by the Legislature prior to July 1, 1990, and by direction of the Office of the Attorney General of the State of Mississippi, the amendatory provisions have not been printed in this volume. Text of the amendment can be found in the Advance Sheet Acts of the 1990 Legislative Session published by the Secretary of State's Office, Jackson, Mississippi.

**Amendment Notes** — The 2013 amendment inserted "by the school district in which they are enrolled" preceding "shall be entitled to transportation within the meaning of this chapter" at the end of the first sentence in the first paragraph.

## JUDICIAL DECISIONS

1. In general.
2. Use of other than state funds.

**1. In general.**

Section 6336-04, Code 1942, provides that no pupils who live within the corporate limits of a municipality and who are assigned to a school within the corporate limits shall be considered as eligible for transportation supported or subsidized by state funds. *Sutton v. City of Hattiesburg*, 367 F. Supp. 1154 (S.D. Miss. 1973).

For children to be entitled to bus transportation between their home and their school they must live a mile or more from the school by the nearest travelled road, and the distance is to be determined from the door of their residence rather than from the intersection of their private driveway with a public road. *Madison County Bd. of Educ. v. Grantham*, 250 Miss. 767, 168 So. 2d 515 (1964).

**2. Use of other than state funds.**

Intra-city busing program provided for from accumulated reserves and a separate transportation account funded solely by local income was not in conflict with this statute as no state funds were used, and the state was enjoined from interfering with the school board's use of non-state derived funds to pay for said busing. *Singleton v. Jackson Mun. Separate Sch. Dist.*, 509 F.2d 818 (5th Cir. 1975).

Where a municipal separate school district has not spent and does not contemplate spending any funds derived from state sources on intra-city bus transportation of pupils, it has not violated this section [Code 1942, § 6336-04]. *Singleton v. Jackson Mun. Separate Sch. Dist.*, 332 F. Supp. 984 (S.D. Miss. 1971), *aff'd*, 509 F.2d 818 (5th Cir. 1975).

## ATTORNEY GENERAL OPINIONS

A school district is authorized to lease a school bus or buses if the school board enters a resolution upon the minutes of the board that such is deemed necessary for the implementation of transportation of pupils; however, no such lease agreement may bind successors in office. *Thompson*, Nov. 21, 1991, A.G. Op. #91-0873.

It is within the discretion of a school district to designate a day care center or home as a bus stop on an established and structured bus route and on a space available basis to transport district students from that day care facility or home to school and from school back to that facility or home. *Carnathan*, Nov. 14, 1997, A.G. Op. #97-0694.

A child not enrolled and in attendance at a school in a particular school district is not legally entitled to transportation on any school bus within that district; nevertheless, it is within the discretion of the school board to allow the pre-school child of a bus driver to ride on the driver's bus route each day. *Necaise*, Mar. 14, 2003, A.G. Op. #03-0011.

In undertaking the responsibility to lay out routes for the children and to provide transportation, the school board may take into consideration such extenuating practical circumstances as the condition of the roads, whether the bus has space for turning around, etc. A school district is not required to travel a private road. *Pickett*, Aug. 27, 2004, A.G. Op. 04-0384.

In addition to public school students or pupils authorized to be transported to the public schools by virtue of Section 37-41-3, the local school board, with the concurrence of the board of supervisors, in their discretion and with local tax funds or other local contributions or support exclusively and without state appropriations, may provide transportation for students or pupils to the public schools whenever the within described boards or officers find that extraordinary circumstances and conditions are prevalent in said school district in regard to such matters as the public health and safety, school facilities, location of the school site, unusual economic growth and population expansion, newly expanded municipal corporation limits, the general welfare, and any other emergency facts and conditions which may be deemed by said authorities to be in the best interest of the political subdivision.

**§ 37-41-7. Laying out of routes within county; supplemental funds.**

The local school board is hereby authorized, empowered and directed to lay out all transportation routes and provide transportation for all school children who are entitled to transportation within their respective counties and school districts.

Any school district may, in the discretion of the school board, expend funds from any funds available to the school district other than minimum education program funds, including the amounts derived from district tax levies, sixteenth section funds, and all other available funds, for the purpose of supplementing funds available to the school board for paying transportation costs, not covered by minimum education program funds.

## JUDICIAL DECISIONS

**1. In general.**

Where the legislature passed laws abolishing all school districts but provided that the districts should continue to exist with all present powers until reorganization and consolidation of school districts could be effected, it was the intent of the legislature to preserve all existing laws until reorganization had been completed

so the court could compel the county school board and the county superintendent of education to provide transportation for children of a school district who were legally enrolled in a school located in another district. *Grenada County Sch. Bd. v. Provine*, 224 Miss. 585, 81 So. 2d 694 (1955).

## JUDICIAL DECISIONS

**1. In general.**

For children to be entitled to bus transportation between their home and their school they must live a mile or more from the school by the nearest travelled road, and the distance is to be determined from

the door of their residence rather than from the intersection of their private driveway with a public road. *Madison County Bd. of Educ. v. Grantham*, 250 Miss. 767, 168 So. 2d 515 (1964).

## ATTORNEY GENERAL OPINIONS

It is within the discretion of a school district to designate a day care center or home as a bus stop on an established and structured bus route and on a space available basis to transport district students from that day care facility or home to school and from school back to that facility

or home. *Carnathan*, Nov. 14, 1997, A.G. Op. #97-0694.

In undertaking the responsibility to lay out routes for the children and to provide transportation, the school board may take into consideration such extenuating practical circumstances as the condition of the

roads, whether the bus has space for turning around, etc. A school district is not required to travel a private road. Pickett, Aug. 27, 2004, A.G. Op. 04-0384.

**§ 37-41-15. Alteration of routes; emergency transportation.**

The school boards are hereby authorized to make necessary alterations in transportation routes, or to establish supplementary transportation routes in order to meet emergencies which may arise during the school year, such as the destruction of a school building by fire or other causes, an unanticipated increase in the number of school children in the school district during the school year, or any other emergency. Such emergency transportation shall be continued only so long as is necessary by reason of the emergency conditions.

**Editor's Note** — Former §§ 37-41-17 and 37-41-19 provided standards for school district transportation plans.

**§ 37-41-21. Prohibition on transporting certain pupils; exceptions.**

It shall be unlawful to transport pupils who are not entitled to such transportation, or to transport pupils from one (1) district to another if their grade or grades are taught in a school within the district wherein they reside, unless the transfer of such children from the district in which they reside to such districts shall have been approved in the manner provided by law. It shall be further unlawful for the school board to expend funds from any source whatsoever for the transportation of pupils from one (1) district to another district if their grade or grades are taught in a school within the district wherein they reside, unless the transfer of such children from the district in which they reside to such other district shall have been approved in the manner provided by law.

Funds, however, were not made available by the Legislature prior to July 1, 1990, and by direction of the Office of the Attorney General of the State of Mississippi the amendatory provisions have not been printed in this volume. ### **§ 37-41-23. Reports and records required.**

The State Board of Education shall prescribe keeping and preservation of all records and the making of all reports and the description thereof as the board may deem necessary for the efficient operation of the school district transportation system of this state. It shall be unlawful for any pay certificate to be issued to any school district carrier or bus driver until all such reports required by the regulations of the State Board of Education shall have been filed in accordance with said regulations. Any person making a false list, report, or record required by the aforesaid rules and regulations of the State Board of Education shall be subject to the penalties provided by Section 37-41-25.

**§ 37-41-27. School buses may be used for special events and during emergencies; school buses may be used to transport citizens attending air show or historic commemorative event on military base or military park under certain circumstances; transportation of students in vehicles other than school buses.**

(1) The local school boards, subject to rules and regulations promulgated by the State Board of Education, may permit the use of publicly owned school buses for the transportation of participating students, teachers, coaches and sponsors in connection with athletic events, events of boys' and girls' clubs, events of Future Farmers of America or 4-H Clubs and special events in connection with the schools which the boards may consider a part of the educational program. The local school boards, subject to rules and regulations promulgated by the State Board of Education, may permit the use of publicly owned school buses for the transportation of citizens for grand jury and other jury functions upon order of the court or as considered necessary by the school board during natural or man-made emergencies, hurricanes, tornadoes, floods and other acts of God. The local school boards, subject to rules and regulations promulgated by the State Board of Education, may permit the use of publicly owned school buses for the transportation of citizens attending an air show or historic commemorative event held on a military base or military park located in the school district; provided that such determination shall be made upon the minutes of the school board and shall include an agreement with the military base or military park that it will indemnify and hold the school district harmless in any action regarding such transportation.

(2)(a) Local school boards may regularly permit the use of motor vehicles other than school buses when the transportation is for trips to and from school sites or agricultural education sites or for trips to and from agricultural education-related events or competitions, but is not for customary transportation between a student's residence and such sites.

(b) When the transportation of students is provided, as authorized in this subsection, in a vehicle other than a school bus that is owned, operated, rented, contracted, or leased by a school district or charter school, the following provisions shall apply:

(i) The vehicle must be a passenger car or multipurpose passenger vehicle or truck, as defined in 49 C.F.R. Part 571, designed to transport fewer than ten (10) students. Students must be transported in designated seating positions and must use the occupant crash protection system provided by the manufacturer unless the student's physical condition prohibits such use.

(ii) An authorized vehicle may not be driven by a student on a public right-of-way. An authorized vehicle may be driven by a student on school or private property as part of the student's educational curriculum if no other student is in the vehicle.

(iii) The driver of an authorized vehicle transporting students must maintain a valid driver's license and must comply with the requirements of the school district's locally adopted safe driver plan, which includes review of driving records for disqualifying violations.

(iv) The local school board must adopt a policy that addresses procedures and liability for trips under this paragraph, including a provision that school buses are to be used whenever practical and specifying consequences for violation of the policy.

## ATTORNEY GENERAL OPINIONS

Where one school district's bus carrying band members or athletes breaks down within another district, it is within discretion of second district's board to determine that such students are participating in connection with athletic events and/or special events in connection with schools and authorize loan of bus; similarly, in event of break-down of another district's school bus within school board's boundaries, it is permissible for one school district to loan school bus to another district. Bailey, Oct. 14, 1992, A.G. Op. #92-0785.

Whether use of certain school buses for transportation of persons attending International Science and Engineering Fair is permitted by Miss. Code § 37-41-27 depends on whether Fair was considered

part of educational program of public school, determination which must be made by local school boards, subject to review by appropriate state officials and court of competent jurisdiction taking into consideration whether or not school district or its students participated in local or regional contests sponsored by this organization; such determination must be made upon minutes of school board, and school district may wish to state that school bus and its driver are under dominion and control of separate entity while on loan to that entity; it is also advisable to require agreement with organization that it will indemnify and hold school district harmless. **§ 37-41-29. Private transportation of pupils shall be replaced by public transportation; continuation of existing or approval of new private contracts under certain circumstances; contents of contract.**

(1) It shall be the duty of the school boards, as existing private contracts providing for transportation of school pupils expire, to replace such private transportation with publicly owned transportation unless publicly owned transportation is deemed impractical. The school boards may acquire, when so requested by holders of private transportation contracts, from such holders of private transportation contracts, all buses which, in the opinion of the school boards, can be practicably operated as units of the public transportation system. The actual market value shall be paid therefor, said value to be determined by an appraisal by three (3) experienced and impartial citizens, the selection of whom shall be mutually agreed upon by the parties thereto.

(2) It shall be the duty of the school boards to approve the continuation of present private contracts providing for transportation of school pupils, or to approve new contracts entered into whenever it is deemed that the needs of the pupils can best be served by such method of transportation. However, in no case shall the amount allotted per pupil from state funds for transportation in facilities provided by private contracts exceed the amount allowed per pupil from state funds for public transportation in the same county and district.

(3) Before any money is allocated or disbursed from the state transportation funds to any school board which is transporting children under private contracts, written contracts shall be entered into by and between the respective carriers and school boards. A copy of each contract shall be filed with the superintendent of schools. The aforesaid contract shall contain, at a minimum, the cost of services to be provided to include all necessary bus routes as well as the cost of school-approved activities such as field trips, the length of the contract, the terms of the utilization of existing pupil transportation facilities and existing fleet of buses, if applicable, the necessary types and amounts of limits of insurance that will protect the district, to include Workers' Compensation Insurance, and the stipulation for the placement of district-identifying signage on all buses under contract, as required under Section 37-41-43. Certificates of insurance shall provide that a thirty-day prior notice of cancellation will be given to the district. The contractor shall comply with all state laws and the State Board of Education policies pertaining to pupil transportation services, including the requirement that (a) school buses used by such contractor shall comply with the Mississippi Minimum Standards for School Buses established by the State Board of Education, and (b) all school bus drivers employed by such contractor shall be trained and certified by the State Department of Education.

(4) Local school boards are not required to file a copy of any private contract for the transportation of exceptional children or the transportation of children under extraordinary circumstances with the State Board of Education.

## § 37-41-31. Awarding of private transportation contracts.

(1) In each case where pupils are transported to and from the public schools in the school districts of this state in privately owned vehicles, the contract for such transportation shall be let to the lowest responsible bidder who is able to furnish a solvent bond for the faithful performance of his contract. This shall be done after each route over which such pupils are to be transported has been laid out and established as provided in this chapter. Such contracts shall be awarded upon receipt of sealed bids or proposals after the time and place of letting such contracts and the manner of bidding have been duly advertised in some newspaper published in the county in accordance with the procedures provided in Section 31-7-13(c). If no newspaper is published in the county, then the advertisement shall be made by publication for the required time in some newspaper having a general circulation therein, and, in addition, by posting a copy thereof for that time in at least three (3) public places in the county, one (1) of which shall be at the county courthouse in each judicial district of the county. The awarding of all such contracts shall, however, in all respects be subject to the provisions of Section 37-41-29.

(2) Private contracts for the transportation of exceptional children, as defined in Section 37-23-3, may be negotiated by the local school board without the necessity of the advertising for or taking of bids. The same may apply under extraordinary circumstances where regular transportation is considered to be impractical. The local school board may negotiate and contract for the transportation described in this paragraph so long as the local school board

complies with the school transportation regulations promulgated by the State Board of Education.

(3) Contracts shall be made for four (4) years, at the discretion of the local school board and shall include the stipulation for the placement of district-identifying signage on all buses under contract, as required under Section 37-41-43. Any and all bids may be rejected. At the expiration of any transportation contract, if the school board believes a route should remain substantially as established and finds that the carrier thereon has rendered efficient and satisfactory services it may extend the contract for not more than four (4) years, subject, however, to the provisions of Section 37-41-29.

## § 37-41-35. Operation of school bus garage and repair shop.

In every school district of this state having district-owned school buses, the school board may establish, maintain and operate a school bus garage or shop for the servicing, repair and maintenance of such county-owned or district-owned buses. Two (2) or more counties or school districts are authorized, in the discretion of the respective school boards thereof, jointly to establish, maintain and operate a school bus garage or shop for the servicing, repair and maintenance of such county-owned or district-owned buses. All of

such garages or shops shall be established, maintained and operated under such rules and regulations as may be promulgated by the State Board of Education. All expenses incurred in acquiring land, purchasing, renting or constructing buildings, purchasing equipment, and all other expenses incurred in connection with the establishing, operation and maintenance of such garages or shops, may be paid from county or district transportation funds. However, before any county or school district shall expend such transportation funds for the purchase of land, or the purchase, rental or construction of buildings, or other permanent improvements in connection with such garages or shops, such proposed expenditures shall be submitted to and approved by the State Board of Education in accordance with the applicable rules and regulations of said board. Where maintenance shops are operated by the board of supervisors or the governing authorities of a municipality, school boards may, by agreement with the board of supervisors or the governing authorities of a municipality provide for the maintenance of school buses in the maintenance shops operated by said boards of supervisors or governing authorities of a municipality and may contribute to the support and expense of said shops as they may deem appropriate, subject to the approval of the State Board of Education. School boards may contract with Head Start Programs to provide maintenance services for buses operated by Head Start and may accept financial contributions from Head Start Programs to support the expense of operating their respective school district vehicle maintenance facilities. All such contractual agreements with Head Start Programs shall be subject to the approval of the State Board of Education.

## JUDICIAL DECISIONS

### 1. In general.

A school board's purchase of 2 deluxe commercial "activity buses" without approval from the State Department of Education was unlawful since §§ 37-41-1, -81, -85, and -101 require state approval before purchasing vehicles for the transportation of pupils; however, personal liability for the illegal expenditures would not be im-

posed on board members since a school district is empowered with the authority to purchase transportation equipment, so that the school board's object was lawful and there was merely a mistaken exercise in legal power in that state approval was not sought. *Smith v. Dorsey*, 599 So. 2d 529 (Miss. 1992).

### § 37-41-83. Power to expend funds.

The school boards are authorized and empowered to expend the necessary amounts from the available transportation funds of the school district for the purchase of such transportation equipment, the servicing, repair and maintenance thereof and for the payment of the salaries of persons employed to drive or operate such transportation equipment, and to establish, erect and equip school bus shops or garages, and purchase land therefor.

### **§ 37-41-101. Advertising and receiving bids by state board of education for school buses and bus bodies; purchase of buses and bodies by counties and school districts; purchase of other school transportation equipment; sale of unneeded school transportation equipment.**

(1) The State Board of Education is hereby authorized, empowered and directed to advertise for and receive sealed bids and proposals for sale of school bus bodies and school buses sold as complete units to the school boards of school districts in this state. The State Board of Education shall approve persons, firms, corporations or associations authorized to sell school bus bodies and school buses sold as complete units, and shall establish prices relative thereto based upon the lowest and best bids, which school districts may not exceed in purchasing such equipment. In determining the lowest and best bids received for such equipment, there shall be included as part of the total cost thereof any transportation or freight charges which will be incurred. The State

Board of Education may permit all such bidders to sell said equipment provided that the bidders agree to sell the equipment at prices established based upon the lowest and best bid and in compliance with rules and regulations relative thereto promulgated by the state board. Persons, firms, corporations or associations permitted to sell school bus bodies and school buses sold as complete units shall be limited to those actually submitting bids for consideration by the State Board of Education. The State Board of Education shall reserve the right to reject any and all bids submitted.

(2) School boards may purchase school bus bodies and school buses sold as complete units without additional advertisement for bids, provided that the prices for such equipment do not exceed the maximum allowable prices established under the provisions of subsection (1) of this section, and that said purchases are in compliance with the conditions specified therein. All such purchases shall be subject to the approval of the State Department of Education, which shall verify compliance with the applicable specifications, rules and regulations promulgated by the State Board of Education.

(3) In addition to the method of purchasing authorized under this section, school boards are hereby authorized to advertise for and accept the lowest and best bid received for the purchase of school bus chassis and/or pupil transportation service vehicles. Provided, however, that local school governing boards may purchase school bus chassis and/or pupil transportation service vehicles from any motor vehicle dealer domiciled within the county of such governing board, whose bid does not exceed a sum equal to three percent (3%) greater than the price or cost which the dealer pays the manufacturer, as evidenced by the factory invoice for such vehicles. In the event said county does not have an authorized motor vehicle dealer, said board may, in like manner, receive and accept bids from motor vehicle dealers in any adjoining county. No purchase of school bus chassis or service vehicles under the provisions of this subsection shall be valid unless the purchase is made according to statutory bidding and licensing requirements. All purchases under provisions of this subsection shall be subject to the approval of the State Department of Education, which shall verify compliance with the applicable specifications, rules and regulations promulgated by the State Board of Education.

(4) Upon application to and approval by the State Department of Education, school governing boards are hereby authorized to purchase used school buses and used pupil transportation service vehicles, provided that said vehicles meet applicable specifications and the purchase price does not exceed their fair market value. Said fair market value shall be determined by an appraisal by three (3) experienced and impartial citizens, the selection of whom shall be mutually agreed upon by the parties thereto. Said appraisers may be subject to approval by the State Department of Education. Maximum regard for pupil safety and adequate protection of health shall be primary requirements which shall be observed by local school governing boards in purchasing used school buses. The State Department of Education may inspect or have inspected any used school bus prior to purchase to determine whether said bus meets requirements of law and regulations of the state board.

(5) In the event the school board shall have determined that school buses or pupil transportation service vehicles are no longer needed for the transportation of pupils in such school district, such equipment may be sold to another school district without the necessity of advertising for bids. The school district proposing to sell the buses or service vehicles and the school district proposing to purchase such equipment shall agree upon a fair and reasonable price therefor. The agreement shall be spread upon the minutes of the boards of the respective school districts and shall be subject to the prior approval of the State Department of Education, which shall verify compliance with applicable specifications, rules and regulations of the State Board of Education.

## JUDICIAL DECISIONS

### 1. In general.

A school board's purchase of 2 deluxe commercial "activity buses" without approval from the State Department of Education was unlawful since §§ 37-41-1, -81, -85, and -101 require state approval before purchasing vehicles for the transportation of pupils; however, personal liability for the illegal expenditures would not be imposed on board members since a school district is empowered with the authority to purchase transportation equipment, so that the school board's object was lawful and there was merely a mistaken exercise in legal power in that state approval was not sought. *Smith v. Dorsey*, 599 So. 2d 529 (Miss. 1992).

The legislative intent of § 37-41-101, authorizing the State Board of Education to enter into contracts for the sale of school transportation equipment, mandates that the school district or county board use its own money to purchase under a contract entered into by the state board. Thus, in a proceeding by a seller of school bus bodies for a mandatory injunction to compel the board to comply with the statute, the chancery court erred in granting the injunction based on the court's opinion that, since the board does not purchase any school buses, it could not enter into any contract for the purchase of such vehicles. *State Bd. of Educ. v. Bus Supply Co.*, 386 So. 2d 383 (Miss. 1980).

empowered to adopt and promulgate reasonable rules and regulations not inconsistent with the law for such purpose. Said state board of education shall have, in addition, all power and authority conferred upon it by the provisions of Sections 37-41-1 through 37-41-53 or any other statute.

#### **§ 37-43-1. Purpose of chapter; distribution of textbooks to schools and pupils; definition of "board" and "textbook."**

(1) This chapter is intended to furnish a plan for the adoption, purchase, distribution, care and use of free textbooks to be loaned to the pupils in all elementary and high schools, other than charter schools, of Mississippi.

(2) The books herein provided by the State Board of Education, which shall be the State Textbook Procurement Commission, shall be distributed and loaned free of cost to the children of the free public school districts of the state and of all other schools located in the state, which maintain educational standards equivalent to the standards established by the State Department of Education for the state schools as outlined in the Approval Requirements of the State Board of Education for Nonpublic Schools.

(3) Teachers shall permit all pupils in all grades of any public school in any school district to carry to their homes for home study, the free textbooks loaned to them, and any other regular textbooks whether they be free textbooks or not.

(4) For the purposes of this chapter, the term “board” shall mean the State Board of Education.

(5) “Textbook” shall be defined as any medium or manual of instruction which contains a systematic presentation of the principles of a subject and which constitutes a major instructional vehicle for that subject.

(6) In addition to the authority granted in this chapter, local school boards shall make available to the parents or legal guardians of any children of school age who reside in the school district administered by the school board, upon request, any textbooks on the state surplus inventory list. The parent or legal guardian is responsible for the return of the textbook(s) to the local school district upon completion of the textbook(s) use. Failure to return the textbook(s) to the school district will result in the parents or legal guardians being responsible for compensating the school district for the fair market value of the textbook(s).

## JUDICIAL DECISIONS

1. In general.
2. Taxpayers' suits.

### 1. In general.

In reviewing decisions of state textbook purchasing board that private schools are eligible to receive state-owned textbooks, as to those private academies which were established during the wave of massive desegregation orders of federal courts, a prima facie case of racial discrimination arises from proof (a) that the school's existence began close upon the heels of the massive desegregation of public schools within its locale, and (b) that no blacks are or have been in attendance as students

and none is or has ever been employed as teacher or administrator at the private school; once plaintiffs have established a prima facie case of racially discriminatory admission policies as to a particular academy, the burden shifts to the school's officials or representatives to rebut an inference of racial disparity. *Norwood v. Harrison*, 382 F. Supp. 921 (N.D. Miss. 1974), supplemented, 410 F. Supp. 133 (N.D. Miss. 1976), appeal dismissed, 563 F.2d 722 (5th Cir. 1977).

Free textbooks, like tuition grants directed to students in private schools, are a form of tangible financial assistance ben-

efiting the schools themselves, and the state's constitutional obligation requires it to avoid not only operating the old dual system of racially segregated schools but also providing tangible aid to schools that practice racial or other invidious discrimination. *Norwood v. Harrison*, 413 U.S. 455, 93 S. Ct. 2804, 37 L. Ed. 2d 723 (1973), on remand, 382 F. Supp. 921 (N.D. Miss. 1974).

The constitutional infirmity of the Mississippi textbook program is that it significantly aids the organization and continuation of a separate system of private schools which may discriminate if they so desire. *Norwood v. Harrison*, 413 U.S. 455, 93 S. Ct. 2804, 37 L. Ed. 2d 723 (1973), on remand, 382 F. Supp. 921 (N.D. Miss. 1974).

Provision for a state textbook fund and for distribution and lending of free textbooks to the pupils of elementary schools, whether public or private, non-sectarian or sectarian, was not in contravention of the constitutional prohibition against control by any religious or other sect over any part of the school or other educational funds of the state, or the appropriation of any funds toward the support of any sectarian school or any school not conducted as a free school, in view of the facts that the benefits hereunder were directed to the pupils themselves and not to schools as such, in keeping with the state's paramount duty to educate the children thereof, and the fact that the use of the textbook fund constituted no charge against any public school fund, properly so called, not against any trust funds available for particular schools or educational purposes. *Chance v. Mississippi State Textbook Rating & Purchasing Bd.*, 190 Miss. 453, 200 So. 706 (1941).

The privilege of requisition by qualified private or sectarian schools for the loan of such books to its pupils does not place in such schools the "control [of] any part of the school or other educational funds" of the state. *Chance v. Mississippi State Textbook Rating & Purchasing Bd.*, 190 Miss. 453, 200 So. 706 (1941).

The loaning of free textbooks under a statute so providing irrespective of whether the school was public or private, under circumstances wherein the state

retained full control and ownership over such books and their preservation was fostered by the exaction of suitable compensation for their loss or damage, did not constitute a direct or indirect aid to the respective schools which the pupils attended, although school attendance should be compulsory. *Chance v. Mississippi State Textbook Rating & Purchasing Bd.*, 190 Miss. 453, 200 So. 706 (1941).

The appropriation of funds for the purchase of free textbooks to be distributed and loaned to pupils in elementary schools, including qualified private schools, did not constitute a pledging or loaning of the credit of the state in aid of any person, association, or corporation in contravention of the constitutional prohibition in that respect, in view of the fact that the books belonged to and were controlled by the state, that they were merely loaned to the individual pupils therein designated, that their preservation was fostered by exaction of suitable compensation for their loss or damage, and that the duty of protection through fumigation against contagion by use was assumed by the state. *Chance v. Mississippi State Textbook Rating & Purchasing Bd.*, 190 Miss. 453, 200 So. 706 (1941).

## 2. Taxpayers' suits.

In an action against a state textbook rating and purchasing board to enjoin the members thereof from distributing or loaning free textbooks to pupils of private and sectarian elementary schools, the complainants, describing themselves as adult resident citizens of Forrest County, Mississippi, property owners and tax payers of the state for themselves and all other citizens, property owners and taxpayers of the state similarly situated and of the same class and kind who might desire to, and who were thereby requested, to join in the action, and alleging that the complaint had applied to the attorney general to bring the suit, that he was the only public official authorized to do so, and that such official had not only refused to do so but on the contrary had appeared in the suit as a representative and counsel for one of the defendants, met the requirements of a taxpayers' suit. *Chance v. Mississippi State Textbook Rat-*

ing & Purchasing Bd., 190 Miss. 453, 200 So. 706 (1941).

### § 37-43-2. Transfer of functions, powers, duties, etc., of State Textbook Procurement Commission to State Board of Education.

(1) On July 1, 1987, the State Board of Education shall assume all power, authority, duties and functions of the State Textbook Procurement Commission. All records, personnel, property and unexpended balances of appropriations, allocations or other funds of the State Textbook Procurement Commission shall be transferred to the State Board of Education on July 1, 1987. All such employee transfers shall be in accordance with the rules and regulations of the State Personnel Board. It is the intent of the Legislature that the number of persons employed by the state as a result of the consolidation required by this section shall be reduced where possible, but that such reduction shall result from attrition of employees and not dismissal.

(2) Each officer or agency subject to the provisions of this section is hereby authorized and empowered to promulgate such rules and regulations not conflicting with this section necessary to accomplish an orderly transition. Each officer or agency subject to this section shall assist, with the fullest degree of reasonable cooperation, any other officer or agency in carrying out the intent and purpose of this section.

(3) All members serving on the Mississippi State Textbook Procurement Commission as it existed under the provisions of Section 37-43-3 prior to June 30, 1987, shall continue to serve in an advisory capacity to the State Board of Education until December 31, 1987. This advisory board shall be known as the "Mississippi State Textbook Advisory Board," and shall assist the State Board of Education in assuming its duties under the provisions of this section and shall provide technical assistance as may be requested. The State Department of Education, from any funds appropriated thereto, shall, upon the request of the State Board of Education, timely pay all sums reasonably required for the operation of the Mississippi State Textbook Advisory Board, including per diem and actual expenses of such board, through December 31, 1987.

**§ 37-43-21. Textbook rating committees; disposition of sample textbooks; use of textbook allotment for repair of textbooks; prices for new textbook purchases.**

(1) For the purpose of assisting the board during an adoption, there shall be rating committees in each of the fields in which textbooks are considered for adoption. Each committee shall be composed of seven (7) members. The State Superintendent of Public Education shall appoint four (4) members of each of the committees, each of whom shall be a competent, experienced teacher who is currently teaching in the field in which the textbooks are considered for adoption. The Governor of the State of Mississippi thereupon shall appoint three (3) members of each of said committees, who shall be persons he deems competent to participate in the appraisal of books offered for adoption, in each field, for use in the public schools of this state.

(2) It shall be the duty of said rating committees to appraise the books offered for adoption in each field in which textbooks are offered for adoption and recommend eight (8) books and/or series for each adoption to be made by the board and giving the reasons for or basis of such recommendations. No book shall be recommended which does not receive a majority vote of the members of each committee. Any member dissenting from any majority vote of

the committee shall make his appraisal of any book recommended or rejected by the majority of the committee and specify the reasons therefor and make such recommendations as he thinks proper. All appraisals, recommendations, and dissents if any, shall be in writing and filed with the board for its consideration upon the adoption. The travel expenses of such committees shall be reimbursed in the amount as provided in Section 25-3-41 and shall be paid out of the State Textbook Fund. Such rating committees shall be subject to the provisions of Section 37-43-17. The board shall have the power to reject any and all recommendations of the rating committees and to call for further recommendations; in no case shall the board adopt any book not recommended by the rating committees.

(3) Any and all sample textbooks that may be furnished by the publisher thereof as provided by Section 37-43-59 to any member of the board, the Superintendent of Public Education, and any member of a rating committee shall within one (1) year after receipt of same by said member be turned in to the State School Book Depository without cost to the State of Mississippi, and the same shall thereafter be used without any cost to the State of Mississippi in supplying free textbooks to the educable children of the State of Mississippi as now provided by law or shall be sold to the highest bidder by the board with the proceeds immediately deposited in the State Treasury to the credit of the State Textbook Fund.

(4) No state official, state employee, school board member, school superintendent, principal, teacher or any other individual shall sell or donate sample textbooks furnished them by the State School Book Depository as part of the textbook adoption or selection process. Said individuals and public officials shall not receive payment by the state depository, any publisher or any other company for sample textbooks.

(5) School districts may annually utilize any portion of the textbook allotment for the repair of textbooks; provided, however, that school districts are authorized and encouraged to utilize the Mississippi Department of Corrections bookbinder for the repair of textbooks.

(6) Prices for new textbook purchases shall not be higher than the lowest price at which books are sold anywhere in the United States, after all discounts are allowed.

## JUDICIAL DECISIONS

**1. In general.**

Textbook approval committee's rejection of Mississippi: Conflict and Change, while not constituting censorship per se, was certainly an impermissible rejection precluding the purchase of such textbook with state funds and evidenced a racially discriminatory purpose on the part of the defendants and accordingly, violated the civil rights statutes, where reasons given by some committee members for rejecting the textbook indicated that race was a

motivating factor; those members who did not indicate that race influenced them in their decision also did not indicate any other reason for their rejection, which was a violation of the committee's statutory duty to state the reasons for its recommendation; and the legislative history and background of the textbook statutes also demonstrated racially discriminatory policies as a motivating factor. *Loewen v. Turnipseed*, 488 F. Supp. 1138 (N.D. Miss. 1980).

**§ 37-43-23. Procedure for purchase of textbooks from publishers; distribution of books.**

The State Board of Education is hereby authorized, empowered and directed to advertise for and receive sealed bids for textbooks. Bidders shall quote their lowest net wholesale prices, f.o.b. Central Depository, Jackson, Mississippi; however, the board may, in its discretion, establish a state depository or depositories or inaugurate any other plan for the distribution of books. Such prices shall not be higher than the lowest price at which books are sold anywhere in the United States, after all discounts are allowed. It is the intent of the Legislature that the price paid for a textbook shall not exceed the lowest price at which the same book, both having the same copyright date, is sold anywhere in the United States after all discounts are allowed. Every contract entered into under the provisions of this section by the board and any publisher or publishing company shall contain a provision that the publisher covenants and agrees that he is not furnishing under contract executed after the first day of January of the year in which the contract becomes effective, to any state, county or school district in the United States, the textbooks embraced in the contract at a price below the price stipulated therein. At any time that the board may find that any book or books, in either regular or special editions, are being furnished in any other state at a lower price under contract than it is being furnished in Mississippi, the contract shall be forfeited to the state. Any contractor who violates this provision shall return all money paid out for such book or books and also forfeit such book or books to the state, and suit may be brought on the bond of the contractor for all losses sustained.

Successful bidders or contractors shall be required to maintain a depository at a place within the State of Mississippi, to be named by the board, where a stock of books sufficient to meet all reasonable and immediate demands shall be kept. Upon requisition of the board, the depository shall ship books,

transportation charges paid, to the various shipping points in Mississippi to be specified by the board. For such service the depository shall make no charge to the board except the actual cost of transportation from the depository to the shipping point designated. The cost of distribution shall not exceed eight percent (8%) of the total appropriation for any fiscal year.

All books furnished the State of Mississippi by contractors under this chapter shall continue to measure up to the same standards as are required in the contract, said standards to include printing, binding, cover boards, mechanical makeup, and any other relevant points as set out in the plans and specifications as fixed by the board. Any contractor of any book or books, who fails to keep said books up to said standards, shall forfeit, not only his contract to the state, but shall return all money paid out for such book or books and also forfeit said books to the state.

### § 37-43-31. Selection of books by local school districts.

(1) The State Board of Education shall adopt and furnish textbooks only for use in those courses set up in the state course of study as recommended by the State Accreditation Commission and adopted by such board, or courses

established by acts of the Legislature. In all subjects the board, in its discretion, may adopt textbooks and/or series from those recommended by the textbook rating committees. The board may adopt a plan which permits the local school districts to choose the book or books to be requisitioned from those adopted, provided:

(a) That, when a book is furnished by the state, it shall remain in use during the period of its adoption;

(b) That the average per pupil cost of textbooks so furnished any unit shall not exceed that allowed for all other units in the state;

(c) That nothing herein provided shall be construed as giving any school the authority to discard or replace usable copies of textbooks now being furnished by the state;

(d) That the State Department of Education is authorized to disburse the annual textbook appropriation directly to the public school districts in accordance with Section 37-43-31(1)(b). The textbooks procured through this chapter, as well as textbooks which are on hand on June 30, 1994, which were previously purchased through the provisions of this statute, shall become the property of the public school district which purchased them, unless the State Department of Education authorizes the transfer of unneeded textbooks to another location in accordance with rules and regulations promulgated by the State Board of Education;

(e) That textbooks which are on loan to other than public schools as referenced in Section 37-43-1, shall remain the property of the State of Mississippi. All requisitions for textbooks from these schools shall be submitted to the State Department to be processed and subsequently shipped to the requesting school. No funds shall be disbursed directly from the State Department of Education to the schools in this category for the purpose of procuring textbooks; and

(f) That funds made available through this chapter may be used to purchase any state-adopted or non-adopted textbook from any state depository, directly from the publisher, or in accordance with the provisions of Sections 37-43-21(5) and 37-43-31(3). For purchases made directly from the publisher, the public school district, or the State Department of Education when purchasing for other than public schools, shall not pay a higher price for a textbook than that listed on the current state-adopted list.

(2) Whenever any book under contract is displaced by a new adoption, the board may continue to require the schools to use the recently purchased books from any previous adoption; however, such period of use shall not exceed four (4) years.

(3) If five (5) or more school boards petition the State Board of Education to add a book, or a series of books, to the approved list of state adoptions in a given subject area, then the State Superintendent of Public Education shall have sixty (60) days to show cause to the State Board of Education why the books in question should or should not be purchased with state funds. If the petition is not acted upon within the sixty-day period, the petition shall be deemed to be approved. Once a textbook has been approved through the

petition process, any public school district or eligible other school may procure the said textbook utilizing funds appropriated through this chapter.

(4) If new and innovative textbooks that would improve a particular course of study become available between adoption cycles, a school board may petition the State Board of Education for permission to purchase these books out of sequence to be paid for with state textbook funds.

(5) The State Board of Education shall not allow previously rejected textbooks to be used if such textbooks were rejected for any of the following reasons:

- (a) Obscene, lewd, sexist or vulgar material;
- (b) Advocating prejudicial behavior or actions; or
- (c) Encouraging acts determined to be anti-social or derogatory to any race, sex or religion.

(6) All books or series of books adopted under the petition procedures of this chapter shall be purchased under the provisions for bidding, pricing and distribution as prescribed in Section 37-43-23.

(7) Petition procedure books or series of books adopted under this section shall be considered only until the date of the next regular adoption series in the applicable subject area. Petition procedure books shall be submitted for formal adoption at the next applicable regular textbook adoption as prescribed under the provisions of Chapter 43, Title 37, Mississippi Code of 1972; otherwise, such books adopted under the petition procedures which do not receive formal adoption approval as recommended by the textbook rating committee shall be dropped from the state textbook petition adoption list. Provided, however, this provision shall in no way prohibit a school district from using other funds, federal or local, for the purchase of such books.

## JUDICIAL DECISIONS

### 1. In general.

Although a state statute authorizing public school authorities to lend textbooks without charge to children attending nonpublic elementary and secondary schools, including parochial schools, does not violate the establishment of religion clause of the First Amendment, a statute authorizing public school authorities to

lend instructional material and equipment, such as maps, charts, films, and projection, recording and laboratory equipment provided free to public schoolchildren to qualifying nonpublic elementary and secondary schools, including parochial schools, constitutes an impermissible establishment of religion in violation of the First Amendment. *Meek v.*

#### § 37-45-1. Declaration of policy.

The legislature hereby recognizes that in order to exercise the constitutional power, set forth in Section 201 of Article 8, that the legislature may, in its discretion, "provide for the maintenance and establishment of free public schools for all children between the ages of six and twenty-one years, by taxation or otherwise," equality of educational opportunity with respect to instructional personnel, school buildings and facilities, transportation facilities, curriculum and all other school facilities should be provided for all such children, that the burden of providing such equality of educational opportunity can no longer be borne entirely by the local taxing units, and, therefore, that a program of state aid therefor should be instituted. The legislature, therefore, declares and determines that the maintenance of the uniform system of free

public schools to insure and provide substantial equality of educational opportunity is the joint responsibility of the State of Mississippi and the local taxing units thereof.

## JUDICIAL DECISIONS

### 1. Funding and Eleventh Amendment immunity.

Where plaintiff parent sued defendant school district in state court alleging her child was sexually assaulted at school and obtained a judgment under the Mississippi Tort Claims Act, her later claims in federal court were properly held as barred due to res judicata; while school districts' sources of funding under Miss. Code Ann. §§ 37-45-21, 37-47-1 et seq., 37-57-1, 37-

59-3, and 37-151-7 were equally divided between local school districts and the state under Miss. Code Ann. §§ 11-46-7, 11-46-16(2), and 11-46-17(2), any judgment against the school district would be paid through the Tort Claims Fund and excess liability insurance, and thus, the school district was not considered an arm of the state entitled to Eleventh Amendment immunity. *Black v. N. Panola Sch. Dist.*, 461 F.3d 584 (5th Cir. 2006).

All costs paid to any employee of the commission and all costs collected by the commission and not required to be paid to some person by the terms of this chapter shall be paid into the treasury of the State of Mississippi.

Such amount

shall be paid to the commission, which shall deposit same in the state treasury, and the same shall then be disbursed to the person to whom it is owing by proper warrant upon order of the commission. The provisions of this section shall not relieve the obligation of any surety upon any appeal bond.

### **§ 37-45-51. Appeals to chancery court.**

Any school board of a school district aggrieved by any final rule, regulation or order of the commission shall have the right of appeal to the chancery court of the county in which said school district or any part thereof may be located or situated, which appeal shall be taken and perfected as hereinafter provided within thirty (30) days from the date of such final rule, regulation or order. The said chancery court may modify or affirm such rule, regulation or order or reverse or remand the same for further proceedings as justice may require. All such appeals shall be taken and perfected, heard and determined, either in term time or in vacation, on the record, including a transcript of any evidence, pleadings or testimony filed and heard before said commission. Such appeal shall be heard and disposed of promptly by the chancery court as a preference cause. In perfecting any appeal provided by this chapter, the provisions of law respecting notice to the reporter and the allowance of bills of exception, now or hereafter in force respecting appeals from the chancery court to the Supreme

Court shall be applicable. The reporter shall transcribe his notes and file the transcript of the record with the commission within thirty (30) days after approval of the appeal bond.

Upon the filing with the commission of a petition for appeal to the chancery court, it shall be the duty of the commission, as promptly as possible and in any event within sixty (60) days after approval of the appeal bond, to file with the clerk of the chancery court a copy of the petition for appeal and of the rule, regulation or order appealed from, and a transcript of the record of the pleadings and evidence before the commission. After the filing of said petition, the appeal shall be perfected by the filing of bond in the sum of Five Hundred Dollars (\$500.00) with two (2) sufficient sureties or with a surety company qualified to do business in Mississippi as the surety, conditioned to pay the cost of such appeal. Said bond shall be approved by the clerk of the court. The perfection of an appeal shall not stay or suspend the operation of any rule, regulation or order of the commission, but the judge of the said chancery court may award a writ of supersedeas to any rule, regulation or order of the commission after five (5) days' notice to the commission and after hearing. Any order or judgment staying the operation of any rule, regulation or order of the commission shall contain a specific finding, based upon evidence submitted to the chancellor and identified by reference thereto, that great or irreparable damage would result to the appellant if he is denied relief, and the stay shall not become effective until a supersedeas bond shall have been executed and filed with and approved by the clerk of the court or the chancellor, payable to the state. The bond shall be in an amount fixed by the chancellor and conditioned as said chancellor may direct in the order granting the supersedeas.

## JUDICIAL DECISIONS

1. In general.
2. Relationship to other laws.
3. Scope and nature of review.
4. Bill of exceptions.

### 1. In general.

This section [Code 1942, § 6246-12] does not contravene the constitutional distribution of governmental powers. Board of Educ. v. State Educ. Fin. Comm'n, 243 Miss. 782, 138 So. 2d 912 (1962).

### 2. Relationship to other laws.

This section [Code 1942, § 6246-12] was not implicitly repealed pro tanto by the provision of Code 1942, § 6248-07, that a hearing before the educational finance commission on an application for transfer of pupils to another district shall be final. Board of Educ. v. State Educ. Fin. Comm'n, 243 Miss. 782, 138 So. 2d 912 (1962).

**3. Scope and nature of review.**

An appeal to a chancery court from a determination of the Educational Finance Commission upon an application for transfer of a pupil is not tried de novo. *Board of Educ. v. State Educ. Fin. Comm'n*, 243 Miss. 782, 138 So. 2d 912 (1962).

The right of a county board of education to appeal to the court from an order of the state educational finance commission disapproving a two unit school system for the county as proposed by the county board did not mean that the court might re-determine, as on a trial de novo, the issues involved in the reorganization in controversy, or substitute its judgment for that of the commission. *Adams County v. State Educ. Fin. Comm'n*, 229 Miss. 566, 91 So. 2d 524 (1956).

Whether the state educational finance commission acted in a purely administrative, or legislative, or a quasi-judicial ca-

capacity, in disapproving the order of the county board of education proposing a 2-unit school system for the county, the commission was exercising a discretionary power vested in it by statute, and, upon appeal, the court was limited to a determination of whether the order of the commission was supported by substantial evidence, and whether the order went beyond the power of the commission to make, or violated some statutory or constitutional right of an interested party. *Adams County v. State Educ. Fin. Comm'n*, 229 Miss. 566, 91 So. 2d 524 (1956).

**4. Bill of exceptions.**

The time for tendering a bill of exceptions to an order of the school finance commission runs from the time the minutes on which it was entered were signed. *Board of Educ. v. State Educ. Fin. Comm'n*, 243 Miss. 782, 138 So. 2d 912 (1962).

**§ 37-45-53. Appeal bonds.**

The beneficiary in all appeal bonds shall be the State of Mississippi. Said bonds shall secure the payment of the cost accruing in the proceeding, including the cost of appeal and the performance of any other acts required by the chancellor in granting of supersedeas appeal from any final rule, regulation or order of the commission.

**SOURCES:** Codes, 1942, § 6246-29; Laws, 1955, Ex Sess, ch. 58, § 9.

**§ 37-45-55. Payment of premium on appeal bond of school authorities.**

Any school board is authorized to pay the premium on any appeal bond entered into under the provisions of Section 37-45-51. The said school board may pay same from the administrative fund provided by Section 37-19-31.

**§ 37-45-57. Preparation of record on appeal.**

In the event of an appeal by any county board of education or board of trustees of any municipal separate school district from any final rule, regulation or order of the state educational finance commission, it shall be the duty and responsibility of such appealing county board or board of trustees, under the supervision of the executive secretary of said commission, to prepare or cause to be prepared the record on appeal, which, when approved by the commission or by the chairman thereof in vacation, shall be and constitute the record on appeal. The same shall thereupon be filed, as required by law, in the chancery court to which the appeal is taken. The cost of making and filing such record shall be an item of cost of said appeal, which shall be paid by said appellant. The cost of such record shall not be in excess of the cost of a similar record on appeal from a chancery court of this state to the supreme court of Mississippi.

**SOURCES:** Codes, 1942, § 6246-34; Laws, 1955, Ex Sess, ch. 58, § 14.

**Cross References** — Preparation of record on appeal, see § 37-45-57.

**§ 37-45-61. Appeals to supreme court.**

From an adverse decision of the chancery court, either party may appeal to the supreme court of the State of Mississippi. Said appeal shall be taken and perfected within thirty days and in the same manner provided by law for other appeals to the supreme court from the judgments of chancery courts, and upon appeal to the supreme court, the same shall be heard and disposed of as a

preference cause as promptly and as expeditiously as the circumstances will permit.

#### § 37-47-1. Administration of chapter.

The terms and provisions of this chapter shall be administered and executed by the state educational finance commission. For the purpose of this chapter, the term "commission" shall mean "state educational finance commission" except where the context clearly indicates otherwise.

**SOURCES:** Codes, 1942, § 6247-01; Laws, 1953, Ex Sess, ch. 13, § 1, eff from and after July 1, 1954.

**Editor's Note** — Section 37-45-3 provides that the State Educational Finance Commission shall be abolished and functions and duties transferred to the State Board of Education and that all references in laws of the state to "State Educational Finance Commission" or "commission", when referring to the Educational Finance Commission, shall be construed to mean the State Board of Education.

Laws of 1990, ch. 588, § 74, repealed this section effective July 1, 1990, and provided that the Legislature by concurrent resolution adopted by the House and Senate in session prior to July 1, 1990, declared that sufficient funds were dedicated and made available for the implementation of Chapter 588. However, funds were not made available by the Legislature prior to July 1, 1990, and by direction of the Office of the Attorney General of the State of Mississippi, the repeal of this section was not implemented.

## JUDICIAL DECISIONS

### 1. In general.

Where plaintiff parent sued defendant school district in state court alleging her child was sexually assaulted at school and obtained a judgment under the Mississippi Tort Claims Act, her later claims in federal court were properly held as barred due to *res judicata*; while school districts' sources of funding under Miss. Code Ann. §§ 37-45-21, 37-47-1 et seq., 37-57-1, 37-59-3, and 37-151-7 were equally divided between local school districts and the state under Miss. Code Ann. §§ 11-46-7, 11-46-16(2), and 11-46-17(2), any judg-

ment against the school district would be paid through the Tort Claims Fund and excess liability insurance, and thus, the school district was not considered an arm of the state entitled to Eleventh Amendment immunity. *Black v. N. Panola Sch. Dist.*, 461 F.3d 584 (5th Cir. 2006).

Codes 1942, §§ 6246-01 et seq., 6247-01 et seq., 6248-01 et seq., and 6274-01 et seq., are in *pari materia* with Code 1942, §§ 6328-01 et seq. *Adams County v. State Educ. Fin. Comm'n*, 229 Miss. 566, 91 So. 2d 524 (1956).

### § 37-47-3. "School district" defined.

The term "school district" as used in this chapter shall be defined as including all public school districts in this state and also all agricultural high schools not located on the campus of a junior college.

**Editor's Note** — Laws of 1990, ch. 588, § 74, repealed this section effective July 1, 1990, provided that the Legislature by concurrent resolution adopted by the House and Senate in session prior to July 1, 1990, declared that sufficient funds were dedicated

and made available for the implementation of Chapter 588. However, funds were not made available by the Legislature prior to July 1, 1990, and by direction of the Office of the Attorney General of the State of Mississippi, the repeal of this section has not been implemented.

### § 37-47-5. “Capital improvement” defined.

For the purposes of this chapter, the term “capital improvement” shall mean the cost of (1) erecting, repairing, equipping, remodeling and enlarging school buildings and related facilities, including, but not being limited to, gymnasiums, auditoriums, lunch rooms, vocational training buildings, libraries, teachers’ homes, school barns, garages for transportation vehicles, and (2) providing necessary water, lights, heating, air conditioning and sewerage facilities for school buildings. Such term shall not include the cost of the acquisition of land whereon to construct or establish any of the facilities named above.

**Editor’s Note** — Laws of 1990, ch. 588, § 74, repealed this section effective July 1, 1990, provided that the Legislature by concurrent resolution adopted by the House and Senate in session prior to July 1, 1990, declared that sufficient funds were dedicated and made available for the implementation of Chapter 588. However, funds were not made available by the Legislature prior to July 1, 1990, and by direction of the Office of the Attorney General of the State of Mississippi, the repeal of this section has not been implemented.

### § 37-47-7. State public school building fund created.

There shall be, and there is hereby, created in the state treasury a special fund to be known as the “state public school building fund”. The said fund shall consist of such amounts as may be paid into said fund by appropriation or other legislative authorization.

### § 37-47-9. Annual grants by state.

It is found and determined that the state should make an annual grant of Twenty-four Dollars (\$24.00) for each child in average daily attendance in the public schools of the various school districts of this state during each school year, and that such monies should be applied for the purpose of establishing and maintaining adequate physical facilities for the public school district and/or the payment of existing debt therefor.

The grant to which each public school is entitled under the provisions of this section shall be credited to the school district of which such school is part.

If any change is made in the operation or boundaries of any such school district, equitable reallocations shall be made by the commission of all balances to the credit of such school district, and all debits charged against the districts affected by the change in the boundaries or system of operation. The obligation of the state to make remittance of the sums appropriated or otherwise provided to make the annual grants provided by this section shall be subordinate to the pledge made to secure the state school bonds authorized under this chapter and the sinking fund created for their retirement. The grants shall be computed annually as soon as practicable after the end of the school year, and shall be based on the average daily attendance for such school year in all of the public schools operated by each school district as determined by the State Department of Education.

Laws of 1990, ch. 588, § 74, repealed this section effective July 1, 1990, provided that the Legislature by concurrent resolution adopted by the House and Senate in session prior to July 1, 1990, declared that sufficient funds were dedicated and made available for the implementation of Chapter 588. However, funds were not made available by the Legislature prior to July 1, 1990, and by direction of the Office of the Attorney General of the State of Mississippi, the repeal of this section has not been implemented.

**Amendment Notes** — The 2013 amendment in the first paragraph inserted “of the various school districts” and substituted “school district” for “school system”; and substituted “The grant to which each” for “The grant to which a” at the beginning of the second paragraph.

## § 37-47-11. Order of priority of disposition of funds.

The sums becoming due to any school district shall be disposed of in the following order of priority and for the following purposes and for no others:

(a) To discharge the principal and interest due the commission by reason of any advance or loan made to any such school district by the commission;

(b) To be applied by the school district, subject to the approval of the commission, to defray the cost of any capital improvement;

(c) To pay the principal and interest of school district indebtedness represented by bonds or notes issued before July 1, 1954, for capital improvements, provided that the capital improvements for which such bonds or notes were issued fulfill the rules and requirement for new capital improvements and district organization as provided by the commission, or for bonds or notes issued on or after July 1, 1954, for capital improvements which have been approved by the commission as provided in this chapter.

**SOURCES:** Codes, 1942, § 6247-04; Laws, 1953, Ex Sess, ch. 13, § 4, eff from and after July 1, 1954.

Laws of 1990, ch. 588, § 74, repealed this section effective July 1, 1990, provided that the Legislature by concurrent resolution adopted by the House and Senate in session prior to July 1, 1990, declared that sufficient funds were dedicated and made available for the implementation of Chapter 588. ### § 37-47-13. Certificates of credit.

When the amounts of the annual grants to school districts have been computed as provided in Section 37-47-9, the commission shall credit each such school district with the amount of the annual grant to which it is entitled and shall issue to each such school district a certificate of credit for the amount of such annual grant. All such certificates of credit shall be signed by the chairman of the commission and countersigned by the executive secretary thereof. Such certificates shall constitute an indebtedness of the State of Mississippi but shall be non-transferable and non-negotiable and shall bear no interest. All such certificates so issued shall be held and retained by the school district to which same are issued until the expenditure of the funds to the credit of such school district shall be approved by the commission as is otherwise provided in this chapter. Such certificates shall be surrendered to the commission at the time the funds to which the school district is entitled are withdrawn from the public school building fund and deposited to the credit of the school district entitled thereto.

**§ 37-47-15. Approval of use of grants; surveys and plans.**

No grants accruing to any school district shall be expended for any purpose unless such expenditure has been approved by the commission. In order to guide the commission in passing upon requests for the use of grants, the school boards of the respective school districts are directed to prepare a survey of necessary capital improvements and/or a plan for tax relief on school indebtedness within each school district. Such surveys shall show existing facilities, desirable consolidations, the new construction and new facilities necessary and desirable for the efficient operation of the public schools of the school districts, proper compliance with state energy conservation standards, and the plan of tax reduction in the school districts by use of such funds in retiring any outstanding indebtedness for school facilities. The commission shall not approve any application for the use of funds of the said public school building fund from the school board of any school district until such time as an acceptable and reasonably satisfactory plan, looking particularly to efficiency through consolidations of school attendance centers, has been submitted by the school board.

Furthermore, the commission shall not approve any application for the use of funds of the public school building fund until such time as an acceptable plan has been submitted by the appropriate board which complies with improved design, heating, cooling, ventilation, lighting, insulation and architectural standards provided by the State of Mississippi to promote maximum energy conservation in new and existing public buildings.

All applications from school districts shall conform to the plan of the school board.

## ATTORNEY GENERAL OPINIONS

Each county is required under Miss. Code Ann. § 19-7-1 to build a jail within the corporate limits of the municipality where the courts are required to sit. A municipality is obligated to grant a special exception to its zoning ordinances unless it is determined, consistent with

the facts, that construction of a county jail would create a public nuisance or a clear and present danger to the public health and welfare. Yancey, Mitchell, March 23, 2007, A.G. Op. #07-00120, 2007 Miss. AG LEXIS 75.

**§ 37-47-17. Applications for expenditures.**

Applications for the expenditure of funds to the credit of any school district in the state public school building fund shall originate with the school board of the school district entitled to such funds. Before any funds to the credit of a school district shall be expended for capital improvements or the retirement of outstanding bonded indebtedness, the school board of such school district shall prepare and submit an application in such form as may be prescribed by the commission. There shall be included with such application a statement in which there is set forth the enrollment and average daily attendance in the schools of the district divided as to schools and grades, the number of teachers employed, the facilities in use, the facilities to be provided with the funds to be expended, the outstanding school indebtedness, and such other information as the commission may require. Such application and statement shall be submitted directly to the commission and approved or disapproved by it. The decision of the commission shall be final, unless an appeal to the chancery court shall be taken in the manner provided by law. In the event any application shall be disapproved by the commission, the school board submitting same shall be notified of such disapproval, which notice of disapproval shall be accompanied by a statement of the reason or reasons for such disapproval.

The commission shall approve only those applications which are found to be proper under the provisions of this chapter and the applicable rules and regulations of the commission. When an application is approved for the expenditure of funds for capital improvements, the contract for the construction of such capital improvements shall be entered into and awarded by the school board of the school district in the manner provided in this chapter; however, the contract for construction of a secondary vocational and technical training center for exclusive use and operation by a school district may be entered into and awarded by the board of trustees of a junior college district where a grant of federal funds by the Appalachian Commission has been made to the board of trustees of such junior college district to assist in financing construction of such secondary vocational and technical training facility for such school district.

Education and that all references in laws of the state to "State Educational Finance Commission" or "commission", when referring to the Educational Finance Commission, shall be construed to mean the State Board of Education.

However, funds were not made available by the Legislature prior to July 1, 1990, and by direction of the Office of the Attorney General of the State of Mississippi, the repeal of this section has not been implemented.

### **§ 37-47-19. Withdrawal of funds from public school building fund upon approval of expenditures.**

Where the expenditure of any funds to which any school district may be entitled has been authorized, as provided in Section 37-47-17, such funds shall be withdrawn from the public school building fund by the commission and deposited in the school depository to the credit of the school district entitled thereto as a special fund to be known as the "Public School Building Fund" of the school district entitled thereto. Such money so deposited shall be paid out and expended in the same manner as may be now or hereafter provided by law for the expenditure of other school funds belonging to such district; however, where the contract for construction of a secondary vocational and technical training center shall have been entered into and awarded by the board of trustees of a junior college district as authorized by Section 37-47-29, the money so deposited in the public school building fund of the school district for which said facility is being constructed may be paid out and expended to pay a part of the cost of construction of such facility.

However, funds were not made available by the Legislature prior to July 1, 1990, and by direction of the Office of the Attorney General of the State of Mississippi, the repeal of this section has not been implemented.

### **§ 37-47-21. Disposition of funds credited to school district which fails to apply for expenditure.**

All funds, if any, which may accumulate in the state public school building fund under the provisions of this chapter because school districts entitled thereto do not make application for the expenditure of same for the purposes authorized by this chapter at the time same are credited to such school district

may be used as a revolving fund for the purpose of making loans or advances to other school districts as is provided in Section 37-47-25.

### **§ 37-47-23. Effect of insufficient funds in public school building fund.**

When any school district holding certificates of credit shall desire to expend funds which have accumulated to its credit under the provisions of this chapter and the expenditure thereof has been approved by the commission but insufficient funds are available in the state public school building fund because of loans or advances having been made to other school districts, the commission shall forthwith transmit to the state bond commission its request for the issuance of state school bonds, as is otherwise provided in this chapter, in an amount sufficient to provide the funds to which the school district holding the certificate of credit is entitled, or such portion of such funds as such school district then desires to expend.

### **§ 37-47-25. Loans for capital improvements.**

Whenever the State Department of Education shall determine that any school district is in need of capital improvements to an extent in excess of that which may be financed by the credit then due such school district by the department, the department shall be empowered to advance or lend said school

district such sums as in the opinion of the department are necessary to be expended for capital improvements by said school district. Such loans or advances shall be evidenced by appropriate agreements, and shall be repayable in principal by the school district from the annual grants to which the school district shall become entitled and from such other funds as may be available. Such loans or advances shall not constitute a debt of the school district within the meaning of any provision or limitation of the Constitution or statutes of the State of Mississippi. The department shall not advance or lend to any school district any sum in excess of seventy-five percent (75%) of the estimated sum which will accrue to the said school district on account of grants to be made to the said school district within the twenty (20) years next following the date of the loan or advance. In determining the maximum allowable advance or loan, the department shall assume that the average daily attendance in the schools of the school district for the past preceding scholastic year as confirmed by the audit of average daily attendance made by the State Department of Audit will continue for the period during which the loan is to be repaid.

All capital improvements by any school district which are financed in whole or in part with funds received from the state public school building fund pursuant to an application approved by the commission, shall be constructed by contract entered into and awarded by the board of trustees or other governing body of such school district. The awarding of such contract shall be in the sole province of such board of trustees or other governing body except as is herein provided. No such contract shall be entered into unless and until the site for the location of and the plans and specifications for the construction of the capital improvements shall have been approved by the commission. The commission shall not exclude from approval plans and specifications which

involve the use of preengineered steel building systems. Plans and specifications for preengineered steel building systems, in order to be approved by the commission, must be submitted to and certified by an architect or professional engineer registered in the State of Mississippi and not an employee of the contractor, as meeting the minimum requirements of the local building, plumbing and electrical codes, the Southern Standard Building Code, Coastal Region Loading, the Metal Building Manufacturers Association, the American Institute of Steel Construction and the American Iron and Steel Institute, as to design, materials and construction.

The contract shall be let and awarded to the lowest and best bidder but the board of trustees or other governing body of the school district shall have the power to reject any and all bids. No such contract shall be finally awarded or entered into without the prior written approval of the commission. It is hereby expressly provided that in order to bid upon and be awarded contracts for the construction of school facilities under the provisions of this chapter, if such contract, subcontract or undertaking is less than Fifty Thousand Dollars (\$50,000.00), it shall not be necessary that the bidder obtain a certificate of responsibility from the Board of Public Contractors under the provisions of Chapter 3, Title 31, of the Mississippi Code of 1972, or otherwise be qualified under said chapter, and none of the provisions of said chapter shall be applicable to such contracts for the construction of school facilities under the provisions hereof. ## JUDICIAL DECISIONS

### 1. In general.

A state statute under which teachers of secular subjects in church-related elementary schools might receive up to a 15% annual salary supplement, which statute required that the teacher be employed in a nonpublic school at which the average per-pupil expenditure on secular education was less than the public school average, that the nonpublic schools financial records be subject to audit by the state, that the teacher teach only subjects offered in public schools and using public school teaching materials, and agree in writing not to teach a course in religious instruction while receiving salary supplements, was unconstitutional under the religion clauses of the First Amendment,

as fostering, by its cumulative impact, excessive entanglement between government and religion. *Lemon v. Kurtzman*, 403 U.S. 602, 91 S. Ct. 2105, 29 L. Ed. 2d 745 (1971), concurring opinion and dissenting opinions, 403 U.S. 602, 91 S. Ct. 2125, 29 L. Ed. 2d 745 (1971), reh'g denied, 404 U.S. 876, 92 S. Ct. 24, 30 L. Ed. 2d 123 (1971), on remand, 348 F. Supp. 300 (E.D. Pa. 1972).

A state statute under which financial aid was furnished to church-related elementary and secondary schools by way of the state's "purchase" of certain "secular educational services" by reimbursing the schools for the cost of teachers' salaries, textbooks and other materials in specified secular subjects, which statute provided

that the nonpublic school seeking reimbursement maintain prescribed accounting procedures, that the accounts be subject to audit by the state, that books and other instructional materials be approved by the state, and prohibited reimbursement for any course containing subject matter expressing religious teaching or the morals or form of worship of any sect, was unconstitutional under the religion clauses of the First Amendment, as fostering, by its cumulative impact, excessive entanglement between government and religion. *Lemon v. Kurtzman*, 403 U.S. 602, 91 S. Ct. 2105, 29 L. Ed. 2d 745 (1971), concurring opinion and dissenting opinions, 403 U.S. 602, 91 S. Ct. 2125, 29 L. Ed. 2d 745 (1971), reh'g denied, 404 U.S. 876, 92 S. Ct. 24, 30 L. Ed. 2d 123 (1971), on remand, 348 F. Supp. 300 (E.D. Pa. 1972).

The Higher Education Facilities Act of 1963 (20 USCS §§ 701-758), insofar as it authorizes federal aid to church-related colleges and universities by way of con-

struction grants for buildings and facilities to be used exclusively for secular educational purposes, does not violate the religion clauses of the First Amendment. *Tilton v. Richardson*, 403 U.S. 672, 91 S. Ct. 2091, 29 L. Ed. 2d 790 (1971).

The provisions of the higher education facilities act (20 USCS § 754) limiting to a 20-year period the government's interest in federally financed college or university facilities, which facilities must be used solely for secular educational purposes, and thereby allowing a church-related institution to use such facilities for sectarian instruction or religious worship after the expiration of 20 years, violate the religion clauses of the First Amendment, since it cannot be assumed that a building has no value after 20 years, so that the unrestricted use of it is, in effect, a contribution of value to a religious body, advancing religion. *Tilton v. Richardson*, 403 U.S. 672, 91 S. Ct. 2091, 29 L. Ed. 2d 790 (1971).

When any public free school in this state shall raise not less than ten dollars by subscription or otherwise for a library for such school, and shall furnish suitable bookcases with lock and key, the superintendent of education of the county where such subscription is raised may issue his certificate for a like amount not exceeding twenty-five dollars in favor of such school, to be paid out of the common school fund of that county. In no case shall the amount given by the county in any one year exceed two hundred and fifty dollars. No school shall receive a second donation from the school fund for library purposes so long as there are any new applications from schools that have not been supplied.

#### TAX LEVY FOR SUPPORT OF ADEQUATE EDUCATION PROGRAM

SEC.

37-57-1. Tax levy by counties for adequate education program.  
37-57-3 through 37-57-7. Repealed.

#### § 37-57-1. Tax levy by counties for adequate education program.

(1)(a) The boards of supervisors of the counties shall levy and collect all taxes for and on behalf of all school districts which were within the county school system or designated as special municipal separate school districts prior to July 1, 1986. Such taxes shall be collected by the county tax collector at the same time and in the same manner as county taxes are collected by him, and the same penalties for delinquency shall be applicable.

The governing authorities of the municipalities shall levy and collect all taxes for and on behalf of all school districts which were designated as municipal separate school districts prior to July 1, 1986. Such taxes shall be collected by the municipal tax collector at the same time and in the same manner as municipal taxes are collected by him, and the same penalties for delinquency shall be applicable.

Except as otherwise provided in Section 19-9-171, the county or municipal tax collector, as the case may be, shall pay such tax collections, except for taxes collected for the payment of the principal of and interest on school bonds or notes and except for taxes collected to defray collection costs, into the school depository and report to the school board of the appropriate school district at the same time and in the same manner as the tax collector makes his payments and reports of other taxes collected by him.

Provided, however, the State Board of Education shall determine the appropriate levying authority for any school district created or reorganized after July 1, 1987.

(b) For the purposes of this chapter and any other laws pertaining to taxes levied or bonds or notes issued for and on behalf of school districts, the term "levying authority" means the board of supervisors of the county or the governing authorities of the municipality, whichever levies taxes for and on behalf of the particular school district as provided in paragraphs (a) and (b) of this subsection.

(2) The levying authority for the school district shall, at the same time and in the same manner as other taxes are levied by the levying authority, levy a tax of not less than twenty-eight (28) mills for the then current fiscal year, less the estimated amount of the yield of the School Ad Valorem Tax Reduction Fund grant to the school district as determined by the State Department of Education or twenty-seven percent (27%) of the basic adequate education program cost for such school district, whichever is a lesser amount, upon all of the taxable property of the school district, as required under Section 37-151-7(2) (a). However, in no case shall the minimum local ad valorem tax effort for any school district be equal to an amount that would require a millage rate exceeding fifty-five (55) mills in that school district. Provided, however, that if a levying authority is levying in excess of fifty-five (55) mills on July 1, 1997, the levying authority may levy an additional amount not exceeding three (3) mills in the aggregate for the period beginning July 1, 1997, and ending June 30, 2003, subject to the limitation on increased receipts from ad valorem taxes prescribed in Sections 37-57-105 and 37-57-107. Nothing in this subsection shall be construed to require any school district that is levying more than fifty-five (55) mills pursuant to Sections 37-57-1 and 37-57-105 to decrease its millage rate to fifty-five (55) mills or less. In making such levy, the levying authority shall levy an additional amount sufficient to cover anticipated delinquencies and costs of collection so that the net amount of money to be produced by such levy shall be equal to the amount which the school district is required to contribute as its said minimum local ad valorem tax effort. The tax so levied shall be collected by the tax collector at the same time and in the same manner as other ad valorem taxes are collected by him. The amount of taxes so collected as a result of such levy shall be paid into the district maintenance fund of the school district by the tax collector at the same time and in the same manner as reports and payments of other ad valorem taxes are made by said tax collector, except that the amount collected to defray costs of collection may be paid into the county general fund. The levying authority shall have the power and authority to direct and cause warrants to be issued against such fund for the purpose of refunding any amount of taxes erroneously or illegally paid into such fund where such refund has been approved in the manner provided by law.

## JUDICIAL DECISIONS

### 1. In general.

Where plaintiff parent sued defendant school district in state court alleging her child was sexually assaulted at school and obtained a judgment under the Mississippi Tort Claims Act, her later claims in federal court were properly held as barred due to res judicata; while school districts' sources of funding under Miss. Code Ann. §§ 37-45-21, 37-47-1 et seq., 37-57-1, 37-59-3, and 37-151-7 were equally divided between local school districts and the state under Miss. Code Ann. §§ 11-46-7, 11-46-16(2), and 11-46-17(2), any judgment against the school district would be paid through the Tort Claims Fund and

excess liability insurance, and thus, the school district was not considered an arm of the state entitled to Eleventh Amendment immunity. *Black v. N. Panola Sch. Dist.*, 461 F.3d 584 (5th Cir. 2006).

The Rankin County school system is a locally controlled institution which is supported largely by local revenues and, therefore, the Eleventh Amendment does not bar the award of back pay to teachers who were reinstated pursuant to the district court's order in a school desegregation case. *Adams v. Rankin County Bd. of Educ.*, 524 F.2d 928 (5th Cir. 1975), cert. denied, 438 U.S. 904, 98 S. Ct. 3121, 57 L. Ed. 2d 1146 (1978).

## ATTORNEY GENERAL OPINIONS

Clear intent of Mississippi Code Annotated Section 37-57-1(2) is to provide means to offset entire cost of collection incurred by municipality and if levy pro-

duces funds in excess of actual cost of collection, excess must be taken into consideration by reducing levy for following year by an appropriate amount and con-

versely, any deficit may be considered in determining necessary levy to offset cost of collection in following year to insure that entire expense of such collection each year is paid from proceeds of levy. Austin, Jan. 5, 1994, A.G. Op. #93-0979.

A school district may not lawfully reserve/segregate ad valorem tax receipts (attributed to a specific tax payer) in a permanent trust fund. Pate, January 15, 1999, A.G. Op. #98-0775.

It is the municipality that is authorized and empowered to grant a fee in lieu of taxes with regard to a municipal separate

school district. Pittman, Nov. 10, 2000, A.G. Op. #2000-0670.

Although a proposed industrial development is located outside the corporate limits of a municipality, a county board of supervisors does not have the authority to levy an ad valorem school tax when the site is within the municipal separate school district. The municipality has sole jurisdiction in levying a school tax on property located within the municipal separate school district. Allen, Mar. 3, 2004, A.G. Op. 04-0041.

For present similar provisions, see §§ 37-57-105 through 37-57-107.

**§ 37-57-104. Ad valorem tax effort; calculation of millage rate.**

(1) Each school board shall submit to the levying authority for the school district a certified copy of an order adopted by the school board requesting an ad valorem tax effort in dollars for the support of the school district. The copy of the order shall be submitted by the school board when the copies of the school district's budget are filed with the levying authority pursuant to Section 37-61-9. Upon receipt of the school board's order requesting the ad valorem tax effort in dollars, the levying authority shall determine the millage rate necessary to generate funds equal to the dollar amount requested by the school board. For the purpose of calculating this millage rate, any additional amount that is levied pursuant to Section 37-57-105(1) to cover anticipated delinquencies and costs of collection or any amount that may be levied for the payment of the principal and interest on school bonds or notes shall be excluded from the limitation of fifty-five (55) mills provided for in subsection (2) of this section.

(2)(a) Except as otherwise provided under paragraph (b) or (c) of this subsection, if the millage rate necessary to generate funds equal to the dollar amount requested by the school board is greater than fifty-five (55) mills, and if this millage rate is higher than the millage then being levied pursuant to the school board's order requesting the ad valorem tax effort for the currently existing fiscal year, then the levying authority shall call a referendum on the question of exceeding, during the next fiscal year, the then existing millage rate being levied for school district purposes. The referendum shall be scheduled for not more than six (6) weeks after the date on which the levying authority receives the school board's order requesting the ad valorem tax effort.

When a referendum has been called, notice of the referendum shall be published at least five (5) days per week, unless the only newspaper published in the school district is published less than five (5) days per week, for at least three (3) consecutive weeks, in at least one (1) newspaper published in the school district. The notice shall be no less than one-fourth ( $\frac{1}{4}$ ) page in size, and the type used shall be no smaller than eighteen (18) point and surrounded by a one-fourth-inch solid black border. The notice may not be placed in that portion of the newspaper where legal notices and classified advertisements appear. The first publication of the notice shall be made not less than twenty-one (21) days before the date fixed for the referendum, and the last publication shall be made not more than seven (7) days before that date. If no newspaper is published in the school district, then the notice shall be published in a newspaper having a general circulation in the school district. The referendum shall be held, as far as is practicable, in the same manner as other referendums and elections are held in the county or municipality. At the referendum, all registered, qualified electors of the school district may vote. The ballots used at the referendum shall have printed thereon a brief statement of the amount and purpose of the increased tax levy and the words "FOR INCREASING THE MILLAGE LEVIED FOR SCHOOL DISTRICT PURPOSES FROM (MILLAGE RATE CURRENTLY LEVIED) MILLS TO (MILLAGE RATE REQUIRED UNDER SCHOOL BOARD'S ORDER) MILLS," and "AGAINST INCREASING THE MILLAGE LEVIED FOR SCHOOL DISTRICT PURPOSES FROM (MILLAGE RATE CURRENTLY LEVIED) MILLS TO (MILLAGE RATE REQUIRED UNDER SCHOOL BOARD'S ORDER) MILLS." The voter shall vote by placing a cross (X) or checkmark (✓) opposite his choice on the proposition.

If a majority of the registered, qualified electors of the school district who vote in the referendum vote in favor of the question, then the ad valorem tax effort in dollars requested by the school board shall be approved. However, if a majority of the registered, qualified electors who vote in the referendum vote against the question, the millage rate levied by the levying authority shall not exceed the millage then being levied pursuant to the school board's order requesting the ad valorem tax effort for the then currently existing fiscal year.

Nothing in this subsection shall be construed to require any school district that is levying more than fifty-five (55) mills pursuant to Sections 37-57-1 and 37-57-105 to decrease its millage rate to fifty-five (55) mills or less. Further, nothing in this subsection shall be construed to require a referendum in a school district where the requested ad valorem tax effort in dollars requires a millage rate of greater than fifty-five (55) mills but the requested dollar amount does not require any increase in the then existing millage rate. Further, nothing in this subsection shall be construed to require a referendum in a school district where, because of a decrease in the assessed valuation of the district, a millage rate of greater than fifty-five (55) mills is necessary to generate funds equal to the dollar amount generated by the ad valorem tax effort for the currently existing fiscal year.

(b) Provided, however, that if a levying authority is levying in excess of fifty-five (55) mills on July 1, 1997, the levying authority may levy an additional amount not exceeding three (3) mills in the aggregate for the period beginning July 1, 1997, and ending June 30, 2003, subject to the limitation on increased receipts from ad valorem taxes prescribed in Sections 37-57-105 and 37-57-107.

(c) If the levying authority for any school district lawfully has decreased the millage levied for school district purposes, but subsequently determines that there is a need to increase the millage rate due to a disaster in which the Governor has declared a disaster emergency or the President of the United States has declared an emergency or major disaster, then the levying authority may increase the millage levied for school district purposes up to an amount that does not exceed the millage rate in any one (1) of the immediately preceding ten (10) fiscal years without any referendum that otherwise would be required under this subsection.

(3) If the millage rate necessary to generate funds equal to the dollar amount requested by the school board is equal to fifty-five (55) mills or less, but the dollar amount requested by the school board exceeds the next preceding fiscal year's ad valorem tax effort in dollars by more than four percent (4%), but not more than seven percent (7%) (as provided for under subsection (4) of this section), then the school board shall publish notice thereof at least five (5) days per week, unless the only newspaper published in the school district is published less than five (5) days per week, for at least three (3) consecutive weeks in a newspaper published in the school district. The notice shall be no less than one-fourth ( $\frac{1}{4}$ ) page in size, and the type used shall be no smaller than eighteen (18) point and surrounded by a one-fourth-inch solid black border. The notice may not be placed in that portion of the newspaper where legal notices and classified advertisements appear. The first publication shall be made not less than fifteen (15) days before the final adoption of the budget by the school board. If no newspaper is published in the school district, then the notice shall be published in a newspaper having a general circulation in the school district. If at any time before the adoption of the budget a petition signed by not less than twenty percent (20%) or fifteen hundred (1500), whichever is less, of the registered, qualified electors of the school district is filed with the

school board requesting that a referendum be called on the question of exceeding the next preceding fiscal year's ad valorem tax effort in dollars by more than four percent (4%), then the school board shall adopt, not later than the next regular meeting, a resolution calling a referendum to be held within the school district upon the question. The referendum shall be called and held, and notice thereof shall be given, in the same manner provided for in subsection (2) of this section. The ballot shall contain the language "FOR THE SCHOOL TAX INCREASE OVER FOUR PERCENT (4%)" and "AGAINST THE SCHOOL TAX INCREASE OVER FOUR PERCENT (4%)." If a majority of the registered, qualified electors of the school district who vote in the referendum vote in favor of the question, then the increase requested by the school board shall be approved. For the purposes of this subsection, the revenue sources excluded from the increase limitation under Section 37-57-107 also shall be excluded from the limitation described in this subsection in the same manner as they are excluded under Section 37-57-107. Provided, however, that any increases requested by the school board as a result of the required local contribution to the Mississippi Adequate Education Program, as certified to the local school district by the State Board of Education under Section 37-151-7(2), Mississippi Code of 1972, shall not be subject to the four percent (4%) and/or seven percent (7%) tax increase limitations provided in this section.

(4) If the millage rate necessary to generate funds equal to the dollar amount requested by the school board is equal to fifty-five (55) mills or less, but the dollar amount requested by the school board exceeds the seven percent (7%) increase limitation provided for in Section 37-57-107, the school board may exceed the seven percent (7%) increase limitation only after the school board has determined the need for additional revenues and three-fifths (3/5) of the registered, qualified electors voting in a referendum called by the levying authority have voted in favor of the increase. The notice and manner of holding the referendum shall be as prescribed in subsection (2) of this section for a referendum on the question of increasing the millage rate in school districts levying more than fifty-five (55) mills for school district purposes.

(5) The aggregate receipts from ad valorem taxes levied for school district purposes pursuant to Sections 37-57-1 and 37-57-105, excluding collection fees, additional revenue from the ad valorem tax on any newly constructed properties or any existing properties added to the tax rolls or any properties previously exempt which were not assessed in the next preceding year, and amounts received by school districts from the School Ad Valorem Tax Reduction Fund pursuant to Section 37-61-35, shall be subject to the increase limitation under this section and Section 37-57-107.

(6) The school board shall pay to the levying authority all costs that are incurred by the levying authority in the calling and holding of any election under this section.

(7) The provisions of this section shall not be construed to affect in any manner the authority of school boards to levy millage for the following purposes:

(a) The issuance of bonds, notes and certificates of indebtedness, as authorized in Sections 37-59-1 through 37-59-45 and Sections 37-59-101 through 37-59-115;

(b) The lease of property for school purposes, as authorized under the Emergency School Leasing Authority Act of 1986 (Sections 37-7-351 through 37-7-359);

(c) The lease or lease-purchase of school buildings, as authorized under Section 37-7-301;

(d) The issuance of promissory notes in the event of a shortfall of ad valorem taxes and/or revenue from local sources, as authorized under Section 27-39-333; and

(e) The construction of school buildings outside the school district, as authorized under Section 37-7-401.

Any millage levied for the purposes specified in this subsection shall be excluded from the millage limitations established under this section.

#### ATTORNEY GENERAL OPINIONS

If, after considering the exclusions and exceptions contained in the statute, the required millage rate exceeds the levy for the current year and also exceeds fifty-five mills, a referendum must be called even if the total tax effort increase does not exceed seven percent. Clearman, July 14, 2000, A.G. Op. #2000-0357.

Pursuant to this section, a school board shall request an ad valorem tax effort in a dollar amount for the support of the school district, not a millage rate; it is the levying authority that sets the millage rate. Perkins, Sept. 11, 2002, A.G. Op. #02-0536.

#### § 37-57-105. Authorization and procedure for levy.

(1) In addition to the taxes levied under Section 37-57-1, the levying authority for the school district, as defined in Section 37-57-1, upon receipt of a certified copy of an order adopted by the school board of the school district requesting an ad valorem tax effort in dollars for the support of the school district, shall, at the same time and in the same manner as other ad valorem taxes are levied, levy an annual ad valorem tax in the amount fixed in such order upon all of the taxable property of such school district, which shall not be less than the millage rate certified by the State Board of Education as the uniform minimum school district ad valorem tax levy for the support of the adequate education program in such school district under Section 37-57-1. Provided, however, that any school district levying less than the uniform minimum school district ad valorem tax levy on July 1, 1997, shall only be

required to increase its local district maintenance levy in four (4) mill annual increments in order to attain such millage requirements. In making such levy, the levying authority shall levy an additional amount sufficient to cover anticipated delinquencies and costs of collection so that the net amount of money to be produced by such levy shall be equal to the amount which is requested by said school board. The proceeds of such tax levy, excluding levies for the payment of the principal of and interest on school bonds or notes and excluding levies for costs of collection, shall be placed in the school depository to the credit of the school district and shall be expended in the manner provided by law for the purpose of supplementing teachers' salaries, extending school terms, purchasing furniture, supplies and materials, and for all other lawful operating and incidental expenses of such school district, funds for which are not provided by adequate education program fund allotments.

The monies authorized to be received by school districts from the School Ad Valorem Tax Reduction Fund pursuant to Section 37-61-35 shall be included as ad valorem tax receipts. The levying authority for the school district, as defined in Section 37-57-1, shall reduce the ad valorem tax levy for such school district in an amount equal to the amount distributed to such school district from the School Ad Valorem Tax Reduction Fund each calendar year pursuant to said Section 37-61-35. Such reduction shall not be less than the millage rate necessary to generate a reduction in ad valorem tax receipts equal to the funds distributed to such school district from the School Ad Valorem Tax Reduction Fund pursuant to Section 37-61-35. Such reduction shall not be deemed to be a reduction in the aggregate amount of support from ad valorem taxation for purposes of Section 37-19-11 [Repealed]. The millage levy certified by the State Board of Education as the uniform minimum ad valorem tax levy or the millage levy that would generate funds in an amount equal to a school district's district entitlement, as defined in Section 37-22-1(2)(e) [Repealed], shall be subject to the provisions of this paragraph.

In any county where there is located a nuclear generating power plant on which a tax is assessed under Section 27-35-309(3), such required levy and revenue produced thereby may be reduced by the levying authority in an amount in proportion to a reduction in the base revenue of any such county from the previous year. Such reduction shall be allowed only if the reduction in base revenue equals or exceeds five percent (5%). "Base revenue" shall mean the revenue received by the county from the ad valorem tax levy plus the revenue received by the county from the tax assessed under Section 27-35-309(3) and authorized to be used for any purposes for which a county is authorized by law to levy an ad valorem tax. For purposes of determining if the reduction equals or exceeds five percent (5%), a levy of millage equal to the prior year's millage shall be hypothetically applied to the current year's ad valorem tax base to determine the amount of revenue to be generated from the ad valorem tax levy. For the purposes of this section and Section 37-57-107, the portion of the base revenue used for the support of any school district shall be deemed to be the aggregate receipts from ad valorem taxes for the support of any school district. This paragraph shall apply to taxes levied for the 1987

fiscal year and for each fiscal year thereafter. If the Mississippi Supreme Court or another court finally adjudicates that the tax levied under Section 27-35-309(3) is unconstitutional, then this paragraph shall stand repealed.

(2) When the tax is levied upon the territory of any school district located in two (2) or more counties, the order of the school board requesting the levying of such tax shall be certified to the levying authority of each of the counties involved, and each of the levying authorities shall levy the tax in the manner specified herein. The taxes so levied shall be collected by the tax collector of the levying authority involved and remitted by the tax collector to the school depository of the home county to the credit of the school district involved as provided above, except that taxes for collection fees may be retained by the levying authority for deposit into its general fund.

(3) The aggregate receipts from ad valorem taxes levied for school district purposes, excluding collection fees, pursuant to this section and Section 37-57-1 shall be subject to the increased limitation under Section 37-57-107; however, if the ad valorem tax effort in dollars requested by the school district for the fiscal year exceeds the next preceding fiscal year's ad valorem tax effort in dollars by more than four percent (4%) but not more than seven percent (7%), then the school board shall publish notice thereof once each week for at least three (3) consecutive weeks in a newspaper having general circulation in the school district involved, with the first publication thereof to be made not less than fifteen (15) days prior to the final adoption of the budget by the school board. If at any time prior to said adoption a petition signed by not less than twenty percent (20%) or fifteen hundred (1500), whichever is less, of the qualified electors of the school district involved shall be filed with the school board requesting that an election be called on the question of exceeding the next preceding fiscal year's ad valorem tax effort in dollars by more than four percent (4%) but not more than seven percent (7%), then the school board shall, not later than the next regular meeting, adopt a resolution calling an election to be held within such school district upon such question. The election shall be called and held, and notice thereof shall be given, in the same manner for elections upon the questions of the issuance of the bonds of school districts, and the results thereof shall be certified to the school board. The ballot shall contain the language "For the School Tax Increase Over Four Percent (4%)" and "Against the School Tax Increase Over Four Percent (4%)." If a majority of the qualified electors of the school district who voted in such election shall vote in favor of the question, then the stated increase requested by the school board shall be approved. For the purposes of this paragraph, the revenue sources excluded from the increased limitation under Section 37-57-107 shall also be excluded from the limitation described herein in the same manner as they are excluded under Section 37-57-107.

### ATTORNEY GENERAL OPINIONS

In reference to levy by a board of supervisors for support of special municipal separate school districts, a mandate that the levying authority levy an additional amount sufficient to cover anticipated delinquencies and costs of collection means that the levying authority is to levy such additional millage as is necessary to generate sufficient funds to cover such costs and delinquencies. Crigler, May 13, 1992, A.G. Op. #92-0314.

Statute provides by express exception that Equity Funding millage may not be reduced by application of amount received from School Ad Valorem Tax Reduction Fund and if district is levying only minimum required by Equity Funding and does not have any other millage against which to apply this money and thus reduce taxes immediately, taxpayer nevertheless would receive future benefit as

new or increasing expenses of school district would be offset by School Ad Valorem Tax Reduction Fund. Harvey, July 16, 1993, A.G. Op. #93-0476.

A school district may not lawfully reserve/segregate ad valorem tax receipts (attributed to a specific tax payer) in a permanent trust fund. Pate, January 15, 1999, A.G. Op. #98-0775.

In accordance with Section 57-3-33, projects and property financed under the provisions of said chapter are exempt from all taxation except taxes levied pursuant to Section 27-65-21, Sections 37-57-105 and 37-59-23, and taxes levied pursuant to Section 27-39-329 when said tax is levied expressly "for school district purposes"; a tax levied under Section 37-29-141 for the support of junior (community) college districts is not for "school district purposes." ### § 37-57-107. Limitation on aggregate receipts from taxes for school purposes; disposition of excess receipts.

(1) Beginning with the tax levy for the 1997 fiscal year and for each fiscal year thereafter, the aggregate receipts from taxes levied for school district purposes pursuant to Sections 37-57-105 and 37-57-1 shall not exceed the

aggregate receipts from those sources during any one (1) of the immediately preceding three (3) fiscal years, as determined by the school board, plus an increase not to exceed seven percent (7%). For the purpose of this limitation, the term "aggregate receipts" when used in connection with the amount of funds generated in a preceding fiscal year shall not include excess receipts required by law to be deposited into a special account. However, the term "aggregate receipts" includes any receipts required by law to be paid to a charter school. The additional revenue from the ad valorem tax on any newly constructed properties or any existing properties added to the tax rolls or any properties previously exempt which were not assessed in the next preceding year may be excluded from the seven percent (7%) increase limitation set forth herein. Taxes levied for payment of principal of and interest on general obligation school bonds issued heretofore or hereafter shall be excluded from the seven percent (7%) increase limitation set forth herein. Any additional millage levied to fund any new program mandated by the Legislature shall be excluded from the limitation for the first year of the levy and included within such limitation in any year thereafter. For the purposes of this section, the term "new program" shall include, but shall not be limited to, (a) the Early Childhood Education Program required to commence with the 1986-1987 school year as provided by Section 37-21-7 and any additional millage levied and the revenue generated therefrom, which is excluded from the limitation for the first year of the levy, to support the mandated Early Childhood Education Program shall be specified on the minutes of the school board and of the governing body making such tax levy; (b) any additional millage levied and the revenue generated therefrom which shall be excluded from the limitation for the first year of the levy, for the purpose of generating additional local contribution funds required for the adequate education program for the 2003 fiscal year and for each fiscal year thereafter under Section 37-151-7(2); and (c) any additional millage levied and the revenue generated therefrom which shall be excluded from the limitation for the first year of the levy, for the purpose of support and maintenance of any agricultural high school which has been transferred to the control, operation and maintenance of the school board by the board of trustees of the community college district under provisions of Section 37-29-272.

(2) The seven percent (7%) increase limitation prescribed in this section may be increased an additional amount only when the school board has determined the need for additional revenues and has held an election on the question of raising the limitation prescribed in this section. The limitation may be increased only if three-fifths (3/5) of those voting in the election shall vote for the proposed increase. The resolution, notice and manner of holding the election shall be as prescribed by law for the holding of elections for the issuance of bonds by the respective school boards. Revenues collected for the fiscal year in excess of the seven percent (7%) increase limitation pursuant to an election shall be included in the tax base for the purpose of determining aggregate receipts for which the seven percent (7%) increase limitation applies for subsequent fiscal years.

(3) Except as otherwise provided for excess revenues generated pursuant to an election, if revenues collected as the result of the taxes levied for the fiscal year pursuant to this section and Section 37-57-1 exceed the increase limitation, then it shall be the mandatory duty of the school board of the school district to deposit such excess receipts over and above the increase limitation into a special account and credit it to the fund for which the levy was made. It will be the further duty of such board to hold said funds and invest the same as authorized by law. Such excess funds shall be calculated in the budgets for the school districts for the purpose for which such levies were made, for the succeeding fiscal year. Taxes imposed for the succeeding year shall be reduced by the amount of excess funds available. Under no circumstances shall such excess funds be expended during the fiscal year in which such excess funds are collected.

(4) For the purposes of determining ad valorem tax receipts for a preceding fiscal year under this section, the term "fiscal year" means the fiscal year beginning October 1 and ending September 30.

(5) Beginning with the 2013-2014 school year, each school district in which a charter school is located shall pay to the charter school an amount for each student enrolled in the charter school equal to the ad valorem taxes levied per pupil for the support of the school district in which the charter school is located. The pro rata ad valorem taxes to be transferred to the charter school must include all levies for the support of the school district under Sections 37-57-1 (local contribution to the adequate education program) and 37-57-105 (school district operational levy) but may not include any taxes levied for the retirement of school district bonded indebtedness or short-term notes or any taxes levied for the support of vocational-technical education programs. Payments made pursuant to this subsection by a school district to a charter school must be made before the expiration of three (3) business days after the funds are distributed to the school district.

In the event that the amount of revenue collected or estimated to be collected from local sources, on behalf of a school district during a fiscal year, is less than the amount provided for in the duly adopted budget of said school district for the fiscal year, then the school district may issue promissory notes in an amount and in the manner set forth in Section 27-39-333, not to exceed the estimated shortfall of revenue from local sources, but in no event to exceed twenty-five percent (25%) of its budget anticipated to be funded from the sources of the shortfall for the fiscal year. ### ATTORNEY GENERAL OPINIONS

School districts are limited to three years to repay indebtedness under statute, just as under Section 27-39-333 and as is case with proceeds from Section 27-39-333 note, proceeds of notes are included as proceeds of ad valorem taxes for purposes of Section 37-57-107 limitation. Dyson, August 18, 1993, A.G. Op. #93-0392.

Before a city public school district can issue (a) promissory note(s) and provide notice to the city to levy an ad valorem tax sufficient to repay the indebtedness, the district must demonstrate that there was a shortfall for the fiscal year and that the shortfall would prevent the district from meeting its financial obligations for that

year. Wallace, Dec. 10, 1999, A.G. Op. #99-0652.

A school district may submit a budget which reflects the full amount of local tax revenues deemed necessary (within statutory limitations on increases) for operational purposes, but which deducts up to the amount available to be drawn by the district on a CD loan for that fiscal year from the final ad valorem tax effort for support the district requests from the levying authority, and then make a CD loan draw for the difference between the amount budgeted and the amount collected from the local ad valorem tax levy for school operations. Bounds, Sept. 29, 2006, A.G. Op. 06-0461.

(a) "Family unit" means a new family dwelling, mobile home, apartment, condominium, duplex, townhouse or structure, used for family residency.

### § 37-57-113. Imposition of excise or transfer tax upon new family units.

The board of supervisors of any class one county which has a population in the 1970 decennial census of not less than thirty-five thousand (35,000) and not more than fifty thousand (50,000) and having a total assessed valuation in 1971 of not less than forty million dollars (\$40,000,000.00) and not more than fifty million dollars (\$50,000,000.00) may impose an excise and/or transfer tax upon the sale or construction of all new family units as defined in Section 37-57-111 for capital improvement of public schools as provided by law for countywide public school districts. Said taxation shall not exceed three percent (3%) of the first twenty thousand dollars (\$20,000.00) and one-half of one percent ( $\frac{1}{2}$  of 1%) of all over twenty thousand dollars (\$20,000.00) of the total sale or contract price of the family unit; however, said taxation shall not exceed three percent (3%) of the first ten thousand dollars (\$10,000.00) and one-half of one percent ( $\frac{1}{2}$  of 1%) of all over ten thousand dollars (\$10,000.00) of the total sale or contract price of apartments, condominiums, duplexes or town-houses.

The tax hereby authorized, if imposed by order of the board of supervisors of the county by order duly spread upon the minutes of said board, shall apply only to the initial sale or construction of new family units not heretofore occupied or used for residence purposes, and shall be an indebtedness of the owner of the family unit.

Said tax shall not apply to such family units purchased or constructed by or for any religious, charitable, educational or nonprofit corporation or institution, nor shall it apply to demonstration of model homes.

### JUDICIAL DECISIONS

1. In general.
2. Evidence.

#### 1. In general.

Before taxing authority may recover judgment under § 37-57-113 against taxpayer, all factual prerequisites to existence of obligation on part of taxpayer to pay tax must be proved by taxing authority by preponderance of evidence. *W.H. Hopper & Assocs. v. DeSoto County*, 475 So. 2d 1149 (Miss. 1985).

#### 2. Evidence.

Any inadequacy in tax authority's proof of amount of taxes owed by taxpayer is

obviated when, during taxpayer's pro se examination of opposing counsel as adverse witness, taxpayer elicits testimony that computation of taxes owed has been checked in detail and that, in prior litigation, taxpayer never questioned amount of taxes owed as set forth in letter from tax authority to taxpayer. *W.H. ### ATTORNEY GENERAL OPINIONS

Pursuant to Section 37-59-1 et. seq., in an election on the issuance of bonds for a county school district, wherein also lies a line consolidated school district, the statutory scheme for the issuance of bonds clearly contemplates that only the resi-

dents of the county school district would vote on the matter and only the taxes of the residents of the county school district would be affected in the event of passage. Staten, September 20, 1996, A.G. Op. #96-0637.

district pursuant to a contract or agreement between said institution and said school district.

The authority to issue the bonds hereinabove set forth shall include the authority for the school board of such school district to spend the money for the purposes for which said money is raised.

## JUDICIAL DECISIONS

1. In general.

2.-10. [Reserved for future use.]

11. Under former law.

### 1. In general.

Where plaintiff parent sued defendant school district in state court alleging her child was sexually assaulted at school and obtained a judgment under the Mississippi Tort Claims Act, her later claims in federal court were properly held as barred due to res judicata; while school districts' sources of funding under Miss. Code Ann. §§ 37-45-21, 37-47-1 et seq., 37-57-1, 37-59-3, and 37-151-7 were equally divided between local school districts and the state under Miss. Code Ann. §§ 11-46-7, 11-46-16(2), and 11-46-17(2), any judgment against the school district would be paid through the Tort Claims Fund and excess liability insurance, and thus, the school district was not considered an arm of the state entitled to Eleventh Amendment immunity. *Black v. N. Panola Sch. Dist.*, 461 F.3d 584 (5th Cir. 2006).

On appeal to the circuit court from an order of the board of supervisors of Neshoba County directing issuance of

bonds in the amount of \$40,000 for the benefit of a high school, the circuit court had authority to hear and determine the matter only on the case as presented by the bill of exceptions as an appellate court, and hence the court was correct in refusing to permit the introduction of evidence on the hearing of the cause in the circuit court. *East Neshoba Vocational High Sch. Bonds v. Board of Supvrs.*, 213 Miss. 146, 56 So. 2d 394 (1952).

A resolution of the school trustees requesting the board of supervisors to call an election for school bond issue which recites the necessary preliminary facts complied with the statute despite the objection that the order recited but did not adjudicate that the district is the legally existing district. *Tedder v. Board of Supvrs.*, 214 Miss. 717, 59 So. 2d 329 (1952).

### 2.-10. [Reserved for future use.]

### 11. Under former law.

Under Code 1942, § 6370, gymnasium is school building and bonds may be issued for erection or repair of gymnasium,

improvement of water system and repairing and improving school buildings. In re Savannah Special Consol. Sch. Dist., 208 Miss. 460, 44 So. 2d 545 (1950).

Code 1942, §§ 4341, 4342, and 6370, dealing with the same subject-matter, must be interpreted to harmonize with each other, to stand with as full effect as possible consistently with related sections, and to fit into the dominant policy of entire legislation on subject. *Ashcraft v. Board of Supvrs.*, 204 Miss. 65, 36 So. 2d 820 (1948).

Code 1942, §§ 4342 and 6370 providing for the issuance of bonds for consolidated school districts are written into and become a part of Code 1942, § 4341, specifically providing for creation of specified area which shall be a unit for the issuance of school bonds and for application of all other provisions of law with reference to issuance and payment of school bonds to such specified areas. *Ashcraft v. Board of Supvrs.*, 204 Miss. 65, 36 So. 2d 820 (1948).

Issuance of school bonds to construct, erect and equip new school building, to move, relocate, make alterations and additions to existing principal's residence, and to move, relocate, make alterations to building used as school building is within

authorized purposes under Code 1942, §§ 4341 and 6370. *Ashcraft v. Board of Supvrs.*, 204 Miss. 65, 36 So. 2d 820 (1948).

The purpose for the issuance of bonds under Code 1942, § 6370, must be free from ambiguity, and the proceeding for their issuance must clearly show such purposes upon their face, and show it with such certainty as will distinctly disclose that their issuance will be definitely within the statutory authority. *Hisaw v. Ellison Ridge Consol. Sch. Dist.*, 189 Miss. 664, 198 So. 557 (1940).

The issuance of bonds in a proceeding on petition by a majority of electors of a consolidated school district was erroneous where the statement of purposes for the issuance of such bonds in the petition filed with the board of supervisors contained the abbreviation of et cetera, the inclusion of which made the petition broader than the statute, and prayed for things which the statute did not embrace. *Hisaw v. Ellison Ridge Consol. Sch. Dist.*, 189 Miss. 664, 198 So. 557 (1940).

Code 1942, § 6370. Consolidated school law held not to discriminate between races, nor to deny equal protection of law nor take property without due process. *Barrett v. Cedar Hill Consol. Sch. Dist.*, 123 Miss. 370, 85 So. 125 (1920).

## § 37-59-5. General limitation of indebtedness.

No school district shall, except as provided in Section 37-59-7, hereafter issue bonds for the purposes authorized by law in an amount which, added to all of its then outstanding bonded indebtedness, shall result in the imposition on any of the property in such district of an indebtedness for school purposes of more than fifteen per cent of the assessed value of the taxable property within such district, according to the then last completed assessment for taxation, regardless of whether any of such indebtedness shall have been incurred by such district or by another school district or districts.

### ATTORNEY GENERAL OPINIONS

The value of property that is taxable but is the subject of an agreement for fees in lieu of taxes may be considered in determining the value of taxable property within a school district for the purpose of

ascertaining the 15 percent limitation on bonded indebtedness for school bonds under the statute. Akers, Feb. 9, 2001, A.G. Op. #2001-0042.

## § 37-59-7. Issuance of bonds in amount exceeding limitation of Section 37-59-5.

(1)(a) Any school district in which the total number of pupils enrolled at any one time during the school year shall have increased by at least twenty percent (20%) or an average of three hundred fifty (350) or more annually within the preceding five (5) years, shall not issue bonds for the purposes authorized by law in an amount which when added to all of its then outstanding bonded indebtedness, shall result in the imposition on any of the property in such district of an indebtedness for school purposes of more than twenty-five percent (25%) of the assessed value of the taxable property within such district according to the then last completed assessment for taxation.

(b) Any school district in which the total number of pupils enrolled at any one time during the school year shall have increased by at least ten percent (10%) within the preceding five (5) years shall not issue bonds for the purposes authorized by law in an amount which, when added to all of its then outstanding bonded indebtedness, shall result in the imposition on any of the property in such district of an indebtedness for school purposes of more than twenty percent (20%) of the assessed value of the taxable property within such district according to the then last completed assessment for taxation.

(c) The pupil increase mentioned in this subsection shall apply only to growth in pupil enrollment and shall not apply to pupil increases brought about by consolidation of school districts.

(2) Any school district may hereafter issue bonds in an amount exceeding the limit of Section 37-59-5 for the purpose of constructing, reconstructing, repairing, equipping, remodeling or enlarging school buildings and related

facilities, as described in subsection (a) of Section 37-59-3, but no such district shall issue bonds in an amount which when added to all of its then outstanding bonded indebtedness, shall result in the imposition on any of the property in such district of an indebtedness for such school purposes of more than twenty percent (20%) of the assessed value of the taxable property in such district, according to the then last completed assessment for taxation, regardless of whether any of such indebtedness shall have been incurred by such district or by another school district or districts:

(a) In the event of the damage to or destruction of any school building or school buildings, or related facilities of any such district by fire, wind-storm, flood or other providential and unforeseeable cause; or

(b) In the event such school district has lost its accreditation and the constructing, reconstructing, repairing, equipping, remodeling or enlarging of such school buildings and related facilities is necessary for the restoration of such accreditation; or

(c) In the event of the establishment of the Starkville-Oktibbeha Consolidated School District as authorized in Section 37-7-104.3(8) and (9).

(3) In any school district wherein more than nine percent (9%) of the total land area of the school district is owned by the federal government and situated in a flood control reservoir or maintained as a part of the national forest system, the said school district may issue bonds in an amount, which when added to all of its then outstanding bonded indebtedness for school purposes, shall result in the imposition on any of the property in such school district of an indebtedness for school purposes of not more than twenty percent (20%) of the assessed value of the taxable property within such district, according to the then last completed assessment for taxation, regardless of whether any of such indebtedness shall have been incurred by such district or by another school district or districts. If bonds in an amount in excess of fifteen percent (15%) of the total assessed value of the property of a school district are issued under the provisions of this subsection, not less than twenty-five percent (25%) of the total funds received by the school district under the provisions of Section 49-19-23, Mississippi Code of 1972, shall be paid into the bond and interest sinking fund of such district and used for the retirement of the bonds so issued.

(4) In any district where the assessed valuation per pupil is less than seventy-five percent (75%) of the average of all school districts, such school district may issue bonds for the purposes authorized by Section 37-59-3 in an amount exceeding the fifteen percent (15%) debt limitation set forth in Section 37-59-5, but not exceeding an amount which, when added to all of the school district's then outstanding bonded indebtedness, shall result in the imposition on any of the property in such district of an indebtedness for such school purposes of more than twenty-five percent (25%) of the assessed value of the taxable property in such district, according to the then last completed assessment for taxation if:

(a) The board of trustees or board of education of the school district adopts a resolution finding that issuing bonds in an amount exceeding the

limitation stated in Section 37-59-5 is necessary to provide or maintain adequate educational facilities within the school district; and

(b) The notice of the bond election required by Section 37-59-13 contains a provision notifying the qualified electors in the school district:

(i) Of the fact that the proposed bonds, if issued, will exceed the fifteen percent (15%) debt limit contained in Section 37-59-5; and

(ii) Of the reasons why the school district is proposing to exceed said limitation;

(c) The election is held and the proposed bond issue receives the requisite voter approval as set forth in Section 37-59-17.

### **§ 37-59-11. Adoption of bond issue resolution; requirement of election on issuance of bonds.**

(1) Before any money shall be borrowed under the provisions of this chapter, the school board of the school district shall adopt a resolution declaring the necessity for borrowing such money, declaring its intention to borrow such money and to issue the negotiable bonds of the school district as evidence of same, specifying the approximate amount to be so borrowed, and how such indebtedness is to be evidenced. Such resolution shall also set forth the nature and approximate cost of the alterations, additions and repairs to be made, and shall declare in said resolution that no funds are available in the school funds of the district or from any other source with which to make such repairs, alterations, additions, purchases, erections or improvements.

(2) Whenever a resolution is adopted by the school board as provided in subsection (1), or a petition signed by not less than ten percent (10%) of the qualified electors of a school district, fixing the maximum amount of such

school bonds and the purpose or purposes for which they are to be issued, the school board shall adopt a resolution calling an election to be held within such school district for the purpose of submitting to the qualified electors thereof the question of the issuance of bonds in the amount and for the purpose or purposes as set forth in such resolution or petition. The resolution calling such election shall designate the date upon which the election shall be held and the place or places within such district at which such election shall be held, which place or places may or may not be the school house or school houses in such district.

(3) Provided, however, anything herein to the contrary notwithstanding, no election shall be required for approval of bonds issued after July 1, 1987, and prior to July 1, 1988, or within one (1) year after the final favorable termination of any litigation affecting the issuance of such bonds, and as to which the resolution of necessity and intent to issue by the school board of the school district is passed and publication thereof commenced on or before June 30, 1987, unless a petition calling for such election is filed meeting the requirements and within the time provided by this Section 37-59-11 as in effect between April 15, 1986, and June 30, 1987.

### 1. In general.

In an action challenging the validity of certain construction and renovation general obligation school bonds, the filing of a certified copy of the resolution adopted by the school district's board of trustees with the governing authority of the municipality fulfilled the requirement of § 37-59-11, even though the incorporation in full of the resolution in the minutes of the governing authority would have been the better practice; nor did the assessment of property for taxes pursuant to § 21-33-9 violate the Mississippi Constitution, art. 4, § 112, where the assessment was not void on its face and where there was nothing showing that the orders of the municipality's governing body or the orders of the county board of supervisors in

approving the assessments were void. *Walters v. Validation of \$3,750,000.00 Sch. Bonds of Petal Mun. Separate Sch. Dist.*, 364 So. 2d 274 (Miss. 1978).

### 2. Order and notice.

The order for a school bond election and notice thereof are not too general in not including plans and specifications. *In re \$250,000 Sch. Bonds*, 246 Miss. 470, 150 So. 2d 412 (1963).

### 3. Expenditure of funds for promotion.

A school board's expenditures of \$21,548.92 to pay campaign workers to promote passage of a bond referendum for new school buildings and \$945.03 for lunch for poll workers on election day constituted illegal expenditures since a school district is without explicit or implicit statutory authority to expend taxpayer funds in a promotional effort for the passage of a bond referendum; neither §§ 37-59-1 et seq., which is devoted to

school bonds and obligations, nor § 37-7-301(d), which empowers local school districts to construct schools, authorize a school board to spend public funds to promote passage of a bond issue, and therefore board members who voted affirmatively for the advertising budget from which the expenditures were made would be personally liable for the illegal expenditures. *Smith v. Dorsey*, 599 So. 2d 529 (Miss. 1992).

School bonds of a "specified area" can validly be issued without an election provided proceedings are initiated upon petition of a majority of qualified electors residing in the area, but if proceedings are initiated upon petition of 20% of qualified electors, but less than a majority of all, an election is necessary to determine the will of the majority. *Ashcraft v. Board of Supvrs.*, 204 Miss. 65, 36 So. 2d 820 (1948).

Where a majority of the qualified electors residing in a consolidated school district, by petition, request issuance of bonds for certain school purposes, it is not necessary to call for an election on the question, in the absence of a request in the petition itself calling for such an election,

and the requirement that the bond shall be issued "in the manner provided for by law," in such case, has no reference to the provisions of this section [Code 1942, § 6532] but refers to the details of the issuance. In *re Validation Bonds of Orange Grove Consol. Sch. Dist.*, 187 Miss. 373, 193 So. 6 (1940).

Proceedings for issuance of bonds of consolidated school district should clearly show purposes, and with such certainty that issuance will be wholly within statutory power. *Board of Supvrs. v. Clark*, 163 Miss. 120, 140 So. 733 (1932).

Petition for bond issue of consolidated school district and notice of election thereon, stating purpose to include "furnishing ... necessary school supplies," held to render bonds illegal. *Board of Supvrs. v. Clark*, 163 Miss. 120, 140 So. 733 (1932).

Person signing petition for election on question of issuing bond could remove their name from the original petition by signing a counter petition. *Price v. Sims*, 116 Miss. 687, 77 So. 649 (1918).

Petition requesting submission of bond issue to the voters for their rejection or approval, signed by twenty per cent of the voters, held insufficient, it not being a petition against issuance of the bonds. *Trustees of Walton Sch. v. Board of Supvrs.*, 115 Miss. 117, 75 So. 833 (1917).

### ATTORNEY GENERAL OPINIONS

The Election Commission may hold a special election on a separate and distinct school bond issue on the same date as the General Election provided that the procedural requirements of Sections 37-59-11 et seq., particularly the notice provision of Section 37-59-13, are met. *Stringer*, September 27, 1996, A.G. Op. #96-0656.

A bond election involving a municipal separate school district, even one with added territory from the county, is primarily a municipal election and, therefore, the municipal election commission is the proper body to conduct the election on the question of issuing bonds for a municipal separate school district; however, since

the municipal separate school district does have added territory from the county, the county registrar should cooperate with and supply to the municipal election commission an accurate list of county voters eligible to participate in the election. *Shepard*, June 26, 1998, A.G. Op. #98-0365.

Proceeds from a specified bond issue approved by the voters could not be used for the construction of a high school other than in a specific area where it did not provide for the construction and equipping of a high school in any other location. *Adams*, March 26, 1999, A.G. Op. #99-0121.

When the results of the election on the question of the issuance of such bonds shall have been canvassed by the election commissioners of such county or municipality, and certified by them to the school board of the school district, it shall be the duty of such school board to determine and adjudicate whether or not three-fifths ( $\frac{3}{5}$ ) of the qualified electors who voted in such election voted in favor of the issuance of such bonds. Unless three-fifths ( $\frac{3}{5}$ ) of the qualified electors who voted in such election shall have voted in favor of the issuance of such bonds, then such bonds shall not be issued. Should three-fifths ( $\frac{3}{5}$ ) of the qualified electors who vote in such election vote in favor of the issuance of such bonds, then the school board of such school district shall issue such bonds, either in whole or in part, within two (2) years from the date of such election, or within two (2) years after the final favorable termination of any litigation affecting the issuance of such bonds, as such school board shall deem best.

## JUDICIAL DECISIONS

1. In general.
2. Issuance of bonds.

**1. In general.**

Black voters failed to show that race accounted for “no” votes of white electorates in school bond issue elections, and thus they failed to show that § 37-59-17 (requiring school bond referenda to be passed by a 60 percent majority vote rather than a simple majority) violated the Voting Rights Act (42 USCS § 1973), where the black student population exceeded 50 percent in only 15 of 36 elections in which the 60 percent standard actually impacted the outcome of the election, and it was likely that the defeat of the bond issues stemmed from property owners’ aversion to additional taxation. *Armstrong v. Allain*, 893 F. Supp. 1320 (S.D. Miss. 1994).

Procedure used by election commissioners and managers in determining the residence, qualifications of persons seeking to vote on school bond election complied with the statutes and constituted a practical method. *Tedder v. Board of Supvrs.*, 214 Miss. 717, 59 So. 2d 329 (1952).

**2. Issuance of bonds.**

The county board of supervisors is required to issue school bonds if it finds all the jurisdictional facts to exist for so doing, for this section [Code 1942, § 6532-07] was enacted in the public interest, and it was not the intention of the legislature that a board of supervisors might arbitrarily decline to issue bonds where such jurisdictional facts exist for their issuance. *Franklin v. Quitman County Bd. of Educ.*, 288 F. Supp. 509 (N.D. Miss. 1968).

## ATTORNEY GENERAL OPINIONS

It is the duty of the school board, and not the election commission, to determine whether or not a 3/5 majority vote has been attained; the commission only certifies the votes, determining the number of legal votes and how many votes were in favor and against the bond election. *Minor*, Nov. 14, 1991, A.G. Op. #91-0793.

Only ballots in which qualified voters have voted for or against the bond election shall be counted to determine whether a 3/5's majority has been reached. Merely because a qualified elector votes on a ballot which contains a bond election as well as other elections does not mean that the voter participated in the bond election. *Minor*, Nov. 14, 1991, A.G. Op. #91-0793.

If voters voted in other elections but did not vote in the bond election, their ballots should not be counted for the purpose of

determining the total number of qualified electors who voted in the bond election. *Minor*, Nov. 14, 1991, A.G. Op. #91-0793.

When a petition signed by a majority of the qualified electors residing within the school district on behalf of which bonds are to be issued, fixing the maximum amount of such bonds, such maximum amount not to exceed Ten Thousand Dollars (\$10,000.00), and the purpose or purposes for which they are to be issued, shall be filed with the school board of the school district, praying for the issuance of bonds for any of the purposes enumerated in Section 37-59-3, the school board shall issue the bonds of such school district in the manner provided in this article, in the amount and for the purpose or purposes set forth in such petition, without the necessity of calling an election upon the question of whether or not such bonds shall be issued. The finding of the school board as to the sufficiency of any such petition shall be final and conclusive, unless such finding be appealed from in the manner provided by law.

School bonds may be issued upon petition of a majority of qualified voters, without an election and without notice. In re Magee Consol. Sch. Bonds, 212 Miss. 454, 54 So. 2d 664 (1951).

### 2. Scope of review.

On appeal to the circuit court from an order of the board of supervisors of Neshoba County directing issuance of bonds in the amount of \$40,000 for the benefit of a high school, the circuit court had authority to hear and determine the matter only on the case as presented by the bill of exceptions as an appellate court, and hence the trial court was correct in

refusing to permit the introduction of evidence on the hearing of the cause in the circuit court. East Neshoba Vocational High Sch. Bonds v. Board of Supvrs., 213 Miss. 146, 56 So. 2d 394 (1952).

### 3.-10. [Reserved for future use.]

### 11. Under former law.

Act of 1948, ch 295, authorizing board of trustees of consolidated school districts, in their discretion, to issue bonds on petition of majority of qualified electors of such districts as provided in Code 1942, § 6370, authorizing issuance of bonds for improvement and repairs of school buildings, did not repeal § 6370, but merely provided an additional method of issuing bonds. In re Savannah Special Consol. Sch. Dist., 208 Miss. 460, 44 So. 2d 545 (1950).

If majority of qualified electors do not sign petition for bond issue under Code 1942, § 6370, petition is insufficient, power of board to issue bonds is destroyed, and bond issue cannot be upheld and validated, because not authorized in conformity to law. Board of Supvrs. v. State ex rel. Crisler, 205 Miss. 43, 38 So. 2d 314 (1949).

It is necessary for order of board of supervisors granting petition for issuance of bonds under Code 1942, § 6370, to recite that petition has been signed by majority of qualified electors, that school district was legally organized and existing, that amount of bonds petitioned for will not exceed any constitutional or statutory limitation, and that bonds are being issued for purposes authorized by law as set forth in this section. Board of Supvrs. v. State ex rel. Crisler, 205 Miss. 43, 38 So. 2d 314 (1949).

When majority of those entitled to vote, by petition pray for issuance of bonds by consolidated school districts, under provisions of Code 1942, § 6370, an election is unnecessary. Board of Supvrs. v. State ex rel. Crisler, 205 Miss. 43, 38 So. 2d 314 (1949).

Provision that board of supervisors "may" issue bonds for consolidated school district means that board shall do so if they find all jurisdictional facts to exist for so doing, since statute was enacted in public interest, and it was not intention of legislature that a board of supervisors may arbitrarily decline to issue bonds where such jurisdictional facts exist for their issuance. Board of Supvrs. v. State ex rel. Crisler, 205 Miss. 43, 38 So. 2d 314 (1949).

It is judicial function of board of supervisors to decide question of whether or not majority of qualified electors of school district have petitioned for issuance of bonds, to determine whether amount petitioned for will exceed any statutory limitation thereon, and to determine whether or not bonds are to be issued for purposes authorized by law, and this judicial function of board cannot be controlled by writ of mandamus. Board of Supvrs. v. State ex rel. Crisler, 205 Miss. 43, 38 So. 2d 314 (1949).

It becomes mere ministerial duty of board of supervisors to issue bonds for

consolidated school district as petitioned for, performance of which duty can be compelled by mandamus, when the presence of all jurisdictional facts has been affirmatively adjudicated by board, or by circuit court upon appeal from order of board. Board of Supvrs. v. State ex rel. Crisler, 205 Miss. 43, 38 So. 2d 314 (1949).

In proceedings for issuance of bonds, under Code 1942, § 6370, allegations of objectors that signers of petition did not constitute a majority, which, if true, would render bonds void, was improperly stricken by the court, which should have heard and determined the same as required by due process. Board of Supvrs. v. State ex rel. Crisler, 205 Miss. 43, 38 So. 2d 314 (1949).

The approval and adoption of plans for the improvement is not required before bonds may be issued under Code 1942, § 6370. Board of Supvrs. v. State ex rel. Crisler, 205 Miss. 43, 38 So. 2d 314 (1949).

Since bonds for consolidated school districts may be issued on petition of majority of qualified electors under Code 1942, § 6370, and no provision is made for notice to those affected so that they may have an opportunity to be heard prior to issuance, the validating act, Code 1942, § 4314, must be construed so as to give to those who have had no opportunity to protest action of board the right to hearing, when they respond to notice to taxpayers in validation proceedings, otherwise state constitutional provision against deprivation of property except by due process of law is violated. Board of Supvrs. v. State ex rel. Crisler, 205 Miss. 43, 38 So. 2d 314 (1949).

When board of supervisors rejects petition of electors residing in consolidated school district for issuance of bonds, for reason board deems sufficient, or for no reason at all, without adjudicating necessary jurisdictional facts to exist, remedy of petitioners is appeal to circuit court under Code 1942, § 1195, and not petition for writ of mandamus under Code 1942, § 1109, on which appeal petitioners can obtain in circuit court adjudication of all jurisdictional facts which are alleged to have existed by having such facts embodied in bill of exceptions. Board of Supvrs. v. State ex rel. Crisler, 205 Miss. 43, 38 So. 2d 314 (1949).

Remedy of one who is party to proceedings before board of supervisors and is aggrieved by its decision is by appeal on bill of exceptions to circuit court, under Code 1942, § 1195, and if this remedy is not pursued as provided by law, objections to board's decision constitute collateral attack which cannot be maintained. *Board of Supvrs. v. State ex rel. Crisler*, 205 Miss. 43, 38 So. 2d 314 (1949).

The act of the president of a board of supervisors, in signing bill of exceptions to the board's order for issuance of school bonds, was an acknowledgment that the objections set out in the bill were in fact made by the persons who had appeared as objectors, but did not constitute an agreement that the facts therein recited were true. *Adcock v. Board of Supvrs.*, 191 Miss. 379, 2 So. 2d 556 (1941).

Where bill of exceptions in appeal in from order of board of supervisors, adjudicating all necessary jurisdictional facts to entitle board to issue bonds on behalf of consolidated school district, undertook to recite the matters and things which had transpired at the meeting at which order had been made, by setting forth the objections made at the meeting and averring facts in conflict with the express adjudications contained in order, but failed to state grounds on which judgment appealed

from had been entered, as required by statute in case of appeal, order appealed from, which was attached to the bill of exceptions as an exhibit and made a part thereof by statute, was affirmed. *Adcock v. Board of Supvrs.*, 191 Miss. 379, 2 So. 2d 556 (1941).

Where a majority of the qualified electors residing in a consolidated school district, by petition, request issuance of bonds for certain school purposes, it is not necessary to call for an election on the question, unless the petition itself is qualified by a request therein that an election be called; and the requirement that the bond shall be issued "in the manner provided for by law" has reference to the details of the issuance, and not to the primary question whether the bonds shall be issued. *In re Validation Bonds of Orange Grove Consol. Sch. Dist.*, 187 Miss. 373, 193 So. 6 (1940).

Mistake of county school board in locating school house outside of district and in another county did not render order of board creating the district invalid. *Keeton v. Board of Supvrs.*, 117 Miss. 72, 77 So. 906 (1918).

Board of supervisors properly refused to allow amendment of petition for bond issue in absence of petition. *Trustees of Walton Sch. v. Board of Supvrs.*, 115 Miss. 117, 75 So. 833 (1917).

### § 37-59-21. Procedure for issuance of bonds upon petition where district lies in two or more counties.

If the territory of such school district as is provided for in section 37-59-19, lies in two or more counties, bonds may be issued as provided herein by the board of supervisors of the county having the greatest assessed valuation of taxable property within such district, upon petition of a majority of the qualified electors residing within the district as a whole. In such cases, a counterpart of the petition shall be separately circulated in that part of the district situated within each of the counties involved, and the said petitions shall be filed with the respective boards of supervisors. Each such board shall thereupon determine, by resolution entered upon its minutes, the number of qualified electors of such county residing within such district, and the number of qualified electors of such district who have signed such petition, and shall

transmit a certified copy of such resolution and of such petition to the board of supervisors of the county having the greater assessed valuation of taxable property within such district. The latter board shall thereupon determine, by resolution entered upon its minutes, the total number of qualified electors residing within such district as a whole, and the total number of qualified electors of such district who have signed such petitions. If the latter board thereupon finds and determines that such petitions have been signed by a majority of all of the qualified electors residing within such district, regardless of county lines, such board may proceed to issue bonds in the amount and for the purpose or purposes set forth in such petition.

The maximum amount of such bonds which may be issued by petition shall not exceed the sum of ten thousand dollars (\$10,000.00), and the total amount of bonds so issued by petition in any twelve-month period shall not exceed the sum of ten thousand dollars (\$10,000.00).

### 2. Scope of review.

On appeal to the circuit court from an order of the board of supervisors of

Neshoba County directing issuance of bonds in the amount of \$40,000 for the benefit of a high school, the circuit court had authority to hear and determine the matter only on the case as presented by the bill of exceptions as an appellate court, and hence the trial court was correct in refusing to permit the introduction of evidence on the hearing of the cause in the circuit court. East Neshoba Vocational High Sch. Bonds v. Board of Supvrs., 213 Miss. 146, 56 So. 2d 394 (1952).

## § 37-59-22. Procedure for issuance of bonds upon election where district lies in two or more counties; levy of special tax.

Whenever a school district lies in two (2) or more counties of the State of Mississippi before any money shall be borrowed under the provisions of this

chapter, the school board of the school district shall adopt a resolution declaring the necessity for borrowing such money, declaring its intention to borrow such money and to issue the negotiable bonds of the school district as evidence of same, specifying the approximate amount to be so borrowed, and how such indebtedness is to be evidenced. Such resolution shall also set forth the nature and approximate cost of the alterations, additions and repairs to be made, and shall declare in said resolution that no funds are available in the school funds of the district or from any other source with which to make such repairs, alterations, additions, purchases, erections or improvements.

Whenever a resolution is adopted by the school board as provided in this paragraph, or a petition signed by not less than ten percent (10%) of the qualified electors of a school district, fixing the maximum amount of such school bonds and the purpose or purposes for which they are to be issued, the school board shall adopt a resolution calling an election to be held within such school district for the purpose of submitting to the qualified electors thereof the question of the issuance of bonds in the amount and for the purpose or purposes as set forth in such resolution or petition. The resolution calling such election shall designate the date upon which the election shall be held and the place or places within such district at which such election shall be held, which place or places may or may not be the schoolhouse or schoolhouses in such district.

The board of supervisors of the county which authorizes the issuance of the bonds shall annually levy upon all the taxable property within such district, without regard to county lines, a special tax, which shall be sufficient to provide for the payment of the principal of and interest on such bonds according to the terms thereof. Such board shall annually certify to the board of supervisors of the other county or counties in which a portion of the district is situated, the rate of taxation so fixed, and it shall be the duty of such other board or boards to cause such rate of taxation to be levied upon all the taxable property within the boundaries of such district situated within their respective counties. The taxes shall be collected and deposited as other taxes are collected and deposited in such county or counties, and the board of supervisors thereof shall thereupon cause such taxes to be remitted to the county depository for the county in which the bonds were issued.

### ATTORNEY GENERAL OPINIONS

Tunica County School District has authority to levy tax to repay EPA loan for asbestos removal from schools in district; taxes levied for payment of principal and

interest on general obligation school bonds are excluded from increase limitations set for taxes. Dulaney, July 11, 1990, A.G. Op. #90-0401.

In accordance with Section 57-3-33, projects and property financed under the provisions of said chapter are exempt from all taxation except taxes levied pursuant to Section 27-65-21, Sections 37-57-105 and 37-59-23, and taxes levied pursuant to Section 27-39-329 when said tax is

levied expressly "for school district purposes"; a tax levied under Section 37-29-141 for the support of junior (community) college districts is not for "school district purposes." Beech, Mar. 17, 2006, A.G. Op. 06-0009.

### § 37-59-25. Form of bonds; supplemental powers conferred in issuance of bonds.

(a) All bonds issued under the provisions of this article shall be lithographed or engraved, and printed in two (2) or more colors, to prevent counterfeiting. Provided, however, where the bonds are sold to less than ten (10) purchasers at closing and the purchasers consent, a temporary bond or bonds may be issued in typewritten form pending preparation of the lithographed or engraved bonds for which the temporary bond or bonds may be subsequently exchanged. Such bonds shall be registered as issued, be numbered in a regular series from one (1) upward, and every such bond shall specify on its face the purpose for which it was issued and the total amount authorized to be issued, shall be made payable to bearer, or to the registered owner, and interest shall be evidenced by proper coupons thereto attached.

### **§ 37-59-27. Maturities of bonds; interest rates; execution of bonds; maintenance of register of bond issues.**

All bonds issued by a school district shall mature annually, with all maturities not longer than twenty (20) years. Not less than one-fiftieth ( $\frac{1}{50}$ ) total issue shall mature each year during the first five (5) years of the life of such bonds, and not less than one-twenty-fifth ( $\frac{1}{25}$ ) of the total issue shall mature each year during the succeeding period of ten (10) years of the life of such bonds, and the remainder shall be amortized, as to principal and interest, into approximately equal annual payments, one (1) payment to mature each year for the remaining life of such bonds. However, in cases where bonds shall be issued or dated subsequent to the date fixed for making the school tax levy in the year in which such bonds are to be issued, the first maturity date of not less than one-fiftieth ( $\frac{1}{50}$ ) of the total issue may be fixed for any period not exceeding two (2) years from the date of the bonds with the same schedule of subsequent maturities as hereinabove set forth. Such bonds shall not bear a greater overall maximum interest rate to maturity than that allowed in Section 75-17-101, Mississippi Code of 1972. No bond shall bear more than one (1) rate of interest. Each bond shall bear interest from its date to its stated maturity date at the interest rate specified in the bid. All bonds of the same maturity shall bear the same rate of interest from date to maturity. All interest accruing on such bonds so issued shall be payable semiannually or annually, except that the first interest coupon attached to any such bond may be for any period not exceeding one (1) year.

No interest payment shall be evidenced by more than one (1) coupon and neither cancelled nor supplemental coupons shall be permitted. The lowest interest rate specified for any bonds issued shall not be less than seventy

percent (70%) of the highest interest rate specified for the same bond issue. The interest rate of any one (1) interest coupon shall not exceed the maximum interest rate allowed on such bonds. Each interest rate specified in any bid must be in multiples of one-eighth of one percent ( $\frac{1}{8}$  of 1%) or in multiples of one-tenth of one percent ( $\frac{1}{10}$  of 1%), and a zero rate of interest cannot be named.

The form and place or places of payment of such bonds shall be fixed in the resolution or order of the school board of such school district issuing such bonds. Such bonds shall be executed by the manual or facsimile signature of the president of the school board and the superintendent of schools, with the official seal or facsimile thereof of such school district affixed thereto. At least one (1) signature on each bond shall be a manual signature, as specified in the issuing resolution. The coupons may bear only the facsimile signatures of such president of the school board and superintendent of schools. However, if so provided in the issuing resolution, if the manual signature of the trustee or other fiduciary or agent charged with authenticating and issuing the bonds is required to be thereon, both the signatures of the president of the school board and the superintendent of schools may be by facsimile. No bonds shall be issued and sold under the provisions of this article for less than par and accrued interest.

The bond register for all outstanding bond issues of such school district shall be maintained by the school board.

Bonds issued under this section [Code 1942, § 6370] were not void because of provision that they should mature without option of prior payment. In re Savannah Special Consol. Sch. Dist., 208 Miss. 460, 44 So. 2d 545 (1950).

An order of a board of supervisors for the issuance of twenty school bonds of equal denomination, the first to mature

four years from the date of issue, and one each year thereafter until all were paid, was in violation of the statutory provision requiring that not less than one-fiftieth of the total of an issue of bonds shall mature each year during the first five years of the life of the bonds, although the statute authorized the issuance of bonds at such time within four years after the right of the board of supervisors to do so had accrued as the board might deem best. ### § 37-59-29. Disposition of proceeds of bonds; liability for diversion of funds.

The proceeds of any bonds issued by a school district shall be placed in the county or municipal treasury or depository, as the case may be, if there be one, as a special fund, and shall be used for no other purpose than that for which such bonds were authorized to be issued. If the school board of the school district or any member thereof, or any other officer, shall wilfully divert or aid or assist in diverting any such fund, or any part thereof, to any purpose other than that for which such bonds were authorized to be issued, then such person shall be guilty of a felony and, upon conviction, shall be punished by imprisonment in the state penitentiary for a term not exceeding five (5) years. In addition, he shall be liable personally and on his official bond for the amount so diverted. Any member of such school board may escape the penalty provided for above by requesting and having his vote recorded in the negative on any illegal diversion of the proceeds of such bonds. Nothing contained in this section shall be construed to prevent the payment or rebate of a portion of the earnings derived from the investment of the bond proceeds to the federal government to the extent required by the federal laws applicable to such bonds or the interest income thereon in order to maintain their tax exempt status.

### ATTORNEY GENERAL OPINIONS

A resolution which declares that the purpose of the school bond is to provide for a new alternative school and such alternative school may be provided by remodeling or enlarging an existing school building located in the same school zone as originally contemplated does not violate Section 37-59-29. Proceeds from a specified bond issue approved by the voters could not be used for the construction of a high school other

**§ 37-59-31. Election on withdrawing or revoking authority to issue bonds or on amending purpose for which bonds may be issued.**

In any case where the issuance of the bonds of a school district has been authorized pursuant to referendum of the qualified electors of the school district under the provisions of this article, and at any time prior to the actual issuance and sale of said bonds, there should be a resolution adopted by the school board of the school district on whose behalf the bonds are to be issued requesting either that the authority to issue said bonds be withdrawn and revoked or that the purpose or purposes for which the bonds are to be issued be amended, altered and changed, in which latter case the resolution shall specify distinctly the amendment, alteration and change proposed, the school board shall, within sixty (60) days after the adoption of such resolution, call an election to be held within the school district involved for the purpose of submitting to the qualified electors thereof the question of whether the authority to issue the bonds should be withdrawn and revoked or whether the purpose or purposes for which the bonds are to be issued should be amended, altered and changed, as the case may be. The resolution calling said election shall designate the date upon which the election will be held and the place or places within such district at which same will be held, which place or places may or may not be the school house or school houses of such district. In all respects, notice of the election shall be given for the time and in the manner otherwise provided in this article with respect to elections upon the question of the issuance of bonds of the school district. The results of the election shall be canvassed, returned and determined as is otherwise provided in this article with respect to elections upon the question of the issuance of school district bonds. The ballots used at said election shall have printed thereon a brief statement of the proposal that the authority to issue the bonds be withdrawn and revoked, or of the proposal that the purpose or purposes for which the bonds are to be issued be amended, altered and changed, as the case may be and in the event the proposal be to amend, alter and change the purpose or purposes of the proposed issue of bonds, a brief statement of the amendments, alterations and changes proposed. There shall also be printed on the ballot the words "FOR THE PROPOSITION" and the words "AGAINST THE PROPOSITION" and the voter shall vote by placing a cross (X) or check mark (✓) opposite his choice. If a majority of the qualified electors who vote in said election shall vote in favor of the proposition, and the proposition be to withdraw or revoke the authority to issue said bonds, then the authority to issue such bonds shall terminate; otherwise, the school board shall continue to have the power and authority to issue said bonds to the same extent as though such election shall not have been held. If a majority of the qualified electors

who vote in said election shall vote in favor of the proposition, and the proposition be to amend, alter or change the purpose or purposes for which the bonds shall be issued, then the school board shall be authorized to issue said bonds for the purpose or purposes as amended, altered and changed; otherwise, the bonds shall be issued for the purpose or purposes originally specified.

Whenever there shall be on hand in any bond and interest fund an amount in excess of the amount which will be required for expenditure therefrom within the then next succeeding twelve (12) months, the school board may use such excess amount to purchase the outstanding bonds of such school district which are payable from such fund whenever, in the judgment of such school board, the best interest of the district would be served thereby. When such bonds are purchased, they shall be cancelled and retired and shall not thereafter be resold or reissued. ### § 37-59-43. Investment of surplus funds.

(1) Whenever any school district or levying authority, as defined in Section 37-57-1(1)(b), acting on behalf of a school district, shall have on hand

any bond and interest funds, any funds derived from the sale of bonds, or any other funds in excess of the sums which will be required for payment of current obligations and expenses as they come due, and which are not needed or cannot by law be used for the payment of the current obligations or expenses of the school district, the school board of the district shall have the power and authority to invest such excess funds in any bonds or other direct obligations of the United States of America or the State of Mississippi, or of any county or municipality of this state, which such county or municipal bonds have been approved by a reputable bond attorney or have been validated by a decree of the chancery court; or in interest-bearing time certificates of deposit or interest-bearing accounts with or through any financial institution approved for the deposit of state funds; and such institution shall be eligible to hold school district funds to the extent that it is qualified as a depository for state funds; or in any type of investment permitted by Sections 27-105-33(d) and 27-105-33(e). The rate of interest on such time certificates of deposit and interest-bearing accounts may be negotiated. The negotiated rate of interest shall be at the highest rate possible at the date of purchase or investment for such time certificates of deposit or interest-bearing accounts. In any event, the bonds or obligations in which such funds are invested shall mature or be redeemable prior to the time the funds so invested will be needed for expenditure. When bonds or other obligations have been so purchased, the same may be sold or surrendered for redemption at any time, except certificates of deposit which must mature, by order or resolution of such school board, and the president of the school board, when authorized by such order or resolution, shall have the power and authority to execute all instruments and take such other action as may be necessary to effectuate the sale or redemption thereof. In addition to the foregoing, any school board may invest any such funds in the same manner as provided for the investment of sixteenth section principal funds pursuant to Section 29-3-113.

(2) The provisions of subsection (1) of this section shall also apply to funds of community and junior college districts, and the governing authorities of such districts are vested with all power and authority with respect to such funds and matters herein mentioned as are vested in the other boards mentioned above with respect to such matters.

(3) All earnings from funds other than bond funds or bond sinking funds in excess of One Hundred Dollars (\$100.00) in any fiscal year, invested according to the provisions of subsections (1) and (2) of this section shall be deposited in the district fund from which the investment was made, or the treasury of the junior college, as the case may be. Earnings from such school district funds which are less than One Hundred Dollars (\$100.00) in any fiscal year may be deposited in the school district maintenance fund, or in the district fund from which the investment was made, in the discretion of the school board. Earnings from funds invested out of bond funds or bond sinking funds, together with the principal thereof, shall be deposited in the fund from which the investment was made.

(4) Nothing contained in this section shall be construed to prevent the payment of a portion of the earnings derived from the investment of bond

proceeds or any other amounts in the bond fund or related reserve or sinking funds to the federal government to the extent required by the federal laws applicable to such bonds or the interest income thereon in order to maintain their tax exempt status.

Section 1 of ch. 636A, Laws of 2002, effective from and after passage (approved March 30, 2002), also amended this section. As set out above, this section reflects the language of both amendments pursuant to Section 1-1-109 which gives the Joint Legislative Committee on Compilation, Revision and Publication of Legislation authority to integrate amendments so that all versions of the same code section enacted within the same legislative session may become effective. The Joint Committee on Compilation, Revision and Publication of Legislation ratified the integration of these amendments as consistent with the legislative intent at the May 16, 2002 meeting of the Committee.

The Governor vetoed House Bill 1337 on March 27, 2002. The veto was overridden by the House of Representatives on March 29, 2002, and by the Senate on March 30, 2002.

## JUDICIAL DECISIONS

### 1. In general.

Bonds in which surplus funds have been invested may not be sold at less than their market value or without proceeding in

accordance with common prudence and sound business judgment. *Daniels v. Sones*, 245 Miss. 461, 147 So. 2d 626 (1962).

## ATTORNEY GENERAL OPINIONS

A school board can choose to exercise its authority to invest school funds, including sixteenth section principal funds, by establishing a district investment plan and authorizing a particular school official to implement the plan by carrying out purchases and sales of securities and other investments of the type authorized by § 29-3-113 and this section; the school board members would still be responsible for the safety of such funds and would not escape liability for their loss in the event they were lost through unlawful or negligent act of the designated school official approving transactions or any other per-

son or by the failure to have the funds adequately capitalized as may be required by law in an applicable case. *Turner*, August 28, 1998, A.G. Op. #98-0475.

A school district may purchase such securities and obligations as allowed by state law through brokers, who may charge an agreed fee for their services, provided the fee is found by the school board to be reasonable and commensurate with those services; there is no authority for a school district to pay more than the market value of securities by means of a mark up by a dealer. *Turner*, August 28, 1998, A.G. Op. #98-0475.

A school board may not lawfully invest ad valorem tax receipts in commercially traded stocks and bonds (i.e., securities not underwritten by the full faith and credit of the State of Mississippi and/or direct obligations of the United States Treasury). Pate, January 15, 1999, A.G. Op. #98-0775.

An investment consultant may be hired to assist a school district with the investment of its surplus funds. Pate, January 15, 1999, A.G. Op. #98-0775.

This statute prevails for investments of excess funds for community/junior colleges. McLeod, Mar. 28, 2002, A.G. Op. #02-0119.

Such resolution shall also set forth the nature and approximate cost of the alterations, additions, and repairs to be made, or of the erections contemplated, or of the heating plant, fixtures and equipment necessary to be purchased, or of the land to be purchased, improved or equipped, or of the school buses and transportation equipment to be purchased, as the case may be, and shall declare in said resolution that no funds are available in the school funds of the district or from any other source with which to make such repairs, alterations, additions, purchases, erections or improvements.

### § 37-59-105. Declaration of intention by local authorities; election; issuance of indebtedness.

The said resolution adopted by the school board pursuant to Section 37-59-103 shall be published once each week for two (2) consecutive weeks in a newspaper having a general circulation in the school district involved, with the first publication thereof to be made not less than fifteen (15) days prior to the date upon which the school board is to take final action upon the question of authorizing the borrowing of said money. If no petition requesting an election is filed prior to such meeting, then the school board shall, at said meeting, by resolution spread upon its minutes, give final approval to the borrowing of said money and shall authorize the issuance of negotiable notes or certificates of indebtedness of the school district therefor in accordance with the provisions of this article.

If at any time prior to said meeting a petition signed by not less than twenty percent (20%) of the qualified electors of the school district involved shall be filed with the school board requesting that an election be called on the question of incurring said indebtedness, then the school board shall, not later than the next regular meeting, adopt a resolution calling an election to be held within such school district upon the question of the incurring of said indebtedness for the purposes and in the amount requested. Such election shall be called and held, and notice thereof shall be given, in the same manner provided in Article 1 of this chapter for elections upon the question of the issuance of the bonds of school districts, and the results thereof shall be certified to the school board. If three-fifths (¾) of the qualified electors voting in said election shall vote in favor of incurring said indebtedness, then the school board shall proceed to issue said negotiable notes or certificates of indebtedness as prayed for in the original resolution of the school board; however, if less than three-fifths (¾) of the qualified electors voting in said election vote in favor of incurring said indebtedness, then said notes or certificates of indebtedness shall not be issued.

Money may be borrowed under the provisions of this article and the negotiable notes or certificates of indebtedness evidencing same may be issued as provided in this article (1) without the necessity of being authorized in an election called for that purpose, except where a petition requesting an election is filed as provided herein and (2) without the necessity of giving notice thereof except as specifically provided herein, and specifically without the necessity of complying with the requirements of Section 31-19-25.

The levying authority for the school district shall annually levy a special tax on all of the taxable property of the school district on whose behalf the notes or certificates of indebtedness are issued, except as provided in Section 37-7-104.3(7), in an amount which shall be sufficient to pay the principal of and interest upon such negotiable notes or certificates of indebtedness as the same shall respectively mature and accrue, including any notes issued under the direction of a conservator of a school district pursuant to the authority of Section 37-7-104.3(7). Said tax shall be levied and collected at the same time and in the same manner as other taxes are collected and said tax shall be in addition to all other taxes authorized by law. ### **§ 37-59-109. Procedure for issuance of bonds where district lies in two or more counties; levy of special tax.**

If the school district on whose behalf money is to be borrowed under the provisions of this article shall lie in two (2) or more counties, said school board shall take all steps required by this article in the issuance of the negotiable notes or certificates of indebtedness of the district without regard to county lines. The negotiable notes or certificates of indebtedness shall be general obligations of the entire school district without regard to county lines and shall constitute a lien upon all of the taxable property thereof.

The board of supervisors of the county which furnishes the largest assessed valuation of the property in the district shall annually certify to the board of supervisors of each county in which the district is located the amount of the annual tax levy required for the payment of the principal of and interest upon said notes or certificates of indebtedness, and each such board of supervisors shall annually levy such tax at the same time and in the same manner as other taxes are levied by such board in the amount so fixed. The taxes so levied shall be collected by the tax collector of each county in the same manner as other taxes are collected and shall be remitted to the school district depository. Such school district depository shall deposit said funds to the credit of the special fund provided for in Section 37-59-107 for the payment of the principal of and interest upon such notes or certificates of indebtedness.

### **§ 37-59-111. Execution of negotiable notes or certificates of indebtedness; interest; maturity.**

All indebtedness incurred under the provisions of this article shall be evidenced by the negotiable notes or certificates of indebtedness of the school district on whose behalf the money is borrowed. Said notes or certificates of indebtedness shall be signed by the president of the school board and superintendent of schools of such school district. Such notes or certificates of indebtedness shall not bear a greater overall maximum interest rate to maturity than the rates now or hereafter authorized under the provisions of Section 19-9-19. No such notes or certificates of indebtedness shall be issued and sold for less than par and accrued interest. All such notes or certificates of indebtedness shall mature according to the following:

(a) All notes or certificates of indebtedness issued for purposes authorized under Section 37-59-101, with the exception of the financing of school buses and transportation equipment, shall mature in approximately equal installments of principal and interest over a period not to exceed twenty (20) years from the date of issuance thereof. Provided, however, that if negotiable notes used to finance other such capital improvements are outstanding from not more than one (1) previous issue authorized under the provisions of this article, then the schedule of payments for a new or supplementary issue may be so adjusted that the schedule of maturities of all notes or series of notes hereunder shall, when combined, mature in approximately equal installments of principal and interest over a period of twenty (20) years from the date of the new or supplementary issue, or if a lower interest rate will be secured on notes previously issued and outstanding, a portion of the proceeds of any issue authorized hereunder may be used to refund the balance of the indebtedness previously issued under the authority of this article.

(b) All notes or certificates of indebtedness for purposes of financing of school buses and transportation equipment shall mature in approximately equal installments of principal and interest over a period not to exceed ten (10) years from the date of issuance thereof. Provided, however, that if negotiable notes used to finance such noncapital improvements are outstanding from not more than one (1) previous issue authorized under the provisions of this article, then the schedule of payments for a new or supplementary issue may be so adjusted that the schedule of maturities of all notes or series of notes hereunder shall, when combined, mature in approximately equal installments of principal and interest over a period of ten (10) years from the date of the new or supplementary issue, or if a lower interest rate will thereby be secured on notes previously issued and outstanding, a portion of the proceeds of any issue authorized hereunder may be used to refund the balance of the indebtedness previously issued under the authority of this article.

Such notes or certificates of indebtedness shall be issued in such form and in such denominations as may be determined by the school board, and same may be made payable at the office of any bank or trust company selected by the school board, and, in such case, funds for the payment of principal and interest due thereon shall be provided in the same manner provided by law for the payment of the principal and interest due on bonds issued by the taxing districts of this state.

Any school district in Mississippi may borrow money from the United States Department of Agriculture Rural Development agency under any provision of state or federal law that provides for the borrowing of money by school districts.

**§ 37-59-301. Authority of school districts to secure interest-free treatment of debt under federal law; construction of section.**

Notwithstanding any law or any provision of any law to the contrary, the following additional and supplemental powers and authorizations are hereby granted to each public school district in connection with the issuance of any debt, as defined herein.

(a) For purposes of this section, "debt" means any note, bond, lease or other evidence of indebtedness that a district is authorized to issue under any provision of law, and shall include debt issued by or on behalf of an agricultural high school.

(b) Any school district issuing debt may, by resolution of its board of trustees or board of education, do all things regarding the form, payment structure, purchase price and terms of such debt which may be helpful in qualifying the debt for reduced or interest free treatment under any federal law or the regulations promulgated thereunder and to assure that such debt will be readily acceptable in the municipal bond market, provided the same

is not inconsistent with the Constitution of the state. Provided, however, that nothing in this section shall be construed as allowing a school district to exceed the final maturity term or exceed any debt limitation provided in the applicable state law authorizing the debt.

(c) This section shall be construed to be supplemental and additional to any powers conferred by other laws on school districts and not in derogation of any such powers not existing. The section is remedial in nature and shall be liberally construed. Provided, however, that this section shall not grant any extra authority to a school board to issue debt in any amount exceeding statutory limitations on assessed value of taxable property within such school district or the statutory limitations on debt maturities, and shall not grant any extra authority to impose, levy or collect a tax which is not otherwise expressly provided for.

#### § 37-61-1. "Fiscal year" and "scholastic year" defined.

The "fiscal year" of all school districts of this state shall commence on July 1 and end on June 30 of each year. The "scholastic year" of the public schools of this state shall likewise commence on July 1 and end on June 30 of each year.

#### § 37-61-3. Use of school funds; generally.

The adequate education program allotments of the public school districts and the funds derived from the supplemental school district tax levies authorized by law shall be used exclusively for the support, maintenance and operation of the schools in the manner provided by law for the fiscal years for which such funds were appropriated, collected or otherwise made available, and no part of said funds or allotments shall be used in paying any expenses incurred during any preceding fiscal year. However, this shall not be construed to prohibit the payment of expenses incurred during the fiscal year after the close of such fiscal year from amounts remaining on hand at the end of such fiscal year, provided that such expenses were properly payable from such amounts. Moreover, this shall not be construed to prohibit the payment of the

salaries of superintendents, principals and teachers and other school employees whose salaries are payable in twelve (12) monthly installments after the close of the fiscal year from amounts on hand for such purpose at the end of the fiscal year.

Funds, however, were not made available by the Legislature prior to July 1, 1990, and by direction of the Office of the Attorney General of the State of Mississippi the amendatory provisions have not been printed in this volume. Text of the amendment can be found in the Advance Sheet Acts of the 1990 Legislative Session published by the Secretary of State's Office, Jackson, Mississippi.

### ATTORNEY GENERAL OPINIONS

A deferred payment does not contemplate an employee intentionally delaying the return or execution of a contract in order to receive a benefit, such as, to avoid a tax levy. If a school board did enter in to

such a scheme, it could be considered collusion in order to help an employee avoid tax liability. Matthews, March 8, 1996, A.G. Op. #96-0067.

### § 37-61-5. Disposition of balances of minimum education program funds.

If in any year there should remain a balance in the minimum education program fund of any school district on June 30 which amount is not to be used or is not needed in the payment of expenses for the preceding fiscal year properly payable out of such minimum education program fund, then such balance on hand to the credit of such minimum education fund of the school district shall be carried forward as a part of such minimum education program fund for the next succeeding fiscal year. The proper pro rata part of the amount so carried forward, to be determined by the percentage which the state minimum education program funds paid into such fund during the year bore to the entire amount paid into such fund, shall be charged against and deducted from the amount which the school district is allotted from state minimum education program fund for the succeeding fiscal year, in a manner prescribed by the State Auditor. The remainder of the amount so carried forward may be

deducted from the amount which the school district is required to produce as its local minimum ad valorem tax effort for the support of the minimum education program fund for the succeeding fiscal year under the provisions of Chapter 19 of this title. However, no balance of transportation funds on hand at the end of any fiscal year shall be charged against or deducted from the allotment of state funds to any school district for minimum education program purposes for the next succeeding year.

#### § 37-61-7. Disposition of balances of school district funds.

If at the end of any fiscal year there should remain a balance in the school district fund of any school district which is not needed and is not to be used for paying the expenses properly payable out of such district fund for the preceding fiscal year, such balance shall be carried forward as a part of the school district fund for the next fiscal year and used and expended in the manner otherwise provided by law. #### § 37-61-8. Preparation and submission of plan to reduce costs in school district required under certain circumstances [Repealed effective July 1, 2015].

(1) Whenever a school district has an ending fund balance in the maintenance fund of the school district which is an amount equal to less than seven

percent (7%) of the total revenue deposited into the district maintenance fund during that fiscal year, the school board of the school district shall prepare and file with the State Department of Education a plan under which the district intends to reduce costs in the district. The plan must be submitted by the school board to the department contemporaneously with the budgetary information required under Section 37-61-9(2).

(2) The State Board of Education may adopt rules and regulations prescribing the specific contents required to be included in a plan submitted by a local school board to the department under subsection (1) of this section. The rules and regulations may include provisions addressing the following matters:

(a) A description of the financial data or documents and budgetary information that a district must submit to the department;

(b) A description of the manner by which the school district intends to achieve costs savings, demonstrated by actual reductions in budgeted expenditures;

(c) A requirement that before a school board makes expenditure cuts by reductions in the number of instructional employees or by reducing any discretionary supplemental amounts paid to instructional personnel, significant cost savings must be demonstrated by reducing the number of noninstructional personnel or the amounts paid to those employees, or both; and

(d) Any other information deemed necessary by the State Board of Education.

(3) After analyzing a plan that has been filed with the department under subsection (1), the department shall either approve the plan as submitted by the school board or alternatively, withhold approval and return the plan to the district with guidance or instructions, which may require resubmission of the plan by the school board for further review after changes have been made to the plan.

(4) This section shall stand repealed on July 1, 2015.

**Amendment Notes** — The 2012 amendment deleted “During the 2010, 2011 and 2012 fiscal years” from the beginning of (1); and extended the repealer provision in (4), from “July 1, 2012” to “July 1, 2015.”

### **§ 37-61-9. Preparation of budget by county superintendent of education; reduction of amount budgeted for administration expenditures.**

(1) On or before the fifteenth day of August of each year, the local school board of each school district, with the assistance of the superintendent of schools, shall prepare and file with the levying authority for the school district, as defined in Section 37-57-1, at least two (2) copies of a budget of estimated

expenditures for the support, maintenance and operation of the public schools of the school district for the fiscal year commencing on July 1 of such year. Such budget shall be prepared on forms prescribed and provided by the State Auditor and shall contain such information as the State Auditor may require.

(2) In addition, on or before the fifteenth day of August of each year, the local school board of each school district, with the assistance of the superintendent of schools, shall prepare and file with the State Department of Education such budgetary information as the State Board of Education may require. The State Board of Education shall prescribe and provide forms to each school district for this purpose.

(3) Prior to the adoption of a budget pursuant to this section, the school board of each school district shall hold at least one (1) public hearing to provide the general public with an opportunity to comment on the taxing and spending plan incorporated in the proposed budget. The public hearing shall be held at least one (1) week prior to the adoption of the budget with advance notice. After final adoption of the budget, a synopsis of such budget in a form prescribed by the State Department of Audit shall be published in a newspaper having general circulation in the school district on a date different from the date on which the county or any municipality therein may publish its budget.

(4) There shall be imposed limitations on budgeted expenditures for certain administration costs, as defined hereinafter, in an amount not greater than One Hundred Fifty Thousand Dollars (\$150,000.00) plus four percent (4%) of the expenditures of all school districts each year. For purposes of this subsection, "administration costs" shall be defined as expenditures for salaries and fringe benefits paid for central administration costs from all sources of revenue in the following expenditure functions as defined in the MISSISSIPPI PUBLIC SCHOOL DISTRICT FINANCIAL ACCOUNTING MANUAL:

2300 = Support Services — General Administration

2310 = Board of Education Services

2320 = Executive Administration Services

2330 = Special Area Administration Services

2500 = Business Services

2510 = Fiscal Services

2520 = Purchasing Services

2530 = Warehousing and Distributing Services

2540 = Printing, Publishing and Duplicating Services

2590 = Other Support Services — Business

Any costs classified as "administration costs" for purposes of this subsection which can be demonstrated by the local school district to be an expenditure that results in a net cost savings to the district that may otherwise require budget expenditures for functions not covered under the definition of administration costs herein may be excluded from the limitations imposed herein. The local school board shall make a specific finding of such costs and spread such finding upon its minutes, which shall be subject to the approval of the Office of Educational Accountability of the State Department of Education. Any school district required to make expenditure cuts, as a result of application of

this subsection, shall not be required to reduce such expenditures more than twenty-five percent (25%) in any year in order to comply with this mandate.

The State Auditor shall ensure that functions in all expenditure categories to which this administrative limitation applies shall be properly classified.

This section shall not apply to central administration with five (5) or less full-time employees, or to those school districts which can substantiate that comparable reductions have occurred in administrative costs for the five-year period immediately prior to school year 1993-1994. In the event the application of this section may jeopardize the fiscal integrity or operations of the school district, have an adverse impact on the ability of the district to deliver educational services, or otherwise restrict the district from achieving or maintaining a quality education program, the State Board of Education shall be authorized to exempt the application of this section to such school district pursuant to rules and regulations of the State Board of Education consistent with the intent of this section.

Funds, however, were not made available by the Legislature prior to July 1, 1990, and by direction of the Office of the Attorney General of the State of Mississippi the amendatory provisions have not been printed in this volume. **§ 37-61-33. Education Enhancement Fund; appropriations from fund; certain funds from working cash-stabilization reserve fund transferred to education enhancement fund; school district procurement cards.**

(1) There is created within the State Treasury a special fund to be designated the "Education Enhancement Fund" into which shall be deposited all the revenues collected pursuant to Sections 27-65-75(7) and (8) and 27-67-31(a) and (b).

(2) Of the amount deposited into the Education Enhancement Fund, Sixteen Million Dollars (\$16,000,000.00) shall be appropriated each fiscal year to the State Department of Education to be distributed to all school districts. Such money shall be distributed to all school districts in the proportion that the average daily attendance of each school district bears to the average daily attendance of all school districts within the state for the following purposes:

(a) Purchasing, erecting, repairing, equipping, remodeling and enlarging school buildings and related facilities, including gymnasiums, auditoriums, lunchrooms, vocational training buildings, libraries, teachers' homes, school barns, transportation vehicles (which shall include new and used transportation vehicles) and garages for transportation vehicles, and purchasing land therefor.

(b) Establishing and equipping school athletic fields and necessary facilities connected therewith, and purchasing land therefor.

(c) Providing necessary water, light, heating, air-conditioning and sewerage facilities for school buildings, and purchasing land therefor.

(d) As a pledge to pay all or a portion of the debt service on debt issued by the school district under Sections 37-59-1 through 37-59-45, 37-59-101 through 37-59-115, 37-7-351 through 37-7-359, 37-41-89 through 37-41-99, 37-7-301, 37-7-302 and 37-41-81, or debt issued by boards of supervisors for agricultural high schools pursuant to Section 37-27-65, if such pledge is accomplished pursuant to a written contract or resolution approved and spread upon the minutes of an official meeting of the district's school board or board of supervisors. The annual grant to such district in any subsequent year during the term of the resolution or contract shall not be reduced below an amount equal to the district's grant amount for the year in which the contract or resolution was adopted. The intent of this provision is to allow school districts to irrevocably pledge a certain, constant stream of revenue as security for long-term obligations issued under the code sections enumerated in this paragraph or as otherwise allowed by law. It is the intent of the Legislature that the provisions of this paragraph shall be cumulative and supplemental to any existing funding programs or other authority conferred upon school districts or school boards. Debt of a district secured by a pledge of sales tax revenue pursuant to this paragraph shall not be subject to any debt limitation contained in the foregoing enumerated code sections.

(3) The remainder of the money deposited into the Education Enhancement Fund shall be appropriated as follows:

(a) To the State Department of Education as follows:

(i) Sixteen and sixty-one one-hundredths percent (16.61%) to the cost of the adequate education program determined under Section 37-151-7; of the funds generated by the percentage set forth in this section for the support of the adequate education program, one and one hundred seventy-eight one-thousandths percent (1.178%) of the funds shall be appropriated to be used by the State Department of Education for the purchase of textbooks to be loaned under Sections 37-43-1 through 37-43-59 to approved nonpublic schools, as described in Section 37-43-1. The funds to be distributed to each nonpublic school shall be in the proportion that the average daily attendance of each nonpublic school bears to the total average daily attendance of all nonpublic schools;

(ii) Seven and ninety-seven one-hundredths percent (7.97%) to assist the funding of transportation operations and maintenance pursuant to Section 37-19-23; and

(iii) Nine and sixty-one one-hundredths percent (9.61%) for classroom supplies, instructional materials and equipment, including computers and computer software, to be distributed to all eligible teachers within the state through the use of procurement cards. Classroom supply funds shall not be expended for administrative purposes. On or before September 1 of each year, local school districts shall determine and submit to the State Department of Education the number of teachers eligible to receive an allocation for the current year. For purposes of this subparagraph, "teacher" means any employee of the school board of a school district who is required by law to obtain a teacher's license from the State Department of Education and who is assigned to an instructional area of work as defined by the department, but shall not include a federally funded teacher. It is the intent of the Legislature that all classroom teachers shall utilize these funds in a manner that addresses individual classroom needs and supports the overall goals of the school regarding supplies, instructional materials, equipment, computers or computer software under the provisions of this subparagraph, including the type, quantity and quality of such supplies, materials and equipment. Classroom supply funds allocated under this subparagraph shall supplement, not replace, other local and state funds available for the same purposes. The State Board of Education shall develop and promulgate rules and regulations for the administration of this subparagraph consistent with the above criteria, with particular emphasis on allowing the individual teachers to expend funds as they deem appropriate. Effective with the 2013-2014 school year, the local school board shall require each school to issue procurement cards provided by the Department of Finance and Administration under the provisions of Section 31-7-9(1)(c) for the use of teachers and necessary support personnel in making instructional supply fund expenditures under this section, consistent with the regulations of the Mississippi Department of Finance and Administration pursuant to Section 31-7-9. Such procurement cards shall be issued at the beginning of the school year and shall be issued in equal amounts per teacher determined by the total number of qualifying personnel and the current state appropriation for classroom supplies with the Education Enhancement Fund. Such cards will expire on a pre-determined date at the end of each school year. All unexpended amounts will be carried forward, combined with the following year's allocation of Education Enhancement Fund instructional supplies funds and reallocated for the following year;

(b) Twenty-two and nine one-hundredths percent (22.09%) to the Board of Trustees of State Institutions of Higher Learning for the purpose of supporting institutions of higher learning; and

(c) Fourteen and forty-one one-hundredths percent (14.41%) to the Mississippi Community College Board for the purpose of providing support to community and junior colleges.

(4) The amount remaining in the Education Enhancement Fund after funds are distributed as provided in subsections (2) and (3) of this section shall be disbursed as follows:

(a) Twenty-five Million Dollars (\$25,000,000.00) shall be deposited into the Working Cash-Stabilization Reserve Fund created pursuant to Section 27-103-203(1), until the balance in such fund reaches the maximum balance of seven and one-half percent (7-½%) of the General Fund appropriations in the appropriate fiscal year. After the maximum balance in the Working Cash-Stabilization Reserve Fund is reached, such money shall remain in the Education Enhancement Fund to be appropriated in the manner provided for in paragraph (b) of this subsection.

(b) The remainder shall be appropriated for other educational needs.

(5) None of the funds appropriated pursuant to subsection (3)(a) of this section shall be used to reduce the state's General Fund appropriation for the categories listed in an amount below the following amounts:

(a) For subsection (3)(a)(ii) of this section, Thirty-six Million Seven Hundred Thousand Dollars (\$36,700,000.00);

(b) For the aggregate of minimum program allotments in the 1997 fiscal year, formerly provided for in Chapter 19, Title 37, Mississippi Code of 1972, as amended, excluding those funds for transportation as provided for in paragraph (a) of this subsection.

**Joint Legislative Committee Note** — Pursuant to Section 1-1-109, the Joint Legislative Committee on Compilation, Revision and Publication of Legislation corrected a typographical error in paragraph (c) of subsection (3) in the first version. The words “Fourteen and forty-one hundredths percent” were changed to “Fourteen and forty-one one-hundredths percent”. The Joint Committee ratified the correction at its May 20, 1998 meeting.

Pursuant to Section 1-1-109, the Joint Legislative Committee on Compilation, Revision and Publication of Legislation corrected an error in this section, as amended by Laws of 2001, ch. 518, § 1. The reference in (4)(a) to “paragraph (b) of this section” was changed to “paragraph (b) of this subsection.” The Joint Committee ratified the correction at its April 26, 2001 meeting.

Section 39 of Chapter 397, Laws of 2014, effective July 1, 2014 (approved March 19, 2014), amended this section. Section 7 of Chapter 442, Laws of 2014, effective from and after passage (approved March 26, 2014), also amended this section. As set out above, this section reflects the language of both amendments, pursuant to Section 1-1-109 which gives the Joint Legislative Committee on Compilation, Revision and Publication of Legislation authority to integrate amendments so that all versions of the same code section enacted within the same legislative session may become effective. The Joint Committee on Compilation, Revision and Publication of Legislation ratified the integration of these amendments as consistent with the legislative intent at the July 24, 2014, meeting of the Committee.

Pursuant to Section 1-1-109, the Joint Legislative Committee on Compilation, Revision and Publication of Legislation corrected an error in an internal reference at the end of the section by substituting “paragraph (a) of this subsection” for “subsection

(5)(a) in this section.” The Joint Committee ratified the correction at its July 24, 2014, meeting.

**Editor’s Note** — Section 1 of ch. 557, Laws of 1997, amended this section, effective July 1, 1997. Section 25 of ch. 612, Laws of 1997, effective July 1, 2002, also amended this section. The first version set out above reflects the language of Section 1 of ch. 557, Laws of 1997, and the second version reflects the language of Section 25 of ch. 612, Laws of 1997.

Laws of 1997, ch. 612, was vetoed by the Governor on April 10, 1997. The veto was overridden at the 1st 1997 Extraordinary Session of the Legislature on April 23, 1997.

Laws of 2001, ch. 518, was House Bill No. 776, 2001 Regular Session, and originally passed both Houses of the Legislature on March 24, 2001. The Governor vetoed House Bill 776 on March 30, 2001. The veto was overridden by the State Senate and by the State House of Representatives on March 30, 2001.

Laws of 2006, ch. 504, § 1(1), codified as § 37-161-1(1), provides as follows:

“SECTION 1. (1) This act shall be known and may be referred to as the ‘Mississippi Education Reform Act of 2006.’”

Former Section 19 of Chapter 504, Laws of 2006, provided for the repeal of this section, effective June 30, 2009. Section 1 of Chapter 345, Laws of 2009, amended Section 19 of Chapter 504, Laws of 2006, to remove the repealer for this section.

**Amendment Notes** — The 2012 amendment added the last four sentences in (3)(a)(iii).

The 2013 amendment in the fourteenth sentence in (3)(a)(iii), substituted “2013-2014” for “2012-2013” and “may authorize” for “shall require.”

The first 2014 amendment (ch. 397) substituted “Mississippi Community College Board” for “State Board for Community and Junior Colleges” in (3)(c).

The second 2014 amendment (ch. 442), in (3)(a)(iii), deleted the fifth, seventh and ninth through twelfth sentences, which read: “Two (2) or more teachers may agree to pool their classroom supply funds for the benefit of a school within the district,” “This plan shall be submitted in writing to the school principal for approval,” and “School districts need not fully expend the funds received under this subparagraph in the year in which they are received, but such funds may be carried forward for expenditure in any succeeding school year. Any individual teacher or group of teachers with an approved spending plan that has not been fully funded need not expend the funds allocated under this subparagraph in the year in which such funds are received. Such funds may be carried forward for expenditure in any subsequent school year in which the plan is fully funded. However, beginning July 1, 2006, any funds allocated under this subparagraph which are not reserved in an approved spending plan but remain unspent on March 31 of the fiscal year in which the funds were allotted must be utilized by the school where the teacher is employed for instructional supply and equipment purposes” respectively; substituted “eligible teachers” for “school districts in the proportion that the average daily attendance of each school district bears to the average daily attendance of all school districts,” “determine and submit to the State Department of Education the number of teachers eligible to receive an allocation for the current year” for “allocate classroom supply funds equally among all classroom teachers in the school district,” and “utilize these funds in a manner” for “be involved in the development of a spending plan”; and inserted “through the use of procurement cards” and “On or before September 1 of each year.”

## ATTORNEY GENERAL OPINIONS

Mississippi EdNet Institute, Inc., is not “public body” governed by Open Meetings Law and Public Records Act, but EdNet is not prohibited from adopting standards imposed by these Acts for its operating procedures. Jaeger, Oct. 21, 1992, A.G. Op. #92-0765.

Specifically in regard to instructional television fixed services’ educational television channel, Miss. Code Section 37-63-9 authorizes Mississippi Authority for Educational Television as to acquisition and operation of educational television matters. Ray, Jan. 11, 1993, A.G. Op. #93-0854.

Operation of multi-channel interactive video systems’ (ITFS’) educational television channels is proper governmental function as recognized by enabling statutes of respective boards and agency and Miss. Code Section 37-63-9(2); since this is true, then boards and agency operating these channels have authority to assign personnel to work with EdNet Institute of Mississippi, Inc.(EdNet) to enable EdNet to perform duties and tasks necessary to operate ITFS channels for state licensees. Ray, Jan. 11, 1993, A.G. Op. #93-0854.

**§ 37-63-10. Conflicts of interest.**

No individual who sits on any board or authority empowered to contract with the Educational Television Authority or to appoint members to the board which shall govern the use of the ITFS channels shall own or be interested in, directly or indirectly, any interest in any private organization doing business under the FCC license herein approved.

**§ 37-63-11. Request and receipt of state funds; gifts and grants; contracts; special fund for expenses; costs of services.**

(1) The Authority for Educational Television is empowered to request and to receive such state funds for educational television construction and operation as may be appropriated or allocated to it, and to solicit and receive contributions, matching funds, gifts, bequests and devises from any source, whether federal, state, public or private. It may enter into agreements with federal, state, public or private agencies, departments, institutions, firms, corporations or persons for the production, transmission, sale, lease or purchase of educational television and educational radio programs, or any research and development projects, joint ventures pertaining to content or other projects that do not duplicate communication facilities or services utilized under contract by the state and that the authority determines are in its best interests. The authority may enter into any contracts and other agreements necessary for those purposes, and in doing so, the authority may

agree to terms of indemnification, the law of another state or jurisdiction or other necessary terms when, in the judgment of the authority, that would be in its best interests. The authority may delegate to its executive director its power to enter into these contracts or other agreements, or to exercise any of its other powers, in accordance with guidelines established by the authority. All materials produced or received by the authority in the exercise of its power, in the preceding provisions of this subsection, that are protected by copyright or considered confidential or proprietary information of third parties, shall not be public records. All such materials shall not be subject to release under the Public Records Act. The authority may also lease antenna space on television towers which it owns. Before the authority is empowered to contract for communication facilities to carry television signals, it shall obtain written authority to do so from the Department of Finance and Administration in order to ensure that there be no duplication of state communication facilities.

(2) There is hereby established in the State Treasury a special fund for the purpose of providing for the payment of all expenses in respect to the administration of this chapter. Such fund shall be administered by the authority. The State Treasurer shall be the custodian of such funds and all monies and securities in such fund shall be held in trust by such Treasurer and shall not be the money or property of the state. The State Treasurer is authorized to disburse monies from such fund only upon order of the authority. The official bond of the State Treasurer shall be conditioned for the faithful performance of his duty hereunder. The State Treasurer shall deposit any monies paid into such fund into such qualified depository banks as the authority may designate and is authorized to invest any portion of the fund which, in the opinion of the authority, is not needed for current requirements in the same manner and subject to all provisions of the law with respect to the deposit of state funds by such Treasurer. All interest earned by such portion of the fund as may be invested by the State Treasurer shall be collected by him and placed to the credit of such fund.

(3) The Authority for Educational Television is empowered to provide noncommercial production or reproduction services for other public agencies, and may collect the costs of providing the services from the public agency. These costs shall be deposited into the special fund.

**§ 37-65-119. Duties incumbent upon board of trustees upon filing of petitions to reopen schools.**

If a petition or petitions be filed with the secretary or president of the board of trustees, signed in person in accord with the provisions of this article by three-fifths of the persons who are qualified electors in or of the school district in which any one or more schools have been closed and three-fifths of the qualified electors who reside in the territory comprising the attendance area, if any has been designated, served by any school which may be closed, requesting the opening of a school or schools which have been closed and specifying the school or schools the re-opening of which is requested by the petition they signed, then it shall be the mandatory duty of such board of trustees to forthwith determine whether said petition or petitions are signed by the said requisite number of said qualified electors. In order to facilitate the determination by the board of whether the petition or petitions have been signed by the requisite number of said qualified electors and so that the board of trustees may have the completed petitions before it upon which its determination shall be made, all petitions requesting the opening of the same school or schools shall be filed not later than seven days after the filing of the first petition addressed to the re-opening of the same school or schools; in computing such period of time the day of filing the said first petition shall be excluded.

The board of trustees with whom any such petition or petitions are filed shall check and verify every petition or petitions filed with it to determine whether it be properly signed or executed by the required number of qualified electors. Such board of trustees is fully authorized to employ such person or persons, including counsel, as it may deem necessary in order to expeditiously make such investigation, and it is also authorized to hold such hearing or hearings as it may deem necessary in and about its said investigation and determination. All persons purporting to have signed said petition or petitions

shall cooperate with said board of trustees in and about such investigation and determination.

The said board of trustees shall diligently proceed with and complete its investigation and determination of whether said petition or petitions are signed by the requisite number of qualified electors so as to avoid unnecessary delay and in any event shall complete same within not more than forty-five days after the last day upon which, in accord with this section, any petition or petitions may be filed as above provided for. The verification by the board of trustees of the signatures to said petition or petitions shall include an examination of the records on file in the office of the circuit clerk or registrar of the county or counties in which the school district involved may be situated. If it be apparent upon the face of the petition or petitions that same are not signed by the requisite number of qualified electors, when all petitions are considered together which may have been filed within such period of time above provided for, the said board of trustees may make its determination upon the sufficiency of said petition without making the detailed investigation or incurring the expense which would otherwise be incurred by such investigation and check of the records.

Within three days after the board of trustees shall have determined whether said petition or petitions do or do not contain the requisite number of signatures to re-open any school or schools therein designated, it shall hold a regular or special meeting at the place where its regular meetings are held, if the building containing same be then in existence, or, otherwise, in some other public place within the district to be selected by the president of said board of trustees, and there make the official announcement and determination of the sufficiency or insufficiency of the said petition or petitions to cause a re-opening of any school or schools which have been closed in accord with the terms of this article and enter an order evidencing its determination. If it finds that said petition or petitions are insufficient to cause such a re-opening of any such school, it shall so state in its order, but if it finds that the petition or petitions are sufficient in accord with the terms of this article to cause a re-opening of any school or schools previously closed, it shall order that the school or schools be re-opened and go into operation within one week from the date of such meeting; the day of the entry of such order shall be included in such computation of time. Upon the entry of such order all students which have been transferred to other schools and all employees who have been working in other schools and all other employees and all other students who were enrolled in any school or schools which were closed shall, on the day appointed for the re-opening of said school or schools, report for classes and duty in the school or schools where they were attending or working when such school or schools were closed, and such order shall automatically be a re-transfer of such students and employees.

### **§ 37-65-121. Copies of petition shall be forwarded to state superintendent of public education.**

A signed duplicate original copy or a photostatic or other reproduced copy, not a hand or typewritten copy, of the petition or petitions provided for in Section 37-65-119, shall be sent by registered or certified mail to the state superintendent of public education on the day when one such copy shall have been filed with or delivered to the president or secretary of the board of trustees to which such petitions be directed. Such copy or copies above mentioned may be transmitted to the state superintendent of public education by the person or persons filing or delivering same to said president or secretary of said board of trustees and shall be accompanied by the oath of such person or persons as to such facts and the date or dates on which such action was done. If such is not done the original petition shall have no validity.

All duplicate original signed copies or other copy or copies of said petitions, as hereinabove provided for, shall be preserved for not less than one calendar year from the date of said filing and same shall be public records.

### **§ 37-65-123. “Qualified elector” defined.**

The words “qualified elector” or “qualified electors” for the purposes of this article, shall in addition to the provisions of the first paragraph of Section 37-65-119, mean:

A person, who on the day he signs any petition provided for in said section, is properly registered and qualified to vote in a county wide election of the county if such were then held, according to the books and records in the office of the circuit clerk and registrar of the county, in which all or any part of the school district is located, and who is a resident of the school district in which one or more schools have been closed, and who (a) is qualified to vote in an election of a trustee of that school district, if any be elective and (b) if the school district be a municipal separate school district or a special municipal separate school district and such person lives within the corporate limits of the municipality then such person must be qualified to vote in a city wide election if such were held on the day he signs any petition herein provided for.

**SOURCES:** Codes, 1942, § 6232-43; Laws, 1960, ch. 316, § 3, eff from and after passage (approved April 27, 1960).

### **§ 37-65-125. Details of petitions.**

No person shall sign any such petition or petitions provided for in Section 37-65-119 who is not a qualified elector. All petitions shall be signed in person.

Opposite or under his name, every signer shall, in a manner readily identifiable with his name, give the following information: his post office and street address, if any; the name in or by which he is registered upon the county registration books; his occupation; where employed, if employed; the voting precinct where he last voted if he has voted within the last three years; if the school district includes part of two judicial districts and has two offices of the circuit clerk and registrar, he shall specify the municipality in which is located the circuit clerk's office where he is registered; and whether he is parent, natural or adoptive, or guardian, as the case may be, of a child or children enrolled in a school of the district and if so, the name of the child or children and the school in which said child or children may be enrolled. Any name signed to such a petition which does not give all information required above shall not constitute a valid signature to any such petition and shall be disregarded in computing the number of qualified electors who may have signed any such petition.

### **§ 37-65-127. Board may act at regular or special meeting.**

**SOURCES:** Codes, 1942, § 6232-44; Laws, 1960, ch. 316, § 4, eff from and after passage (approved April 27, 1960).

### **§ 37-65-129. Appeals.**

In the event any board of trustees shall fail or refuse to comply with the provisions of Sections 37-65-119 through 37-65-127, a failure to act being equivalent to a refusal, then any ten or more qualified electors who have personally signed said petition may appeal from the action or nonaction of such board of trustees to the chancery court of the county in which all or a major portion of such school district is situated, within twenty days after the date by which said board is required to determine whether such petition or petitions are properly signed by the required percentage of qualified electors necessary to require the opening of any school or schools of the district which have been closed. Such appeal shall not serve as a supersedeas or cause an opening of such school or schools pending the hearing of the appeal unless a court or chancellor in vacation, for good cause shown, orders such school or schools to be opened pending the appeal. The appeal shall be by sworn bill of complaint, filed in such chancery court within said twenty-day period. The secretary of the

interested board or boards of trustees shall, within fifteen days after the filing of such bill of complaint, file in such chancery court a certified copy of all orders, petitions and findings by such board of trustees; however, he may, in his discretion, file, instead of making copies thereof, the duplicate original copy of the petitions theretofore filed or delivered, if such has been done, with the president or secretary of said board of trustees. Neither the provisions of this section nor any other provision of this article shall be or constitute any waiver of the immunity from suit of any school district or member of the board of trustees thereof except strictly in accord with the terms of this article.

The hearing on appeal shall be de novo and may be heard in term time or in vacation on such date as the chancellor may set. The court may enter such order as the board of trustees involved should have made or affirm the action of such board of trustees. Said appeal shall be tried in the same manner and by the same rules of pleading, procedure and evidence as other causes in chancery courts of Mississippi. The action of such board of trustees shall be affirmed if there be substantial evidence to support the action taken by it. The said board and any qualified electors of the district, by proper pleading, answer or demurrer as used in the chancery courts of this state, may defend the action or nonaction of the board from which the appeal is taken, and be a party thereto.

Any parties to such appeal may appeal from the decision of the chancellor or chancery court to the supreme court of Mississippi as in appeals in other cases from the chancery courts of this state and such case shall be a preference case and treated as such.

### § 37-65-131. Construction of article.

The fact that the power and authority to close any one or more or all of the schools of any school district may, by some other law of the State of Mississippi, be vested in some other person or officer or board shall not cause this article and any other such law to be in conflict nor shall the same be construed to be in conflict with each other, and the power and authority vested in each such board or boards of trustees or person or officer may be exercised by each or either, independent of the other such board or boards or person or persons or officer or officers.

## JUDICIAL DECISIONS

1. In general.
2. Constitutionality.
3. Relationship to other laws.
4. Immunity.

### 1. In general.

Trial court properly granted a university's motion to dismiss plaintiff's personal injury complaint where the university was definitively identified as an institution of the State of Mississippi; therefore, service of process was dictated by Miss. R. Civ. P. 4(d)(5), and plaintiff should have served the Attorney General of the State of Mississippi rather than the university president. *Jones v. Miss. State Univ.*, 948 So. 2d 509 (Miss. Ct. App. 2007).

University of Mississippi Medical Center (UMC) purchasing policies are authorized by the Board of Trustees by virtue of the authority bestowed upon them by the legislature and, therefore, are not merely internal policies. Whether for a purchase or a lease, certain procedures are required by statute for letting a contract with the State of Mississippi. Board of Trustees of State Insts. of Higher Learning v. Peoples Bank, 538 So. 2d 361 (Miss. 1989).

The University of Southern Mississippi is an agency of the state, controlled by a legislative grant of authority to the Board of Trustees of State Institutions of Higher Learning. *Bruner v. University of S. Miss.*, 501 So. 2d 1113 (Miss. 1987).

### 2. Constitutionality.

The Board of Trustees of State Institutions of Higher Learning is part of the executive branch of government rather than an autonomous branch of government, and thus does not constitute a fourth branch of government inconsistent with the Mississippi Constitution. *Van*

*Slyke v. Board of Trustees of State Insts. of Higher Learning*, 613 So. 2d 872 (Miss. 1993).

The Board of Trustees of State Institutions of Higher Learning is an executive rather than a legislative body as indicated by the enumeration of the Board of Trustees' powers and duties contained within the Mississippi Constitution and applicable statutes; thus, appointment of the Board of Trustees by the Governor rather than the legislature is not an encroachment upon the powers of the legislative branch of the government. *Van Slyke v. Board of Trustees of State Insts. of Higher Learning*, 613 So. 2d 872 (Miss. 1993).

### 3. Relationship to other laws.

Board of trustees of state institution of higher learning is not exempt from Open Meeting Act (§§ 25-41-1 et seq.) under either Mississippi Constitution (§ 213-A) or its companion statute (§§ 37-101-1 et seq.). *Board of Trustees of State Insts. of Higher Learning v. Mississippi Publishers Corp.*, 478 So. 2d 269 (Miss. 1985).

### 4. Immunity.

Former state university student's 42 U.S.C.S. §§ 1981, 1983 race discrimination claims against the university, a state board of trustees, and several professors were barred under the U.S. Const. Amend. XI doctrine of sovereign immunity; both the university and the board were arms of the State of Mississippi where the board was created pursuant to Miss. Const. Art. 8, § 213A, the Mississippi Legislature granted further authority to the board via Miss. Code Ann. § 37-101-1, and the university was a public university created by statute and placed under the auspices of the board via Miss. Code Ann. §§ 37-125-1

et seq. and 37-101-1. *Washington v. Jackson State Univ.*, 532 F. Supp. 2d 804 (S.D. Miss. Mar. 15, 2006), appeal dismissed by 244 Fed. Appx. 589, 2007 U.S. App. LEXIS 18811 (5th Cir. Miss. 2007).

Though an action for refund of tuition payments was brought against the president of Mississippi State University and other university officials, under state law Mississippi is inextricably involved in all

facets of the operation of the university, the university and its officials being part and parcel of the state; thus, the state was the true defendant to the suit and its Eleventh Amendment immunity was applicable. *Jagnandan v. Giles*, 538 F.2d 1166 (5th Cir. 1976), cert. denied, 432 U.S. 910, 97 S. Ct. 2959, 53 L. Ed. 2d 1083 (1977).

### ATTORNEY GENERAL OPINIONS

A county E911 Commission cannot require a state institution of higher learning to join the local emergency communica-

tions system. Tomek, October 16, 1998, A.G. Op. #98-0592.

Sections 43-1-8 and 43-1-10 referred to in this section were repealed by Laws, 1994, ch. 582, § 8, eff from and after July 1, 1984.

**§ 37-101-3. Appointment and terms of office of members of Board of Trustees of State Institutions of Higher Learning; attendance at meetings.**

(1) The Governor, by and with the advice and consent of the Senate, shall appoint the members of the Board of Trustees of State Institutions of Higher Learning, one (1) member from each congressional district of the state as existing as of March 31, 1944, one (1) member from each Supreme Court district and two (2) members from the state at large, with the terms of each to begin on May 8, 1944. One-third ( $\frac{1}{3}$ ) of the membership of said board so appointed shall be appointed for a period of four (4) years, one-third ( $\frac{1}{3}$ ) for a period of eight (8) years and one-third ( $\frac{1}{3}$ ) for a period of twelve (12) years. On the expiration of any of said terms of office the Governor shall appoint successors, by and with the advice and consent of the Senate, for terms of twelve (12) years in each case.

The current president, or his/her designee, of the Student Body President's Council of Mississippi (SBPCM) shall have a reserved seat at each meeting of the Board of Trustees of State Institutions of Higher Learning. No less than once a year, the board shall seek the advise and counsel of the student body president's organization.

(2) In case of a vacancy on said board by death or resignation of a member or from any other cause than the expiration of such member's term of office, the board shall elect his successor who shall hold office until the end of the next session of the Legislature. During such term of the session of the Legislature, the Governor shall appoint the successor member of the board from the district from which his predecessor was appointed to hold office until the end of the period or term for which said original trustee was appointed, to the end that one-third ( $\frac{1}{3}$ ) of such trustees' terms shall expire each four (4) years.

(3) The Executive Director of the Mississippi Community College Board, or his designee, and one (1) member of the Mississippi Community College Board, to be designated by the chairman of said board, shall attend all regular meetings of the Board of Trustees of State Institutions of Higher Learning. Said community/junior college representatives shall have no jurisdiction or vote on any matter within the jurisdiction of the board. The Executive Director of the Mississippi Community College Board and any designee who is a state employee shall receive no per diem for attending meetings of the board, but shall be entitled to actual and necessary expense reimbursement and mileage for attending meetings at locations other than Jackson, Mississippi. The designee of the Mississippi Community College Board shall receive per diem compensation as authorized by Section 25-3-69, Mississippi Code of 1972, for attending said meetings, and shall be entitled to reimbursement for actual expense reimbursement and mileage, which shall be paid from funds appropriated to the Board of Trustees of State Institutions of Higher Learning.

**Editor's Note** — Laws of 1986, ch. 500, § 21, proposed to amend this section, subject, however, to the proviso, contained in § 56 of that chapter, that such amendment would take effect and be in force from and after ratification by the electorate of House Concurrent Resolution No. 278, 1986 Regular Session; however, since House Concurrent Resolution No. 278 was not enacted during the 1986 legislative session, the amendment was not implemented.

**Amendment Notes** — The 2014 amendment substituted "Mississippi Community College Board" for "State Board for Community and Junior Colleges" four times in (3).

## JUDICIAL DECISIONS

### 1. In general.

The appointment of members to the Board of Trustees of State Institutions of Higher Learning does not violate the principle of "one-man, one-vote"; the "one-man, one-vote" rule does not apply to

appointed positions, and therefore is not applicable to appointed members of the Board of Trustees. *Van Slyke v. Board of Trustees of State Insts. of Higher Learning*, 613 So. 2d 872 (Miss. 1993).

## § 37-101-4. Felix La Bauve Scholarship Trust.

There shall be a trusteeship, to be known as the Felix La Bauve Scholarship Trust, for the Felix La Bauve Scholarship that exists for the benefit of the University of Mississippi. The trusteeship shall be composed of three (3) persons. The initial composition of the trusteeship shall be the two (2) persons who last filled the position of La Bauve trustee on the Board of Trustees of State Institutions of Higher Learning and, as an ex officio voting member, the person holding the office of DeSoto County Superintendent of Education. The term of the trustee who served as La Bauve trustee on the Board of Trustees of State Institutions of Higher Learning from 1980-1984 shall be four (4) years. The term of the trustee who served in that position from 1984-1988 shall be eight (8) years. The term of each of the trustees shall begin on June 1, 1988.

At least one (1) month before the expiration of the term of a trustee, other than the DeSoto County Superintendent of Education, the trusteeship shall choose a successor who shall serve a term of eight (8) years. No trustee other than the DeSoto County Superintendent of Education shall serve more than one (1) term of office. Any person chosen as a trustee other than the Superintendent of Education shall be a resident of DeSoto County and shall hold an undergraduate degree from the University of Mississippi.

In case of the death, disability or resignation of any trustee, other than the DeSoto County Superintendent of Education, the trusteeship shall appoint a person to serve the remainder of the term of his predecessor who shall be a resident of DeSoto County and shall hold an undergraduate degree from the University of Mississippi.

The trusteeship shall be responsible for recommending to the Chancellor of the University of Mississippi prospective students who are eligible recipients of the La Bauve Scholarship. The Chancellor shall choose the best

qualified student or students from those nominated, depending on the amount of monies available for scholarship awards.

The Legislature shall continue to appropriate the annual sum to the University of Mississippi that has been paid in lieu of the interest earned on the original corpus of the La Bauve Scholarship Fund until such time as the Legislature restores the original corpus of the fund, adjusted to current value at the time of restoration. Once the Legislature has restored the fund as hereinbefore provided, the annual appropriation shall cease, and scholarships shall be awarded from the income on the corpus of the fund. Thereafter, no expenditure shall be made from the corpus of the fund for any purpose.

**SOURCES:** Laws, 1988, ch. 426, § 2, eff from and after June 1, 1988.

### **§ 37-101-5. Qualifications of members of board.**

There shall be appointed only men or women to membership on the board of trustees of state institutions of higher learning as shall be qualified electors residing in the district from which each is appointed and at least twenty-five years of age and of the highest order of intelligence, character, learning and fitness for the performance of such duties to the end that such board shall perform the high and honorable duties thereof to the greatest advantage of the people of the state and of such institutions, uninfluenced by any political considerations.

## **JUDICIAL DECISIONS**

### **1. In general.**

The appointment of members to the Board of Trustees of State Institutions of Higher Learning does not violate the principle of "one-man, one-vote"; the "one-man, one-vote" rule does not apply to

appointed positions, and therefore is not applicable to appointed members of the Board of Trustees. *Van Slyke v. Board of Trustees of State Insts. of Higher Learning*, 613 So. 2d 872 (Miss. 1993).

### **§ 37-101-7. Organization of board; Commissioner of Higher Education; employment of personnel.**

Within ten (10) days after the beginning of the terms of office of its members, upon call of the Governor, the Board of Trustees of State Institutions of Higher Learning shall meet in the City of Jackson and organize by electing one (1) of its number as president, whose term of office shall be for one (1) year or until a successor shall be elected, and shall transact such other business as may come before the meeting. When the presiding officer has voted and the result is a tie, he cannot vote again to break the tie.

The trustees shall have authority to appoint a nonmember as Commissioner of Higher Education, who shall possess the highest qualifications as an administrator and research worker. The Commissioner of Higher Education shall maintain an office and be responsible to the board for the efficient

functioning of the staff which the board may from time to time establish. It shall be the duty of the Commissioner of Higher Education to make constant inquiry into the problems of higher education, to survey and study carefully the organization, management and all other affairs of each institution under the control of said trustees, to make report of all findings and recommend such changes as will increase efficiency and economy in the operation of each institution, and to perform such other duties as the board may prescribe. The Commissioner of Higher Education shall be responsible for compiling all laws and all rules and regulations of a general nature adopted by the board for the governance of the various institutions of higher learning in pamphlet or loose-leaf form. Current copies of such compilations shall be furnished to all officials directly responsible for the carrying out of such laws, rules and regulations. The expenses for such compilation and publication shall be paid by the board out of any funds available for the operation of said board.

The trustees shall authorize the employment of such other personnel as may be required from time to time to carry out the functions of the board and may assign to the personnel so employed such functions and duties and may delegate to the commissioner or other personnel such powers of the board as may be necessary to accomplish the purposes for which the board was established. All such personnel shall be employed by the commissioner with the approval of the board and shall hold office at the pleasure of the commissioner. The board shall also have the authority to employ on a fee basis such technical and professional assistance as may be necessary to carry out the powers, duties and purposes of the board.

The Commissioner of Higher Education and other personnel employed by the board shall receive reasonable salaries commensurate with their duties and functions, the amount of which shall be fixed by the board. The reasonable traveling expenses and other authorized expenses incurred by the commissioner and other personnel in the performance of their duties, together with other expenses of the operation of the executive office, shall be prorated and deducted from the appropriations for the current expenses of the several institutions.

### § 37-101-13. Study of role and scope of institutions; supervision and control of programs, etc.

It shall be the duty of the Board of Trustees of State Institutions of Higher Learning and the boards of trustees of the community colleges to begin immediately a comprehensive study of gaming and related programs, degrees and courses offered. Following the completion of such study, the board shall make such adjustments as may be found to be necessary in the programs of the various institutions, to the end that the broadest possible educational opportunities shall be offered to the citizens of this state without inefficient and needless duplication. Subject to the provisions of Section 75-76-34, the board shall, through such officers of the board and through such procedures as it shall see fit to establish, exercise continuing jurisdiction and control over the establishment of new courses of study, new departments and new functions and activities in each institution so that the growth and development of the program of higher education in the state shall proceed in an orderly and rational manner, inefficient and needless duplication may be avoided, and new expanded programs will be undertaken only as the same may become justified, based upon objective criteria to be established by the board. In carrying out the purposes of this section, particular attention shall be given to the extension programs of the various institutions. The boards, in conjunction with the chancellor and presidents of the institutions, shall take such steps as may be necessary to improve and coordinate such programs and shall exercise such direct control over the establishment, organization, operation and granting of credit for such programs as may be necessary to accomplish such purposes.

all of the various institutions under its jurisdiction, including a detailed study of the programs of study, degrees and courses offered"; added "Subject to the provisions of Section 75-76-34" to the beginning of the third sentence; and deleted "of Higher learning" following "institutions" in the last sentence made a minor stylistic change.

## JUDICIAL DECISIONS

### 1. In general.

The Board of Trustees of State Institutions of Higher Learning is an executive rather than a legislative body as indicated by the enumeration of the Board of Trustees' powers and duties contained within the Mississippi Constitution and appli-

cable statutes; thus, appointment of the Board of Trustees by the Governor rather than the legislature is not an encroachment upon the powers of the legislative branch of the government. *Van Slyke v. Board of Trustees of State Insts. of Higher Learning*, 613 So. 2d 872 (Miss. 1993).

### § 37-101-15. General powers and duties of board.

(a) The Board of Trustees of State Institutions of Higher Learning shall succeed to and continue to exercise control of all records, books, papers, equipment, and supplies, and all lands, buildings, and other real and personal property belonging to or assigned to the use and benefit of the board of trustees formerly supervising and controlling the institutions of higher learning named in Section 37-101-1. The board shall have and exercise control of the use, distribution and disbursement of all funds, appropriations and taxes, now and hereafter in possession, levied and collected, received, or appropriated for the use, benefit, support, and maintenance or capital outlay expenditures of the institutions of higher learning, including the authorization of employees to sign vouchers for the disbursement of funds for the various institutions, except where otherwise specifically provided by law.

(b) The board shall have general supervision of the affairs of all the institutions of higher learning, including the departments and the schools thereof. The board shall have the power in its discretion to determine who shall be privileged to enter, to remain in, or to graduate therefrom. The board shall have general supervision of the conduct of libraries and laboratories, the care of dormitories, buildings, and grounds; the business methods and arrangement of accounts and records; the organization of the administrative plan of each institution; and all other matters incident to the proper functioning of the institutions. The board shall have the authority to establish minimum standards of achievement as a prerequisite for entrance into any of the institutions under its jurisdiction, which standards need not be uniform between the various institutions and which may be based upon such criteria as the board may establish.

(c) The board shall exercise all the powers and prerogatives conferred upon it under the laws establishing and providing for the operation of the several institutions herein specified. The board shall adopt such bylaws and regulations from time to time as it deems expedient for the proper supervision and control of the several institutions of higher learning, insofar as such bylaws and regulations are not repugnant to the Constitution and laws, and not inconsistent with the object for which these institutions were established. The board shall have power and authority to prescribe rules and regulations for policing the campuses and all buildings of the respective institutions, to authorize the arrest of all persons violating on any campus any criminal law of the state, and to have such law violators turned over to the civil authorities.

(d) For all institutions specified herein, the board shall provide a uniform system of recording and of accounting approved by the State Department of Audit. The board shall annually prepare, or cause to be prepared, a budget for each institution of higher learning for the succeeding year which must be prepared and in readiness for at least thirty (30) days before the convening of the regular session of the Legislature. All relationships and negotiations between the State Legislature and its various committees and the institutions named herein shall be carried on through the board of trustees. No official, employee or agent representing any of the separate institutions shall appear before the Legislature or any committee thereof except upon the written order of the board or upon the request of the Legislature or a committee thereof.

(e) For all institutions specified herein, the board shall prepare an annual report to the Legislature setting forth the disbursements of all monies appropriated to the respective institutions. Each report to the Legislature shall show how the money appropriated to the several institutions has been expended, beginning and ending with the fiscal years of the institutions, showing the name of each teacher, officer, and employee, and the salary paid each, and an itemized statement of each and every item of receipts and expenditures. Each report must be balanced, and must begin with the former balance. If any property belonging to the state or the institution is used for profit, the reports shall show the expense incurred in managing the property and the amount received therefrom. The reports shall also show a summary of the gross receipts and gross disbursements for each year and shall show the money on hand at the beginning of the fiscal period of the institution next preceding each session of the Legislature and the necessary amount of expense to be incurred from said date to January 1 following. The board shall keep the annual expenditures of each institution herein mentioned within the income derived from legislative appropriations and other sources, but in case of emergency arising from acts of providence, epidemics, fire or storm with the written approval of the Governor and by written consent of a majority of the senators and of the representatives it may exceed the income. The board shall require a surety bond in a surety company authorized to do business in this state, of every employee who is the custodian of funds belonging to one or more of the institutions mentioned herein, which bond shall be in a sum to be fixed by the board in an amount that will properly safeguard the said funds, the

premium for which shall be paid out of the funds appropriated for said institutions.

(f) The board shall have the power and authority to elect the heads of the various institutions of higher learning and to contract with all deans, professors, and other members of the teaching staff, and all administrative employees of said institutions for a term of not exceeding four (4) years. The board shall have the power and authority to terminate any such contract at any time for malfeasance, inefficiency, or contumacious conduct, but never for political reasons. It shall be the policy of the board to permit the executive head of each institution to nominate for election by the board all subordinate employees of the institution over which he presides. It shall be the policy of the board to elect all officials for a definite tenure of service and to reelect during the period of satisfactory service. The board shall have the power to make any adjustments it thinks necessary between the various departments and schools of any institution or between the different institutions.

(g) The board shall keep complete minutes and records of all proceedings which shall be open for inspection by any citizen of the state.

(h) The board shall have the power to enter into an energy performance contract, energy services contract, a shared-savings, lease or lease-purchase basis, for energy efficiency services and/or equipment as prescribed in Section 31-7-14.

(i) The Board of Trustees of State Institutions of Higher Learning, for and on behalf of Jackson State University, is hereby authorized to convey by donation or otherwise easements across portions of certain real estate located in the City of Jackson, Hinds County, Mississippi, for right-of-way required for the Metro Parkway Project.

(j) In connection with any international contract between the board or one (1) of the state's institutions of higher learning and any party outside of the United States, the board or institution that is the party to the international contract is hereby authorized and empowered to include in the contract a provision for the resolution by arbitration of any controversy between the parties to the contract relating to such contract or the failure or refusal to perform any part of the contract. Such provision shall be valid, enforceable and irrevocable without regard to the justiciable character of the controversy. Provided, however, that in the event either party to such contract initiates litigation against the other with respect to the contract, the arbitration provision shall be deemed waived unless asserted as a defense on or before the responding party is required to answer such litigation.

(k) The Board of Trustees of State Institutions of Higher Learning ("board"), on behalf of any institution under its jurisdiction, shall purchase and maintain business property insurance and business personal property insurance on all university-owned buildings and/or contents as required by federal law and regulations of the Federal Emergency Management Agency (FEMA) as is necessary for receiving public assistance or reimbursement for repair, reconstruction, replacement or other damage to those buildings and/or contents caused by the Hurricane Katrina Disaster of 2005 or subsequent

disasters. The board is authorized to expend funds from any available source for the purpose of obtaining and maintaining that property insurance. The board is authorized to enter into agreements with the Department of Finance and Administration, local school districts, community/junior college districts, community hospitals and/or other state agencies to pool their liabilities to participate in a group business property and/or business personal property insurance program, subject to uniform rules and regulations as may be adopted by the Department of Finance and Administration.

(l) The Board of Trustees of State Institutions of Higher Learning, or its designee, may approve the payment or reimbursement of reasonable travel expenses incurred by candidates for open positions at the board's executive office or at any of the state institutions of higher learning, when the job candidate has incurred expenses in traveling to a job interview at the request of the board, the Commissioner of Higher Education or a state institution of higher learning administrator.

**Editor's Note** — Laws of 2006, ch. 554, § 4 provided as follows:

“SECTION 4. (1) There is created a commission to study the effectiveness and efficiency of the administration of college tuition assistance programs administered by the Institutions of Higher Learning. In addition, the commission shall evaluate merit based college tuition assistance programs and establish procedures and guidelines for implementing merit based programs.

“The commission shall make a report of its findings and recommendations to the House and Senate Education Committees and to the House and Senate Universities and Colleges Committees by October 1, 2006, including any recommended legislation. Upon submission of its report to the Legislature the commission shall be dissolved.

“(2) The commission shall be composed of the following five (5) members:

“(a) A representative of the State Department of Education, to be appointed by the State Superintendent of Public Education;

“(b) A representative from the Institutions of Higher Learning, to be appointed by the commissioner;

“(c) A representative from the State Board for Community and Junior Colleges, to be appointed by the executive director;

“(d) A representative from the Mississippi Association of Independent Colleges appointed by the President of the Mississippi Association of Independent Colleges; and

“(e) The State Treasurer, or his designee.

“(3) Appointments shall be made within thirty (30) days after the effective date of this act. The commission shall hold its first meeting before July 15, 2006.

“(4) Members of the commission may not be compensated for the performance of their duties. Any incidental costs associated with conducting the study shall be paid by the State Department of Education.

“(5) To effectuate the purposes of this section, any department, division, board, bureau, commission or agency of the state or of any political subdivision thereof shall, at the request of the chairperson of the task force, provide to the commission such facilities, assistance and data as will enable the commission to properly carry out its duties.”

Laws of 2011, ch. 511, § 2, provides:

“SECTION 2. (1) The State Board of Education, in conjunction with the Board of Trustees of State Institutions of Higher Learning and the State Board for Community and Junior Colleges, shall study and develop a comprehensive report and recommendations to the 2012 Legislature, by January 2, 2012, on the implementation, expansion and costs associated with the establishment of an Adult High School Diploma. The Chairmen of the House and Senate Education Committees, or their respective designees, and a representative appointed by the Governor, shall serve on the study panel for the development of an Adult High School Diploma.

“(2) The gubernatorial appointment to the study panel shall be made within thirty (30) days after the effective date of this act [April 26, 2011].

“(3) Legislative members of the study panel shall serve without compensation for their services, but may be reimbursed for necessary expense in attending to the actual business of the study panel from any available funds, as provided by law. Legislative members shall be reimbursed from the contingent expense fund of their respective house, but only with the specific approval of the Rules Committee of the respective house; however, no expense for attending meetings of the study panel may be paid while the Legislature is in session.”

Section 37-4-5 provides that the terms “Junior College Commission” and “State Board for Community and Junior Colleges,” wherever they appear in the laws of Mississippi, shall mean the “Mississippi Community College Board.”

**Amendment Notes** — The 2014 amendment, in (h), substituted “power to enter into an energy performance contract, energy services contract” for “power to contract, on” and deleted “not to exceed ten (10) years” from the end.

## JUDICIAL DECISIONS

1. In general.
2. Employment issues.
3. Purchasing authority.

### 1. In general.

The Board of Trustees of State Institutions of Higher Learning is part of the executive branch of government rather than an autonomous branch of government, and thus does not constitute a fourth branch of government inconsistent with the Mississippi Constitution. *Van Slyke v. Board of Trustees of State Insts. of Higher Learning*, 613 So. 2d 872 (Miss. 1993).

The Board of Trustees of State Institutions of Higher Learning is an executive rather than a legislative body as indicated by the enumeration of the Board of Trustees' powers and duties contained within the Mississippi Constitution and applicable statutes; thus, appointment of the Board of Trustees by the Governor rather than the legislature is not an encroachment upon the powers of the legislative branch of the government. *Van Slyke v. Board of Trustees of State Insts. of Higher Learning*, 613 So. 2d 872 (Miss. 1993).

The University of Southern Mississippi is an agency of the state, controlled by a

legislative grant of authority to the Board of Trustees of State Institutions of Higher Learning. *Bruner v. University of S. Miss.*, 501 So. 2d 1113 (Miss. 1987).

This [Code 1942, § 6724] and the following sections of that chapter fix the duties of the board of trustees of state institutions. *Meredith v. Fair*, 202 F. Supp. 224 (S.D. Miss. 1962), motion denied, 305 F.2d 341 (5th Cir. 1962), mandate recalled, 306 F.2d 374 (5th Cir. 1962), cert. denied, 371 U.S. 828, 83 S. Ct. 49, 9 L. Ed. 2d 66 (1962), rev'd on other grounds, 305 F.2d 343 (5th Cir. 1962).

### 2. Employment issues.

After learning of the former professor's affair with a student at a university where he previously taught, the decision of the former president of the university and the former vice-president of academic affairs to recommend the professor for only a one-year position necessarily involved an act of choice or judgment, as by nature the president's and vice-president's administrative positions at the university required them to make those types of choices and judgments regarding the faculty, and Miss. Code Ann. § 37-101-15(f) provided that the executive head of the

university nominate for election all subordinate employees of the university; nothing in the statute limited the discretion of the president and thus the action by the president and vice-president recommending the professor for one year's employment instead of tenure-track, after learning of the affair with the student, was a discretionary act immune from suit under Miss. Code Ann. § 11-46-9(1)(d). *Suddith v. Univ. of S. Miss.*, 977 So. 2d 1158 (Miss. Ct. App. 2007), writ of certiorari denied by 977 So. 2d 1144, 2008 Miss. LEXIS 150 (Miss. 2008).

A college professor did not have a property interest protected by due process in his grant of tenure. Section 37-101-15 empowers the Board of Trustees of Institutions of Higher Learning to terminate professors' employment contracts at any time for malfeasance, inefficiency or contumacious conduct but does not create a legitimate expectation of continued employment for a non-tenured employee. If a state regulation conditions receipt of a benefit upon a discretionary decision of an administrator, there is no legitimate claim of entitlement to the benefit. *Wicks v. Mississippi Valley State Univ.*, 536 So. 2d 20 (Miss. 1988).

The University of Southern Mississippi was not liable to an assistant coach under an employment contract which he allegedly entered into with the university's head football coach, because the head football coach was without authority to offer a valid employment contract which can only be created where the Board of Trustees of State Institutions of Higher Learning approves a nomination of the school's president, as shown upon the minutes of the board of trustees. *Bruner v. University of S. Miss.*, 501 So. 2d 1113 (Miss. 1987).

Since, pursuant to § 37-101-15(f), state university security officer could be terminated only for cause, he had protected property interest in employment until date of expiration of his employment contract, and he was entitled to receive (1) notice of reasons for his termination and (2) effective opportunity to rebut those reasons. *Robinson v. Boyer*, 643 F. Supp. 975 (N.D. Miss. 1986), *aff'd*, 825 F.2d 64 (5th Cir. 1987).

Miss Code § 37-101-15(f), providing that the board of trustees of a state uni-

versity shall have the power and authority to terminate employment contracts at any time for malfeasance, inefficiency, or contumacious conduct, but never for political reasons, did not create a reasonable expectation of continued employment for a non-tenured university employee. *Montgomery v. Boshears*, 698 F.2d 739 (5th Cir. 1983).

The office of secretary, treasurer and business manager of the Alcorn Agricultural and Mechanical College is not a public office within the meaning of the constitution § 175, providing exclusive method of removing a public officer. *McClure v. Whitney*, 120 Miss. 350, 82 So. 259 (1919).

### 3. Purchasing authority.

University of Mississippi Medical Center (UMC) purchasing policies are authorized by the Board of Trustees by virtue of the authority bestowed upon them by the legislature and, therefore, are not merely internal policies. Whether for a purchase or a lease, certain procedures are required by statute for letting a contract with the State of Mississippi. *Board of Trustees of State Insts. of Higher Learning v. Peoples Bank*, 538 So. 2d 361 (Miss. 1989).

In a proceeding instituted by the state building commission to enjoin the board of trustees of state institutions of higher learning from using self-generated funds, as distinguished from legislatively appropriated funds, to construct facilities at the institutions under its supervision without the approval of and control by the building commission, the chancery court properly dissolved a temporary injunction and dismissed the bill of complaint although it should have relied upon Miss Const § 213-A, which gives the board of trustees management and control of the institutions under its supervision, as well as upon § 37-101-15, which sets out the general powers and duties of the board. The powers and duties granted to the building commission under § 31-11-3 apply only to management and control of funds legislatively appropriated to both agencies, while the management and control of self-generated funds remain with the constitutionally organized board of trustees. *State ex rel. Allain v. Board of Trustees of*

Insts. Of Higher Learning, 387 So. 2d 89 (Miss. 1980).

### ATTORNEY GENERAL OPINIONS

Endowment funds donated directly to universities, as opposed to funds contributed to private development foundations established to raise money for universities, are public trust funds for which the Board of Trustees of State Institutions of Higher Learning (IHL) may be held liable in case of any loss of funds. For this reason, the IHL should consider limiting the investment of such funds to the types enumerated in the statutes to protect against possible loss and liability therefor. McLeod, January 16, 1998, A.G. Op. #97-0811.

Universities may lease property to private foundations for their use if such action is in the best interest of and furthers the missions of the universities; there should be rental or lease agreements memorializing the arrangements between

the universities and the foundations, and consideration for the leases may take the form of payments in cash or such other benefit to the universities as may arise from the arrangements. Bryant, November 6, 1998, A.G. Op. #98-0676.

The preamble to Laws of 1998, ch. 544, provides in pertinent part:

"WHEREAS, it is the intent of the Legislature, in passing this act, to immediately reverse this teacher shortage trend by offering attractive incentives to qualified persons who pursue a profession in teaching and agree to serve in those communities wherein the greatest need for teachers exists, thereby enabling every child in the State of Mississippi to receive a quality education: NOW, THEREFORE,"

Approval or disapproval of the applications for sabbatical leave shall be made on the basis of regulations prescribed by the board of trustees of state institutions of higher learning.

Each person granted sabbatical leave may receive and be paid compensation up to the rate of fifty per cent of such person's annual salary.

Compensation payable to persons on sabbatical leave shall be paid at the same time and in the same manner salaries of the other members of the faculty are paid.

(1) There is hereby created the Commission on College Accreditation. Said commission shall be composed of the Executive Director of the Mississippi Community College Board, the Commissioner of Higher Education, or their designees, and three (3) additional members, one (1) of whom shall be selected by the foregoing two (2) members and who shall represent the private colleges within the state, and two (2) of whom shall be selected by the Mississippi Association of Colleges. The latter three (3) members shall each serve for a term of three (3) years.

(2) The commission shall meet and organize by electing from among its membership a chairman, a vice chairman and a secretary. The commission shall keep full and complete minutes and records of all its proceedings and actions.

(3) The commission shall have the power and authority, and it shall be its duty, to prepare an approved list of community, junior and senior colleges and universities or other entities which offer one or more postsecondary academic degrees and are domiciled, incorporated or otherwise located in the State of

Mississippi. Postsecondary academic degrees include, but are not limited to, associate, bachelor, masters and doctorate degrees. The commission shall adopt standards which are in keeping with the best educational practices in accreditation and receive reports from the institutions seeking to be placed on the approved list.

(4) The above-described community, junior and senior colleges and universities or other entities must be approved annually by the commission in order to grant diplomas of graduation, degrees or offer instruction.

(5) The commission shall petition the chancery court of the county in which a person or agent offers one or more postsecondary academic degrees subject to the provisions of this chapter or advertises for the offering of such degrees without having first obtained approval by the commission, for an order enjoining such offering or advertising. The court may grant such injunctive relief upon a showing that the respondent named in the petition is offering or advertising one or more postsecondary academic degrees without having obtained prior approval of the commission. The Attorney General or the district attorney of the district, including the county in which such action is brought, shall, upon request of the commission, represent the commission in bringing any such action.

(6) The provisions of subsection (5) shall not apply to community, junior and senior colleges and universities with the main campus in Mississippi that were chartered, authorized or approved by the commission prior to July 1, 1988.

(7) The provisions of this section shall not apply to the proprietary schools and colleges subject to regulation under Section 75-60-1 et seq.

(8) The Commission on College Accreditation may promulgate rules and regulations and establish appropriate fees for the implementation of this section.

(9) The commission shall have the power and authority, and it shall be its duty, to execute site visits when deemed necessary by the commission. The members of the commission and commission-appointed evaluation teams shall receive reasonable traveling expenses and other authorized expenses incurred in the performance of commission duties, together with other expenses of the operation of the commission. The members of the Commission on College Accreditation shall serve without salary compensation but shall receive a per diem and mileage as authorized by law including time of going to and returning from site visits of said commission, together with actual travel and hotel expenses incident to the site visits of the commission, and in the discharge of duties prescribed by the commission.

Each male applicant for any scholarship or loan funded in whole or in part by this state, whether granted by the board of trustees of state institutions of

higher learning, the post-secondary education financial assistance board, or otherwise granted by any state-supported college or university, and whether to be used at a state-supported institution of higher learning or at a private institution, shall within six (6) months after he attains the age of eighteen (18) years submit to the person, commission, board or agency in which his application for scholarship or loan is or has been made satisfactory evidence of his compliance with the draft registration requirements of the military selective service act. Such evidence shall consist of a signed affirmation under penalty of perjury from the scholarship or loan applicant that he has complied with the requirements of the federal selective service act. If an applicant for or holder of any such scholarship or loan fails to submit a copy of his draft registration acknowledgment letter in the manner and within the time allowed therefor, any pending application of such person for the award, grant or renewal of any such scholarship or loan shall be denied, and any such scholarship or loan currently held by such person shall be revoked to the extent that no further payments under that scholarship or loan may be made to him or on his behalf. “SECTION 18. The Board of Trustees of State Institutions of Higher Learning is hereby authorized to honor all contracts and commitments for the provision of loans or scholarships existing under prior programs repealed by this act.”

### **§ 37-101-291. Program for paid educational leave for study of certain health care professions.**

(1) In order to help alleviate the problem of the shortage of health care professionals at the state health institutions, there is established a program of paid educational leave for the study of such health care professions as defined in Section 37-101-285 and licensed practical nursing by any employee who works at a state health institution and who declares an intention to work in such respective health care occupation in the same state health institution in which the employee was working when granted educational leave, for a minimum period of time after graduation.

(2) The paid educational leave program shall be administered by the respective state health institutions.

(3)(a) Within the limits of the funds available to a state health institution for such purpose, the institution may grant paid educational leave to those applicants deemed qualified therefor, upon such terms and conditions as it may impose and as provided for in this section.

(b) In order to be eligible for paid educational leave, an applicant must:

(i) Be working at a state health institution at the time of application;

(ii) Attend any college or school approved and designated by the state health institution; and

(iii) Agree to work in a health care profession as defined in Section 37-101-285 or as a licensed practical nurse in the same state health institution for a period of time equivalent to the period of time for which the applicant receives paid educational leave compensation, calculated to the nearest whole month, but in no event less than two (2) years.

(c)(i) Before being granted paid educational leave, each applicant shall enter into a contract with the state health institution, which shall be deemed a contract with the State of Mississippi, agreeing to the terms and conditions upon which the paid educational leave shall be granted to him. The contract shall include such terms and provisions necessary to carry out the full purpose and intent of this section. The form of such contract shall be prepared and approved by the Attorney General of this state, and shall be signed by the executive director of the respective state health institution and the recipient. If the recipient is a minor, his minority disabilities shall be removed by a chancery court of competent jurisdiction before the contract is signed.

(ii) The state health institution shall have the authority to cancel any contract made between it and any recipient for paid educational leave upon such cause being deemed sufficient by the executive director of such institution.

(iii) The state health institution is vested with full and complete authority and power to sue in its own name any recipient for any balance due the state on any such uncompleted contract, which suit shall be filed and handled by the Attorney General of the state. The state health institution may contract with a collection agency or banking institution, subject to approval by the Attorney General, for collection of any balance due the state from any recipient. The State of Mississippi, agencies of the state and the state health institution and its employees are immune from any suit brought in law or equity for actions taken by the collection agency or banking institution incidental to or arising from their performance under the contract. The state health institution, collection agency and banking institution may negotiate for the payment of a sum that is less than full payment in order to satisfy any balance the recipient owes the state, subject to approval by the facility director of the sponsoring facility within the state health institution.

(iv) Failure to meet the terms of an educational loan contract shall be grounds for revocation of the professional license which was earned through the paid educational leave compensation granted under this section.

(v) A finding by the sponsoring agency of a default by the recipient shall be a finding of unprofessional conduct and therefore, a basis for the revocation of the professional license which was obtained through the educational leave program. The finding also will be grounds for revocation of any license, as defined by Section 93-11-153.

(vi) Notice of pending default status shall be mailed to the recipient at the last known address by the sponsoring agency.

(vii) The sponsoring agency shall conduct a hearing of pending default status, make a final determination, and issue an Order of Default, if appropriate.

(viii) Recipients may appear either personally or by counsel, or both, and produce and cross-examine witnesses or evidence in the recipient's behalf. The procedure of the hearing shall not be bound by the Mississippi Rules of Civil Procedure and Evidence.

(ix) If a recipient is found to be in default, a copy of an Order of Default shall be forwarded to the appropriate licensing agency.

(x) Appeals from a finding of default by the sponsoring agency shall be to the Circuit Court of Hinds County. Actions taken by a licensing entity in revoking a license when required by this section are not actions from which an appeal may be taken under the general licensing and disciplinary provisions applicable to the licensing agency.

(xi) Rules and regulations governing hearing and other applicable matters shall be promulgated by the sponsoring agency.

(xii) A license which has been revoked pursuant to this statute shall be reinstated upon a showing of proof that the recipient is no longer in default.

(xiii) A finding by the sponsoring facility of educational leave default is a disciplinary action, not a collection action, and therefore shall not be affected by the recipient declaring bankruptcy.

(4)(a) Any recipient who is granted paid educational leave by a state health institution shall be compensated by the institution during the time the recipient is in school, at the rate of pay received by a nurse's aide employed at the respective state health institution. All educational leave compensation received by the recipient while in school shall be considered earned conditioned upon the fulfillment of the terms and obligations of the educational leave contract and this section. However, no recipient of full-time educational leave shall accrue personal or major medical leave while the recipient is on paid educational leave. Recipients of paid educational leave shall be responsible for their individual costs of tuition and books.

(b) Paid educational leave shall be granted only upon the following conditions:

(i) The recipient shall fulfill his or her obligation under the contract with the State of Mississippi by working as a professional in a health care profession defined in Section 37-101-285 or as a licensed practical nurse in a state health institution; a recipient sponsored by a health institution under the supervision of the Mississippi Department of Mental Health

may fulfill his or her obligation under the contract with the State of Mississippi at another health institution under the supervision of the Mississippi Department of Mental Health with prior written approval of the Director of the Department of Mental Health institution with which he or she originally contracted for educational leave. The total compensation that the recipient was paid while on educational leave shall be considered as unconditionally earned on an annual pro rata basis for each year of service rendered under the educational leave contract as a health care professional in his respective state health institution.

(ii) If the recipient does not work as a professional in a health care profession as defined in Section 37-101-285 or as a licensed practical nurse in his respective state health institution for the period required under subsection (3) (b) (iii) of this section, the recipient shall be liable for repayment on demand of the remaining portion of the compensation that the recipient was paid while on paid educational leave which has not been unconditionally earned, with interest accruing at ten percent (10%) per annum from the recipient's date of graduation or the date that the recipient last worked at that state health institution, whichever is the later date. In addition, there shall be included in any contract for paid educational leave a provision for liquidated damages equal to Five Thousand Dollars (\$5,000.00) which may be reduced on a pro rata basis for each year served under such contract.

(iii) If any recipient fails or withdraws from school at any time before completing his or her health care training, the recipient shall be liable for repayment on demand of the amount of the total compensation that the recipient was paid while on paid educational leave, with interest accruing at ten percent (10%) per annum from the date the recipient failed or withdrew from school. However, the recipient shall not be liable for liquidated damages, and if the recipient returns to work in the same position held in the same state health institution prior to accepting educational leave, the recipient shall not be liable for payment of any interest on the amount owed.

(iv) The issuance and renewal of the professional license required to work in a health care profession as defined in Section 37-101-285 for which the educational leave was granted shall be contingent upon the repayment of the total compensation that the recipient received while on paid educational leave. No license shall be granted until a contract for repayment is executed. No license shall be renewed without proof of an existing contract which is not in default. Failure to meet the terms of an educational loan contract shall be grounds for revocation of the professional license which was earned through the paid educational leave compensation granted under this section. Any person who receives any amount of paid educational leave compensation while in school and subsequently receives a professional license shall be deemed to have earned the professional license through paid educational leave.

(v) The obligations of educational leave recipients under contracts entered into before July 1, 2002, shall remain unchanged. However, state

health institutions may use the collection or license revocation provisions of this section to collect money owed under all educational leave contracts, regardless of when those contracts were executed.

It is the intent of the Legislature that such educational leave program shall be used as an incentive for employees to develop job-related skills and to develop employees for higher-level professional and management positions.

(2) In order to be eligible for paid educational leave, reimbursement for educational expenses or both, an applicant must:

(a) Be working at a state agency for at least three (3) years at the time of application or be working at a state agency at the time of application for part-time graduate level education in a particular profession deemed by the administrative head of the state agency to meet a critical need within the state agency;

(3)(a) Before being granted paid educational leave, or being approved for reimbursement of educational expense or both, each applicant shall enter into a contract with the state agency, which shall be deemed a contract with the State of Mississippi, agreeing to the terms and conditions upon which the paid educational leave will be granted to him. The contract shall include such terms and provisions necessary to implement the purpose and intent of this section. The form of such contract shall be prepared by the Attorney General of this state and approved by the State Personnel Board, and shall be signed by the administrative head of the state agency and signed by the recipient. If the recipient is a minor, his minority disabilities shall be removed by a chancery court of competent jurisdiction before the contract is signed.

(b) Educational expenses for tuition, books and associated fees shall be reimbursed to the employee only after the employee has submitted documentation that the approved course has been successfully completed.

(c) If the recipient does not work as an employee in that state agency for the period of employment specified in the contract, the recipient shall be liable for repayment on demand of the remaining portion of the compensa-

tion that he or she was paid while on paid educational leave and educational expenses paid, with interest accruing at ten percent (10%) per annum from the recipient's date of graduation, or the date that the recipient last worked at that state agency, whichever is the later date. In addition, there shall be included in any contract for paid educational leave a provision for liquidated damages equal to Two Thousand Dollars (\$2,000.00) per year for each year remaining to be served under such contract.

(d) If any recipient fails or withdraws from school at any time before completing his or her education, the recipient shall be liable for repayment on demand of the amount of the total compensation that he or she was paid while on paid educational leave, with interest accruing at ten percent (10%) per annum from the date the recipient failed or withdrew from school. However, if the recipient remains or returns to work in the same position he or she held in the same state agency prior to accepting educational leave, he or she shall not be liable for payment of any interest on the amount owed.

(e) The state agency shall have the authority to cancel any contract made between it and any recipient for paid educational leave or educational expenses or both upon such cause being deemed sufficient by the administrative head of the agency.

(f) The state agency is vested with full and complete authority and power to sue in its own name any recipient for any balance due the state on any such uncompleted contract, which suit shall be conducted and handled by the Attorney General of the state.

(g) Persons who default on contracts entered into under this section shall have the default determined and lose their professional health care licenses under the procedures provided in Section 37-101-291.

(4) At the discretion of the administrative head of the state agency, any recipient who is granted paid educational leave by the state agency, including nurses, shall be compensated by such agency as prescribed by the State Personnel Board during the time he or she is in school. For employees who are on educational leave on a full-time basis, the State Personnel Board shall establish a maximum salary amount at which any employee may be paid full compensation while on educational leave and shall establish a deduction ratio or reduced percentage rate of compensation to be paid to all employees compensated at a salary level above such maximum salary amount. No recipient of full-time educational leave shall accrue personal or major medical leave while he or she is on paid educational leave.

(5) Each state agency granting paid educational leave to employees or reimbursing educational expenses or both shall file an annual report with the Legislature which shall detail for each recipient of paid educational leave the position of the employee, the cost of the educational assistance and the degree program and school attended.

(6) Within the limits of funds available to the Mississippi Department of Mental Health, the Executive Director of the Department of Mental Health may grant educational leave to medical residents of the University of Mississippi and pay a stipend in an amount not to exceed the salary of a medical

resident. In order to be eligible for paid educational leave under this subsection, the applicant must be approved by the Department of Mental Health Educational Leave Committee and meet all obligations established under agreements between the Department of Mental Health and the University of Mississippi and regulations promulgated by the Board of Mental Health. The recipient shall fulfill his or her obligation under this program on an annual pro rata basis for each year on paid education leave.

#### **§ 37-102-1. Authorization of establishment; course loads; satisfaction of residency requirements; work standards and quality of degree.**

The Board of Trustees of State Institutions of Higher Learning may establish off-campus instructional programs for existing universities. However, the Board of Trustees of State Institutions of Higher Learning shall not establish off-campus instructional programs if in its opinion such action is not in the best interest of quality education for the State of Mississippi and the university system.

Students at any off-campus program site may, in the discretion of the Board of Trustees of State Institutions of Higher Learning, be permitted to register for full-time course loads.

Attendance at an off-campus site shall fulfill the residency requirements as if the student had attended class on the parent campus of the university, and there shall be no difference in the standards for work nor quality weight of a degree earned in the off-campus program from that earned at the parent institution.

#### **§ 37-102-3. Approval of Mississippi Community College Board.**

The Board of Trustees of State Institutions of Higher Learning shall not permit its universities to offer courses for college credit at the lower undergraduate level at an off-campus site unless approved by the Mississippi Community College Board. The Board of Trustees of State Institutions of

Higher Learning, in cooperation with the Mississippi Community College Board, shall study the need and advisability of offering (a) courses for college credit at the lower undergraduate level, and (b) advanced centers for technology partnerships for industrial training and professional development for credit and noncredit courses, at the following off-campus sites by four-year public state institutions of higher learning: the Mississippi Gulf Coast counties; Greenville, Mississippi; Columbus, Mississippi; McComb, Mississippi; Hattiesburg, Mississippi; Meridian, Mississippi; Laurel, Mississippi; and any other proposed area of the state. Any such study shall take into account the ongoing programs of the community and junior colleges in the State of Mississippi when said board authorizes off-campus programs created under this chapter. It is the intent of the Legislature to meet the educational needs of students who do not have ready access to the educational opportunities that they desire. It is the further intent of this chapter that university off-campus programs established hereunder will in no way usurp the responsibilities of the public junior colleges of the State of Mississippi. The board shall establish such rules and regulations as it deems necessary and proper to carry out the purposes and intent of this chapter.

## JUDICIAL DECISIONS

### 1. Constitutionality.

In a suit where the Mississippi State Board for Community and Junior Colleges (SBCJC) filed suit after the Mississippi Board of Trustees of State Institutions of Higher Learning (IHL) created a full four year university, the Mississippi Supreme

Court held that the SBCJC could not be established as a body with veto power over the IHL and declared Miss. Code Ann. § 37-102-3 unconstitutional. *Bd. of Trs. of State Insts. of Higher Learning v. Ray*, 809 So. 2d 627 (Miss. 2002).

## § 37-102-5. Operation and location of programs.

The Board of Trustees of State Institutions of Higher Learning may designate the university which shall operate and be responsible for each off-campus site. However, off-campus sites shall be located in such a manner as to make the services of the institutions of higher learning available to the people of Mississippi without unnecessary program duplication in the same geographic area.

### **§ 37-102-7. Budget requests.**

The Board of Trustees of State Institutions of Higher Learning shall submit to the Legislature budget requests with off-campus programs being an identified part of the total general support budget request for universities by being a separate item within the budget request of the respective university which offers the program. Said budget request shall include a statement of all actual or estimated receipts and disbursements for such off-campus programs and such other information as may be required by the Legislative Budget Office.

## **ATTORNEY GENERAL OPINIONS**

Statutory prohibition against extracurricular items such as dormitories, gymnasiums, and stadiums being constructed for use by off-campus sites of universities does not prohibit a university from utiliz-

ing as dormitories those buildings constructed for usage as dormitories prior to transfer thereof to university. Peranich, January 30, 1998, A.G. Op. #98-0057.

**§ 37-102-13. Consideration of programs of private colleges prior to authorization of off-campus programs; purpose of chapter.**

The Board of Trustees of State Institutions of Higher Learning shall take into account the ongoing programs of the private colleges in the State of Mississippi when said board authorizes off-campus programs created under this chapter. ## JUDICIAL DECISIONS

1. In general.
2. Jurisdiction in paternity cases.
3. Personal jurisdiction over students.

**1. In general.**

A student at the University of Mississippi, seeking to be declared a resident of Mississippi in order to obtain more favorable tuition status, is not entitled to be declared a resident where he has established in his case only that he hopes to make Mississippi his home at some future date after his graduation from law school and admission to the bar, for should he fail in any of these undertakings the reason or basis for his residence in Mississippi vanishes. *Cheek v. Fortune*, 341 F. Supp. 729 (N.D. Miss. 1972).

**2. Jurisdiction in paternity cases.**

In a paternity action filed by the alleged father, the Mississippi court had personal jurisdiction over the mother, a Louisiana native who was in Mississippi for the sole purpose of attending a Mississippi univer-

sity, since the child was conceived in Mississippi and the father was a Mississippi resident; Miss. Code Ann. § 37-103-5 deals with tuition cost and did not deprive the Mississippi court of personal jurisdiction over the mother., opinion modified on other grounds 911 So. 2d 562 (Miss. Ct. App. 2005). *Venegas v. Gurganus*, 911 So. 2d 562 (Miss. Ct. App. 2005), writ of certiorari denied by 920 So. 2d 1008, 2005 Miss. LEXIS 639 (Miss. 2005).

**3. Personal jurisdiction over students.**

Miss. Code Ann. § 37-103-5 defines residents and non-residents for the sole purpose of determining tuition costs; it has no effect on the ability of Mississippi courts to exercise personal jurisdiction over a student in a Mississippi educational institution. *Venegas v. Gurganus*, 911 So. 2d 562 (Miss. Ct. App. 2005), writ of certiorari denied by 920 So. 2d 1008, 2005 Miss. LEXIS 639 (Miss. 2005).

## § 37-103-7. Legal residence of minor students for purposes of attendance at universities and community colleges.

For purposes of determining whether a person pays out-of-state or in-state tuition for attendance at universities and community and junior colleges, the residence of a person less than twenty-one (21) years of age is that of the father, the mother or a general guardian duly appointed by a proper court in Mississippi. If a court has granted custody of the minor to one (1) parent, the residence of the minor is that of the parent who was granted custody by the court. If both parents are dead, the residence of the minor is that of the last surviving parent at the time of that parent's death, unless the minor lives with a general guardian duly appointed by a proper court of Mississippi, in which case his residence becomes that of the guardian. A student residing within the State of Mississippi who, upon registration at a Mississippi institution of higher learning or community college, presents a transcript demonstrating graduation from a Mississippi secondary school and who has been a secondary school student in Mississippi for not less than the final four (4) years of secondary school attendance shall not be required to pay out-of-state tuition.

This section shall not apply to the residence of a person as it relates to residency for voter registration or voting.

**§ 37-103-19. Residence status of spouse or child of military personnel assigned to active duty.**

(1) Resident status of a spouse or child of a member of the Armed Forces of the United States on extended active duty shall be that of the military spouse or parent for the purpose of attending state-supported institutions of higher learning and community/junior colleges of the State of Mississippi during the time that the military spouse or parent is stationed within the State of Mississippi and shall be continued through the time that the military spouse or parent is stationed in an overseas area with last duty assignment within the State of Mississippi, excepting temporary training assignments en route from Mississippi. Resident status of a minor child terminates upon reassignment

under Permanent Change of Station Orders of the military parent for duty in the continental United States outside the State of Mississippi, excepting temporary training assignments en route from Mississippi, and except that children of members of the Armed Forces who attain Mississippi residency in accordance with the above provisions, who begin and complete their senior year of high school in Mississippi, and who enroll full time in a Mississippi institution of higher learning or community/junior college to begin studies in the fall after their graduation from high school, maintain their residency status so long as they remain enrolled as a student in good standing at a Mississippi institution of higher learning or community/junior college. Enrollment during summer school is not required to maintain such resident status.

(2) The spouse or child of a member of the Armed Forces of the United States who dies or is killed is entitled to pay the resident tuition fee if the spouse or child becomes a resident of Mississippi

(3) If a member of the Armed Forces of the United States is stationed outside Mississippi and the member's spouse or child establishes residence in Mississippi and registers with the Mississippi institution of higher learning or community/junior college at which the spouse or child plans to attend, the institution of higher education or community/junior college shall permit the spouse or child to pay the tuition, fees and other charges provided for Mississippi residents without regard to length of time that the spouse or child has resided in Mississippi.

(4) A member of the Armed Forces of the United States or the child or spouse of a member of the Armed Forces of the United States who is entitled to pay tuition and fees at the rate provided for Mississippi residents under another provision of this section while enrolled in a degree or certificate program is entitled to pay tuition and fees at the rate provided for Mississippi residents in any subsequent term or semester while the person is continuously enrolled in the same degree or certificate program. A student may withdraw or may choose not to reenroll for no more than one (1) semester or term while pursuing a degree or certificate without losing resident status only if that student provides sufficient documentation by a physician that the student has a medical condition that requires withdrawal or nonenrollment. For purposes of this subsection, a person is not required to enroll in a summer term to remain continuously enrolled in a degree or certificate program. The person's eligibility to pay tuition and fees at the rate provided for Mississippi residents under this subsection does not terminate because the person is no longer a member of the Armed Forces of the United States or the child or spouse of a member of the Armed Forces of the United States.

**1. In general.**

Classification of all aliens as nonresidents for purpose of charging tuition and fees at state-supported institutions of

**§ 37-103-25. Tuition and fees for attending state-supported institutions of higher learning and community and junior colleges; waiver of out-of-state tuition under certain circumstances.**

(1) The Board of Trustees of State Institutions of Higher Learning and the boards of trustees of the community colleges and junior colleges are authorized to prescribe the amount of tuition and fees to be paid by students attending the several state-supported institutions of higher learning and community colleges and junior colleges of the State of Mississippi.

(2) Except as otherwise provided in this subsection and subsections (3) and (4) of this section, the total tuition to be paid by residents of other states shall not be less than the average cost per student from appropriated funds. However, the tuition to be paid by a resident of another state shall be equal to the tuition amount established under subsection (1) of this section if:

(a) The nonresident student was born in the State of Mississippi but subsequently relocated and resided outside the state as a minor under the care of the minor's father or mother, or both;

(b) The nonresident student is a veteran who served in the Armed Forces of the United States;

(c) The nonresident student is domiciled in Mississippi no later than six (6) months after the nonresident student's separation from service, as evidenced by a Report of Separation from Military Service or other military discharge document, for the purpose of enrolling in a state institution of higher learning or a community or junior college;

(d) The nonresident student is an evacuee of an area affected by Hurricane Katrina or Hurricane Rita. This waiver shall be applicable to the 2005-2006 school year only; or

(e) The nonresident student's out-of-state tuition was waived according to subsection (3) or (4) of this section.

(3) The Board of Trustees of State Institutions of Higher Learning may, in its discretion, consider and grant requests to approve institution specific policies permitting the waiver of out-of-state tuition when such an official request is made by the president or chancellor of the institution and when such request is determined by the board to be fiscally responsible and in accordance with the educational mission of the requesting institution.

(4) The board of trustees of any community college or junior college may develop and implement a policy for waiving out-of-state tuition for the college if the policy is determined by the board to be in accordance with the educational mission of the college and if a local industry or business or a state agency agrees to reimburse the college for the entire amount of the out-of-state tuition that will be waived under the policy. State funds shall be allocated and spent only on students who reside within the State of Mississippi. However,

associate degree nursing students who reside outside the State of Mississippi may be counted for pay purposes.

**§ 37-104-17. Issuance of revenue bonds.**

Having determined that the private institution of higher learning reasonably can be expected to produce sufficient revenue over a period of twenty-five (25) years to pay the revenue bonds issued for the financing or refinancing of the educational facility project, as well as the interest on the revenue bonds and a reasonable sum for maintenance, renewal and replacement as aforesaid, the Authority shall have the power and is hereby authorized, at one (1) time or from time to time, to provide by resolution for the issuance of negotiable revenue bonds to provide funds for the purpose of financing or refinancing all or any part of the cost of the educational facility project, but in no event shall the amount of the revenue bonds issued for the financing or refinancing of any educational facility project exceed the estimated cost of the educational facility project. The principal of and the interest on the revenue bonds shall be payable solely from a special fund to be provided for that purpose in the manner hereinafter set forth. The revenue bonds shall bear date or dates, be in such denomination or denominations, bear interest at such rate or rates, not to exceed that rate authorized in Section 75-17-103, Mississippi Code of 1972, be payable at such place or places within or without the State of Mississippi, shall mature absolutely at such time or times, be redeemable prior to maturity at such time or times and upon such terms, with or without premium, shall bear such registration privileges, and shall be substantially in such form, all as shall be determined by the bond loan agreement and the resolution of the Authority. However, the revenue bonds shall mature in annual installments beginning not more than three (3) years from date thereof and extending not more than twenty-five (25) years from date thereof. The revenue bonds shall be signed by the president of the Authority, or by his facsimile signature, attested by the secretary of the Authority, and the official seal of the Authority shall be affixed thereto. The interest coupons, if any, to be attached to the revenue bonds may be executed by the facsimile signature of the president of the Authority. Whenever any revenue bonds shall have been signed by the president of the Authority who was in office at the time of such signing but who may have ceased to be president of the Authority prior to the sale and delivery of the revenue bonds or who may have not been in office on the date the revenue bonds may bear, the signatures of such president of the Authority upon the revenue bonds and coupons shall nevertheless be valid and sufficient for all purposes and have the same effect as if the president of the Authority so officially signing the revenue bonds had remained in office until the delivery of the revenue bonds to the purchaser or had been in office on the date the revenue bonds may bear.

After the determination that the private institution of higher learning shall reasonably be expected to produce sufficient revenue over a period of twenty-five (25) years to pay the revenue bonds issued for the financing or refinancing of the educational facility project, as well as the interest on the revenue bonds and a reasonable sum for maintenance, renewal and replacement, has been made by the Authority, and before the issuance of the revenue bonds, the private institution of higher learning shall enter into a bond loan agreement with the Authority for the purposes of: (a) establishing the terms for the payment of the revenue bonds by the participating private institution of higher learning; (b) establishing the collateral of the participating private institution of higher learning which the parties determine to be necessary to secure the payment of the revenue bonds; (c) establishing the terms for the payment by the Authority to the participating private institution of higher learning of the proceeds from the sale of the revenue bonds for the payment of the costs of the educational facilities project by the participating private institution of higher learning; and (d) setting forth all other matters relating to the revenue bonds.

All such instruments shall contain the full text of the sectarian use provision of the bond loan agreement.

### § 37-104-25. Disposition of sale proceeds; issuance of additional revenue bonds.

The proceeds of the sale of revenue bonds shall be paid into the State Treasury to the credit of a special fund known as the Educational Facilities Authority Fund; shall be used solely for financing or refinancing of the cost of the educational facility project, except as hereinafter provided, and shall be disbursed to the participating institution of higher learning upon order of the State Treasurer, pursuant to such restrictions, if any, as the bond loan agreement and the resolution authorizing the issuance of the revenue bonds may provide. If the proceeds of the revenue bonds of any issue shall exceed the amount required for the purpose for which the revenue bonds were issued, the surplus shall be paid into a sinking fund, hereinafter established in Section 37-104-31, for the payment of the principal of and the interest on such revenue bonds.

Such pledge may include funds received from one or more or all sources and shall be set aside at regular intervals into a sinking fund, which sinking fund shall be pledged to and charged with the payment of:

- (a) The interest upon such revenue bonds as such interest shall accrue;

### JUDICIAL DECISIONS

#### 1. In general.

This section [Code 1942, § 6726.7] is not unconstitutional, either as an unwarranted delegation of legislative power, or

for vagueness. *Cohen v. Mississippi State Univ. of Agric. & Applied Science*, 256 F. Supp. 954 (N.D. Miss. 1966).

#### § 37-105-3. Enforcement of traffic rules and regulations; jurisdiction of law enforcement officers employed by certain state universities.

(1) The traffic officers duly appointed by the president of any state institution of higher learning, or any peace officer or highway patrolman of this state, are vested with the powers and authority to perform all duties incident

to enforcing such rules and regulations as may be enacted under the authority granted in Section 37-105-1, including the arrest of violators.

(2) The peace officers duly employed by Jackson State University and the University of Southern Mississippi are also vested with the powers and subjected to the duties of a constable for the purpose of preventing all violations of law that occur within five hundred (500) feet of any property owned by the university, if such universities determine that they want such peace officers to exercise such powers and if reasonably determined to have a possible impact on the safety of students, faculty or staff of the university while on said property. Provided, however, that nothing in this section shall be interpreted to require action by any such peace officer appointed by such universities to events occurring outside the boundaries of university property, nor shall any such university or its employees be liable for any failure to act to any event occurring outside the boundaries of property owned by the university. Jackson State University and the University of Southern Mississippi may enter into an interlocal agreement with other law enforcement entities for the provision of equipment or traffic control duties, however, the duty to enforce traffic regulations and to enforce the laws of the state or municipality off of university property lies with the local police or sheriff's department which cannot withhold its services solely because of the lack of such an agreement.

**§ 37-106-3. Declaration of purpose.**

(1) The Legislature hereby finds and declares that:

(a) By legislative enactment, programs are herein created wherein Mississippi residents are granted forgivable loans in certain professional fields in return for their contractual obligation to perform services in such professions under a variety of requirements of location, duration, manner and mode of service, and institution in which performed;

(b) There is a need for the creation of additional forgivable loan programs for the purpose of encouraging eligible Mississippi residents to enter into professional schools, and that, in particular, there should be programs to encourage the participation of minorities in graduate professional programs in the institutions of this state;

(c) There is a need to create an ability within the board to fashion new and innovative systems for the financing of forgivable loan programs by combining the use of private sector loans for education and guaranteed student loans with loan repayment programs promulgated by the board; and

(d) The board should be granted authority to devise and develop such innovative systems to obtain the most efficient use of state funds to encourage entry and service in certain professional fields.

(2) The purpose of the Legislature in the passage of this chapter is to make manifest the belief that the continued growth and development of Mississippi requires that all Mississippi youth be assured ample opportunity for the fullest development of their abilities and to recognize that this opportunity will not fully materialize unless the State of Mississippi moves to encourage and financially assist our young people in their efforts. This chapter shall be broadly construed to accomplish that purpose.

The board shall establish such rules and regulations as it deems necessary and proper to carry out the purposes and intent of this section.

(2) The board shall approve grants to full-time freshmen, sophomore, junior and senior Mississippi residents who meet the general requirements for student eligibility as provided in subsection (4) of this section.

(3) Mississippi Resident Tuition Assistance Grants shall be for Mississippi resident students from any Mississippi family whose prior year adjusted gross income (AGI) exceeds the maximum allowed to qualify for full Pell Grant eligibility and campus-based federal aid. Those Mississippi students qualifying for less than the full Pell Grant award shall receive a Mississippi Resident Tuition Assistance Grant in an amount not to exceed the maximum Pell Grant allowable for that individual student. The award shall be applied to tuition, rooms and meals, books, materials and fees not to exceed One Thousand Dollars (\$1,000.00) for junior and senior students attending state institutions of higher learning in Mississippi or four-year regionally accredited, state-approved, nonprofit colleges and universities in Mississippi, and Five Hundred Dollars (\$500.00) for freshmen and sophomores attending state institutions of higher learning or public community or junior colleges in Mississippi, or regionally accredited, state-approved, nonprofit two-year or four-year colleges in Mississippi, which will be prorated per term, semester or quarter of the academic year for costs of attendance, calculated according to the formula specified in subsection (8) of this section.

(4) The general requirements for initial eligibility of students for Mississippi Resident Tuition Assistance Grants consist of the following:

(a) Member of a Mississippi family whose prior year adjusted gross income (AGI) exceeds the maximum allowed to qualify for Pell Grant eligibility and campus-based federal aid.

(b) Acceptance for enrollment at any state institution of higher learning or public community or junior college located in Mississippi, or any regionally accredited, state-approved, nonprofit two-year or four-year college or university located in Mississippi and approved by the board.

(c) Completion of a secondary education as follows:

(ii) Attendance at a home education program during grade levels 9 through 12; or

(iii) Satisfactory completion of the High School Equivalency Diploma; or

(iv) Successful completion of the International Baccalaureate Program.

(d) A minimum score of fifteen (15) on the ACT test except that any student entering a vocational or technical program of study, or who has satisfactorily completed the High School Equivalency Diploma Test and attends a community or junior college will not be required to have a test score under the ACT unless a student enrolls in courses of academic study.

(e) Any student currently enrolled in any qualified institution shall have to only meet the same requirements as students who are applying for a renewal award.

(5) By accepting a Mississippi Resident Tuition Assistance Grant, the student is attesting to the accuracy, completeness and correctness of information provided to demonstrate the student's eligibility. Falsification of such information shall result in the denial of any pending grant and revocation of any award currently held to the extent that no further payments shall be made. Any student knowingly making false statements in order to receive a grant shall be guilty of a misdemeanor punishable, upon conviction thereof, by a fine of up to Ten Thousand Dollars (\$10,000.00), a prison sentence of up to one (1) year in the county jail, or both, and shall be required to return all Mississippi Resident Tuition Assistance Grants wrongfully obtained.

(6) Eligibility for renewal of Mississippi Resident Tuition Assistance Grants shall be evaluated at the end of each semester, or term, of each academic year. As a condition for renewal, a student shall:

(a) Make steady academic progress toward a certificate or degree, as outlined in the school Satisfactory Academic Progress Standards and certified by the institution's registrar.

(b) Maintain continuous enrollment for not less than two (2) semesters or three (3) quarters in each successive academic year, unless granted an exception for cause by the administering board; examples of cause may include student participation in a cooperative program, internship program

(c) Have a cumulative grade point average of at least 2.50 calculated on a 4.0 scale at the end of each semester or trimester or term.

(7) Each student, each year, must complete a Free Application for Federal Student Aid form or a Statement of Certification as designed by the administering board to determine his/her eligibility for a Mississippi Resident Tuition Assistance Grant.

(8)(a) The amount of the Mississippi Resident Tuition Assistance Grant awarded to any one (1) student, up to the maximum amount provided in subsection (3) of this section, shall be the difference of the student's cost of attendance at his accredited college of choice and the amount of federal aid such student may receive, not to supplant but to supplement the amount of any federal aid awarded to the student. Cost of attendance is the tuition and fees of the applicable institution plus an allowance for room and meals and books and materials.

(b) Payment of the Mississippi Resident Tuition Assistance Grant shall be made payable to the recipient and the educational institution and mailed directly to the institution, to be applied first to tuition.

(9) In order for an institution to remain eligible for its students to participate in the Mississippi Resident Tuition Assistance Grant Program, the institution shall comply with the following requirements:

(a) A complete and accurate roster of the eligibility status of each awarded student shall be made to the board for each term, semester or quarter of the academic year the student receives a Mississippi Resident Tuition Assistance Grant.

(b) The institution is required to make refunds to the Mississippi Resident Tuition Assistance Grant Fund for any funds which have not been disbursed to the recipient, in the case of students who have received a grant but who terminate enrollment during the academic term, semester or quarter of the academic year if an institution's refund policies permit a student to receive a refund in such instance. The recipient shall be responsible for the refund of any funds which have been disbursed by the institution in such instance.

(c) If a student drops below full-time status but does not terminate all enrollment during the term, semester or quarter of the academic year no refund will be required for that term. However, that student is ineligible to receive the Mississippi Resident Tuition Assistance Grant during the following term, semester or quarter of the regular academic year.

(d) The board may conduct its own annual audits of any institution participating in the Mississippi Resident Tuition Assistance Grant Program. The board may suspend or revoke an institution's eligibility to receive future monies under the program if it finds that the institution has not complied

with the provisions of this section. In determining a student's initial eligibility, the number of prior semesters enrolled will not be counted against the student.

(10) No student may receive a Mississippi Resident Tuition Assistance Grant for more than the equivalent semesters or quarters required to complete one (1) baccalaureate degree or one (1) certificate or associate degree program per institution.

(11) No student receiving a Mississippi Eminent Scholars Grant as provided in Section 37-106-31 shall be eligible to receive the Mississippi Resident Tuition Assistance Grant pursuant to this section unless he is eligible for such award after the Mississippi Eminent Scholars Grant has been considered by the board when conducting an assessment of the financial resources available to the student. In no case shall any student receive any combination of student financial aid that would exceed the cost of attendance, as defined in subsection (8)(a).

For purposes of this section, certificated shall mean, but not be limited to, all postsecondary vocational programs in eligible institutions approved by the board.

The board shall set the dates that will serve as the deadlines for applying for an award under this section and award scholarships to each Mississippi student who:

(a)(i) Is recognized by the merit or achievement programs of the National Merit Scholarship Corporation or the National Achievement Scholarship as a semifinalist or finalist, and has obtained a minimum cumulative grade point average of 3.5 calculated on a 4.0 scale in high school subjects acceptable for credit toward a diploma, after seven (7) semesters certified by the high school counselor or other authorized school official on the application and graduation from high school verified by the institution before disbursement of award; or

(iii) Has attended a home education program during grade levels 9 through 12 and has scored twenty-nine (29) on the American College Testing Program or its equivalent.

(b) Meets the general requirements for student eligibility, except as otherwise provided in this section.

(c) Files, before the deadline, an application for an award during his last year in high school, or before the expiration of the third school year succeeding the year of his high school graduation.

(d) Attends, on a full-time basis, any state institution of higher learning or public community or junior college, or any regionally accredited, state-approved, nonprofit two-year or four-year college or university located in the State of Mississippi approved by the board.

(e) Enrolls as a "first-time in college" student in Mississippi. Postsecondary academic credit earned prior to or during the summer immediately subsequent to receiving a high school diploma, or while dually enrolled in secondary and postsecondary educational institutions, or while enrolled in the early admission program of a postsecondary institution shall not be considered when determining if a student is enrolling for the first time. However, any student who earns postsecondary academic credit at an institution of higher learning located outside the state shall meet the requirements on grade point average and maximum credit hours set forth in subsection (2)(b) of this section.

(f) Is a resident of the State of Mississippi.

(2)(a) Except for students who earn credits at institutions of higher learning located outside the state, students who apply for awards but do not accept their initial awards may apply to receive awards during subsequent application periods occurring before the expiration of the third school year succeeding the year of their high school graduation. The eligibility of these applicants shall be determined in the same manner as first-time applicants.

(b) Students who receive initial awards and who later do not accept renewal awards may apply to receive awards during subsequent application periods occurring before the expiration of the third school year succeeding the year of their high school graduation. Reinstatement applications will be accepted from these students according to dates set by the Mississippi Postsecondary Education Financial Assistance Board. The eligibility of these applicants shall be determined in the same manner as first-time applicants, except that these students shall be required to have maintained the equivalent of a 3.5 cumulative grade point average on a 4.0 scale for all college work attempted and if the student attended an out-of-state institution, to have completed no more than thirty-six (36) credit hours. The board shall not make awards to reinstatement applicants who submit applications that are received after the deadline set by the Mississippi Postsecondary Education Financial Assistance Board.

(c) The board shall create a renewal application for each student who received the award for one or more terms during the immediately preceding academic year.

(3)(a) The annual award to a student shall be up to Two Thousand Five Hundred Dollars (\$2,500.00) for tuition and fees. Payment of the Mississippi Eminent Scholars Grant shall be made payable to the recipient and the educational institution and mailed directly to the institution, to be applied first to tuition.

(b) Within six (6) weeks of the end of regular registration, inclusive of a drop-add period, institutions shall certify to the board the eligibility status of each awarded student. The eligibility status of each student to receive a

disbursement shall be determined by each institution as of this date. Institutions shall not be required to reevaluate a student's eligibility status after this date for purposes of amending eligibility determinations previously made. However, an institution shall be requested to make refunds for students who receive award disbursements and terminate enrollment for any reason during the academic term when an institution's refund policies permit a student to receive a refund under the circumstances.

(c) Institutions shall certify to the board the amount of funds disbursed to each student and shall remit to the board any undisbursed advances within sixty (60) days of the end of regular registration.

(4) A recipient shall maintain the equivalent of a 3.5 cumulative grade point average on a 4.0 scale, or shall maintain an approved equivalent student progress evaluation plan, on at least twelve (12) hours per quarter, trimester or semester in order to be eligible for a continuation of the award. No student may receive a Mississippi Eminent Scholars Grant for more than the equivalent semesters or quarters required to complete one (1) degree or certificate program per institution. The award may be renewed annually upon certification of eligibility by the eligible institutions that the recipient meets the necessary qualifications. If any recipient transfers from one university, community college or junior college to another, his award will be transferable, provided he is otherwise eligible for the award. If a student fails to maintain continuous enrollment, and is not granted an exception for cause by the administering board, the student is ineligible to receive the Mississippi Eminent Scholars Grant during the following semester or trimester or term of the regular academic year.

(5) The board may conduct its own annual audits of any institution participating in the Mississippi Eminent Scholars Grant Program. The board may suspend or revoke an institution's eligibility to receive future monies under the program if it finds that the institution has not complied with the provisions of this section.

(6) For purposes of this section, certificated shall mean, but not be limited to, all postsecondary vocational programs in eligible institutions approved by the board.

### **§ 37-106-53. Uniform repayment options and terms for forgivable loan programs.**

by the board, unless set forth in this chapter. Interest will begin to accrue at the date of separation from the approved program of study at a rate equal to the unsubsidized Federal Stafford loan rate at the time of separation. Repayment will commence one (1) month after separation from the program of study, unless the recipient is granted a grace period or deferment by the board. The availability and length of a grace period will be determined by the board. The availability and length of any deferments will be determined by the board.

(b) In lieu of payment in full of both principal and interest, a loan recipient may elect to repay by entry into service employment. Service requirements for each forgivable loan program will be determined by the board, unless set forth in this chapter. Unless excepted by this chapter, repayment under this option shall convert loan to scholarship, and discharge the same, on the basis of one (1) year's full-time service for one (1) year's loan amount or its equivalent if the recipient attended part-time, or the appropriate proportion of the total outstanding balance of principal and interest, all as shall be established by rule and regulation of the board. The period of service shall in no event be less than one (1) year. If at any time prior to the repayment in full of the total obligation the recipient abandons or abrogates repayment by this option, the provisions of subsection (1)(c) of this section shall apply.

(c) In the event of abandonment or abrogation of the option for repayment as provided for in subsection (1)(b) of this section, the remaining balance of unpaid or undischarged principal plus a penalty of five percent (5%) of the unpaid or undischarged principal and interest on the combined principal and penalty shall become due and payable over the remaining period of time as if the option provided for in subsection (1)(a) of this section had been elected upon separation and the conclusion of any applicable grace and deferment periods.

(2) Any person failing to complete a program of study which will enable that person to enter service employment, or failing to obtain any required licensure or additional credentials necessary for that person to enter service employment shall become liable to the board for the sum of all forgivable loan awards made to that person plus a penalty of five percent (5%) of the loan awards and interest on the combined amount accruing at the current unsubsidized Federal Stafford loan rate at the time the person abrogates his participation in the program.

(3) If a claim for payment under this subsection is placed in the hands of a collection agency or an attorney for collection, the obligor shall be liable for an additional amount equal to a reasonable collection commission or attorney's fee as well as any court costs.

(4) The obligations made by the recipient of a forgivable loan award shall not be voidable by reason of the age of the student at the time of receiving the scholarship.

Critical Needs Teacher Forgivable Loans shall not be based upon an applicant’s financial need.

(4) Awards granted under the Critical Needs Teacher Forgivable Loan Program shall be made available to nontraditional licensed teachers showing a documented need for student loan repayment and employed in those school

districts designated by the State Board of Education as a geographical area of the state or in a subject area of the curriculum in which there is a critical shortage of teachers. The maximum annual amount of this repayment should not exceed Three Thousand Dollars (\$3,000.00) and the maximum time period for repayment shall be no more than four (4) years.

(5) Except in those cases where employment positions may not be available upon completion of licensure requirements, at the beginning of the first school year in which a recipient of a Critical Needs Teacher Forgivable Loan is eligible for employment as a licensed teacher or a nontraditional teacher intern pursuant to Section 37-3-2(6)(b), that person shall begin to render service as a licensed teacher or nontraditional teacher intern in a public school district in a geographical area of the state or a subject area of the curriculum where there is a critical shortage of teachers, as approved by the State Board of Education.

(6) Failure to repay any loan and interest that becomes due shall be cause for the revocation of a person's teaching license by the State Board of Education.

(7) Repayment and conversion terms shall be the same as those outlined in Section 37-106-53.

(8) The board shall promulgate rules and regulations necessary for the proper administration of the Critical Needs Teacher Forgivable Loan Program.

(9) The State Board of Education shall compile and report, in consultation with the board, an annual report with findings and recommendations to the legislative committees on education by December 1, 2003, and annually thereafter, on the following:

(10) Where local school districts exhibit financial need, the State Department of Education may, subject to the availability of funds specifically appropriated therefor by the Legislature, provide financial assistance for the recruitment of certified teachers in an amount not to exceed Seventy-five Thousand Dollars (\$75,000.00) annually.

(c) The board finds that it is impossible for the recipient to teach for four (4) years, within seven (7) years after graduation, at a Mississippi public school or at a school operated by the United States government in Mississippi, because of the death or permanent disability of the recipient.

(6) The State Board of Education and the Postsecondary Education Financial Assistance Board shall jointly promulgate rules and regulations for the proper administration of the Teaching Fellows Program established under this section. The State Board of Education shall be the administering agency of the program.

## JUDICIAL DECISIONS

### 1. In general.

Trial court properly granted a university’s motion to dismiss plaintiff’s personal injury complaint where the university was definitively identified as an institution of the State of Mississippi; therefore, service of process was dictated by Miss. R. Civ. P. 4(d)(5), and plaintiff should have served the Attorney General of the State of Mississippi rather than the university

president. *Jones v. Miss. State Univ.*, 948 So. 2d 509 (Miss. Ct. App. 2007).

Though § 5, Chapter XIX of Laws of Mississippi of 1878 provided that the Board of Trustees could sue and be sued, that language was not carried over into the present statutes and neither this nor any other statute concerning the university could be construed as waiving the university’s Eleventh Amendment immu-

nity. *Jagnandan v. Giles*, 538 F.2d 1166 (5th Cir. 1976), cert. denied, 432 U.S. 910, 97 S. Ct. 2959, 53 L. Ed. 2d 1083 (1977).

## JUDICIAL DECISIONS

**1. Immunity of personnel.**

Doctor, who was employed by a university medical center which was operated under Miss. Code Ann. § 37-115-25, was entitled to summary judgment in a medical malpractice suit because he acted as a state employee, and not an independent contractor, when he treated the patient in question; the medical center had complete control over the doctor's income and had a financial interest in his earnings, and because he was a state employee he was immune from suit. *Meeks v. Miller*, 956 So. 2d 864 (Miss. 2007).

The University of Mississippi Medical Center and the University Anesthesia Services Practice Group (UAS) estab-

lished in connection with the Medical Center are instrumentalities of the State of Mississippi within the meaning of the Mississippi Tort Claims Act, Miss. Code Ann. §§ 11-46-1 through 11-46-23 and, as such waived their immunity against a claim for medical malpractice liability only to the extent that UAS had purchased liability insurance; further, a staff anesthesiologist who participated in an operation in which a child suffered brain damage while sedated was an employee of the Center entitled to immunity despite also being a member of UAS and despite the fact that the doctor had personal liability insurance. *Mozingo v. Scharf*, 828 So. 2d 1246 (Miss. 2002).

**§ 37-115-27. Location of school and hospital.**

The medical school and teaching hospital shall be built and equipped together, in connection with each other, or as nearly together or connected as may promote the most efficient operation of both of them in proper coordination one with the other. The medical school and teaching hospital shall be located and built upon part of the lands owned by the State of Mississippi in or near the City of Jackson, Hinds County, Mississippi, and commonly known as the old asylum lands, to be selected by the State Building Commission. The medical school and teaching hospital may have other locations as determined to be reasonable and necessary by the University of Mississippi Medical Center. All University of Mississippi Medical Center locations shall provide in the aggregate not less than fifty percent (50%) of their services to indigent persons including qualified beneficiaries of the State Medicaid Program.

## JUDICIAL DECISIONS

1. In general.
2. Immunity of personnel.

### 1. In general.

Primary issue was whether the physicians were acting as employees of the University of Mississippi Medical Center (UMMC), or were independent contractors for purposes of immunity or liability, and although the physicians did wear two hats, as they were entitled to engage in separate private practice, to an extent, the appellate court, applying the standard of *Miller v. Meeks*, held the State exercised reasonable control over the physicians, including the power to terminate the physicians' contract, the uncontroverted evidence was that the physicians were acting as employees of UMMC at the time of the subject surgery on the complaining patient, and pursuant to Mississippi's former sovereign immunity law, Miss. Code Ann. § 11-46-7(2) (Supp. 1991), the physicians were immune from liability. *Brown v. Warren*, 858 So. 2d 168 (Miss. Ct. App. 2003).

Meeks*, held the State exercised reasonable control over the physicians, including the power to terminate the physicians' contract, the uncontroverted evidence was that the physicians were acting as employees of UMMC at the time of the subject surgery on the complaining patient, and pursuant to Mississippi's former sovereign immunity law, Miss. Code Ann. § 11-46-7(2) (Supp. 1991), the physicians were immune from liability. *Brown v. Warren*, 858 So. 2d 168 (Miss. Ct. App. 2003).

The University of Mississippi Medical Center and the University Anesthesia Services Practice Group (UAS) established in connection with the Medical Center are instrumentalities of the State of Mississippi within the meaning of the Mississippi Tort Claims Act, Miss. Code Ann. §§ 11-46-1 through 11-46-23 and, as such waived their immunity against a claim for medical malpractice liability only to the extent that UAS had purchased liability insurance; further, a staff anesthesiologist who participated in an operation in which a child suffered brain damage while sedated was an employee of the Center entitled to immunity despite also being a member of UAS and despite the fact that the doctor had personal liability insurance. *Mozingo v. Scharf*, 828 So. 2d 1246 (Miss. 2002).

**§ 37-115-41. Criminal history record checks and fingerprinting required for new employees providing direct patient care; disciplinary checks with professional licensing agencies; applicants aggrieved by employment decision based on criminal history record check may show mitigating circumstances; immunity for employment decisions made in compliance with this section.**

(1) For the purposes of this section:

(a) "Applicant" means any person who is applying to become an employee of UMMC.

(b) "Employee" means an employee, contractor, temporary worker or consultant.

(c) "UMMC" means the University of Mississippi Medical Center.

(2) The University of Mississippi Medical Center shall fingerprint and perform a criminal history record check on all new employees that work in or provide direct patient care. In addition, UMMC shall perform a disciplinary check with the professional licensing agency of the employee, if any, to determine if any disciplinary action has been taken against the employee by that agency. Except as otherwise provided in this section, no employee of UMMC hired on or after July 1, 2004, shall be permitted to provide direct patient care until the results of the criminal history record check have revealed no disqualifying record or the employee has been granted a waiver. In order to determine the applicant's suitability for employment, the applicant shall be fingerprinted. Fingerprints shall be submitted to the Department of Public Safety by UMMC via scanning or other electronic method, with the results processed through the Department of Public Safety's Criminal Information Center. If no disqualifying record is identified at the state level, the applicant's fingerprints shall be forwarded by the Department of Public Safety to the Federal Bureau of Investigation for a national criminal history record check. If the criminal history record check discloses a felony conviction, guilty plea or plea of nolo contendere to a felony of possession or sale of drugs, murder, manslaughter, armed robbery, rape, sexual battery, sex offense listed in Section 45-33-23(h), child abuse, arson, grand larceny, burglary, gratification of lust or aggravated assault, or felonious abuse and/or battery of a vulnerable adult that has not been reversed on appeal or for which a pardon has not been granted, the applicant shall not be eligible to be employed at UMMC.

(3) Notwithstanding the provisions of subsection (2) of this section, any such applicant may be employed on a temporary basis pending the results of the criminal history record check. Any employment contract with an applicant during the application process shall be voidable upon receipt of a disqualifying criminal history record check if no waiver is granted under subsection (4) of this section.

(4) UMMC may, in its discretion, allow any applicant aggrieved by an employment decision under this section to appear before the UMMC hiring officer, or his or her designee, to show mitigating circumstances that may exist and allow the applicant to be employed at UMMC. UMMC, upon report and recommendation of the hiring officer, may grant waivers for those mitigating circumstances, which shall include, but not be limited to: (a) age at which the crime was committed; (b) circumstances surrounding the crime; (c) length of time since the conviction and criminal history since the conviction; (d) work history; (e) current employment and character references; and (f) other evidence demonstrating the ability of the individual to perform the employment responsibilities competently and that the individual does not pose a threat to the health or safety of the patients admitted to UMMC.

(5) Upon the receipt of an applicant's criminal history record check that reveals no disqualifying event, UMMC shall, within two (2) weeks of the

notification of no disqualifying event, provide the applicant with a notarized letter signed by the vice chancellor, or his or her authorized designee, confirming the applicant's suitability for employment based on his or her criminal history record check. An applicant or employee may use that letter for a period of two (2) years from the date of the letter to seek employment at any covered entity, as defined in Section 43-11-13(5), without the necessity of an additional criminal history record check under Section 43-11-13(5). Any covered entity presented with the letter may rely on the letter for a period of two (2) years from the date of the letter without having to conduct or have conducted a criminal history record check on the applicant or employee.

(6) UMMC may charge a fee not to exceed Fifty Dollars (\$50.00) for fingerprinting applicants, students, employees, contractors, consultants, outside agency personnel, visiting faculty, researchers or any other individual(s) that may provide direct services to UMMC.

(7) UMMC and its agents, officers, employees, attorneys and representatives shall be presumed to be acting in good faith for any employment decision or action taken under this section. The presumption of good faith may be overcome by a preponderance of the evidence in any civil action. UMMC or its agents, officers, employees, attorneys and representatives shall not be held liable in any employment decision or action based in whole or in part on compliance with or attempts to comply in good faith with the requirements of this section.

## JUDICIAL DECISIONS

1. In general.
2. Employment.

### 1. In general.

Finding against the student in her action against a state university and a professor after she suffered a third-degree burn at an iron pour demonstration was improper because the state university was not protected by discretionary function immunity and was liable for the professor's negligence pursuant to the waiver of sovereign immunity; it was difficult to fathom how the professor's failure to put down dry sand before the pour involved a policy judgment of a social, political, or economic nature. *Pritchard v. Von Houten*, 960 So. 2d 568 (Miss. Ct. App. 2007), writ of certiorari denied en banc by 959 So. 2d 1051, 2007 Miss. LEXIS 391 (Miss. 2007).

The University of Southern Mississippi is an agency of the state, controlled by a legislative grant of authority to the Board of Trustees of State Institutions of Higher Learning. *Bruner v. University of S. Miss.*, 501 So. 2d 1113 (Miss. 1987).

### 2. Employment.

The University of Southern Mississippi was not liable to an assistant coach under an employment contract which he allegedly entered into with the university's head football coach, because the head football coach was without authority to offer a valid employment contract which can only be created where the Board of Trustees of State Institutions of Higher Learning approves a nomination of the school's president, as shown upon the minutes of the board of trustees. *Bruner v. University of S. Miss.*, 501 So. 2d 1113 (Miss. 1987).

**§ 37-119-7. Bond issue for improving athletic stadium.**

The University of Southern Mississippi (herein sometimes referred to as the "university") is authorized and empowered to require the state building commission to issue bonds in an amount not exceeding the sum of seven hundred fifty thousand dollars (\$750,000.00), bearing interest at a rate not exceeding six per cent per annum, for the purpose of and to be expended in extending, adding to and improving the athletic stadium on its campus; to impose student athletic fees; to impose charges, in addition to and distinguished from the established price of admission, upon persons, other than students, for the privilege of attending events held in such stadium, which such charges shall be exempt from any amusement tax now levied and collected in the State of Mississippi, and to immediately commence, prior to the issuance and sale of the bonds herein authorized and to continue, the collection of such charges; and to apply to the satisfaction and retirement, as and when due, of the principal of and interest on such bonds, said athletic fees and said charges, and also, rental income from the dormitory facilities now in the stadium, and income, not otherwise appropriated or allocated, from any other sources. Such bonds shall be authorized by the board of trustees of state institutions of higher learning in the manner now provided by Sections 37-101-91 through 37-101-103, and all of the provisions of said sections (except as herein otherwise provided and as are not in conflict with the provisions hereof) shall be applicable to the authorization and issuance of such bonds. Reference in Sections 37-101-95, 37-101-101, to "dormitories, dwellings or apartments" shall be understood to apply also to all other projects authorized to be financed under the provisions of Section 37-101-99.

Upon request of the university, acting through its president and financial secretary, authorization having been first obtained from the board of trustees of state institutions of higher learning, the state building commission shall issue and sell bonds of the university at not less than par and accrued interest in the manner provided by Section 21-27-45, Mississippi Code of 1972, for the sale of bonds of municipalities issued thereunder and upon terms and at interest rates, not to exceed the maximum therein authorized, to be fixed by the state building commission. The state building commission is hereby authorized to supervise the contracting for, and the erection of, all buildings erected, extended, added to, or improved under the provisions of this section. The board of trustees of state institutions of higher learning is hereby authorized and empowered to specify the nature of such extensions, additions,

improvements or new construction, and shall approve the plans and specifications therefor prior to the letting of any new contract for any such work. All contracts let under the supervision of the state building commission shall be let as provided by law for other contracts let by said commission.

The board of trustees of state institutions of higher learning, in the resolution authorizing such bonds, may provide for the imposition of such student athletic fees, such charges for the privilege of attending events held in such stadium (as hereinabove distinguished from the price of admission), such rental charges for use of the dormitories facilities now in the stadium and for application to the retirement of such bonds of such other sources of income, not otherwise appropriated or allocated, as it may consider desirable. Said board may provide for the collection and the allocation of such fees and charges. Such fees and charges or other income shall always be in such amounts as will assure the prompt payment of principal of and interest on such bonds and the carrying out of all of the covenants and agreements contained in such resolution authorizing such bonds.

All bonds so issued shall constitute negotiable instruments within the meaning of the Uniform Commercial Code of Mississippi.

Any bonds authorized under authority of this section may be validated in the chancery court of first judicial district, Hinds County in the manner and with the force and effect now or hereafter provided by general law for the validation of municipal bonds.

This section, without reference to any other statute or law of Mississippi other than the portions of Sections 37-101-91 through 37-101-103, not in conflict herewith, and Section 31-19-25, shall constitute full authority for the extension, adding to and improvement of the aforesaid stadium and the authorization and issuance of bonds hereunder and no other provisions of the statutes pertinent thereto, except as herein expressly provided, shall be construed as applying to any proceedings had hereunder or any acts done pursuant hereto.

### Compacts with Other States

In General .....	37-135-1
Compact for Education .....	37-135-11
Interstate Compact on Educational Opportunity for Military Children .....	37-135-31

#### IN GENERAL

SEC.	
37-135-1.	Compact for the operation of regional educational institutions in the southern states.
37-135-3.	Approval of Delaware and West Virginia for admission into compact.

#### **§ 37-135-1. Compact for the operation of regional educational institutions in the southern states.**

The following compact of the southern states for the purpose of operating regional educational institutions in the southern states be, and the same is, hereby ratified and approved:

Whereas, the states who are parties hereto have during the past several years conducted careful investigation looking toward the establishment and maintenance of jointly owned and operated regional educational institutions in the southern states in the professional, technological, scientific, literary and other fields, so as to provide greater educational advantages and facilities for the citizens of the several states who reside within such region, and

Whereas, Meharry Medical College of Nashville, Tennessee, has proposed that its lands, buildings, equipment, and the net income from its endowment be turned over to the southern states, or to an agency acting in their behalf, to be operated as a regional institution for medical, dental and nursing education upon terms and conditions to be hereafter agreed upon between the southern states and Meharry Medical College, which proposal, because of the present financial condition of the institution, has been approved by the said states who are parties, hereto, and

Whereas, the said states desire to enter into a compact with each other providing for the planning and establishment of regional educational facilities;

Now therefore, in consideration of the mutual agreements, covenants and obligations assumed by the respective states who are parties hereto (hereinafter referred to as "states"), the said several states do hereby form a geographical district or region consisting of the areas lying within the boundaries of the contracting states which, for the purposes of this compact, shall constitute an area for regional education supported by public funds derived from taxation by the constituent states for the establishment, acquisition, operation and maintenance of regional educational schools and institutions for the benefit of citizens of the respective states residing within the region so established as may be determined from time to time in accordance with the terms and provisions of this compact.

(a) The states do further hereby establish and create a joint agency which shall be known as the Board of Control for Southern Regional Education (hereinafter referred to as the "board"), the members of which board shall consist of the governor of each state, ex officio, and four (4) additional citizens of each state to be appointed by the governor thereof, at least one (1) of whom shall be selected from the field of education, and at least one (1) of whom shall be a member of the legislature of that state. In making his appointments, the governor shall appoint persons as broadly representative as possible of the variety of higher education at institutions in the state. The governor shall continue as a member of the board during his tenure of office as governor of the state but the members of the board appointed by the governor shall hold office for a period of four (4) years, except that in the original appointment one (1) board member so appointed by the governor shall be designated at the time of his appointment to serve an initial term of three (3) years, but thereafter his successor shall serve the full term of four (4) years. Vacancies on the board caused by death, resignation, refusal or inability to serve, shall be filled by appointment by the governor for the unexpired portion of the term. The officers of the board shall be a chairman, a vice chairman, a secretary, a treasurer and such additional officers as may be created by the board from time to time.

(b) It shall be the duty of the board to submit plans and recommendations to the states from time to time for their approval and adoption by appropriate legislative action for the development, establishment, acquisition, operation and maintenance of educational schools and institutions within the geographical limits of the regional area of the states, of such character and type and for such educational purposes, professional, technological, scientific, literary or otherwise, as they may deem and determine to be proper, necessary or advisable. Title to all such educational institutions when so established by appropriate legislative actions of the states and to all properties and facilities used in connection therewith shall be vested in said board as the agency of and for the use and benefit of the said states and the citizens thereof, and all such educational institutions shall be operated, maintained and financed in the manner herein set out, subject to any provisions or limitations which may be contained in the legislative acts of the states authorizing the creation, establishment and operation of such educational institutions.

(c) In addition to the power and authority heretofore granted, the board shall have the power to enter into such agreements or arrangements with any of the states and with educational institutions or agencies, as may be required in the judgment of the board, to provide adequate services and facilities for the graduate, professional, and technical education for the benefit of the citizens of the respective states residing within the region.

(d) The board shall have such additional and general power and authority as may be vested in it by the states from time to time by legislative enactments of the said states.

(e) Any two (2) or more states who are parties of this compact shall have the right to enter into supplemental agreements providing for the establish-

ment, financing and operation of regional educational institutions for the benefit of citizens residing within an area which constitutes a portion of the general region herein created, such institutions to be financed exclusively by such states and to be controlled exclusively by the members of the board representing such states, provided such agreement is submitted to and approved by the board prior to the establishment of such institutions.

Each state agrees that, when authorized by the legislature, it will from time to time make available and pay over to said board such funds as may be required for the establishment, acquisition, operation and maintenance of such regional educational institutions as may be authorized by the states under the terms of this compact, the contribution of each state at all times to be in the proportion that its population bears to the total combined population of the states who are parties hereto as shown from time to time by the most recent official published report of the bureau of census of the United States of America or upon such other basis as may be agreed upon.

(f) This compact shall not take effect or be binding upon any state unless and until it shall be approved by proper legislative action of as many as six (6) or more of the states whose governors have subscribed hereto within a period of eighteen (18) months from the date hereof. When and if six (6) or more states shall have given legislative approval to this compact within said eighteen (18) months period, it shall be and become binding upon such six (6) or more states sixty (60) days after the date of legislative approval by the sixth state and the governors of such six (6) or more states shall forthwith name the members of the board from their states as hereinabove set out, and the board shall then meet on call of the governor of any state approving this compact, at which time the board shall elect officers, adopt bylaws, appoint committees and otherwise fully organize. Other states whose names are subscribed hereto shall thereafter become parties hereto upon approval of this compact by legislative action within two (2) years from the date hereof, upon such conditions as may be agreed upon at the time.

(g) After becoming effective this compact shall thereafter continue without limitation of time, provided, however, that it may be terminated at any time by unanimous action of the states and provided, further, that any state may withdraw from this compact if such withdrawal is approved by its legislature, such withdrawal to become effective two (2) years after written notice thereof to the board accompanied by a certified copy of the requisite legislative action, but such withdrawal shall not relieve the withdrawing state from its obligations hereunder accruing up to the effective date of such withdrawal. Any state so withdrawing shall ipso facto cease to have any claim to or ownership of any of the property held or vested in the board or to any of the funds of the board held under the terms of this compact.

If any state shall at any time become in default in the performance of any of its obligations assumed herein or with respect to any obligation imposed upon said state as authorized by and in compliance with the terms and provisions of this compact, all rights, privileges and benefits of such

defaulting state, its members on the board and its citizens shall ipso facto be and become suspended from and after the date of such default. Unless such default shall be remedied and made good within a period of one (1) year immediately following the date of such default this compact may be terminated with respect to such defaulting state by an affirmative vote of three-fourths ( $\frac{3}{4}$ ) of the members of the board (exclusive of the members representing the state in default), from and after which time such state shall cease to be a party to this compact and shall have no further claim to or ownership of any of the property held by or vested in the board or to any of the funds of the board held under the terms of this compact, but such termination shall in no manner release such defaulting state from any accrued obligation or otherwise affect this compact or the rights, duties, privileges or obligations of the remaining states thereunder.

C. Immunizations. Compacting states shall give thirty (30) days from the date of enrollment or within such time as is reasonably determined under the rules promulgated by the Interstate Commission for students to obtain any immunization(s) required by the receiving state. For a series of immunizations, initial vaccinations must be obtained within thirty (30) days or within such time as is reasonably determined under the rules promulgated by the Interstate Commission.

D. Kindergarten and First Grade entrance age. Students shall be allowed to continue their enrollment at the grade level in the receiving state commensurate with their grade level (including kindergarten) from a local education agency in the sending state at the time of transition, regardless of age. A student who has satisfactorily completed the prerequisite grade level in the local education agency in the sending state shall be eligible for enrollment in the next highest grade level in the receiving state, regardless of age. A student transferring after the start of the school year in the receiving state shall enter the school in the receiving state on their validated level from an accredited school in the sending state.

## **ARTICLE V PLACEMENT AND ATTENDANCE**

A. Course placement. When the student transfers before or during the school year, the receiving state school shall initially honor placement of the student in educational courses based on the student's enrollment in the sending state school and/or educational assessments conducted at the school in the sending state if the courses are offered. Course placement includes, but is not limited to, honors, International Baccalaureate, advanced placement, vocational, technical, and career pathway courses. Continuing the student's academic program from the previous school and promoting placement in academically and career challenging courses should be paramount when considering placement. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement and continued enrollment of the student in the course(s).

B. Educational program placement. The receiving state school shall initially honor placement of the student in educational programs based on current educational assessments conducted at the school in the sending state or participation/placement in like programs in the sending state. Such programs include, but are not limited to, (i) gifted and talented programs, and (ii) English as a second language (ESL). This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

C. Special education services. In compliance with the federal requirements of the Individuals with Disabilities Education Act (IDEA), 20 USC, Section 1400 et seq., the receiving state shall initially provide comparable services to a student with disabilities based on his/her current Individualized Education Program (IEP) and in compliance with the requirements of Section 504 of the Rehabilitation Act, 29 USC, Section 794, and with Title II of the Americans with Disabilities Act, 42 USC, Sections 12131-12165, and the receiving state shall make reasonable accommodations and modifications to address the needs of incoming students with disabilities, subject to an existing 504 or Title II Plan, to provide the student with equal access to education. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

D. Placement flexibility. Local education agency administrative officials shall have flexibility in waiving course/program prerequisites or other precon-

ditions for placement in courses/programs offered under the jurisdiction of the local education agency.

E. Absence as related to deployment activities. A student whose parent or legal guardian is an active duty member of the uniformed services, as defined by the compact, and has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat support posting, shall be granted additional excused absences at the discretion of the local education agency superintendent to visit with his or her parent or legal guardian relative to such leave or deployment of the parent or guardian.

## **ARTICLE VI ELIGIBILITY**

### **A. Eligibility for enrollment.**

1. Special power of attorney, relative to the guardianship of a child of a military family, and executed under applicable law, shall be sufficient for the purposes of enrollment and all other actions requiring parental participation and consent;

2. A local education agency shall be prohibited from charging local tuition to a transitioning military child placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent; and

3. A transitioning military child, placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent, may continue to attend the school in which he/she was enrolled while residing with the custodial parent.

B. Eligibility for extracurricular participation. State and local education agencies shall facilitate the opportunity for transitioning military children's inclusion in extracurricular activities, regardless of application deadlines, to the extent they are otherwise qualified.

## **ARTICLE VII GRADUATION**

In order to facilitate the on-time graduation of children of military families, state and local education agencies shall incorporate the following procedures:

A. Waiver requirements. Local education agency administrative officials shall waive specific courses required for graduation if similar coursework has been satisfactorily completed in another local education agency or shall provide reasonable justification for denial. Should a waiver not be granted to a student who would qualify to graduate from the sending school, the local education agency shall provide an alternative means of acquiring required coursework so that graduation may occur on time.

B. Exit exams. States shall accept: (i) exit or end-of-course exams required for graduation from the sending state, (ii) national norm-referenced achievement tests, or (iii) alternative testing, in lieu of testing requirements for graduation in the receiving state. In the event the above alternatives cannot be accommodated by the receiving state for a student transferring in

his or her senior year, then the provisions of Article VII, subsection C shall apply.

C. Transfers during senior year. Should a military student transferring at the beginning or during his or her senior year be ineligible to graduate from the receiving local education agency after all alternatives have been considered, the sending and receiving local education agencies shall ensure the receipt of a diploma from the sending local education agency, if the student meets the graduation requirements of the sending local education agency. In the event that one of the states in question is not a member of this compact, the member state shall use best efforts to facilitate the on-time graduation of the student in accordance with subsections A and B of this Article.

## **ARTICLE VIII STATE COORDINATION**

A. Each member state shall, through the creation of a State Council or use of an existing body or board, provide for the coordination among its agencies of government, local education agencies, and military installations concerning the state's participation in, and compliance with, this compact and Interstate Commission activities. While each member state may determine the membership of its own State Council, its membership must include at least: (i) the state superintendent of education, (ii) the superintendent of a school district with a high concentration of military children, (iii) one (1) representative from a military installation, (iv) one (1) representative each from the legislative and executive branches of government, and other offices and stakeholder groups the State Council deems appropriate. A member state that does not have a school district deemed to contain a high concentration of military children may appoint a superintendent from another school district to represent local education agencies on the State Council.

B. The State Council of each member state shall appoint or designate a military family education liaison to assist military families and the state in facilitating the implementation of this compact.

C. The Governor of each member state shall appoint or designate a compact commissioner responsible for the administration and management of the state's participation in the compact and who is empowered to establish statewide policy related to matters governed by this compact.

D. The compact commissioner and the military family education liaison designated herein shall be ex officio members of the State Council, unless either is already a full voting member of the State Council.

## **ARTICLE IX INTERSTATE COMMISSION ON EDUCATIONAL OPPORTUNITY FOR MILITARY CHILDREN**

The member states hereby create the Interstate Commission on Educational Opportunity for Military Children. The activities of the Interstate Commission are the formation of public policy and are a discretionary state function. The Interstate Commission shall:

A. Be a body corporate and joint agency of the member states and shall have all the responsibilities, powers, and duties set forth herein and such additional powers as may be conferred upon it by a subsequent concurrent action of the respective legislatures of the member states in accordance with the terms of this compact.

B. Consist of one (1) Interstate Commission voting representative from each member state who shall be that state's compact commissioner and who is empowered to establish statewide policy related to matters governed by this compact.

1. Each member state represented at a meeting of the Interstate Commission is entitled to one (1) vote;

2. A majority of the total member states shall constitute a quorum for the transaction of business, unless a larger quorum is required by the bylaws of the Interstate Commission;

3. A representative shall not delegate a vote to another member state. In the event the compact commissioner is unable to attend a meeting of the Interstate Commission, the Governor or State Council may delegate voting authority to another person from the state for a specified meeting; and

4. The bylaws may provide for meetings of the Interstate Commission to be conducted by telecommunication or electronic communication.

C. Consist of ex officio, nonvoting representatives who are members of interested organizations. Such ex officio members, as defined in the bylaws, may include, but not be limited to, members of the representative organizations of military family advocates, local education agency officials, parent and teacher groups, the U.S. Department of Defense, the Education Commission of the States, the Interstate Agreement on the Qualification of Educational Personnel, and other interstate compacts affecting the education of children of military members.

D. Meet at least once each calendar year. The chairperson may call additional meetings and, upon the request of a simple majority of the member states, shall call additional meetings.

E. Establish an executive committee, whose members shall include the officers of the Interstate Commission and such other members of the Interstate Commission as determined by the bylaws. Members of the executive committee shall serve a one-year term. Members of the executive committee shall be entitled to one (1) vote each. The executive committee shall have the power to act on behalf of the Interstate Commission, with the exception of rule-making, during periods when the Interstate Commission is not in session. The executive committee shall oversee the day-to-day activities of the administration of the compact, including enforcement and compliance with the provisions of the compact, its bylaws and rules, and other such duties as deemed necessary. The U.S. Department of Defense shall serve as an ex officio, nonvoting member of the executive committee.

F. Establish bylaws and rules that provide for conditions and procedures under which the Interstate Commission shall make its information

and official records available to the public for inspection or copying. The Interstate Commission may exempt from disclosure information or official records to the extent they would adversely affect personal privacy rights or proprietary interests.

G. Public notice shall be given by the Interstate Commission of all meetings, and all meetings shall be open to the public, except as set forth in the rules or as otherwise provided in the compact. The Interstate Commission and its committees may close a meeting, or portion thereof, when it determines by two-thirds (2/3) vote that an open meeting would be likely to:

1. Relate solely to the Interstate Commission's internal personnel practices and procedures;

2. Disclose matters specifically exempted from disclosure by federal and state statute;

3. Disclose trade secrets or commercial or financial information that is privileged or confidential;

4. Involve accusing a person of a crime or formally censuring a person;

5. Disclose information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;

6. Disclose investigative records compiled for law enforcement purposes; or

7. Specifically relate to the Interstate Commission's participation in a civil action or other legal proceeding.

H. For a meeting, or portion of a meeting, closed pursuant to the provisions of subsection G, the Interstate Commission's legal counsel or designee shall certify that the meeting may be closed and shall reference each relevant exemptible provision. The Interstate Commission shall keep minutes, which shall fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefor, including a description of the views expressed and the record of a roll call vote. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the Interstate Commission.

I. The Interstate Commission shall collect standardized data concerning the educational transition of the children of military families under this compact as directed through its rules, which shall specify the data to be collected, the means of collection and data exchange, and reporting requirements. Such methods of data collection, exchange, and reporting shall, insofar as is reasonably possible, conform to current technology and coordinate its information functions with the appropriate custodian of records as identified in the bylaws and rules.

J. The Interstate Commission shall create a process that permits military officials, education officials, and parents to inform the Interstate Commission if and when there are alleged violations of the compact or its rules or when issues subject to the jurisdiction of the compact or its rules are

not addressed by the state or local education agency. This subsection shall not be construed to create a private right of action against the Interstate Commission or any member state.

## ARTICLE X POWERS AND DUTIES OF THE INTERSTATE COMMISSION

The Interstate Commission shall have the following powers:

- A. To provide for dispute resolution among member states.
- B. To promulgate rules and take all necessary actions to effect the goals, purposes, and obligations as enumerated in this compact. The rules shall have the force and effect of statutory law and shall be binding in the compact states to the extent and in the manner provided in this compact.
- C. To issue, upon request of a member state, advisory opinions concerning the meaning or interpretation of the interstate compact, its bylaws, rules, and actions.

- H. To establish and appoint committees, including, but not limited to, an executive committee as required by Article IX, subsection E, which shall have the power to act on behalf of the Interstate Commission in carrying out its powers and duties hereunder.
- I. To elect or appoint such officers, attorneys, employees, agents, or consultants, and to fix their compensation, define their duties, and determine their qualifications and to establish the Interstate Commission's personnel policies and programs relating to conflicts of interest, rates of compensation, and qualifications of personnel.
- J. To accept any and all donations and grants of money, equipment, supplies, materials, and services and to receive, utilize, and dispose of them.
- K. To lease, purchase, accept contributions or donations of, or otherwise to own, hold, improve, or use any property, real, personal, or mixed.
- L. To sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, real, personal, or mixed.
- M. To establish a budget and make expenditures.
- N. To adopt a seal and bylaws governing the management and operation of the Interstate Commission.
- O. To report annually to the legislatures, governors, judiciary, and state councils of the member states concerning the activities of the Interstate Commission during the preceding year. Such reports shall also include any recommendations that may have been adopted by the Interstate Commission.
- P. To coordinate education, training, and public awareness regarding the compact, its implementation, and operation for officials and parents involved in such activity.

Q. To establish uniform standards for the reporting, collecting, and exchanging of data.

R. To maintain corporate books and records in accordance with the bylaws.

S. To perform such functions as may be necessary or appropriate to achieve the purposes of this compact.

T. To provide for the uniform collection and sharing of information between and among member states, schools, and military families under this compact.

## **ARTICLE XI ORGANIZATION AND OPERATION OF THE INTERSTATE COMMISSION**

A. The Interstate Commission shall, by a majority of the members present and voting, within twelve (12) months after the first Interstate Commission meeting, adopt bylaws to govern its conduct as may be necessary or appropriate to carry out the purposes of the compact, including, but not limited to:

1. Establishing the fiscal year of the Interstate Commission;
2. Establishing an executive committee and such other committees as may be necessary;
3. Providing for the establishment of committees and for governing any general or specific delegation of authority or function of the Interstate Commission;
4. Providing reasonable procedures for calling and conducting meetings of the Interstate Commission and ensuring reasonable notice of each such meetings;
5. Establishing the titles and responsibilities of the officers and staff of the Interstate Commission;
6. Providing a mechanism for concluding the operations of the Interstate Commission and the return of surplus funds that may exist upon the termination of the compact after the payment and reserving all of its debts and obligations; and
7. Providing “start-up” rules for initial administration of the compact.

B. The Interstate Commission shall, by a majority of the members, elect annually from among its members a chairperson, a vice chairperson and a treasurer, each of whom shall have the authority and duties as may be specified in the bylaws. The chairperson or, in the chairperson’s absence or disability, the vice chairperson shall preside at all meetings of the Interstate Commission. The officers so elected shall serve without compensation or remuneration from the Interstate Commission provided that, subject to the availability of budgeted funds, the officers shall be reimbursed for ordinary and necessary costs and expenses incurred by them in the performance of their responsibilities as officers of the Interstate Commission.

C. Executive Committee, officers, and personnel.

1. The executive committee shall have such authority and duties as may be set forth in the bylaws, including, but not limited to: (a) managing

the affairs of the Interstate Commission in a manner consistent with the bylaws and purposes of the Interstate Commission; (b) overseeing an organizational structure within and appropriate procedures for the Interstate Commission to provide for the creation of rules, operating procedures, and administrative and technical support functions; and (c) planning, implementing, and coordinating communications and activities with other state, federal, and local government organizations in order to advance the goals of the Interstate Commission.

2. The executive committee may, subject to the approval of the Interstate Commission, appoint or retain an executive director for such period, upon such terms and conditions, and for such compensation as the Interstate Commission may deem appropriate. The executive director shall serve as secretary to the Interstate Commission, but shall not be a member of the Interstate Commission. The executive director shall hire and supervise such other persons as may be authorized by the Interstate Commission.

D. The Interstate Commission's executive director and its employees shall be immune from suit and liability, either personally or in their official capacity, for a claim for damage to or loss of property or personal injury or other civil liability caused or arising out of or relating to an actual or alleged act, error, or omission that occurred, or that such person had a reasonable basis for believing occurred, within the scope of Interstate Commission employment, duties, or responsibilities, provided that such person shall not be protected from suit or liability for damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of such person.

1. The liability of the Interstate Commission's executive director and employees or the Interstate Commission representatives, acting within the scope of their employment or duties for acts, errors, or omissions occurring within such person's state, may not exceed the limits of liability set forth under the constitution and laws of that state for state officials, employees, and agents. The Interstate Commission is considered to be an instrumentality of the states for the purposes of any such action. Nothing in this subsection D shall be construed to protect such person from suit or liability for damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of such person.

2. The Interstate Commission shall defend the executive director and its employees and, subject to the approval of the Attorney General or other appropriate legal counsel of the member state represented by an Interstate Commission representative, shall defend such Interstate Commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities, or that the defendant had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such person.

3. To the extent not covered by the state involved, member state, or the Interstate Commission, the representatives or employees of the Interstate

Commission shall be held harmless in the amount of a settlement or judgment, including attorney's fees and costs, obtained against such persons arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities, or that such persons had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such persons.

## **ARTICLE XII**

### **RULE-MAKING FUNCTIONS OF THE INTERSTATE COMMISSION**

A. Rule-making authority. The Interstate Commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of this compact. Notwithstanding the foregoing, in the event the Interstate Commission exercises its rule-making authority in a manner that is beyond the scope of the purposes of this compact, or the powers granted hereunder, then such an action by the Interstate Commission shall be invalid and have no force or effect.

B. Rule-making procedure. Rules shall be made pursuant to a rule-making process that substantially conforms to the "Model State Administrative Procedure Act," of 1981 Act, Uniform Laws Annotated, Vol. 15, p. 1 (2000) as amended, as may be appropriate to the operations of the Interstate Commission.

C. Not later than thirty (30) days after a rule is promulgated, any person may file a petition for judicial review of the rule provided that the filing of such a petition shall not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the Interstate Commission consistent with applicable law and shall not find the rule to be unlawful if the rule represents a reasonable exercise of the Interstate Commission's authority.

D. If a majority of the Legislatures of the compacting states rejects a rule by enactment of a statute or resolution in the same manner used to adopt the compact, then such rule shall have no further force and effect in any compacting state.

## **ARTICLE XIII**

### **OVERSIGHT, ENFORCEMENT, AND DISPUTE RESOLUTION**

A. Oversight.

1. The executive, legislative, and judicial branches of state government in each member state shall enforce this compact and shall take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated hereunder shall have standing as statutory law;

2. All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to

the subject matter of this compact which may affect the powers, responsibilities, or actions of the Interstate Commission; and

3. The Interstate Commission shall be entitled to receive all service of process in any such proceeding and shall have standing to intervene in the proceeding for all purposes. Failure to provide service of process to the Interstate Commission shall render a judgment or order void as to the Interstate Commission, this compact, or promulgated rules.

B. Default, technical assistance, suspension, and termination.

If the Interstate Commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact, or the bylaws or promulgated rules, the Interstate Commission shall:

1. Provide written notice to the defaulting state and other member states of the nature of the default, the means of curing the default, and any action taken by the Interstate Commission. The Interstate Commission shall specify the conditions by which the defaulting state must cure its default;

2. Provide remedial training and specific technical assistance regarding the default;

3. If the defaulting state fails to cure the default, the defaulting state shall be terminated from the compact upon an affirmative vote of a majority of the member states, and all rights, privileges, and benefits conferred by this compact shall be terminated from the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default;

4. Suspension or termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Interstate Commission to the Governor, the majority and minority leaders of the defaulting state's Legislature, and each of the member states;

5. The state which has been suspended or terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of suspension or termination, including obligations the performance of which extends beyond the effective date of suspension or termination;

6. The Interstate Commission shall not bear any costs relating to any state that has been found to be in default or which has been suspended or terminated from the compact, unless otherwise mutually agreed upon in writing between the Interstate Commission and the defaulting state; and

7. The defaulting state may appeal the action of the Interstate Commission by petitioning the United States District Court for the District of Columbia or the federal district where the Interstate Commission has its principal offices. The prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees.

C. Dispute resolution.

1. The Interstate Commission shall attempt, upon the request of a member state, to resolve disputes that are subject to the compact and that may arise among member states and between member and nonmember states.

2. The Interstate Commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

**D. Enforcement.**

1. The Interstate Commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

2. The Interstate Commission may by majority vote of the members initiate legal action in the United States District Court for the District of Columbia or, at the discretion of the Interstate Commission, in the federal district where the Interstate Commission has its principal offices to enforce compliance with the provisions of the compact, its promulgated rules and bylaws against a member state in default. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees.

3. The remedies herein shall not be the exclusive remedies of the Interstate Commission. The Interstate Commission may avail itself of any other remedies available under state law or the regulation of a profession.

## **ARTICLE XIV**

### **FINANCING OF THE INTERSTATE COMMISSION**

A. The Interstate Commission shall pay or provide for the payment of the reasonable expenses of its establishment, organization, and ongoing activities.

B. The Interstate Commission may levy on and collect an annual assessment from each member state to cover the cost of the operations and activities of the Interstate Commission and its staff, which must be in a total amount sufficient to cover the Interstate Commission's annual budget as approved each year. The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the Interstate Commission, which shall promulgate a rule binding upon all member states.

C. The Interstate Commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same nor shall the Interstate Commission pledge the credit of any of the member states, except by and with the authority of the member state.

D. The Interstate Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Interstate Commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the Interstate Commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the Interstate Commission.

## **ARTICLE XV**

### **MEMBER STATES, EFFECTIVE DATE, AND AMENDMENT**

A. Any state is eligible to become a member state.

B. The compact shall become effective and binding upon legislative enactment of the compact into law by no less than ten (10) of the states. The effective date shall be no earlier than December 1, 2008. Thereafter it shall

become effective and binding as to any other member state upon enactment of the compact into law by that state. The Governors of nonmember states or their designees shall be invited to participate in the activities of the Interstate Commission on a nonvoting basis prior to adoption of the compact by all states.

C. The Interstate Commission may propose amendments to the compact for enactment by the member states. No amendment shall become effective and binding upon the Interstate Commission and the member states unless and until it is enacted into law by unanimous consent of the member states.

## ARTICLE XVI WITHDRAWAL AND DISSOLUTION

### A. Withdrawal.

1. Once effective, the compact shall continue in force and remain binding upon each and every member state, provided that a member state may withdraw from the compact specifically by repealing the statute which enacted the compact into law.

2. Withdrawal from this compact shall be by the enactment of a statute repealing the same, but shall not take effect until one (1) year after the effective date of such statute and until written notice of the withdrawal has been given by the withdrawing state to the Governor of each other member jurisdiction.

3. The withdrawing state shall immediately notify the chairperson of the Interstate Commission in writing upon the introduction of legislation repealing this compact in the withdrawing state. The Interstate Commission shall notify the other member states of the withdrawing state's intent to withdraw within sixty (60) days of its receipt thereof.

4. The withdrawing state is responsible for all assessments, obligations, and liabilities incurred through the effective date of withdrawal, including obligations the performance of which extends beyond the effective date of withdrawal.

5. Reinstatement following withdrawal of a member state shall occur upon the withdrawing state reenacting the compact or upon such later date as determined by the Interstate Commission.

### B. Dissolution of compact.

1. This compact shall dissolve effective upon the date of the withdrawal or default of the member state that reduces the membership in the compact to one (1) member state.

2. Upon the dissolution of this compact, the compact becomes null and void and shall be of no further force or effect and the business and affairs of the Interstate Commission shall be concluded and surplus funds shall be distributed in accordance with the bylaws.

## ARTICLE XVII SEVERABILITY AND CONSTRUCTION

A. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision is deemed unenforceable, the remaining provisions of the compact shall be enforceable.

B. The provisions of this compact shall be liberally construed to effectuate its purposes.

C. Nothing in this compact shall be construed to prohibit the applicability of other interstate compacts to which the states are members.

### ARTICLE XVIII

#### BINDING EFFECT OF COMPACT AND OTHER LAWS

A. Other laws.

1. Nothing herein prevents the enforcement of any other law of a member state that is not inconsistent with this compact.

2. All member states' laws conflicting with this compact are superseded to the extent of the conflict.

B. Binding effect of the compact.

1. All lawful actions of the Interstate Commission, including all rules and bylaws promulgated by the Interstate Commission, are binding upon the member states.

2. All agreements between the Interstate Commission and the member states are binding in accordance with their terms.

3. In the event any provision of this compact exceeds the constitutional limits imposed on the Legislature of any member state, such provision shall be ineffective to the extent of the conflict with the constitutional provision in question in that member state.

It is the intent of the Legislature that any tax levies generated to produce additional local funds required by any school district to operate school terms in excess of one hundred seventy-five (175) days shall not be construed to constitute a new program for the purposes of exemption from the limitation on tax revenues as allowed under Sections 27-39-321 and 37-57-107 for new programs mandated by the Legislature.

(k) The term “transportation density” shall mean the number of transported children in average daily attendance per square mile of area served in a school district, as determined by the State Department of Education.

Beginning with the 2003-2004 school year, the State Board of Education shall fix a number of days, not to exceed forty-five (45) consecutive school days, during which a teacher may not be under contract of employment during any school year and still be considered to have been in full-time employment for a regular scholastic term. If a teacher exceeds the number of days established by the State Board of Education that a teacher may not be under contract but may still be employed, that teacher shall not be credited with a year of teaching experience. In determining the experience of school librarians, each complete year of continuous, full-time employment as a professional librarian in a public library in this or some other state shall be considered a year of teaching experience. If a full-time school administrator returns to actual teaching in the public schools, the term “year of teaching experience” shall include the period of time he or she served as a school administrator. In determining the salaries of teachers who have experience in any branch of the military, the term “year of teaching experience” shall include each complete year of actual classroom instruction while serving in the military. In determining the experience of speech-language pathologists and audiologists, each complete year of continuous full-time post master’s degree employment in an educational setting in this or some other state shall be considered a year of teaching experience. Provided, however, that school districts are authorized, in their discretion, to negotiate the salary levels applicable to certificated employees employed after July 1, 2009, who are receiving retirement benefits from the retirement system of another state, and the annual experience increment provided in Section 37-19-7 shall not be applicable to any such retired certificated employee.

(n)(i) The term “average daily attendance” shall be the figure which results when the total aggregate full-day attendance during the period or months counted is divided by the number of days during the period or months counted upon which both teachers and pupils are in regular attendance for scheduled classroom instruction, unless a pupil’s absence is excused due to participation in an activity authorized by the State Board of Education under subparagraph (ii) of this paragraph, less the average daily attendance for self-contained special education classes. For purposes

of determining and reporting attendance, a pupil must be present for at least sixty-three percent (63%) of the instructional day, as fixed by the local school board for each school in the school district, in order to be considered in full-day attendance. Prior to full implementation of the adequate education program the department shall deduct the average daily attendance for the alternative school program provided for in Section 37-19-22.

(ii) The State Board of Education shall define those activities necessitating a pupil's absence that, for purposes of determining and reporting attendance for average daily attendance purposes, must be considered an excused absence. Such activities include, but are not limited to: official organized events sponsored by the 4-H or Future Farmers of America (FFA); official organized junior livestock shows and rodeo events; official employment as a page at the State Capitol for the Mississippi House of Representatives or Senate; subject-matter field trips; athletic contests; student conventions; music festivals or contests; and any similar school-related activity designated by the State Board of Education. The State Board of Education shall prescribe the means by which a pupil's absence due to participation in an activity authorized by the board pursuant to this subparagraph must be verified. This subparagraph (ii) shall stand repealed on July 1, 2016.

(v) "Charter school" means a public school that is established and operating under the terms of a charter contract between the school's governing board and the Mississippi Charter School Authorizer Board.

## ATTORNEY GENERAL OPINIONS

The State Board of Education may adopt a regulation concerning the definition of “adequate education program” to require that Level I or Level II school districts submitting plans for Interim School District Capital Expenditure funds show that their applications are tied to achieving Level III accreditation. Portis, July 16, 1997, A.G. Op. #97-0368.

If a school board determines that the partial time taught by a teacher in separate school years would total at least nine months of actual teaching then the requirements for a year of teaching experience are met; however, if it is clear that the employee was hired by the school district at a specific salary level and was paid accordingly for the work performed, the district may adjust the employee’s level of experience prospectively, but there

is no authority that would allow the district to award retroactive pay for work that has already been performed and for which an agreed upon compensation had already been provided. Chaney, Apr. 18, 2003, A.G. Op. 03-0150.

The Legislature intended to include the professional instructional or teaching experience of speech-language pathologists and audiologists in a “clinical setting” in determining their salaries for employment in the schools. This may include instructional or training experience gained in a private hospital. The professional experience in an “educational setting” should be determined on a case-by-case basis upon a review of the type of previous employment of speech-language pathologists and/or audiologists. Stimpson, Nov. 21, 2003, A.G. Op. 03-0549.

Teachers may add a partial year of teaching to another partial year of teaching in non-consecutive and different school years to total nine months of actual teaching to meet the requirements for a year of teaching. Further, teachers are not

prohibited from combining partial years taught in different districts to meet the requirement for a year of teaching experience. Shepherd, Dec. 16, 2005, A.G. Op. 05-0586.

### § 37-151-6. Mississippi Adequate Education Program funding.

Effective with fiscal year 2007, the Legislature shall fully fund the Mississippi Adequate Education Program.

**SOURCES:** Laws, 2006, ch. 473, § 2, eff from and after passage (approved Mar. 24, 2006.)

**Editor's Note** — Laws of 2006, ch. 473, § 3 provided as follows:

"SECTION 3. (1) If sufficient funds are not available to fully fund the Mississippi Adequate Education Program (MAEP) for any of the fiscal years 2007, 2008 or 2009, the Legislature shall provide not less than the following amounts to fund the MAEP for those fiscal years: For fiscal year 2007, the amount shall be not less than One Billion Nine Hundred Seventy-three Million Forty thousand One Hundred Twelve Dollars (\$1,973,040,112.00); for fiscal year 2008, the amount shall be not less than Two Billion Thirty-seven Million Two Hundred Twenty-six Thousand Five hundred Eighty-four Dollars (\$2,037,226,584.00); and for fiscal year 2009, the amount shall be not less than Two Billion One hundred One Million Four Hundred Thirteen Thousand Fifty-six Dollars (\$2,101,413,056.00). For fiscal year 2010, the Legislature shall provide not less than Two Billion One Hundred Sixty-five Million Five Hundred Ninety-nine Thousand Five Hundred Twenty-eight Dollars (\$2,165,599,528.00) to fund the MAEP. The minimum amounts required by this section for the MAEP do not include the costs associated with other state mandated costs such as, but not limited to, teacher pay raises, increased costs of insurance and increased costs of employer contributions to the Public Employees' Retirement System, and any such associated costs increases shall be funded separately and in addition to the minimum amounts required by this section.

"(2) If sufficient funds are not available to fully fund the MAEP for any of the fiscal years 2007, 2008 or 2009, the funds required to be provided to school districts under this section shall be allocated and prorated using average daily attendance (ADA) for months one (1) through nine (9) of the second preceding year or months two (2) and three (3) of the preceding year, whichever is greater, for fiscal year 2007, 2008 or 2009, as the case may be. For fiscal year 2010, allocation of funds shall be based on months two (2) and three (3) ADA.

"(3) If sufficient funds are not available to fully fund the MAEP for any of the fiscal years 2007, 2008 or 2009, school districts experiencing at least three (3) consecutive years of growth in ADA shall receive an additional allocation of funds to fund that growth as follows: For fiscal year 2007, twenty-five percent (25%); for fiscal year 2008, fifty percent (50%); and for fiscal year 2009, seventy-five percent (75%). For fiscal year 2010, that growth shall be funded at one hundred percent (100%). The State Department of Education shall determine the percentage change from the prior year of each year of each school district's average of months two (2) and three (3) ADA for the three (3) immediately preceding school years of the year for which funds are being appropriated. For any school district that experiences a positive growth in the average of months two (2) and three (3) ADA each year of the three (3) years, the average percentage growth over the three-year period shall be multiplied times the school district's average of months two (2) and three (3) ADA for the year immediately preceding the year for

which MAEP funds are being appropriated. For fiscal year 2007, twenty-five percent (25%); for fiscal year 2008, fifty percent (50%); for fiscal year 2009, seventy-five percent (75%); and for fiscal year 2010, one hundred percent (100%) of the resulting amount shall be added to the school district's average of months two (2) and three (3) ADA for the year immediately preceding the year for which MAEP funds are being appropriated to arrive at the ADA to be used in determining a school district's MAEP allocation. The district's ADA shall be computed and currently maintained in accordance with regulations promulgated by the State Board of Education."

**§ 37-151-7. Determination of annual allocations for current operation of schools under the adequate education program.**

The annual allocation to each school district for the operation of the adequate education program shall be determined as follows:

(1) **Computation of the basic amount to be included for current operation in the adequate education program.** — The following procedure shall be followed in determining the annual allocation to each school district:

(a) **Determination of average daily attendance.** — Effective with fiscal year 2011, the State Department of Education shall determine the percentage change from the prior year of each year of each school district's average of months two (2) and three (3) average daily attendance (ADA) for the three (3) immediately preceding school years of the year for which funds are being appropriated. For any school district that experiences a positive growth in the average of months two (2) and three (3) ADA each year of the three (3) years, the average percentage growth over the three-year period shall be multiplied times the school district's average of months two (2) and three (3) ADA for the year immediately preceding the year for which MAEP funds are being appropriated. The resulting amount shall be added to the school district's average of months two (2) and three (3) ADA for the year immediately preceding the year for which MAEP funds are being appropriated to arrive at the ADA to be used in determining a school district's MAEP allocation. Otherwise, months two (2) and three (3) ADA for the year immediately preceding the year for which MAEP funds are being appropriated will be used in determining a school district's MAEP allocation. In any fiscal year prior to 2010 in which the MAEP formula is not fully funded, for those districts that do not demonstrate a three-year positive growth in months two (2) and three (3) ADA, months one (1) through nine (9) ADA of the second preceding year for which funds are being appropriated or months two (2) and three (3) ADA of the preceding year for which funds are being appropriated, whichever is greater, shall be used to calculate the district's MAEP allocation. The district's average daily attendance shall be computed and currently maintained in accordance with regulations promulgated by the State Board of Education. The district's average daily attendance shall include any student enrolled in a Dual Enrollment-Dual Credit Program as defined and provided in Section 37-15-38(19). The State Department of

Education shall make payments for Dual Enrollment-Dual Credit Programs to the home school in which the student is enrolled, in accordance with regulations promulgated by the State Board of Education. The community college providing services to students in a Dual Enrollment-Dual Credit Program shall require payment from the home school district for services provided to such students at a rate of one hundred percent (100%) of ADA. All MAEP/state funding shall cease upon completion of high school graduation requirements.

(b) **Determination of base student cost.** — Effective with fiscal year 2011 and every fourth fiscal year thereafter, the State Board of Education, on or before August 1, with adjusted estimate no later than January 2, shall submit to the Legislative Budget Office and the Governor a proposed base student cost adequate to provide the following cost components of educating a pupil in a successful school district: (i) instructional cost; (ii) administrative cost; (iii) operation and maintenance of plant; and (iv) ancillary support cost. For purposes of these calculations, the Department of Education shall utilize financial data from the second preceding year of the year for which funds are being appropriated.

For the instructional cost component, the Department of Education shall select districts that have been identified as instructionally successful and have a ratio of a number of teachers per one thousand (1,000) students that is between one (1) standard deviation above the mean and two (2) standard deviations below the mean of the statewide average of teachers per one thousand (1,000) students. The instructional cost component shall be calculated by dividing the latest available months one (1) through nine (9) ADA into the instructional expenditures of these selected districts. For the purpose of this calculation, the Department of Education shall use the following funds, functions and objects:

Fund 1120 Functions 1110-1199 Objects 100-999, Functions

1210, 1220, 2150-2159 Objects 210 and 215;

Fund 1130 All Functions, Object Code 210 and 215;

Fund 2001 Functions 1110-1199 Objects 100-999;

Fund 2070 Functions 1110-1199 Objects 100-999;

Fund 2420 Functions 1110-1199 Objects 100-999;

Fund 2711 All Functions, Object Code 210 and 215.

Prior to the calculation of the instructional cost component, there shall be subtracted from the above expenditures any revenue received for Chickasaw Cession payments, Master Teacher Certification payments and the district's portion of state revenue received from the MAEP at-risk allocation.

For the administrative cost component, the Department of Education shall select districts that have been identified as instructionally successful and have a ratio of an administrative staff to nonadministrative staff between one (1) standard deviation above the mean and two (2) standard deviations below the mean of the statewide average administrative staff to nonadministrative staff. The administrative cost component shall be calculated by dividing the latest available months one (1) through nine (9) ADA of

the selected districts into the administrative expenditures of these selected districts. For the purpose of this calculation, the Department of Education shall use the following funds, functions and objects:

Fund 1120 Functions 2300-2599, Functions 2800-2899,

Objects 100-999;

Fund 2711 Functions 2300-2599, Functions 2800-2899,

Objects 100-999.

For the plant and maintenance cost component, the Department of Education shall select districts that have been identified as instructionally successful and have a ratio of plant and maintenance expenditures per one hundred thousand (100,000) square feet of building space and a ratio of maintenance workers per one hundred thousand (100,000) square feet of building space that are both between one (1) standard deviation above the mean and two (2) standard deviations below the mean of the statewide average. The plant and maintenance cost component shall be calculated by dividing the latest available months one (1) through nine (9) ADA of the selected districts into the plant and maintenance expenditures of these selected districts. For the purpose of this calculation, the Department of Education shall use the following funds, functions and objects:

Fund 1120 Functions 2600-2699, Objects 100-699

and Objects 800-999;

Fund 2711 Functions 2600-2699, Objects 100-699

and Objects 800-999;

Fund 2430 Functions 2600-2699, Objects 100-699

and Objects 800-999.

For the ancillary support cost component, the Department of Education shall select districts that have been identified as instructionally successful and have a ratio of a number of librarians, media specialists, guidance counselors and psychologists per one thousand (1,000) students that is between one (1) standard deviation above the mean and two (2) standard deviations below the mean of the statewide average of librarians, media specialists, guidance counselors and psychologists per one thousand (1,000) students. The ancillary cost component shall be calculated by dividing the latest available months one (1) through nine (9) ADA into the ancillary expenditures instructional expenditures of these selected districts. For the purpose of this calculation, the Department of Education shall use the following funds, functions and objects:

Fund 1120 Functions 2110-2129, Objects 100-999;

Fund 1120 Functions 2140-2149, Objects 100-999;

Fund 1120 Functions 2220-2229, Objects 100-999;

Fund 2001 Functions 2100-2129, Objects 100-999;

Fund 2001 Functions 2140-2149, Objects 100-999;

Fund 2001 Functions 2220-2229, Objects 100-999.

The total base cost for each year shall be the sum of the instructional cost component, administrative cost component, plant and maintenance cost component and ancillary support cost component, and any estimated adjust-

ments for additional state requirements as determined by the State Board of Education. Provided, however, that the base student cost in fiscal year 1998 shall be Two Thousand Six Hundred Sixty-four Dollars (\$2,664.00).

For each of the fiscal years between the recalculation of the base student cost under the provisions of this paragraph (b), the base student cost shall be increased by an amount equal to forty percent (40%) of the base student cost for the previous fiscal year, multiplied by the latest annual rate of inflation for the State of Mississippi as determined by the State Economist, plus any adjustments for additional state requirements such as, but not limited to, teacher pay raises and health insurance premium increases.

(c) **Determination of the basic adequate education program cost.** — The basic amount for current operation to be included in the Mississippi Adequate Education Program for each school district shall be computed as follows:

Multiply the average daily attendance of the district by the base student cost as established by the Legislature, which yields the total base program cost for each school district.

(d) **Adjustment to the base student cost for at-risk pupils.** — The amount to be included for at-risk pupil programs for each school district shall be computed as follows: Multiply the base student cost for the appropriate fiscal year as determined under paragraph (b) by five percent (5%), and multiply that product by the number of pupils participating in the federal free school lunch program in such school district, which yields the total adjustment for at-risk pupil programs for such school district.

(e) **Add-on program cost.** — The amount to be allocated to school districts in addition to the adequate education program cost for add-on programs for each school district shall be computed as follows:

(i) Transportation cost shall be the amount allocated to such school district for the operational support of the district transportation system from state funds.

(ii) Vocational or technical education program cost shall be the amount allocated to such school district from state funds for the operational support of such programs.

(iii) Special education program cost shall be the amount allocated to such school district from state funds for the operational support of such programs.

(iv) Gifted education program cost shall be the amount allocated to such school district from state funds for the operational support of such programs.

(v) Alternative school program cost shall be the amount allocated to such school district from state funds for the operational support of such programs.

(vi) Extended school year programs shall be the amount allocated to school districts for those programs authorized by law which extend beyond the normal school year.

(vii) University-based programs shall be the amount allocated to school districts for those university-based programs for handicapped

children as defined and provided for in Section 37-23-131 et seq., Mississippi Code of 1972.

(viii) Bus driver training programs shall be the amount provided for those driver training programs as provided for in Section 37-41-1, Mississippi Code of 1972.

The sum of the items listed above (i) transportation, (ii) vocational or technical education, (iii) special education, (iv) gifted education, (v) alternative school, (vi) extended school year, (vii) university-based, and (viii) bus driver training shall yield the add-on cost for each school district.

**(f) Total projected adequate education program cost.** — The total Mississippi Adequate Education Program cost shall be the sum of the total basic adequate education program cost (paragraph (c)), and the adjustment to the base student cost for at-risk pupils (paragraph (d)) for each school district. In any year in which the MAEP is not fully funded, the Legislature shall direct the Department of Education in the K-12 appropriation bill as to how to allocate MAEP funds to school districts for that year.

(g) The State Auditor shall annually verify the State Board of Education's estimated calculations for the Mississippi Adequate Education Program that are submitted each year to the Legislative Budget Office on August 1 and the final calculation that is submitted on January 2.

**(2) Computation of the required local revenue in support of the adequate education program.** — The amount that each district shall provide toward the cost of the adequate education program shall be calculated as follows:

(a) The State Department of Education shall certify to each school district that twenty-eight (28) mills, less the estimated amount of the yield of the School Ad Valorem Tax Reduction Fund grants as determined by the State Department of Education, is the millage rate required to provide the district required local effort for that year, or twenty-seven percent (27%) of the basic adequate education program cost for such school district as determined under paragraph (c), whichever is a lesser amount. In the case of an agricultural high school, the millage requirement shall be set at a level which generates an equitable amount per pupil to be determined by the State Board of Education. The local contribution amount for school districts in which there is located one or more charter schools will be calculated using the following methodology: using the adequate education program twenty-eight (28) mill value, or the twenty-seven percent (27%) cap amount (whichever is less) for each school district in which a charter school is located, an average per pupil amount will be calculated. This average per pupil amount will be multiplied times the number of students attending the charter school in that school district. The sum becomes the charter school's local contribution to the adequate education program.

(b) The State Department of Education shall determine the following from the annual assessment information submitted to the department by the tax assessors of the various counties: (i) the total assessed valuation of

nonexempt property for school purposes in each school district; (ii) assessed value of exempt property owned by homeowners aged sixty-five (65) or older or disabled as defined in Section 27-33-67(2), Mississippi Code of 1972; (iii) the school district's tax loss from exemptions provided to applicants under the age of sixty-five (65) and not disabled as defined in Section 27-33-67(1), Mississippi Code of 1972; and (iv) the school district's homestead reimbursement revenues.

(c) The amount of the total adequate education program funding which shall be contributed by each school district shall be the sum of the ad valorem receipts generated by the millage required under this subsection plus the following local revenue sources for the appropriate fiscal year which are or may be available for current expenditure by the school district:

One hundred percent (100%) of Grand Gulf income as prescribed in Section 27-35-309.

One hundred percent (100%) of any fees in lieu of taxes as prescribed in Section 27-31-104.

**(3) Computation of the required state effort in support of the adequate education program. —**

(a) The required state effort in support of the adequate education program shall be determined by subtracting the sum of the required local tax effort as set forth in subsection (2)(a) of this section and the other local revenue sources as set forth in subsection (2)(c) of this section in an amount not to exceed twenty-seven percent (27%) of the total projected adequate education program cost as set forth in subsection (1)(f) of this section from the total projected adequate education program cost as set forth in subsection (1)(f) of this section.

(b) Provided, however, that in fiscal year 2015, any increase in the said state contribution to any district calculated under this section shall be not less than six percent (6%) in excess of the amount received by said district from state funds for fiscal year 2002; in fiscal year 2016, any increase in the said state contribution to any district calculated under this section shall be not less than four percent (4%) in excess of the amount received by said district from state funds for fiscal year 2002; in fiscal year 2017, any increase in the said state contribution to any district calculated under this section shall be not less than two percent (2%) in excess of the amount received by said district from state funds for fiscal year 2002; and in fiscal year 2018 and thereafter, any increase in the said state contribution to any district calculated under this section shall be zero percent (0%). For purposes of this paragraph (b), state funds shall include minimum program funds less the add-on programs, State Uniform Millage Assistance Grant Funds, Education Enhancement Funds appropriated for Uniform Millage Assistance Grants and state textbook allocations, and State General Funds allocated for textbooks.

(c) If the school board of any school district shall determine that it is not economically feasible or practicable to operate any school within the

district for the full one hundred eighty (180) days required for a school term of a scholastic year as required in Section 37-13-63, Mississippi Code of 1972, due to an enemy attack, a man-made, technological or natural disaster in which the Governor has declared a disaster emergency under the laws of this state or the President of the United States has declared an emergency or major disaster to exist in this state, said school board may notify the State Department of Education of such disaster and submit a plan for altering the school term. If the State Board of Education finds such disaster to be the cause of the school not operating for the contemplated school term and that such school was in a school district covered by the Governor's or President's disaster declaration, it may permit said school board to operate the schools in its district for less than one hundred eighty (180) days and, in such case, the State Department of Education shall not reduce the state contributions to the adequate education program allotment for such district, because of the failure to operate said schools for one hundred eighty (180) days.

(4) The Interim School District Capital Expenditure Fund is hereby established in the State Treasury which shall be used to distribute any funds specifically appropriated by the Legislature to such fund to school districts entitled to increased allocations of state funds under the adequate education program funding formula prescribed in Sections 37-151-3 through 37-151-7, Mississippi Code of 1972, until such time as the said adequate education program is fully funded by the Legislature. The following percentages of the total state cost of increased allocations of funds under the adequate education program funding formula shall be appropriated by the Legislature into the Interim School District Capital Expenditure Fund to be distributed to all school districts under the formula: Nine and two-tenths percent (9.2%) shall be appropriated in fiscal year 1998, twenty percent (20%) shall be appropriated in fiscal year 1999, forty percent (40%) shall be appropriated in fiscal year 2000, sixty percent (60%) shall be appropriated in fiscal year 2001, eighty percent (80%) shall be appropriated in fiscal year 2002, and one hundred percent (100%) shall be appropriated in fiscal year 2003 into the State Adequate Education Program Fund. Until July 1, 2002, such money shall be used by school districts for the following purposes:

(a) Purchasing, erecting, repairing, equipping, remodeling and enlarging school buildings and related facilities, including gymnasiums, auditoriums, lunchrooms, vocational training buildings, libraries, school barns and garages for transportation vehicles, school athletic fields and necessary facilities connected therewith, and purchasing land therefor. Any such capital improvement project by a school district shall be approved by the State Board of Education, and based on an approved long-range plan. The State Board of Education shall promulgate minimum requirements for the approval of school district capital expenditure plans.

(b) Providing necessary water, light, heating, air-conditioning, and sewerage facilities for school buildings, and purchasing land therefor.

(c) Paying debt service on existing capital improvement debt of the district or refinancing outstanding debt of a district if such refinancing will result in an interest cost savings to the district.

(d) From and after October 1, 1997, through June 30, 1998, pursuant to a school district capital expenditure plan approved by the State Department of Education, a school district may pledge such funds until July 1, 2002, plus funds provided for in paragraph (e) of this subsection (4) that are not otherwise permanently pledged under such paragraph (e) to pay all or a portion of the debt service on debt issued by the school district under Sections 37-59-1 through 37-59-45, 37-59-101 through 37-59-115, 37-7-351 through 37-7-359, 37-41-89 through 37-41-99, 37-7-301, 37-7-302 and 37-41-81, Mississippi Code of 1972, or debt issued by boards of supervisors for agricultural high schools pursuant to Section 37-27-65, Mississippi Code of 1972, or lease-purchase contracts entered into pursuant to Section 31-7-13, Mississippi Code of 1972, or to retire or refinance outstanding debt of a district, if such pledge is accomplished pursuant to a written contract or resolution approved and spread upon the minutes of an official meeting of the district's school board or board of supervisors. It is the intent of this provision to allow school districts to irrevocably pledge their Interim School District Capital Expenditure Fund allotments as a constant stream of revenue to secure a debt issued under the foregoing code sections. To allow school districts to make such an irrevocable pledge, the state shall take all action necessary to ensure that the amount of a district's Interim School District Capital Expenditure Fund allotments shall not be reduced below the amount certified by the department or the district's total allotment under the Interim Capital Expenditure Fund if fully funded, so long as such debt remains outstanding.

(e) [Repealed]

(f) [Repealed]

(g) The State Board of Education may authorize the school district to expend not more than twenty percent (20%) of its annual allotment of such funds or Twenty Thousand Dollars (\$20,000.00), whichever is greater, for technology needs of the school district, including computers, software, telecommunications, cable television, interactive video, film, low-power television, satellite communications, microwave communications, technology-based equipment installation and maintenance, and the training of staff in the use of such technology-based instruction. Any such technology expenditure shall be reflected in the local district technology plan approved by the State Board of Education under Section 37-151-17, Mississippi Code of 1972.

(h) To the extent a school district has not utilized twenty percent (20%) of its annual allotment for technology purposes under paragraph (g), a school district may expend not more than twenty percent (20%) of its annual allotment or Twenty Thousand Dollars (\$20,000.00), whichever is greater, for instructional purposes. The State Board of Education may authorize a school district to expend more than said twenty percent (20%)

of its annual allotment for instructional purposes if it determines that such expenditures are needed for accreditation purposes.

(i) The State Department of Education or the State Board of Education may require that any project commenced under this section with an estimated project cost of not less than Five Million Dollars (\$5,000,000.00) shall be done only pursuant to program management of the process with respect to design and construction. Any individuals, partnerships, companies or other entities acting as a program manager on behalf of a local school district and performing program management services for projects covered under this subsection shall be approved by the State Department of Education.

Any interest accruing on any unexpended balance in the Interim School District Capital Expenditure Fund shall be invested by the State Treasurer and placed to the credit of each school district participating in such fund in its proportionate share.

The provisions of this subsection (4) shall be cumulative and supplemental to any existing funding programs or other authority conferred upon school districts or school boards.

(5) The State Department of Education shall make payments to charter schools for each student in average daily attendance at the charter school equal to the state share of the adequate education program payments for each student in average daily attendance at the school district in which the public charter school is located. In calculating the local contribution for purposes of determining the state share of the adequate education program payments, the department shall deduct the pro rata local contribution of the school district in which the student resides as determined in subsection (2)(a) of this section.

**Joint Legislative Committee Note** — Section 1 of ch. 338, Laws of 2006, effective from and after July 1, 2006 (approved March 13, 2006), amended this section. Section 4 of ch. 473, Laws of 2006, effective from and after passage (approved March 24, 2006), also amended this section. As set out above, this section reflects the language of Section 4 of ch. 473, Laws of 2006, pursuant to the terms of Laws of 2006, ch. 473, § 5, as amended by Laws of 2006, ch. 550, § 7, which specifically provides that the amendments made to this section by ch. 473 supersede the amendments made by ch. 338.

**Editor's Note** — Section 7-7-2 provides that the words "State Auditor of Public Accounts," "State Auditor" and "Auditor" appearing in the laws of this state in connection with the performance of Auditor's functions shall mean the State Fiscal Officer whenever they appear.

Section 27-104-6 provides that wherever the term "State Fiscal Officer" appears in any law it shall mean "Executive Director of the Department of Finance and Administration."

Laws of 1997, ch. 612, was vetoed by the Governor on April 10, 1997. The veto was overridden at the 1st 1997 Extraordinary Session of the Legislature on April 23, 1997.

Subsections (4)(e) and (f) were repealed by their own terms effective June 30, 1998.

Section 37-151-3 referred to in (4) was repealed by Laws, 1997, ch. 612, § 30, eff from and after July 1, 2002.

Laws of 2006, ch. 473, § 5, as amended by Laws of 2006, ch. 550, § 7, provides, in part, that the “amendments to Section 37-151-7 contained in Laws of 2006, ch. 473, § 4, shall supersede the amendments to that section contained in Laws of 2006, ch. 338, § 1.”

**Amendment Notes** — The 2012 amendment added the last four sentences in (1)(a); made minor stylistic changes throughout (1)(b); and inserted “the following from the annual assessment information submitted to the department from the annual assessment information submitted to the department by the tax assessors of the various counties” near the beginning in (2)(b).

The 2013 amendment added the last three sentences in (2)(a) and added (5).

The 2014 amendment rewrote (3)(b), which read: “Provided, however, that in fiscal year 1998 and in the fiscal year in which the adequate education program is fully funded by the Legislature, any increase in the said state contribution to any district calculated under this section shall be not less than eight percent (8%) in excess of the amount received by said district from state funds for the fiscal year immediately preceding. For purposes of this paragraph (b), state funds shall include minimum program funds less the add-on programs, State Uniform Millage Assistance Grant Funds, Education Enhancement Funds appropriated for Uniform Millage Assistance Grants and state textbook allocations, and State General Funds allocated for textbooks.”

## JUDICIAL DECISIONS

### 1. Funding and Eleventh Amendment immunity.

Where plaintiff parent sued defendant school district in state court alleging her child was sexually assaulted at school and obtained a judgment under the Mississippi Tort Claims Act, her later claims in federal court were properly held as barred due to *res judicata*; while school districts’ sources of funding under Miss. Code Ann. § 37-45-21, 37-47-1 et seq., Miss. Code Ann. § 37-57-1, Miss. Code Ann. § 37-59-3, and Miss. Code Ann. § 37-151-7

were equally divided between local school districts and the state under Miss. Code Ann. § 11-46-7, Miss. Code Ann. § 11-46-16(2), and Miss. Code Ann. § 11-46-17(2), any judgment against the school district would be paid through the Tort Claims Fund and excess liability insurance, and thus, the school district was not considered an arm of the state entitled to Eleventh Amendment immunity. *Black v. N. Panola Sch. Dist.*, 461 F.3d 584 (5th Cir. 2006).

## ATTORNEY GENERAL OPINIONS

For the purpose of determining the minimum funding guarantee in Miss. Code Section 37-151-7(3), the phrase “fiscal year immediately preceding” means fiscal year 1997 for the five year phase-in period and fiscal year 2002 for calculations beginning fiscal year 2003. *Portis*, July 16, 1997, A.G. Op. #97-0368.

School districts that elect to use Interim School District Capital Expenditure funds to make capital improvements under sub-

sections (5)(a) and (5)(d-g) of Miss. Code Section 37-151-7 must submit plans to the State Board of Education for approval, and if the district intends to issue State Aid Capital Improvement bonds to finance projects under (5)(b) or (c) of this section, exceed the limitations in 5(h) of this section, or the State Board of Education adopts regulations requiring approval of plans even though such bonds will not be issued, then the district must submit

plans for approval to the State Board of Education. Portis, July 16, 1997, A.G. Op. #97-0368.

State Aid Capital Improvement Bonds issued by school districts pursuant to Miss. Code Section 37-151-7(5)(e) must be secured only by Mississippi Adequate Education Program Funds and may not exceed the statutory per pupil limit. Portis, July 16, 1997, A.G. Op. #97-0368.

During the window period provided by the repealer, the State Board of Education may issue bonds under Miss. Code Section 37-151-7(5)(f) for up to twenty years for the same amount and the same purposes as bonds which might have been alternatively issued under Miss. Code Section 37-151-7(5)(e). Portis, July 16, 1997, A.G. Op. #97-0368.

The Mississippi Board of Education may continue to approve plans and expenditures from the Interim School District

Capital Expenditure Fund by a school district, and the Mississippi Department of Education has the authority continue to disperse funds as required from the Interim School District Capital Expenditure Fund into fiscal year 2003. Thompson, June 19, 2002, A.G. Op. #02-0367.

The Mississippi Department of Education is authorized to take any action with regard to Mississippi Adequate Education Program Act (MAEP) refunding bonds that it was authorized to take with regard to the original issuance of MAEP bonds. Likewise, even though the statutory language was repealed after the issuance of MAEP bonds, the state's obligation arising from Section 37-151-7(e) relating to the MAEP bonds would be applicable to MAEP refunding bonds as well, if that commitment is part and parcel of the original MAEP bond obligations. Bounds, Nov. 14, 2005, A.G. Op. 05-0530.

(a) The total assessed valuation of nonexempt property for school purposes in the school district;

(b) The assessed value of exempt property owned by homeowners aged sixty-five (65) or older or disabled, as defined in Section 27-33-67(2), in the school district;

(c) The school district's tax loss from exemptions provided to applicants under the age of sixty-five (65) and not disabled, as defined in Section 27-33-67(1); and

(d) The school district's homestead reimbursement revenues.

(2) The State Department of Education shall prepare and make available to the tax assessor of each county a form for the reports required under this section.

(a) Require school districts that receive allocations of Mississippi Adequate Education Program at-risk funds, as prescribed by Section 37-151-7(1)(d), to specifically target the expenditure of those funds to implement effective programs, as determined by the State Department of Education, to serve at-risk students; and

(b) Provide the methods by which school districts will be expected to account for all expenditures of at-risk funds and how school districts will be held accountable for the expenditure of at-risk funds.

**§ 37-151-10. Center for Education Analysis; powers and duties.**

(1) There is established a Center for Education Analysis which shall be an advisory group attached to the Public Education Forum of Mississippi. The Center for Education Analysis shall create a structure to systematically collect, compile and coordinate data that can be disseminated to business, legislative and education entities for decision-making purposes relating to public education. The Center for Education Analysis may enter into a contractual agreement with the Public Education Forum of Mississippi in order to place the Center within the administrative framework of the Public Education Forum under the following conditions:

(a) All new programs authorized in this section are subject to the availability of funds specifically appropriated therefor by the Legislature from the Education Enhancement Fund to the Public Education Forum for the support and maintenance of the programs of the Center for Education Analysis.

(b) The Public Education Forum will provide a business framework to coordinate its recommendations and reports with the programs of the Center for Education Analysis.

(c) The Public Education Forum shall employ a Director for the Center for Education Analysis with appropriate qualifications. Any public funds expended pursuant to this section shall be audited by the Mississippi Department of Audit.

There is created in the State Treasury a special fund to be known as the "Center for Education Analysis Fund." Monies may be expended out of such funds pursuant to appropriation by the Legislature, to implement the public education analysis program established under the provisions of this section. Disbursements from such fund shall be made only upon requisition of the Director for the Center for Education Analysis.

(2) The Center for Education Analysis established in subsection (1) shall develop and submit to the Legislature and the Governor an annual report on the implementation of the Mississippi Adequate Education Program funding formula and the Interim School District Capital Expenditure Fund program. The first report shall be submitted on January 1, 1999, relating to implementation of the adequate education program and interim capital expenditure program activities during the preceding fiscal year, and shall be submitted annually on January 1 of each subsequent year until January 1, 2003, at which

The preamble to Laws of 1998, ch. 544, provides in pertinent part:

"WHEREAS, in many rural areas and communities in the State of Mississippi, particularly in the Mississippi Delta, there exists a critical shortage of qualified teachers that continues to grow at an increasing rate as the number of teachers in those areas who are eligible for retirement escalates while fewer college students aspire to a career in teaching; and

"WHEREAS, the absence of a qualified teacher in every classroom in the state contributes to overall lower test scores for the State of Mississippi and will negatively impact the state's work force of tomorrow, made of our children of today; and

"WHEREAS, it is the intent of the Legislature, in passing this act, to immediately reverse this teacher shortage trend by offering attractive incentives to qualified persons who pursue a profession in teaching and agree to serve in those communities wherein the greatest need for teachers exists, thereby enabling every child in the State of Mississippi to receive a quality education: NOW, THEREFORE,"

## PUPIL-TEACHER RATIOS

SEC.

37-151-77. Pupil-teacher ratio.

### § 37-151-77. Pupil-teacher ratio.

To qualify for funds provided in this chapter, each school district shall not exceed a pupil-teacher ratio based on enrollment in Grades 1, 2, 3 and 4 as follows: 27:1.

For Grades Kindergarten and 5 through 12, pupil-teacher ratio shall be determined based on appropriate accreditation standards developed by the Mississippi Commission on School Accreditation.

Any local district may apply to the State Board of Education for approval of a waiver to this section by submitting and justifying an alternative educational program to serve the needs of enrollment in Grades Kindergarten and 1 through 4. The State Board of Education shall approve or disapprove of such waiver forty-five (45) days after receipt of such application. If a school district violates the provisions of this section, the state aid for the ensuing fiscal year to such school district shall be reduced by the percentage variance that the actual pupil-teacher ratios in such school district has to the required pupil-teacher ratios mandated in this section. Provided, that notwithstanding the provisions of this section, the State Board of Education is authorized to waive the pupil-teacher requirements specified herein upon a finding that a good faith effort is being made by the school district concerned to comply with the ratio provisions but that for lack of classroom space which was beyond its control it is physically impossible for the district to comply, and the cost of temporary classroom space cannot be justified. In the event any school district meets the highest levels of accreditation standards as determined by the State Board of Education in the state’s accountability system, the State Board of Education may, in its discretion, exempt such school district from the maximum pupil-teacher ratio in Grades 1, 2, 3 and 4 prescribed herein.

### ADD-ON PROGRAM COSTS

SEC.

- 37-151-79. Allowance of state funds for vocational education programs.
- 37-151-81. Allowance of state funds for special education, gifted education and university-based programs.
- 37-151-83. Allowance of state funds for alternative school programs.
- 37-151-85. Transportation allowance.

#### § 37-151-79. Allowance of state funds for vocational education programs.

In addition to other funds provided for in this chapter, there shall be added to the allotment for each school district for each vocational teacher employed full time during the regular school term in a vocational education program approved by the State Department of Education the value of one-half ( $\frac{1}{2}$ ) of the adequate education program salary schedule provided in Section 37-19-7, Mississippi Code of 1972, based on the type of certificate and number of years' teaching experience held by each approved vocational teacher plus one hundred percent (100%) of the applicable employer's rate for Social Security and State Retirement.

**SOURCES:** Laws, 1997, ch. 612, § 5, eff from and after July 1, 2002.

**Editor's Note** — Laws of 1997, ch. 612, was vetoed by the Governor on April 10, 1997. The veto was overridden at the 1st 1997 Extraordinary Session of the Legislature on April 23, 1997.

#### § 37-151-81. Allowance of state funds for special education, gifted education and university-based programs.

(1) In addition to other funds provided for in this chapter, there shall be added to the allotment for each school district for each teacher employed in a State Department of Education approved program for exceptional children as defined in Section 37-23-3, Mississippi Code of 1972, the value of one hundred percent (100%) of the adequate education program salary schedule prescribed in Section 37-19-7, Mississippi Code of 1972, based on the type of certificate and number of years' teaching experience held by each approved special education teacher plus one hundred percent (100%) of the applicable employer's rate for Social Security and State Retirement, except that only seventy percent (70%) of the value will be added for the program for three- and four-year old exceptional children.

(2) In addition to the allowances provided above, for each handicapped child who is being educated by a public school district or is placed in accord with Section 37-23-77, Mississippi Code of 1972, and whose individualized

educational program (IEP) requires an extended school year in accord with the State Department of Education criteria, a sufficient amount of funds shall be allocated for the purpose of providing the educational services the student requires. The State Board of Education shall promulgate such regulations as are required to insure the equitable distribution of these funds. All costs for the extended school year for a particular summer shall be reimbursed from funds appropriated for the fiscal year beginning July 1 of that summer. If sufficient funds are not made available to finance all of the required educational services, the State Department of Education shall expend available funds in such a manner that it does not limit the availability of appropriate education to handicapped students more severely than it does to nonhandicapped students.

(3) The State Department of Education is hereby authorized to match adequate education program and other funds allocated for provision of services to handicapped children with Division of Medicaid funds to provide language-speech services, physical therapy and occupational therapy to handicapped students who meet State Department of Education or Division of Medicaid standards and who are Medicaid eligible. Provided further, that the State Department of Education is authorized to pay such funds as may be required as a match directly to the Division of Medicaid pursuant to an agreement to be developed between the State Department of Education and the Division of Medicaid.

(4) In addition to other funds provided for in this chapter, there shall be added to the allotment for each school district for each teacher employed in a State Department of Education approved program for gifted education as defined in Sections 37-23-173 through 37-23-181, Mississippi Code of 1972, the value of one hundred percent (100%) of the adequate education program salary schedule prescribed in Section 37-19-7, Mississippi Code of 1972, based on the type of certificate and number of years' teaching experience held by each approved gifted education teacher plus one hundred percent (100%) of the applicable employer's rate for Social Security and State Retirement.

(5) When any children who are residents of the State of Mississippi and qualify under the provisions of Section 37-23-31, Mississippi Code of 1972, shall be provided a program of education, instruction and training within a school under the provisions of said section, the State Department of Education shall allocate the value of one hundred percent (100%) of the adequate education program salary schedule prescribed in Section 37-19-7, Mississippi Code of 1972, for each approved program based on the type of certificate and number of years' teaching experience held by each approved teacher plus one hundred percent (100%) of the applicable employer's rate for Social Security and State Retirement. The university or college shall be eligible for state and federal funds for such programs on the same basis as local school districts. The university or college shall be responsible for providing for the additional costs of the program.

(6) In addition to the allotments provided above, a school district may provide a program of education and instruction to children ages five (5) years through twenty-one (21) years, who are resident citizens of the State of

Mississippi, who cannot have their educational needs met in a regular public school program and who have not finished or graduated from high school, if those children are determined by competent medical authorities and psychologists to need placement in a state licensed facility for inpatient treatment, day treatment or residential treatment or a therapeutic group home. Such program shall operate under rules, regulations, policies and standards of school districts as determined by the State Board of Education. If a private school approved by the State Board of Education is operated as an integral part of the state licensed facility that provides for the treatment of such children, the private school within the facility may provide a program of education, instruction and training to such children by requesting the State Department of Education to allocate one (1) teacher unit or a portion of a teacher unit for each approved class. The facility shall be responsible for providing any additional costs of the program.

Such funds will be allotted based on the type of certificate and number of years' teaching experience held by each approved teacher. Such children shall not be counted in average daily attendance when determining regular teacher unit allocation.

### **§ 37-151-83. Allowance of state funds for alternative school programs.**

(1) In addition to other funds allowed under the Adequate Education Program, each school district shall receive a grant for the support of alternative school programs established under Section 37-13-92, Mississippi Code of 1972, in accordance with the following: Three-fourths of one percent (.75%) of the school district's average daily attendance or twelve (12) pupils, whichever is greater, multiplied by the average expenditure of public monies per pupil in the State of Mississippi, as determined by the State Board of Education.

(2) An alternative school advisory board may be created within each school district maintaining a freestanding alternative school or two (2) or more adjacent school districts operating a freestanding alternative school pursuant to a contract approved by the State Board of Education. The advisory board shall meet no less than two (2) times during each school year to study the alternative school program and to make recommendations for improvements to the superintendent of the local school board or boards, as the case may be, and the State Superintendent of Education. The alternative school advisory board shall consist of the following members: one (1) school administrator to be appointed by each local school board of the school district or districts operating the alternative school; one (1) school board member and one (1) parent to be appointed by each superintendent of the school district or districts operating the alternative school; one (1) classroom teacher to be appointed by the

classroom teachers in each school district operating the alternative school; one (1) individual to be appointed by the local youth court judge, or if there is no such court the chancery court judge; and one (1) law enforcement officer to be appointed by the local sheriff. The initial members of the advisory board shall serve as follows: One-third ( $\frac{1}{3}$ ) of the members shall serve two (2) years; one-third ( $\frac{1}{3}$ ) of the members shall serve three (3) years; and one-third ( $\frac{1}{3}$ ) of the members shall serve four (4) years, to be designated by the appointing authority at the time of appointment. Thereafter, the term of each member shall be for a period of four (4) years.

An alternative school advisory board shall have no governing authority over the alternative school program, and not in any manner shall an advisory board's authority supersede the authority of the school district or lead district in those alternative school programs operated jointly by two (2) or more districts.

### **§ 37-151-85. Transportation allowance.**

(1) The amount to be allotted by the State Board of Education for transportation shall be determined as follows:

The State Department of Education shall calculate the cost of transportation in school districts by ascertaining the average cost per pupil in average daily attendance of transported pupils in school districts classified in different density groups as determined by the State Department of Education. Based on these calculations, the State Department of Education shall develop a scale for determining the allowable cost per pupil in different density groups, which scale shall provide greatest allowance per pupil transported in school districts with lowest densities and smallest allowance per pupil in school districts with highest densities. The total allowance in the adequate education program for transported children for any school district for the current year shall be the average daily attendance of the transported children for the nine (9) months of the prior year, multiplied by the allowance per transported pupil as provided herein. However, the State Department of Education is hereby authorized and empowered to make proper adjustments in allotments, under rules and regulations of the State Board of Education, in cases where major changes in the number of children in average daily attendance transported occur from one (1) year to another as a result of changes or alterations in the boundaries of school districts, a change in or relocation of attendance centers, or for other reasons which would result in major decrease or increase in the number of children in average daily attendance transported during the current school year as compared with the preceding year. Moreover, the State Board of Education is hereby authorized and empowered to make such payments to all districts and/or university-based programs as deemed necessary in connection

with transporting exceptional children as defined in Section 37-23-3. The State Board of Education shall establish and implement all necessary rules and regulations to allot transportation payments to university-based programs. In developing density classifications under the provisions hereof, the State Department of Education may give consideration to the length of the route, the sparsity of the population, the lack of adequate roads, highways and bridges, and the presence of large streams or other geographic obstacles. In addition to funds allotted under the above provisions, funds shall be allotted to each school district that transports students from their assigned school or attendance center to classes in an approved vocational-technical center at a rate per mile not to exceed the average statewide cost per mile of school bus transportation during the preceding year exclusive of bus replacement. All such transportation must have prior approval by the State Department of Education.

(2) The average daily attendance of transported children shall be reported by the school district in which such children attend school. If children living in a school district are transported at the expense of such school district to another school district, the average daily attendance of such transported children shall be deducted by the State Department of Education from the aggregate average daily attendance of transported children in the school district in which they attend school and shall be added to the aggregate average daily attendance of transported children of the school district from which they come for the purpose of calculating transportation allotments. However, such deduction shall not be made for the purpose of calculating adequate education program pupil-based funding.

(3) The State Department of Education shall include in the allowance for transportation for each school district an amount for the replacement of school buses or the purchase of new buses, which amount shall be calculated upon the estimated useful life of all school buses being used for the transportation of children in such school district, whether such buses be publicly or privately owned.

(4) The school boards of all districts operating school bus transportation are authorized and directed to establish a salary schedule for school bus drivers. No school district shall be entitled to receive the funds herein allotted for transportation unless it pays each of its nonstudent adult school bus drivers paid from such transportation allotments a minimum of One Hundred Ninety Dollars (\$190.00) per month. In addition, local school boards may compensate school bus drivers, to include temporary or substitute bus drivers, for actual expenses incurred when acquiring an initial commercial license or any renewal of a commercial license in order to drive a school bus. In addition, local school boards may compensate school bus drivers, to include temporary or substitute bus drivers, for expenses, not to exceed One Hundred Dollars (\$100.00), when acquiring an initial medical exam or any renewal of a medical exam, in order to qualify for a commercial driver's license.

(5) The State Board of Education shall be authorized and empowered to use such part of the funds appropriated for transportation in the adequate education fund as may be necessary to finance driver training courses as provided for in Section 37-41-1, Mississippi Code of 1972.

(6) The State Board of Education, acting through the Department of Education, may compensate school bus drivers, to include temporary or substitute bus drivers, who are providing driving services to the various state operated schools, such as the Mississippi School for the Deaf, the Mississippi School for the Blind, the Mississippi School of the Arts, the Mississippi School for Math and Science and any other similar state operated schools, for actual expenses incurred when acquiring an initial commercial license or any renewal of a commercial license in order to drive a school bus, to include the expense, not to exceed One Hundred Dollars (\$100.00), of acquiring an initial medical exam or any renewal of a medical exam in order to qualify for a commercial driver's license.

## ATTORNEY GENERAL OPINIONS

A school district may pay for a public school bus driver to obtain or renew a commercial drivers license. Manning, Feb. 2, 2006, A.G. Op. 05-0096.

A school district may adopt a policy which will allow it to pay school bus drivers for a medical examination expenses, not to exceed \$100.00, in order for the

driver to qualify for a commercial driver's license, and to adopt a policy which allows it to reimburse the driver for actual expenses, other than the cost of the medical examination, incurred in acquiring the license. Brister, Feb. 2, 2006, A.G. Op. 05-0075.

## FUNDS FOR TEACHER SALARIES

Sec.	
37-151-87.	Reduction of local supplement or support from ad valorem taxation.
37-151-89.	Salary payments from other funds.
37-151-91.	Salary schedules.

### § 37-151-87. Reduction of local supplement or support from ad valorem taxation.

No school district shall pay any teacher less than the state minimum salary. Provided, however, that school districts are authorized to reduce the state minimum salary by a pro rata daily amount in order to comply with the school district employee furlough provisions of Section 37-7-308. From and after July 1, 2012, no school district shall receive any funds under the

provisions of this chapter for any school year during which the aggregate amount of local supplement as defined in Section 37-151-5 shall have been reduced below such amount for the previous year. However, (a) where there has been a reduction in adequate education program allocations for such district in such year, (b) where there has been a reduction in the amount of federal funds to such district below the previous year, or (c) where there has been a reduction in ad valorem taxes to such school district for the 1986-1987 school year below the amount for the previous year due to the exemption of nuclear generating plants from ad valorem taxation pursuant to Section 27-35-309, Mississippi Code of 1972, the aggregate amount of local supplement in such district may be reduced in the discretion of the local school board without loss of funds under this chapter. No school district may receive any funds under the provisions of this chapter for any school year if the aggregate amount of support from ad valorem taxation shall be reduced during such school year below such amount for the previous year; however, where there is a loss in adequate education program allocations, or where there is or heretofore has been a decrease in the total assessed value of taxable property within a school district, the aggregate amount of such support may be reduced proportionately. Nothing herein contained shall prohibit any school district from adopting or continuing a program or plan whereby teachers are paid varying salaries according to the teaching ability, classroom performance and other similar standards.

#### ATTORNEY GENERAL OPINIONS

For a teacher making in excess of the minimum salary who is currently receiving a local supplement and who is due for a raise under § 37-119-7, assuming that the teacher is performing the same duties, the local supplement to that individual teacher cannot be reduced. However, in those counties in which there has been a

reduction in adequate education program allocations, the provisions of this section would permit a reduction in aggregate amount of local supplements within the entire school district. However, no individual teacher’s local supplement could be reduced. Chaney, June 18, 2004, A.G. Op. 04-0243.

#### § 37-151-89. Salary payments from other funds.

The minimum base pay for all classroom teachers may be increased by the district from any funds available to it; and those districts which have not prior to July 1, 1978, so increased said base pay, shall increase the minimum base

pay for classroom teachers as fixed by this chapter and as authorized by any of the provisions of or standards set forth in this chapter.

### **§ 37-151-93. Counting of legally transferred students; payment maintenance funds to transferee school.**

(1) Legally transferred students going from one school district to another shall be counted for adequate education program allotments by the school district wherein the pupils attend school, but shall be counted for transportation allotment purposes in the school district which furnishes or provides the transportation. The school boards of the school districts which approve the transfer of a student under the provisions of Section 37-15-31 shall enter into an agreement and contract for the payment or nonpayment of any portion of their local maintenance funds which they deem fair and equitable in support

of any transferred student. Except as provided in subsection (2) of this section, local maintenance funds shall be transferred only to the extent specified in the agreement and contract entered into by the affected school districts. The terms of any local maintenance fund payment transfer contract shall be spread upon the minutes of both of the affected school district school boards. The school district accepting any transfer students shall be authorized to accept tuition from such students under the provisions of Section 37-15-31(1) and such agreement may remain in effect for any length of time designated in the contract. The terms of such student transfer contracts and the amounts of any tuition charged any transfer student shall be spread upon the minutes of both of the affected school boards. No school district accepting any transfer students under the provisions of Section 37-15-31(2), which provides for the transfer of certain school district employee dependents, shall be authorized to charge such transfer students any tuition fees.

(2) Local maintenance funds shall be paid by the home school district to the transferee school district for students granted transfers under the provisions of Sections 37-15-29(3) and 37-15-31(3), Mississippi Code of 1972, not to exceed the "base student cost" as defined in Section 37-151-5, Mississippi Code of 1972, multiplied by the number of such legally transferred students.

### FUNDS FOR EMPLOYEE HEALTH INSURANCE

37-151-95.	Payment for health insurance for certain school district employees; federal funding; withholding of district funding for failure to report data.
------------	--

### **§ 37-151-95. Payment for health insurance for certain school district employees; federal funding; withholding of district funding for failure to report data.**

Adequate education program funds shall include one hundred percent (100%) of the cost of the State and School Employees' Life and Health Insurance Plan created under Article 7, Chapter 15, Title 25, Mississippi Code of 1972, for all district employees who work no less than twenty (20) hours during each week and regular nonstudent school bus drivers employed by the district.

Where the use of federal funding is allowable to defray, in full or in part, the cost of participation in the insurance plan by district employees who work no less than twenty (20) hours during each week and regular nonstudent school bus drivers, whose salaries are paid, in full or in part, by federal funds, the allowance under this section shall be reduced to the extent of the federal funding. Where the use of federal funds is allowable but not available, it is the intent of the Legislature that school districts contribute the cost of participation for such employees from local funds, except that parent fees for child nutrition programs shall not be increased to cover such cost.

The State Department of Education, in accordance with rules and regulations established by the State Board of Education, may withhold a school district's adequate education program funds for failure of the district to timely report student, fiscal and personnel data necessary to meet state and/or federal requirements. The rules and regulations promulgated by the State Board of Education shall require the withholding of adequate education program funds for those districts that fail to remit premiums, interest penalties and/or late charges under the State and School Employees' Life and Health Insurance Plan. Noncompliance with such rules and regulations shall result in a violation of compulsory accreditation standards as established by the State Board of Education and Commission on School Accreditation.

Article 7, Chapter 15, Title 25 (§§ 25-15-251 through 25-15-265), referred to in this section, was repealed by Laws, 1999, ch. 511, § 11, effective from and after July 1, 1999. For present similar provisions, see § 25-15-3 et seq.

### ATTORNEY GENERAL OPINIONS

Employees covered by the State and School Employees Health Insurance Plan who elect to retire and are re-employed under the limited conditions allowed by § 25-11-127 do not relinquish their status of "retiree" for the purposes of the retirement statutes or the state insurance stat-

utes. Therefore, the state cannot pay the insurance premiums for retirees who are covered under the Plan who return to work under the limited conditions allowed by § 25-11-127. Hill, Nov. 7, 2003, A.G. Op. 03-0591.

It will explain and inform the public of the major initiatives of the department and clearly identify rationale for program development and/or elimination. The report will establish benchmarks, future plans and discuss the effectiveness of educational programs.

In addition to the information specified herein, the State Board of Education shall have full and plenary authority and power to require the

furnishing of such further, additional and supplementary information as it may deem necessary for the purpose of determining the cost of the adequate education program in such school district for the succeeding fiscal year, the amount of the adequate education program funds to be allotted to each school district for the succeeding fiscal year, and for any other purpose authorized by law or deemed necessary by said State Board of Education.

It shall be the duty of the State Department of Education to prescribe the forms for the reports provided for in this section.

### **§ 37-151-101. Distribution of funds.**

Such data and information so filed shall show in detail the amount of funds to which each school district and charter school is entitled from such common school fund and adequate education program fund. Such data and information so filed may be revised from time to time as necessitated by law. At the time provided by law, the State Treasurer and the State Fiscal Officer shall distribute to the several school districts and charter schools the amounts to which they are entitled

Such distribution shall be made by electronic funds transfer to the depositories of the several school districts and charter schools designated in writing to the State Treasurer based upon the data and information supplied by the State Department of Education for such distribution. In such instances, the State Treasurer shall submit a request for an electronic funds transfer to the State Fiscal Officer, which shall set forth the purpose, amount and payees, and shall be in such form as may be approved by the State Fiscal Officer so as to provide the necessary information as would be required for a requisition and issuance of a warrant. A copy of the record of said electronic funds transfers shall be transmitted by the school district and charter school depositories to the Treasurer, who shall file duplicates with the State Fiscal Officer. The Treasurer and State Fiscal Officer shall jointly promulgate regulations for the utilization of electronic funds transfers to school districts and charter schools.

### § 37-151-103. Payment of funds.

(1) Funds due each school district and charter school under the terms of this chapter from the Adequate Education Program Fund shall be paid in the following manner: Two (2) business days prior to the last working day of each month there shall be paid to each school district and charter school, by electronic funds transfer, one-twelfth ( $\frac{1}{12}$ ) of the funds to which the district or charter school is entitled from funds appropriated for the Adequate Education Program Fund. However, in December those payments shall be made on December 15th or the next business day after that date. All school districts shall process a single monthly payroll for licensed employees and may process a single monthly or a semimonthly payroll for nonlicensed employees, in the discretion of the local school board, with electronic settlement of payroll checks secured through direct deposit of net pay for all school district employees. In addition, the State Department of Education may pay school districts and charter schools from the common school fund and the Adequate Education Program Fund on a date earlier than provided for by this section if it is determined that it is in the best interest of school districts and charter schools to do so.

Provided, however, that if the cash balance in the State General Fund is not adequate on the due date to pay the amounts due to all school districts and charter schools in the state as determined by the State Superintendent of Education, the State Fiscal Officer shall not transfer said funds payable to any school district or districts or charter schools until money is available to pay the amount due to all districts and charter schools.

(2) Notwithstanding any provision of this chapter or any other law requiring the number of children in average daily attendance or the average daily attendance of transported children to be determined on the basis of the preceding year, the State Board of Education is hereby authorized and empowered to make proper adjustments in allotments in cases where major changes in the number of children in average daily attendance or the average daily attendance of transported children occurs from one year to another as a result of changes or alterations in the boundaries of school districts, the sending of children from one county or district to another upon a contract basis, the termination or discontinuance of a contract for the sending of children from one county or district to another, a change in or relocation of attendance centers, or for any other reason which would result in a major decrease or increase in the number of children in average daily attendance or the average daily attendance of transported children during the current school year as compared with the preceding year.

(3) In the event of an inordinately large number of absentees in any school district or charter school as a result of epidemic, natural disaster, or any concerted activity discouraging school attendance, then in such event school attendance for the purposes of determining average daily attendance under the adequate education program shall be based upon the average daily attendance for the preceding school year for such school district or charter school.

**Amendment Notes** — The 2012 amendment, in the first paragraph of (1), substituted "On the two (2) days prior to the last day of each month" for "On the twenty-fifth day of each month" in the first sentence, and inserted the third sentence.

The first 2013 amendment (ch. 497), inserted “and charter schools,” or “and charter school” and “or charter school” or “or charter schools” following “district” or “districts” throughout.

The second 2013 amendment (ch. 566), rewrote the first sentence in (1), which formerly read: “Funds due each school district under the terms of this chapter from the Adequate Education Program Fund shall be paid in the following manner: On the two (2) days prior to the last day of each month, or the next business date after that date, there shall be paid to each school district by electronic funds transfer one-twelfth (1/12) of the funds to which the district is entitled from funds appropriated for the Adequate Education Program Fund.”

(1) To improve quality of life, education and employment opportunities for all citizens, the appropriate agencies of the State of Mississippi listed in subsection (2) of this section shall develop and maintain a State Longitudinal Data System (SLDS). The system will allow stakeholders and policymakers access data on state residents from birth to the workforce to drive accountability and investment decisions. The system will include data from multiple state agencies and entities. The system will provide decision makers a tool to develop policies to support objectives, including, but not limited to:

(a) Enabling Mississippians to secure and retain employment and receive better pay after completing training or postsecondary degrees;

(d) Identifying teachers, teaching methods and programs that lead to positive student outcomes; and

(e) Encouraging the sharing of electronic data across educational and other entities.

(2) Individual state agencies and state entities will send data from their internal system to the Statewide Longitudinal Data System. These initial agencies and entities shall provide data to the SLDS under the provisions developed by the SLDS Governing Board established in Section 37-154-3:

(a) Mississippi Department of Education (MDE);

(b) Mississippi Community College Board;

Any agencies or entities added to SLDS shall provide a representative to the SLDS Governing Board and be governed in the same manner as the initial agencies and entities.

(3) The system will be based on an existing system currently housed, developed and maintained by the National Strategic Planning and Analysis Research Center (nSPARC) at Mississippi State University. The initial agencies participating in the SLDS Governing Board and nSPARC have worked

collaboratively to secure funding through the United States Department of Education to expand and enhance the capacity of the state's existing technology infrastructure for the purposes of developing the SLDS. The State Data Center, operated by the Mississippi Department of Information Technology Services (ITS), will provide application hosting services for the SLDS until such time the SLDS Governing Board approves that another entity should perform these services.

The State Board of Education shall prescribe rules and regulations which, subject to available appropriations, allow for reimbursement to the state licensed teachers, from both in state and out of state, who enter into a contract for employment in a school district situated within a geographical area of the state where there exists a critical shortage of teachers, as designated by the State Board of Education, for the expense of moving when the employment necessitates the relocation of the teacher to a different geographical area than that in which the teacher resides before entering into such contract. In order to be eligible for the reimbursement, the teacher must apply to the local district and the district must obtain the prior approval from the department for reimbursement before the relocation occurs. If the reimbursement is approved, the department shall provide funds to the school district to reimburse the teacher an amount not to exceed One Thousand Dollars (\$1,000.00) for the documented actual expenses incurred in the course of relocating, including the expense of any professional moving company or persons employed to assist with the move, rented moving vehicles or equipment, mileage in the amount authorized for state employees under Section 25-3-41 if the teacher used his personal vehicle or vehicles for the move, meals and such other expenses associated with the relocation in accordance with the department’s established rules and regulations. No teacher may be reimbursed for moving expenses under this section on more than one (1) occasion.

Nothing in this section shall be construed to require the actual residence to which the teacher relocates to be within the boundaries of the school district which has executed a contract for employment with the teacher or within the boundaries of the area designated by the State Board of Education as the critical teacher shortage area in order for the teacher to be eligible for

reimbursement for his moving expenses. However, teachers must relocate within the boundaries of the State of Mississippi.

This section shall stand repealed July 1, 2020.

**§ 37-159-9. University Assisted Teacher Recruitment and Retention Grant Program; geographical areas short of teachers; eligibility for participation; funding; reimbursement of expenses; failure to comply with commitment [Repealed effective July 1, 2020].**

(1) There is established the University Assisted Teacher Recruitment and Retention Grant Program within the State Department of Education. The purposes of the program shall be to attract additional qualified teachers to those geographical areas of the state where there exists a critical shortage of teachers and to retain the qualified teachers already serving as licensed teachers in geographical critical teacher shortage areas by making available scholarships to persons working towards a Master of Education degree or an Educational Specialist degree at an institution of higher learning whose teacher education program is approved by the State Board of Education.

(2) Any institution of higher learning in the State of Mississippi which offers a Master of Education degree or an Educational Specialist degree may apply to the department for participation in the program. As part of the program, participating institutions shall collaborate with the Mississippi Teacher Center to identify, recruit and place teacher education graduates, from both within the state and out of state, in school districts situated within those areas of the state where there exists a critical shortage of teachers, as designated by the State Board of Education.

(3) The State Department of Education shall provide funds to participating institutions of higher learning for the purpose of awarding scholarships to qualified persons pursuing a Master of Education degree or an Educational Specialist degree at such institutions while rendering service to the state as a licensed teacher in a school district in a geographical area of the state where there exists a critical shortage of teachers, as approved by the State Board of Education. The financial scholarship shall be applied to the total cost for tuition, books, materials and fees at the institution in which the student is enrolled, not to exceed an amount equal to the highest total cost of tuition, books, materials and fees assessed by a state institution of higher learning during that school year. Teachers who relocate within Mississippi from out of

state in order to participate in the program shall be classified as residents of the state for tuition purposes.

(4) Students awarded financial scholarships under the University Assisted Teacher Recruitment and Retention Grant Program may receive such awards for a maximum of four (4) school years; however, the maximum number of awards which may be made shall not exceed the length of time required to complete the number of academic hours necessary to obtain a Master of Education degree or an Educational Specialist degree. Financial scholarships under the program shall not be based upon an applicant's eligibility for financial aid.

(5) Persons relocating to a geographical area of the state where there exists a critical shortage of teachers, as approved by the State Board of Education, to participate in the University Assisted Teacher Recruitment and Retention Grant Program shall be eligible for reimbursement for their moving expenses to the critical teacher shortage area from the State Board of Education. The State Board of Education shall promulgate rules and regulations necessary for the administration of the relocation expense reimbursement component of the University Assisted Teacher Recruitment and Retention Grant Program.

(6) Subject to the availability of funds, the State Board of Education may provide for professional development and support services as may be necessary for the retention of teachers participating in the program in those geographical areas of the state where there exists a critical shortage of teachers.

(7) Any person participating in the program who fails to complete a program of study that will enable that person to obtain a Master of Education degree or Educational Specialist degree shall become liable immediately to the State Board of Education for the sum of all awards made to that person under the program, plus interest accruing at the current Stafford Loan rate at the time the person abrogates his participation in the program.

(8) As a condition for participation in the program, a teacher shall agree to employment as a licensed teacher in a school district located in a geographical area of the state where there exists a critical shortage of teachers, as designated by the State Board of Education, for a period of not less than three (3) years, which shall include those years of service rendered while obtaining the Master of Education degree or Educational Specialist degree. However, for any person who obtained a baccalaureate degree in education with a financial scholarship under the Critical Needs Teacher Scholarship Program and who entered the University Assisted Teacher Recruitment and Retention Grant Program before rendering service as a teacher, the period of employment for the purposes of this subsection shall be two (2) years, in addition to the employment commitment required under the Critical Needs Teacher Scholarship Program. Service rendered by a participant as a licensed teacher in a school district in a geographical critical teacher shortage area before that teacher becomes a participant in the program may not be considered to fulfill the employment commitment required under this subsection. Any person failing to comply with this employment commitment in any required school

year shall immediately be in breach of contract and become liable immediately to the State Department of Education for the sum of all scholarships awarded and relocation expenses granted to that person, less one-third ( $\frac{1}{3}$ ) of the amount of that sum for each year that service was rendered, or for those persons whose required period of employment is two (2) years, less one-half ( $\frac{1}{2}$ ) of the amount of that sum for each year that service was rendered, plus interest accruing at the current Stafford Loan rate at the time the breach occurs, except in the case of a deferral for cause by the State Board of Education when there is no employment position immediately available upon the teacher's obtaining of the Master of Education degree or Educational Specialist degree. After the period of such deferral, the person shall begin or resume the required teaching duties or shall become liable to the board under this subsection. If a claim for repayment under this subsection is placed in the hands of an attorney for collection after default, then the obligor shall be liable for an additional amount equal to a reasonable attorney's fee.

(9) All funds received by the State Department of Education from the repayment of scholarship awards and relocation expenses by program participants shall be deposited in the Mississippi Critical Teacher Shortage Fund.

(10) The State Board of Education shall promulgate rules and regulations necessary for the proper administration of the University Assisted Teacher Recruitment and Retention Grant Program.

This section shall stand repealed on July 1, 2020.

(3) Any loan made under the program to a person who actually renders service as a teacher in a geographical area of the state where there exists a critical shortage of teachers, as designated by the State Board of Education, shall be converted to an interest-free grant on the basis of one (1) year's service for one-third ( $\frac{1}{3}$ ) of the amount of the loan. ## ATTORNEY GENERAL OPINIONS

The State Board of Education may find that a 30-year amortization with a balloon payment at the end of 15 years satisfies the required repayment terms provided in subsection (3) of this section and may approve repayment terms containing such arrangement. Thompson, March 26, 1999, A.G. Op. #99-0153.

The State Board of Education may determine that the construction, with private funds, of additional housing to be governed by subsection (4) of this section would constitute valuable consideration and may therefore agree to release unused portions of the tract from the lien of its deed of trust, in return for such construc-

tion and additional consideration of nominal or no value. Thompson, March 26, 1999, A.G. Op. #99-0153.

The State Board of Education may agree that a developer may fill a vacancy with an applicant outside the priority of subsection (4) of this section if the developer and the school district have entered into an agreement wherein the school district has a fixed amount of time in which to fill any vacancy with a school district in order of priority; if the vacancy is not filled within that number of days by a school district employee, the developer may fill the vacancy with an applicant from outside the priority list and may find that

seven days is a reasonable amount of time therefor. Thompson, March 26, 1999, A.G. Op. #99-0153.

### New Start School Program

SEC.

37-167-1. Applicability; definitions; New Start School Program established; notice to school employees and public of potential transformation of failing public school to new start school; adoption of rules and regulations; limitation of travel by superintendent and local school board under certain circumstances.

**§ 37-167-1. Applicability; definitions; New Start School Program established; notice to school employees and public of potential transformation of failing public school to new start school; adoption of rules and regulations; limitation of travel by superintendent and local school board under certain circumstances.**

(1) This section applies only to those public schools in the State of Mississippi which, during each of two (2) consecutive school years, are considered failing, as determined by the State Department of Education.

For purposes of this section, the term “new start school” means the successor school to a public school in the State of Mississippi which, during each of two (2) consecutive school years, is considered failing, as determined by the State Department of Education.

(2) There is established the New Start School Program for the purpose of transforming certain failing schools into quality educational options. Under the program, a new start school must be established in each public school that, during each of two (2) consecutive school years, is considered failing, as determined by the State Department of Education. The New Start School Program shall be under the administration of the Mississippi Recovery School District established under Section 37-17-6(12)(g).

(3)(a) Whenever a school is classified by the State Department of Education as a failing school in any school year, the Mississippi Recovery School District may provide written notice to the principal and each licensed (certified) and nonlicensed (classified) employee in the school that if the school receives a classification of failing for the succeeding school year, the school will be transformed into a new start school and the person’s employment with the local school district shall be terminated. The notice shall be sent by the deputy superintendent, or his/her designee, responsible for the Mississippi Recovery School District as soon as practicable after the school is classified as failing.

(b) In addition to the notice required under paragraph (a) of this subsection (3), the local school board shall provide notice to the public in a newspaper of general circulation in the local county that if the school receives a classification of failing for the succeeding school year, the school will be transformed into a new start school. The advertisement may not be

placed in any portion of the newspaper where legal notices and classified advertisements appear. The advertisement shall appear in a newspaper that is published at least five (5) days a week, unless the only newspaper in the county is published less than five (5) days a week, in such case, the advertisement shall be published once a week for three (3) consecutive weeks. The newspaper selected must be one of general interest, readership and circulation in all areas of the community.

(4) If a school that has been classified by the State Department of Education as a failing school in any school year, the Mississippi Recovery School District shall take such steps as may be necessary to facilitate the transformation of the failing school into a new start school. However, the school board of the local school district in which such a school is located may appeal to the State Board of Education for an additional year by submitting a comprehensive plan of improvement. The State Board of Education, in its discretion, may grant a one-year delay if it determines circumstances merit giving the school an additional year to achieve academic improvement. If, during the additional year, the school is classified again as a failing school, the Mississippi Recovery School District shall proceed to transform the failing school into a new start school.

(5) The State Board of Education shall adopt rules and regulations governing the transformation of failing schools into new start schools. The State Board of Education shall adopt rules and regulations that ensure that all students who were enrolled in, in attendance at and residing in the attendance zone of the public school before a new start school is instituted shall continue being eligible for and shall be deemed to be enrolled in the new start school without any required application process for the school. The rules and regulations must include, but not necessarily be limited to, the following provisions:

(a) The State Board of Education shall adopt rules and regulations to evaluate the performance of all licensed (certified) and nonlicensed (classified) employees in schools that are to be transformed into a new start school. The performance evaluation shall be conducted by the school district superintendent at the conclusion of the year in which a school is classified as failing. For all licensed (certified) employees the said rules and regulations shall use data, which shall include using the measures of student achievement, to assess the effectiveness of the educator. Any employee that receives an unsatisfactory evaluation may be terminated by the school district in which the school is located. Any employee terminated under the authority of this paragraph (a) shall not have a right to request a hearing by the school district or before a hearing officer or the State Board of Education.

(b) The deputy superintendent, or his/her designee, responsible for the Mississippi Recovery School District shall select a person to be employed as the principal of the new start school. Upon the request of the deputy superintendent or his/her designee, the superintendent of the school district in which the new start school is located shall enter into a contract with the person selected to be the principal in the same manner that contracts with

principals are executed under Section 37-9-23. The principal of the new start school shall be an employee of the school district but shall report and be accountable directly to the deputy superintendent, or his/her designee, responsible for the Mississippi Recovery School District. All decisions impacting the academic, finance or any other managerial or operational functions of the new start school shall be subject to the review and approval of the Mississippi Recovery School District.

(c) The principal of the new start school, chosen by the deputy superintendent, or his/her designee, under paragraph (b) of this subsection (5), shall select and recommend for employment all licensed (certified) and nonlicensed (classified) personnel for the school in the same manner as provided for other schools. The principal shall endeavor to select only the most qualified applicants for employment in the new start school. Each teacher recommended for employment in the new start school must be approved by the Deputy Superintendent of the Mississippi Recovery School District, or his/her designee, before a contract for employment may be executed with the teacher.

(d) The school district superintendent shall develop professional development courses of training specifically designed for licensed (certified) and nonlicensed (classified) personnel in a new start school which shall be approved by the State Board of Education. All licensed (certified) and nonlicensed (classified) employees of the new start school shall be required to participate in the professional development courses.

(e) The principal of a new start school shall establish a P-16 council to assist in the transformation of the new start school. The P-16 council may be composed of parents, students, educators and other community members who are interested in the success of the new start school.

(f) When a new start school achieves an accountability rating of "C" or better for two (2) consecutive years, it shall cease to be a new start school and control shall be returned to the local school board.

(6) The 2013-2014 school year shall be the first year that a school's classification may be considered for purposes of this section, and a classification as a failing school in any year preceding the 2013-2014 school year may not be considered in determining if a particular school must be transformed into a new start school.

(7) If a local school district has one or more schools designated as failing in any school year, the superintendent of that local school district shall be restricted only to travel that is mandated by law or prescribed by the State Department of Education.

(8) If a local school district has one or more schools designated as failing in any school year, the members of the local school board of that school district shall be restricted only to travel that is mandated by law or prescribed by the State Department of Education, and shall have the amount of their per diem and/or yearly rate reduced by one-half ( $\frac{1}{2}$ ).

(9) The local school district shall allocate funds for operations of any new start school in the same manner as funds are allocated to all other schools in

the district and shall provide administrative and support services to the new start schools in the same manner as such services are provided to other schools in the district.

(10) For all extracurricular purposes, any new start school shall remain a member of the local school district.

**Amendment Notes** — The 2014 amendment rewrote the section to revise the definition and procedures for establishing a new start school program and to define the responsibilities of the Mississippi Recovery School District relative thereto.

## CHAPTER 171

### Use of School Property by Public for Recreation and Sports

#### SEC.

- 37-171-1. Legislative findings and intent.
- 37-171-3. Definitions.
- 37-171-5. Use of school property during nonschool hours by public for recreation or sports authorized; liability.
- 37-171-7. Shared use agreements with community organizations and local governmental agencies.

#### § 37-171-1. Legislative findings and intent.

(1) The Legislature finds the following:

(a) The Centers for Disease Control and Prevention has released studies documenting:

(i) Overweight and obese children experience the same risk factors that are associated with heart disease in adults, including high blood pressure, high cholesterol levels and Type 2 diabetes, once referred to as adult-onset diabetes;

(ii) Every year, an estimated three hundred thousand (300,000) people in America die because of diseases caused by being overweight and obese;

(iii) Studies have shown that up to eighty percent (80%) of overweight adolescents become overweight adults;

(iv) Fourteen percent (14%) of deaths from cancer in men and twenty percent (20%) of cancer deaths in women are because of being overweight and obese; and

(v) The annual economic impact in the United States from obesity on our health care system is estimated at One Hundred Forty-seven Billion Dollars (\$147,000,000,000.00);

(b) According to the National Survey of Children's Health, Mississippi's childhood obesity rates are the highest in the nation;

(c) A recent study by a major insurance carrier stated that fifty percent (50%) of all Americans will have diabetes by the year 2020, costing the health care system approximately Three Trillion Three Hundred Fifty Billion Dollars (\$3,350,000,000,000.00) if current trends in obesity are not abated; and

(d) According to the Journal of Nutrition Education and Behavior, adults with a household member who participated in a community garden consumed fruits and vegetables one and four-tenths ( $1\frac{4}{10}$ ) more times per day than those who did not participate, and they were three and one-half ( $3\frac{1}{2}$ ) times more likely to consume fruits and vegetables at least five (5) times daily.

(2) Therefore, the Legislature declares that the intent of this chapter is to make school property available to community members during nonschool hours for recreational activities in order to support active living, reduce

obesity, reduce health care costs associated with obesity, increase community safety, maximize community resources, and promote community support for schools.

(1) The school board of a school district may adopt a policy allowing the public use of indoor or outdoor school property during nonschool hours for purposes of recreation or sport. The school district must ensure that this use of school facilities by the public does not interfere with the use of those facilities for school purposes.

(2) School districts and school district employees may not be held liable for any claim resulting from a loss or injury arising from the use of indoor or outdoor school property or facilities made available for public recreation or sport. However, this chapter does not relieve a school district or school district employee of liability that otherwise exists for:

(a) Deliberate, willful or malicious injury to persons or property by a school district employee; or

(b) Injury resulting from a lack of proper maintenance or upkeep of a piece of equipment or facilities, unless the school district or school district employee had attempted to restrict access to a piece of equipment or facilities area in need of repair which would endanger a student during normal school hours.

This subsection may not be deemed to create or increase the liability of any person.

**SOURCES:** Laws, 2012, ch. 475, § 3, eff from and after July 1, 2012.

The tool kit must be posted on the State Department of Education and State Department of Health websites. The State Department of Education shall review the information required by this section no less than every two (2) years and shall update the information as necessary.

(4) The State Department of Education shall provide a link on the department's website to any school district policies or procedures that promote community recreational use of school property or facilities in order to encourage information sharing among the school districts.

(5) Each school district, in consultation with the school health council, must address community recreational use of school property or facilities during nonschool hours.

#### § 37-173-1. Definitions [Repealed effective July 1, 2016].

As used in this chapter, the following words and phrases shall have the meanings ascribed in this section unless the context clearly indicates otherwise:

- (a) "Board" means the State Board of Education.
- (b) "Department" means the State Department of Education.
- (c) "Dyslexia" means a specific learning disability that is neurological in origin, characterized by difficulties with accurate and fluent word recognition and poor spelling and decoding abilities, which typically result from a deficit in the phonological component of language that is often unexpected in relation to other cognitive abilities and the provision of effective classroom

instruction, and secondary consequences which may include problems in reading comprehension and reduced reading experience that can impede growth of vocabulary and background knowledge.

(d) "Dyslexia therapy" means an appropriate specialized dyslexia instructional program that is delivered by a Mississippi Department of Education licensed dyslexia therapist which is scientific, research-based, Orton-Gillingham based, and is offered in a small group setting to teach students the components of reading instruction which include:

(i) Phonemic awareness to enable students to detect, segment, blend and manipulate sounds in spoken language;

(ii) Graphophonemic knowledge (phonics) for teaching the letter-sound plan of English;

(iii) The entire structure of the English language that encompasses morphology, semantics, syntax and pragmatics;

(iv) Linguistic instruction directed toward proficiency and fluency with the patterns of language so that words and sentences are carriers of meaning; and

(v) Strategies that students use for decoding, encoding, word recognition, fluency and comprehension.

These components shall be taught using instructional approaches that include explicit, direct instruction which is systematic, sequential and cumulative, following a logical plan of presenting the alphabetic principle commensurate with the students' needs, with no assumption of prior skills or language knowledge; individualized to meet the specific learning needs of each individual student in a small group setting; intensive, highly concentrated instruction that maximizes student engagement and uses specialized methods and materials; meaning-based instruction directed toward purposeful reading and writing, with an emphasis on comprehension and composition; and multisensory instruction that incorporates the simultaneous use of two (2) or more sensory pathways during teacher presentations and student practice.

(e) "Dyslexia therapist" means a professional who has completed training in a department approved Orton-Gillingham based dyslexia therapy training program attaining a AA license in dyslexia therapy or a professional participating in a state approved dyslexia therapy training program to attain a AA license in dyslexia therapy.

(f) "Mississippi Dyslexia Therapy Scholarship for Students with Dyslexia Program" means a scholarship to provide the option to attend a public school other than the one to which assigned, or to provide a scholarship to a nonpublic school of choice, for students in Grade 1 through Grade 6 diagnosed with dyslexia in order to receive comprehensive multisensory dyslexia therapy delivered by holders of an appropriate license in dyslexia therapy issued by the department.

(g) "School" means any public or state accredited nonpublic special purpose school that provides a specific learning environment that provides comprehensive dyslexia therapy instruction delivered by dyslexia therapists

licensed by the department providing highly qualified education and intervention services to children diagnosed with the primary learning disability of dyslexia.

**SOURCES:** Laws, 2012, ch. 560, § 1, eff from and after July 1, 2012.

**Editor's Note** — For repeal of this section, see § 37-173-31.

**§ 37-173-3. Mississippi Dyslexia Therapy Scholarship for Students with Dyslexia Program established [Repealed effective July 1, 2016].**

The Mississippi Dyslexia Therapy Scholarship for Students with Dyslexia Program is established to provide the option to attend a public school other than the one to which assigned, or to provide a scholarship to a nonpublic school of choice, for students with a diagnosis of dyslexia. Students in Grades 1-6 who have been properly screened and diagnosed with dyslexia shall be eligible to receive scholarship assistance under this program.

**SOURCES:** Laws, 2012, ch. 560, § 2, eff from and after July 1, 2012.

**Editor's Note** — For repeal of this section, see § 37-173-31.

**§ 37-173-5. Option to remove child from traditional school and enroll in public or nonpublic school that meets standards for unique learning needs of students with dyslexia; scholarship eligibility requirements [Repealed effective July 1, 2016].**

(1) Parents or legal guardians may exercise the option to remove their child from a traditional public school setting to be enrolled in a public or nonpublic school which meets the standards for appropriate specific instruction designed to meet the unique learning needs of young dyslexic students. The objectives of such school shall be:

(a) To emphasize the importance of early intervention; and

(b) To provide intensive high-quality instruction of students in reading, spelling, writing, language arts, phonological awareness and fluency training, but shall not preclude instruction in mathematics, social studies, science, art, music and physical education based on the curriculum requirements of the State Department of Education.

(2) The parent or legal guardian of a public school student with dyslexia may request and receive from the state a Mississippi Dyslexia Therapy Scholarship for the child to enroll in and attend a nonpublic school in accordance with this section if:

(a) The student has spent the previous school year in attendance at a Mississippi public school or any other state approved nonpublic school in the state that emphasizes instruction in dyslexia intervention; or

(b) The parent or legal guardian has obtained acceptance for admission of the student to a nonpublic school that is eligible for the program under Section 37-173-19 and has requested from the department a scholarship within thirty (30) days before the date of the first scholarship payment. The request must be through a communication directly to the department in a manner that creates a written or electronic record of the request and the date of receipt of the request. The Department of Education must notify the district of the parent's or legal guardian's intent upon receipt of the parent's or legal guardian's request.

**SOURCES:** Laws, 2012, ch. 560, § 3, eff from and after July 1, 2012.

**Editor's Note** — For repeal of this section, see § 37-173-31.

**§ 37-173-7. Student eligibility for scholarship; duration of scholarship [Repealed effective July 1, 2016].**

(1) A student is not eligible for a Mississippi Dyslexia Therapy Scholarship while he or she is:

(a) Enrolled in a school operating for the purpose of providing educational services to youth in Department of Juvenile Justice commitment programs;

(b) Participating in a home-school education program;

(c) Participating in a virtual school, correspondence school, or distance learning program that receives state funding under the student's participation unless the participation is limited to no more than two (2) courses per school year;

(d) Not having regular and direct contact with his or her private school teachers at the school's physical location.

(2)(a) For purposes of continuity of educational choice, a Mississippi Dyslexia Therapy Scholarship shall remain in force until the student returns to a public school or completes Grade 6, whichever occurs first.

(b) Upon reasonable notice to the department and the school district, the student's parent or legal guardian may remove the student from the nonpublic school and place the student in a public school in accordance with this section.

**SOURCES:** Laws, 2012, ch. 560, § 4, eff from and after July 1, 2012.

**Editor's Note** — For repeal of this section, see § 37-173-31.

**§ 37-173-9. Public school option; nonpublic school option [Repealed effective July 1, 2016].**

(1)(a) The parent or legal guardian is not required to accept the offer of enrolling in another public school in lieu of requesting a Mississippi Dyslexia Therapy Scholarship to a nonpublic school. However, if the parent or legal guardian chooses the public school option, the student may continue attend-

ing a public school chosen by the parent or legal guardian until the student completes Grade 6.

(b) If the parent or legal guardian chooses a public school within the district, the school district shall provide transportation to the public school selected by the parent or legal guardian. However, if the parent or legal guardian chooses a public school in another district, the parent or legal guardian is responsible to provide transportation to the school of choice.

(2) Each local school district shall make an initial determination of whether a student diagnosed with dyslexia qualifies under the Individuals with Disabilities Education Act (IDEA) to receive services and funding under the provisions of the IDEA before proceeding to the development of a 504 Plan for each dyslexic student eligible for educational services or equipment, or both, under Sections 37-23-1 through 37-23-157. If a student's diagnosis of dyslexia results in a determination that the disability is not a disability which would qualify the student as eligible under the IDEA, then in developing the written 504 Plan for each dyslexia student, there shall be a presumption that proficiency in spelling, reading and writing are essential for the student to achieve appropriate educational progress. Each local school district shall develop interventions and strategies to address the needs of those students diagnosed with dyslexia which provide the necessary accommodations to enable the student to achieve appropriate educational progress. The interventions and strategies developed shall include, but not be limited to, the use of the 3-Tier Instructional Model and the utilization of provisions of the IDEA and Section 504 to address those needs.

Furthermore, these provisions do not prohibit a parent or legal guardian of a student diagnosed with dyslexia, at any time, from choosing the option of a Mississippi Dyslexia Therapy Scholarship which would allow the student to attend another public school or nonpublic special purpose school.

(3) If the parent or legal guardian chooses the nonpublic school option and the student is accepted by the nonpublic school pending the availability of a space for the student, the parent or legal guardian of the student must notify the department thirty (30) days before the first scholarship payment and before entering the nonpublic school in order to be eligible for the scholarship when a space becomes available for the student in the nonpublic school.

(4) The parent or legal guardian of a student may choose, as an alternative, to enroll the student in and transport the student to a public school in an adjacent school district which has available space and has a program with dyslexia services that provide daily dyslexia therapy sessions delivered by a department licensed dyslexia therapist, and that school district shall accept the student and report the student for purposes of the district's funding under the Mississippi Adequate Education Program.

(a) The parent or legal guardian must select the nonpublic school and apply for the admission of his or her child;

(b) The parent or legal guardian must have requested the scholarship at least thirty (30) days before the date of the first scholarship payment;

(c) Any student participating in the Mississippi Dyslexia Therapy Scholarship for Students with Dyslexia Program must remain in attendance throughout the school year unless excused by the school for illness or other good cause; and

(d) Each parent or legal guardian and each student has an obligation to the nonpublic special purpose school to comply with the nonpublic special purpose school's published policies.

**SOURCES:** Laws, 2012, ch. 560, § 6, eff from and after July 1, 2012.

(1) The maximum scholarship granted per eligible student with dyslexia shall be an amount equivalent to the Mississippi Adequate Education Program base student cost.

(2)(a) The nonpublic school under this program shall report to the Mississippi Department of Education the number of students with dyslexia who are enrolled in nonpublic schools on the Mississippi Dyslexia Therapy Scholarships as of September 30 of each year in order to determine funding for the subsequent year. Funds may not be transferred from any funding provided to the Mississippi School for the Deaf and the Blind for program participants who are eligible under Section 37-173-5.

(b) The Mississippi Department of Education will disburse payments to nonpublic schools under this program in twelve (12) substantially equal installments. The initial payment shall be made after department verification of admission acceptance, and subsequent payments shall be made upon verification of continued enrollment and attendance at the nonpublic school.

(c) If a student fails the screener, the school district, in its discretion, may perform a comprehensive dyslexia evaluation, such evaluation must be administered by any of the licensed professionals identified under paragraph (b) of this subsection.

(d) If a parent or legal guardian of a student who fails the dyslexia screener exercises the option to have a subsequent evaluation performed, such evaluation shall be administered by any of the licensed professionals identified under paragraph (b) of this subsection, and the resulting diagnosis of the subsequent evaluation must be accepted by the school district for purposes of determining eligibility for placement within a dyslexia therapy program within the current school or to receive a Mississippi Dyslexia Therapy Scholarship for placement in a dyslexia program in another public school or nonpublic special purpose school.

(2) The screening of all compulsory-school-age children enrolled in each local public school district for dyslexia required by subsection (1)(a) of this section shall in no manner nullify or defeat the requirements of the pilot programs adopted by the State Department of Education to test certain students enrolled or enrolling in public schools for dyslexia under Section 37-23-15.

- 37-177-21. Certain components of provisions of this chapter subject to legislative appropriation.

#### **§ 37-177-1. Literacy-based Promotion Act established; purpose; determination of a reading deficiency in students in grades K through 3.**

(1) There is established an act prohibiting social promotion to be known as the "Literacy-Based Promotion Act," the purpose of which is to improve the reading skills of Kindergarten and First through Third Grade students enrolled in the public schools so that every student completing the Third Grade is able to read at or above grade level. It is the intent of the Legislature, in establishing this act, to ensure that: each Kindergarten and First through Third Grade student's progression is determined, in part, upon the student's proficiency in reading; the policies of local school boards facilitate this proficiency; and each student and the student's parent or legal guardian is informed of the student's academic progress.

(2) Each public school student who exhibits a substantial deficiency in reading at any time, as demonstrated through performance on a reading screener approved or developed by the State Department of Education or through locally determined assessments and teacher observations conducted in Kindergarten and Grades 1 through 3 or through statewide end-of-year assessments or approved alternate yearly assessments in Grade 3, must be given intensive reading instruction and intervention immediately following the identification of the reading deficiency.

(3) The universal reading screener or locally determined reading assessment may be given in the first thirty (30) days of the school year and repeated if indicated at midyear and at the end of the school year to determine student progression in reading in Kindergarten through Third Grade. If it is determined that the student continues to have a reading deficiency, the student must be provided with continued intensive reading instruction and intervention by the school district until the reading deficiency is remedied. A student exhibiting continued reading deficiency with continued intensive interventions should be considered for exceptional criteria evaluation.

(4) A Kindergarten or First, Second or Third Grade student identified with a deficiency in reading must be provided intensive interventions in reading to ameliorate the student's specific reading deficiency, as identified by a valid and reliable diagnostic assessment. The intensive intervention must include effective instructional strategies, and appropriate teaching methodologies necessary to assist the student in becoming a successful reader, able to read at or above grade level, and ready for promotion to the next grade. A Kindergarten, First, Second or Third Grade student identified with a reading deficiency or not promoted may be placed in a transition class.

**SOURCES:** Laws, 2013, ch. 495, § 1, eff from and after passage (approved April 17, 2013.)

### **§ 37-177-3. Written notification to parent or guardian of determination of reading deficiency; contents of notification.**

Immediately upon the determination of a reading deficiency, and subsequently with each quarterly progress report until the deficiency is remediated, the parent or legal guardian of a Kindergarten or First, Second or Third Grade student who exhibits a substantial deficiency in reading must be notified in writing by the student's teacher of the following:

(a) That the student has been identified as having a substantial deficiency in reading;

(b) A description of the services that the school district currently is providing to the student;

(c) A description of the proposed supplemental instructional services and supports that are designed to remediate the identified area of reading deficiency which the school district plans to provide the student;

(d) That if the student's reading deficiency is not remediated before the end of the student's Third Grade year, the student will not be promoted to Fourth Grade unless a good cause exemption specified under Section 37-177-11 is met;

(e) Strategies for parents and guardians to use in helping the student to succeed in reading proficiency; and

(f) That while the state annual accountability assessment for reading in Third Grade is the initial determinant, it is not the sole determiner of promotion and that approved alternative standardized assessments are

available to assist the school district in knowing when a child is reading at or above grade level and ready for promotion to the next grade.

**SOURCES:** Laws, 2013, ch. 495, § 2, eff from and after passage (approved April 17, 2013.)

**§ 37-177-5. Establishment of Mississippi Reading Panel; purpose; composition.**

The State Department of Education shall establish a Mississippi Reading Panel to collaborate with the State Department of Education in recommending appropriate equitable alternative standardized assessments and cut scores to be used to determine promotion to the Fourth Grade of those Third Grade students who scored at the lowest achievement level on the state annual accountability assessment or who, for unforeseen circumstances, were unable to take the assessment. The panel should have knowledge and input in the adoption or development of a universal screener for required use only in select schools most in need for the reading intervention program to identify reading deficiencies and determine progress. A suggestive list of no less than four (4) screening assessments should be available to schools not selected for the critical reading intervention program taking into consideration those screening assessments already being used satisfactorily in Mississippi elementary schools. An approved alternative standardized reading assessment may be used in 2014-2015 in the transition to common core standardization of testing. The panel shall consist of six (6) members as follows: the State Superintendent of Education, or his/her designee, who will chair the committee; the Chair of the House Education Committee, or his designee; the Chairman of the Senate Education Committee, or his designee; one (1) member appointed by the Governor; and two (2) additional members appointed by the State Superintendent of Education.

The word “leading” was changed to “reading.” The Joint Committee ratified the correction at its August 1, 2013, meeting.

**§ 37-177-7. Selection of schools for reading intervention program; supervisory position in each school responsible for implementation of reading intervention program; use of data coaches pilot programs in certain “C” level or low performing districts or schools.**

The State Department of Education shall:

(a) Select schools most in need for the reading intervention program and create criteria for selection for participation based on number and percentages of students scoring in the lowest two (2) achievement levels on state-adopted yearly reading assessments, screening results, and other relevant data;

(b) Assign a supervisory position within each school to be responsible for the faithful implementation of the Reading Intervention Program; and

(c) Beginning with the 2014-2015 school year, the Mississippi Department of Education shall conduct a pilot program with willing “C” level or low-performing districts and/or schools in a geographically concise region. The pilot shall focus on the use of data coaches to improve reading and literacy, to determine the effectiveness of intense data-focused professional development, provide expert support in literacy and early reading instruction but it shall not necessarily be limited to literacy. Data coaches should be experts in both pedagogy and data analysis who facilitate professional learning community meetings, and provide observation and feedback, to help teachers and district leaders build skills in using data to inform instruction. The department is authorized to contract with a private sector provider to implement the pilot and work in partnership with a four-year institution of higher learning that has a center for literacy instruction to develop and implement the pilot. The department shall also work in consultation with the Reading Panel regarding the development and implementation of the pilot program.

**Amendment Notes** — The 2014 amendment added (c), and made related stylistic changes.

**§ 37-177-9. Assignment of grade level based on student’s age or other social promotion prohibited; promotion to grade 4 prohibited unless reading deficiency remedied before end of grade 3.**

A public school student may not be assigned a grade level based solely on the student’s age or any other factors that constitute social promotion.

Beginning in the 2014-2015 school year, if a student’s reading deficiency is not remedied by the end of the student’s Third Grade year, as demonstrated by the student scoring at the lowest achievement level in reading on the state annual accountability assessment or on an approved alternative standardized

assessment for Third Grade, the student shall not be promoted to Fourth Grade.

**§ 37-177-11. Good cause exemption for promotion to grade 4 of student not meeting academic requirements.**

(1) A Third Grade student who does not meet the academic requirements for promotion to the Fourth Grade may be promoted by the school district only for good cause. Good cause exemptions for promotion are limited to the following students:

(a) Limited English proficient students who have had less than two (2) years of instruction in an English Language Learner program;

(b) Students with disabilities whose individual education plan (IEP) indicates that participation in the statewide accountability assessment program is not appropriate, as authorized under state law;

(c) Students with a disability who participate in the state annual accountability assessment and who have an IEP or a Section 504 plan that reflects that the individual student has received intensive remediation in reading for more than two (2) years but still demonstrates a deficiency in reading and previously was retained in Kindergarten or First, Second or Third Grade;

(d) Students who demonstrate an acceptable level of reading proficiency on an alternative standardized assessment approved by the State Board of Education; and

(e) Students who have received intensive intervention in reading for two (2) or more years but still demonstrate a deficiency in reading and who previously were retained in Kindergarten or First, Second or Third Grade for a total of two (2) years and have not met exceptional education criteria. A student who is promoted to Fourth Grade with a good cause exemption shall be provided intensive reading instruction and intervention informed by specialized diagnostic information and delivered through specific reading strategies to meet the needs of each student so promoted. The school district shall assist schools and teachers in implementing reading strategies that research has shown to be successful in improving reading among students with persistent reading difficulties.

(2) A request for good cause exemptions for a Third Grade student from the academic requirements established for promotion to Fourth Grade must be made consistent with the following:

(a) Documentation must be submitted from the student's teacher to the school principal which indicates that the promotion of the student is appropriate and is based upon the student's record. The documentation must consist of the good cause exemption being requested and must clearly prove that the student is covered by one (1) of the good cause exemptions listed in subsection (1)(a) through (e) of this section.

(b) The principal shall review and discuss the recommendations with the teacher and parents and make a determination as to whether or not the student should be promoted based on requirements set forth in this chapter. If the principal determines that the student should be promoted, based on the documentation provided, the principal must make the recommendation in writing to the school district superintendent, who, in writing, may accept or reject the principal's recommendation. The parents of any student promoted may choose that the student be retained for one (1) year, even if the principal and district superintendent determines otherwise.

Beginning in the 2014-2015 school year, each school district shall take the following actions for retained Third Grade students:

(a) Provide Third Grade students who are not promoted with intensive instructional services, progress monitoring measures, and supports to remediate the identified areas of reading deficiency, including a minimum of ninety (90) minutes during regular school hours of daily, scientifically research-based reading instruction that includes phonemic awareness, phonics, fluency, vocabulary and comprehension, and other strategies prescribed by the school district, which may include, but are not limited to:

- (i) Small group instruction;
- (ii) Reduced teacher-student ratios;
- (iii) Tutoring in scientifically research-based reading services in addition to the regular school day;
- (iv) The option of transition classes;
- (v) Extended school day, week or year; and

(b) Provide written notification to the parent or legal guardian of any Third Grade student who is retained that the student has not met the proficiency level required for promotion and the reasons the student is not eligible for a good cause exemption. The notification must include a description of proposed interventions and supports that will be provided to the child to remediate the identified areas of reading deficiency. This notification must be provided to the parent or legal guardian in writing, in a format adopted by the State Board of Education in addition to report cards given by the teacher.

(c) Provide Third Grade students who are retained with a high-performing teacher, as determined by student performance data, particularly related to student growth in reading, above-satisfactory performance appraisals, and/or specific training relevant to implementation of this chapter.

(d) Provide parents and legal guardians of Third Grade students with a "Read at Home" plan outlined in a parental contract, including participation in regular parent-guided home reading.

**§ 37-177-15. Intensive acceleration class for certain students; purpose.**

Each district may provide, where applicable, an intensive acceleration class for any student retained in Grade 3 who was previously retained in Kindergarten or Grades 1 through 3. The focus of the intensive acceleration class should be to increase a student’s reading level at least two (2) grade levels in one (1) school year. The intensive acceleration class should provide reading instruction and intervention for the majority of student contact each day and incorporate opportunities to master the Grade 4 state standards in other core academic areas.

The department shall compile annually the required district information, along with state-level summary information, and report the information to the Governor, Senate, House of Representatives and general public.

**ATTORNEY GENERAL OPINIONS**

Pursuant to Section 39-3-8 the terms of the trustees are calculated from the time they were originally appointed, even though the city and the county did not formally execute a contract establishing a joint city/county library until January 12, 1994. Section 39-3-15(6) limits terms of trustees in counties of over 20,000 to two consecutive terms of office. Wegener, October 25, 1996, A.G. Op. #96-0682.

The board of aldermen of a municipality may enter into a contract to establish and maintain a city/county library and the contract may be automatically annually renewed for the term of the board; a contract which extends beyond the term of the present board or a majority of the members thereof is not void but is void-

There is no statutory requirement that boards of trustees of public libraries must publish a proposed budget or a budget that has been adopted in a newspaper. Gough, Sept. 20, 2002, A.G. Op. #02-0479.

### **§ 39-3-11. Participation by municipalities in county libraries, county regional library systems or city-county library systems.**

When a county public library, city-county public library system or regional public library system shall have been established under this article, any municipality which is aiding in maintaining or supporting a public library, or which desires to aid in providing public library service for that portion of the county's residents which reside within the municipality, may participate in said county public library, city-county public library system or regional public library system. This participation shall be on such terms as may be agreed upon among the governing body of the municipality, the board of trustees of the existing municipal public library and the board of trustees of the county public library, city-county public library system or regional public library system.

### **§ 39-3-13. Contracts by counties or municipalities for library services.**

(1) The governing body of any municipality may contract with the board of trustees of any established public library or public library system to receive the services of that established public library or public library system.

The administrative board shall be designated by contract among all such boards of trustees within the system. Advisory boards may contract with administrative boards to provide local services and policies as may be mutually agreed on. In the event an agreement cannot be reached among all such boards of trustees, the matter shall be submitted to a negotiating committee comprised of the following: two (2) persons selected by each of the boards of trustees involved in the matter plus two (2) persons selected by the Mississippi Library Commission.

(5) Contracts for library services shall include, but not limited to: (a) name of library system; (b) definition of library service area; (c) name of all parties and responsibilities regarding participation in the library system, including but not limited to funding of the library system and maintenance of facilities; (d) appointment of board of trustees with the naming of the administrative board and the stated responsibilities of said boards; (e) eligibility and criteria for participation of new libraries in the library system; and (f) a stated contract review and renewal process. (b) Notwithstanding the provisions of paragraph (1)(a) of this section, the board of supervisors of any county that borders on the Gulf of Mexico, in which Interstate 10 intersects U.S. Highway 49 and that operates a county library system may appoint, in its discretion, six (6) trustees to the county public library board. If the board of supervisors of any such county elects to appoint six (6) members to the board of trustees, the first appointments shall be for the terms of one (1), two (2), three (3), four (4), five (5) and six (6) years respectively, and thereafter a trustee shall be appointed to serve six (6) years.

(2) When five (5) counties support a regional public library system, the management and control of the regional public library system shall be vested in a board of five (5) trustees. The trustees shall be appointed by the governing authorities of the counties that support the regional public library system.

(3) In a regional public library system supported by less than five (5) counties, the distribution of the membership on the board of trustees shall be determined by agreement among the counties that support the regional public library system.

(4) In a regional public library system of more than five (5) counties, one (1) member of the board of trustees shall be appointed by the governing authority of each county supporting the regional public library system. In the first appointments to the regional public library system board of trustees, five (5) members shall be appointed for terms of one (1), two (2), three (3), four (4) and five (5) years respectively, and any number of trustees above five (5) shall be appointed for terms of one (1) year. Thereafter, all trustees shall be appointed annually to serve five (5) years.

(5) The management and control of a city-county public library system shall be vested in a board of trustees, the number of which shall be agreed upon by the board of trustees of the governing body of the municipality, or municipalities, and with the consent of the board of supervisors which have contracted with each other or among themselves, to create, maintain and support a joint city-county library system. The term of each trustee shall be for a period of five (5) years. Initial appointments to the city-county board shall be made in a manner determined by the counties and municipalities involved so that terms expire on a staggered basis.

(6) Each trustee shall be a resident and qualified elector of the municipality, county or region represented by said trustee. Trustees shall be limited to two (2) consecutive terms of office in counties of over twenty thousand

(20,000) population; however, there shall be no limit on the number of terms served by a trustee. In counties of less than twenty thousand (20,000) population, there shall be no limit on the number of terms served by any trustee holding office on July 1, 1988; provided, that said limitation shall be applicable to new trustees appointed subsequent to July 1, 1988. Vacancies on the board of trustees of a county public library, municipal public library, regional public library system or city-county public library system shall be filled for unexpired terms in the same manner in which members of the board were first appointed. Any trustee who shall not attend four (4) consecutive meetings of the board shall be subject to removal by the governing authority. No trustee shall receive a salary or other compensation for his service; provided, however, that all trustees shall be reimbursed for their necessary traveling expenses and mileage incident to their attendance upon the business of the board, as provided in Section 25-3-41, Mississippi Code of 1972.

#### ATTORNEY GENERAL OPINIONS

Pursuant to Miss. Code Section 39-3-15, management and control of municipal public library is vested in board of trustees; therefore, board of trustees has responsibility to establish policy and procedures for preservation and exhibition of rare or scholarly books and papers. Ellis, Apr. 29, 1993, A.G. Op. #93-0299.

Trustees who were in office on July 1, 1988 are eligible to serve two consecutive terms, which includes any time they served in office before July 1, 1988, in accordance with 39-3-15(6). McCartney, August 10, 1993, A.G. Op. #93-0549.

While Section 39-3-15(6) enumerates certain qualifications and limitations on board membership, there is no statutory directive that dictates term length for regional board membership for systems supported by less than five counties, nor is there any provision under Chapter 3, Title 39 of the Mississippi Code that prohibits appointment of county library board member to concurrent service on regional library board. Williams, Feb. 1, 1994, A.G. Op. #93-0714.

Pursuant to Section 39-3-8 the terms of the trustees are calculated from the time they were originally appointed, even though the city and the county did not formally execute a contract establishing a

joint city/county library until January 12, 1994. Section 39-3-15(6) limits terms of trustees in counties of over 20,000 to two consecutive terms of office. Wegener, October 25, 1996, A.G. Op. #96-0682.

The director of a library can, with the authorization, may change a part-time position to a full-time one and is not bound by legal duty to offer any particular position to a former employee. Hurst, Nov. 21, 1997, A.G. Op. #97-0713.

Trustees of libraries in counties of over twenty thousand population are limited to two full consecutive terms of office, but service by a trustee in a predecessor's unexpired term is not included in this calculation. Schule, February 6, 1998, 1998 Miss. AG LEXIS 99.

Trustees of libraries in counties of over twenty thousand population are limited to two full consecutive terms of office, but service by a trustee in a predecessor's unexpired term is not included in this calculation. Schule, February 6, 1998, A.G. Op. # 98-0065.

There is no requirement that advisory boards of trustees within a regional library system be or remain as signatories to the agreement by the governmental entities creating the regional system. Williams, Apr. 1, 2005, A.G. Op. 05-0100.

Once a regional library system is established, and an administrative board of trustees is appointed, the membership and terms of membership of remaining boards of trustees within the system must

be consistent with the requirements of Section 39-3-15, absent any provision which may provide otherwise. Williams, Apr. 1, 2005, A.G. Op. 05-0100.

### **§ 39-3-17. Library boards of trustees; organization; general powers and duties.**

(1) The trustees of the administrative board designated pursuant to Section 39-3-13(4), immediately after their appointment or election, shall meet and organize by the election of such officers as they deem necessary. They shall (a) adopt such bylaws, rules and regulations for their own guidance and for the government of the library as they deem expedient; (b) meet at least once in each quarter; (c) have the supervision, care and custody of all property of the library, including the rooms or buildings constructed, leased or set apart therefor; (d) employ a library system director, prescribe his/her duties, fix his/her compensation, and remove him/her for cause; (e) employ, upon the recommendation of the library system director, such other staff as may be necessary and fix their compensation; (f) submit annually to the governing body a budget containing estimates for the ensuing year; (g) have exclusive control of the finances of the library system; (h) accept such gifts of money or property for library purposes as they deem expedient; (i) on recommendation of library system director purchase books, periodicals, maps, equipment, insurance and supplies for the library system; (j) dispose of equipment and discarded library materials as provided in Section 19-7-5, Mississippi Code of 1972; and (k) do all other acts necessary for the orderly and efficient management and control of the library system. But no expenditure made or contracted by the trustees shall be binding on any county or municipality so as to require any payment in excess of funds made available for library purposes under this article.

(2) There shall be one (1) library director for each library system. Said library system director shall have such educational qualifications as are prescribed by the Mississippi Library Commission. The library system director shall administer and establish procedures according to policies established by the administrative board of trustees. His or her duties shall include: (a) employment of staff with the approval of the board of trustees; (b) prescription of staff duties; (c) removal of staff for cause; (d) preparation of the budget; (e) financial and statistical management; (f) reporting to board of trustees; and (g) other acts necessary for the orderly and efficient administration of the library system.

(3) In the event that a determination is made by the library system director to remove a staff member for cause, written notice of such decision shall be given to such staff member. A staff member who has received such notice shall be entitled to:

(a) Written notice of the reasons for such action, together with a summary of the factual basis therefor, which notice shall be given at least five (5) days prior to any hearing;

(b) An opportunity for a hearing before the board of trustees at which to present matters relevant to the reasons given for the decision, including any reasons alleged by the employee to be the reason for such action;

(c) Receive a fair and impartial hearing before the board;

(d) Be represented by legal counsel, at his own expense.

If the staff member does not request a hearing, the decision of the director shall be final.

(4) On at least a bi-monthly basis, the board of supervisors of each county and the governing authority of each municipality supporting a public library system shall transmit its warrant or warrants constituting one-sixth ( 1/6) of the annual appropriation for the support and maintenance thereof to the library director of such system. All such warrants shall be deposited in one or more public depositories previously selected by the board of trustees of the library system. The said board of trustees shall, by appropriate order spread upon its minutes, authorize the library director to expend such funds for lawful purposes only and in accordance with its annual budget previously adopted. All such funds shall be placed in the depository or depositories selected by the administrative library board of trustees in the same manner as provided in Section 27-105-305 for the selection of county depositories, provided that the selection shall be effective on July 1 of each year. Such depository shall place on deposit with the library director the same securities as required in Section 27-105-315.

### ATTORNEY GENERAL OPINIONS

Proposed schedule wherein publication for library fund depositories bids will begin reasonable period of time prior to statutorily mandated contract date of July 1 of each year, is appropriate and proper application of depository laws to public library systems. Austin, Feb. 7, 1990, A.G. Op. #90-0078.

Library board of municipal library acting only in advisory capacity may not concurrently serve as administrative board for regional library system; city may, however, withdraw from regional system and operate entirely local municipal library, if regional system contract allows. If a library board accepts a donation of fine art prints and decides to sell the prints, it must hold a public sale, either by auction or advertising and bidding, and in the latter case, the board may reject all bids if they are not acceptable. Austin, March 6, 1998, A.G. Op. #98-0116.

A city/county library system does not have authority to expend funds, either its publicly raised funds or donated funds, for an advertising and public relations campaign to support its fund-raising efforts. Clark, Sept. 14, 2001, A.G. Op. #01-0540.

An advisory board of a public library in consultation with the library director may receive private gifts and donations which are designated for specific purposes for

the support and maintenance of a library, such as funds for repair of a library roof. Gough, Feb. 22, 2002, A.G. Op. #02-0072.

Advisory boards of trustees within a regional library system act in an advisory

capacity and do not possess the administrative powers and responsibilities set forth in Section 39-3-17, which belong to the administrative board. Williams, Apr. 1, 2005, A.G. Op. 05-0100.

### **§ 39-3-19. Library boards of trustees; annual reports.**

At the close of each year the administrative board of trustees of every public library system shall make a report to the governing body in the county or counties or municipality or municipalities wherein the board serves, showing the condition of the trust during the year, the sums of money received for the library fund from taxes and other sources, the sums of money expended and the purposes of the expenditures, the number of books and periodicals on hand, the number added during the year, the number withdrawn, the number loaned out, and such other statistics and information and such suggestions as the administrative board of trustees deems of public interest. A copy of this report shall be filed in the State Library Commission.

### **§ 39-3-20. Sabbatical leave for professional library staff.**

(1) Professional library staff members of a public library shall be eligible for sabbatical leave for the purpose of professional improvement, for not more than one (1) year immediately following any six (6) or more consecutive years of active service in the libraries of this state. Absence on sick leave shall not be deemed to interrupt the active service herein provided for. Sabbatical leave for professional library staff members shall only be granted with the approval of the administrative board of trustees.

(2) Applications for sabbatical leave may be made to the administrative board of trustees of such library system, with the approval of the library director of such system. Any person who is granted a sabbatical leave and who fails to comply with the provisions of such leave may have his/her leave terminated by the administrative board of trustees. No person on sabbatical leave can be denied any regular increment of increase in salary because of absence on sabbatical leave. Service on sabbatical leave shall count as active service for the purpose of retirement and contributions to the retirement fund shall be continued.

(3) In no instance shall leave be granted unless there is a contract providing for continued service, after expiration of the leave, in the library system where the person is employed.

(4) Each person granted sabbatical leave may receive and be paid compensation up to the rate of fifty percent (50%) of such person's annual salary. Compensation payable to persons on sabbatical leave shall be paid at the same

time and in the same manner salaries of the other members of the library system are paid.

#### INTERSTATE LIBRARY COMPACT.

SEC.

- 39-3-201. Enactment and terms of compact.
- 39-3-203. Agreements for construction or maintenance of interstate libraries; compliance with other governing laws.
- 39-3-205. State library agency defined.

### § 39-3-201. Enactment and terms of compact.

The Interstate Library Compact is hereby enacted into law and entered into by this state with all states legally joining therein in the form substantially as follows:

#### INTERSTATE LIBRARY COMPACT

##### *Article I. Policy and Purpose*

Because the desire for the services provided by libraries transcends governmental boundaries and can most effectively be satisfied by giving such services to communities and people regardless of jurisdictional lines, it is the policy of the states party to this compact to cooperate and share their responsibilities; to authorize cooperation and sharing with respect to those types of library facilities and services which can be more economically or efficiently developed and maintained on a cooperative basis, and to authorize cooperation and sharing among localities, states and others in providing joint or cooperative library services in areas where the distribution of population or of existing and potential library resources make the provision of library service on an interstate basis the most effective way of providing adequate and efficient service.

##### *Article II. Definitions*

As used in this compact:

(a) "Public library agency" means any unit or agency of local or state government operating or having power to operate a library.

(b) "Private library agency" means any nongovernmental entity which operates or assumes a legal obligation to operate a library.

(c) "Library agreement" means a contract establishing an interstate library district pursuant to this compact or providing for the joint or cooperative furnishing of library services.

### *Article III. Interstate Library Districts*

(a) Any one or more public library agencies in a party state in cooperation with any public library agency or agencies in one or more other party states may establish and maintain an interstate library district. Subject to the provisions of this compact and any other laws of the party states which pursuant hereto remain applicable, such district may establish, maintain and operate some or all of the library facilities and services for the area concerned in accordance with the terms of a library agreement therefor. Any private library agency or agencies within an interstate library district may cooperate therewith, assume duties, responsibilities and obligations thereto, and receive benefits therefrom as provided in any library agreement to which such agency or agencies become party.

(b) Within an interstate library district, and as provided by a library agreement, the performance of library functions may be undertaken on a joint or cooperative basis or may be undertaken by means of one or more arrangements between or among public or private library agencies for the extension of library privileges to the use of facilities or services operated or rendered by one or more of the individual library agencies.

(c) If a library agreement provides for joint establishment, maintenance or operation of library facilities or services by an interstate library district, such district shall have power to do any one or more of the following in accordance with such library agreement:

1. Undertake, administer and participate in programs or arrangements for securing, lending or servicing of books and other publications, any other materials suitable to be kept or made available by libraries, library equipment or for the dissemination of information about libraries, the value and significance of particular items therein, and the use thereof.

2. Accept for any of its purposes under this compact any and all donations, and grants of money, equipment, supplies, materials, and services, (conditional or otherwise) from any state or the United States or any subdivision or agency thereof, or interstate agency, or from any institution, person, firm or corporation, and receive, utilize and dispose of the same.

3. Operate mobile library units or equipment for the purpose of rendering bookmobile service within the district.

4. Employ professional, technical, clerical, and other personnel, and fix terms of employment, compensation and other appropriate benefits; and where desirable, provide for the inservice training of such personnel.

5. Acquire, hold, and dispose of any real or personal property or any interest or interests therein as may be appropriate to the rendering of library service.

6. Construct, maintain and operate a library, including any appropriate branches thereof.

7. Do such other things as may be incidental to or appropriate for the carrying out of any of the foregoing powers.

#### *Article IV. Interstate Library Districts, Governing Board*

(a) An interstate library district which establishes, maintains or operates any facilities or services in its own right shall have a governing board which shall direct the affairs of the district and act for it in all matters relating to its business. Each participating public library agency in the district shall be represented on the governing board which shall be organized and conduct its business in accordance with provision therefor in the library agreement. But in no event shall a governing board meet less often than twice a year.

(b) Any private library agency or agencies party to a library agreement establishing an interstate library district may be represented on or advise with the governing board of the district in such manner as the library agreement may provide.

#### *Article V. State Library Agency Cooperation*

Any two or more state library agencies of two or more of the party states may undertake and conduct joint or cooperative library programs, render joint or cooperative library services, and enter into and perform arrangements for the cooperative or joint acquisition, use, housing and disposition of items or collections of materials which, by reason of expense, rarity, specialized nature, or infrequency of demand therefor would be appropriate for central collection and shared use. Any such programs, services or arrangements may include provision for the exercise on a cooperative or joint basis of any power exercisable by an interstate library district and an agreement embodying any such program, service or arrangement shall contain provisions covering the subjects detailed in Article VI of this compact for interstate library agreements.

#### *Article VI. Library Agreement*

(a) In order to provide for any joint or cooperative undertaking pursuant to this compact, public and private library agencies may enter into library agreements. Any agreement executed pursuant to the provisions of this compact shall, as among the parties to the agreement:

1. Detail the specific nature of the services, programs, facilities, arrangements or properties to which it is applicable.

2. Provide for the allocation of costs and other financial responsibilities.
3. Specify the respective rights, duties, obligations and liabilities of the parties.
4. Set forth the terms and conditions for duration, renewal, termination, abrogation, disposal of joint or common property, if any, and all other matters which may be appropriate to the proper effectuation and performance of the agreement.

(b) No public or private library agency shall undertake to exercise itself, or jointly with any other library agency, by means of a library agreement any power prohibited to such agency by the constitution or statutes of its state.

(c) No library agreement shall become effective until filed with the compact administrator of each state involved, and approved in accordance with Article VII of this compact.

#### *Article VII. Approval of Library Agreements*

(a) Every library agreement made pursuant to this compact shall, prior to and as a condition precedent to its entry into force, be submitted to the attorney general of each state in which a public library agency party thereto is situated, who shall determine whether the agreement is in proper form and compatible with the laws of his state. The attorneys general shall approve any agreement submitted to them unless they shall find that it does not meet the conditions set forth herein and shall detail in writing addressed to the governing bodies of the public library agencies concerned the specific respects in which the proposed agreement fails to meet the requirements of law. Failure to disapprove an agreement submitted hereunder within ninety days of its submission shall constitute approval thereof.

(b) In the event that a library agreement made pursuant to this compact shall deal in whole or in part with the provision of services or facilities with regard to which an officer or agency of the state government has constitutional or statutory powers of control, the agreement shall, as a condition precedent to its entry into force, be submitted to the state officer or agency having such power of control and shall be approved or disapproved by him or it as to all matters within his or its jurisdiction in the same manner and subject to the same requirements governing the action of the attorneys general pursuant to paragraph (a) of this article. This requirement of submission and approval shall be in addition to and not in substitution for the requirement of submission to and approval by the attorneys general.

#### *Article VIII. Other Laws Applicable*

Nothing in this compact or in any library agreement shall be construed to supersede, alter or otherwise impair any obligation imposed on any library by otherwise applicable law, nor to authorize the transfer or disposition of any

property held in trust by a library agency in a manner contrary to the terms of such trust.

*Article IX. Appropriations and Aid*

(a) Any public library agency party to a library agreement may appropriate funds to the interstate library district established thereby in the same manner and to the same extent as to a library wholly maintained by it and, subject to the laws of the state in which such public library agency is situated, may pledge its credit in support of an interstate library district established by the agreement.

(b) Subject to the provisions of the library agreement pursuant to which it functions and the laws of the states in which such district is situated, an interstate library district may claim and receive any state and federal aid which may be available to library agencies.

*Article X. Compact Administrator*

Each state shall designate a compact administrator with whom copies of all library agreements to which his state or any public library agency thereof is party shall be filed. The administrator shall have such other powers as may be conferred upon him by the laws of his state and may consult and cooperate with the compact administrators of other party states and take such steps as may effectuate the purposes of this compact. If the laws of a party state so provide, such state may designate one or more deputy compact administrators in addition to its compact administrator.

*Article XI. Entry Into Force and Withdrawal*

(a) This compact shall enter into force and effect immediately upon its enactment into law by any two states. Thereafter, it shall enter into force and effect as to any other state upon the enactment thereof by such state.

(b) This compact shall continue in force with respect to a party state and remain binding upon such state until six months after such state has given notice to each other party state of the repeal thereof. Such withdrawal shall not be construed to relieve any party to a library agreement entered into pursuant to this compact from any obligation of that agreement prior to the end of its duration as provided therein.

*Article XII. Construction and Severability*

This compact shall be liberally construed so as effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any party state or of the United States or the applicability

thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state party thereto, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.

## JUDICIAL DECISIONS

**1. In general.**

Statute which would have allowed all sealed files of former Mississippi State Sovereignty Commission, which had gathered personal information about Mississippi citizens with purpose of thwarting desegregation, to be opened in year 2027 was unconstitutional, and any files sealed pursuant to request of victims named in files would remain permanently sealed; any victim entitled to privacy in avoiding public disclosure at time of suit would be entitled to same right of privacy in year 2027. *American Civil Liberties Union v. Fordice*, 969 F. Supp. 403 (S.D. Miss. 1994), *aff'd*, 84 F.3d 784 (5th Cir. 1996),

*cert. denied*, 519 U.S. 992, 117 S. Ct. 481, 136 L. Ed. 2d 375 (1996).

Sections 39-5-61 through 39-5-65, sealing for 50 years the records of the Mississippi Sovereignty Commission did not create an evidentiary privilege compelling respect by a federal court trying a 42 USCS § 1983 action alleging in part that officials of the commission violated plaintiffs' First Amendment and other constitutional rights by harassment and by surveillance of their lawful activities. *American Civil Liberties Union of Miss., Inc. v. Finch*, 638 F.2d 1336 (5th Cir. 1981), *vacated on other grounds and remanded*, 911 F.2d 1066 (5th Cir. 1990).

**§ 39-5-63. Willful tampering with files.**

Any person who shall willfully break any seal containing the impounded files of the state sovereignty commission, or willfully examine, divulge, disseminate, alter, remove or destroy said files prior to July 1, 2027, shall, upon conviction, be fined not less than one thousand dollars (\$1,000.00) nor more

than five thousand dollars (\$5,000.00) or imprisoned for not more than three (3) years, or punished by both such fine and imprisonment.

**SOURCES:** Laws, 1977, ch. 320, § 4, eff from and after passage (approved March 4, 1977).

### JUDICIAL DECISIONS

Permanent injunction has been issued to prevent enforcement of § 39-5-63 because this act and others relating to sealing of files of state sovereignty commission, which had a clandestine purpose of perpetuating racial inequality, unconstitutionally infringe on black citizens' rights to free speech and association, personal

privacy, and lawful search and seizure. American Civil Liberties Union of Miss., Inc. v. Mabus, 719 F. Supp. 1345 (S.D. Miss. 1989), vacated, 911 F.2d 1066 (5th Cir. 1990), reh'g denied, 919 F.2d 735 (5th Cir. 1990), on remand, 969 F. Supp. 403 (S.D. Miss. 1994).

### § 39-5-65. Display of penalties for tampering with files.

The department of archives and history shall conspicuously display the penalties prescribed by Section 39-5-63 in one or more places on each container or cabinet in which the files of the state sovereignty commission are impounded.

## ATTORNEY GENERAL OPINIONS

In view of the fact that surplus property owned by a city was a protected Mississippi landmark, the city could place covenants on the property restricting its use to the uses set out in the notice of sale and such covenants could continue forever; further, the city could take into consideration in awarding the bid for the sale of

the property the proposed use of the property, the scope of the proposed rehabilitation of the structure, and the time period for beginning and completing rehabilitation efforts as well as the monetary bid offered. Thomas, August 28, 1998, A.G. Op. #98-0517.

(1) All other sites, objects, buildings, artifacts, implements, and locations of archaeological significance, including, but expressly not limited to, those pertaining to prehistoric and historical American Indian or aboriginal campsites, dwellings, and habitation sites, their artifacts and implements of culture, as well as archaeological sites of every character that are located in, on or under the surface of any lands belonging to the State of Mississippi or to any county, city, or political subdivision of the state, are hereby declared to be Mississippi landmarks and are the sole property of the State of Mississippi. ### **§ 39-7-13. Designation of sites located upon private lands as Mississippi landmarks; recordation; marking.**

Any site located upon private lands which is determined by majority vote of the board to be of sufficient archaeological, historical or architectural significance may be designated by the board as a Mississippi landmark. It is specifically provided, however, that no such site shall be so designated upon private land without the written consent of the landowner or landowners in recordable form sufficiently describing the site so that it may be located. Upon such designation the consent of the landowner shall be recorded in the deed records of the county in which the land is located. Any such site upon private land shall be marked by at least one (1) marker, approved by the board, bearing the words "Mississippi Landmark" for each five (5) acres of area.

**SOURCES:** Codes, 1942, § 6192-107; Laws, 1970, ch. 267, § 7; Laws, 1983, ch. 458, § 6, eff from and after July 1, 1983.

### **§ 39-7-15. Removal from designation.**

Upon majority vote of the board any Mississippi landmark on public or private land may be determined to be of no further historical, archaeological, or architectural significance, or not of sufficient significance to warrant its further classification as such, and upon such determination it may be removed from such designation. In the case of sites located on private land that have theretofore been designated by instrument of record, the board is authorized to

cause to be executed and recorded in the deed records of the county where such site is located an instrument setting out such determination and releasing the site from the provisions thereof.

**SOURCES:** Codes, 1942, § 6192-108; Laws, 1970, ch. 267, § 8; Laws, 1983, ch. 458, § 7, eff from and after July 1, 1983.

### **§ 39-7-17. Contracts for salvage; surveys; excavation.**

The board shall be authorized to enter into contracts with other state agencies or institutions and with qualified private institutions, corporations, or individuals for the discovery and salvage of treasure imbedded in the earth, sunken or abandoned ships or wrecks of the sea, parts thereof and their contents. Such contracts are to be on forms approved by the attorney general. The contracts may provide for fair compensation to the salvager in terms of a percentage of the reasonable cash value of the objects recovered, or at the discretion of the board, of a fair share of the objects recovered. The amount constituting a fair share shall be determined by the board, taking into consideration the circumstances of each such operation. The reasonable cash value may be determined by contract provision providing for appraisal by qualified experts or by representatives of the contracting parties and their representative or representatives. Such contract shall provide for the termination of any right in the salvager or permittee thereunder upon the violation of any of the terms thereof. Superior title to all objects recovered shall be retained by the State of Mississippi unless and until it is released to the salvager or permittee by the board. No person, firm, or corporation may conduct such salvage or recovery operation herein described without first obtaining such contract. All such contracts shall specify, among other things, the location, nature of the activity, and the time period covered thereby, and when executed are to be recorded by the person, firm, or corporation obtaining such contract, in the office of the chancery clerk in the county or counties where such operations are to be conducted, prior to the commencement of such operation.

The board shall be authorized to conduct surveys to identify Mississippi landmarks on or under all lands and waters belonging to the State of Mississippi, or any county, city or political subdivisions of the state and to excavate or study all Mississippi landmarks. The board shall be further authorized to identify and excavate historic, architectural, or archaeological sites on private property, however, it is specifically provided that no such survey may be undertaken on private land without consent of the landowner and that no excavation may be undertaken on private land without the landowner's written consent.

### ATTORNEY GENERAL OPINIONS

Legislation does not separate historical from nonhistorical ships or wrecks, and legislation was made sufficiently broad to cover all sunken or abandoned ships and wrecks of sea; legislature did not make it duty of department of Archives and His-

tory to clean out rivers of State of Mississippi and it is entirely within discretion of board of trustees of department whether or not to permit salvage or to contract for salvage of all such wrecks and ships. Hilliard, Jan. 24, 1990, A.G. Op. #90-0016.

### § 39-7-19. Permits for excavation, salvage, studies, etc., at Mississippi landmarks.

The board shall be authorized to issue permits to other state agencies or institutions and to qualified private institutions, companies, or individuals for the taking, salvaging, excavating, restoring, or the conducting of scientific or educational studies at, in or on Mississippi landmarks as in the opinion of the board would be in the best interest of the State of Mississippi. Such permits may provide for the retaining by the permittee of a portion of any recovery, as set out for contracting parties under Section 39-7-17. Such permit shall provide for the termination of any rights in the permittee thereunder upon the violation of any of the terms thereof and shall be drafted in compliance with forms approved by the attorney general. All such permits shall specify, among other things, the location, nature of the activity, and time period covered thereby. No person, firm, or corporation shall conduct any such operations on any Mississippi landmarks without first obtaining and having in his or its possession such permit at the site of such operation, nor shall such operations be conducted in violation of the provisions of such permit.

### § 39-7-21. Supervision of salvage or recovery operations; custody of antiquities; promulgation of rules and regulations.

All salvage or recovery operations described under Section 39-7-17, and all operations conducted under permits set out in Section 39-7-19, must be carried out under the general supervision of the board, in accordance with reasonable rules and regulations adopted by the board, and in such manner that the

maximum amount of historic, scientific, archeological, and educational information may be recovered and preserved in addition to the physical recovery of items. The board shall be the legal custodian of all antiquities recovered, and is specifically authorized and empowered to promulgate such rules and regulations and to require such contract or permit conditions as to reasonably effect the purposes of this chapter.

**§ 39-7-22. Public construction or improvement affecting potential Mississippi landmarks.**

(1) In the early stages of planning and always prior to the letting of bids for public construction, public improvement of any nature, or the transfer of public property to private ownership, state agencies, local governments and all their political subdivisions shall notify the board of the planned action on a form supplied by the board. The board may survey the affected area, property, structure, or building, to determine if potential Mississippi landmarks will be affected, or if significant sites, buildings, or structures on nonpublic lands will be affected.

(2) If the department determines that significant historic, architectural, or archaeological sites, buildings, structures, locations, or remains will be adversely affected by the public construction or improvement, the proposed public construction or improvement may not be commenced until the department has issued the permit herein required, and has performed all necessary investigations, recording and/or salvage of the site, location or remains. All investigation, recording and salvage work shall be performed as expeditiously as possible so that no public construction project will be unduly impaired, impeded or delayed.

(3) If in the course of performing public construction or improvements, historic, prehistoric or archaeological sites, locations, remains or objects are discovered, the department shall be notified and its concurrence shall be requested in continuing the construction or improvement. Upon receipt of this notice, the department shall survey the area to confirm whether the area contains historic, prehistoric, or archaeological data which should be preserved in the public interest. The survey shall be conducted as expeditiously as possible. If, as a result of the survey, it is determined that (a) this data exists in the area, (b) the data has exceptional historic, prehistoric or archaeological significance and should be collected and preserved in the public interest, and (c) it is feasible to collect and preserve the data, the department shall perform the necessary work to collect and preserve the data. This work shall be performed as expeditiously as possible. When it is not feasible to collect the data, the agency shall make all reasonable attempts to avoid the site before

proceeding. If in the board's opinion the site possesses unusual significance, and is unique to such a degree that the landmark is, or is likely to be, the sole representative of a type or period, the board may prohibit further construction which would destroy or irreparably harm the landmark.

### **§ 39-7-23. Expenditures for acquisition of items; gifts and bequests; contracts for temporary possession of items by others.**

The board is hereby authorized to expend such sums, from any appropriations hereafter made for such purposes, as it may deem advisable, to purchase from the salvager or permittee such salvager's or permittee's share, or portion thereof, of items recovered which in the opinion of the board should remain the property of the State of Mississippi. The board is authorized and empowered to accept gifts, grants, devises, and bequests of money, securities, or property to be used in the purchase of such items from the salvager or permittee. Further, in this respect, the board may enter into contracts or agreements with such persons, firms, corporations, or institutions, as it might choose, whereby such persons, firms, corporations, or institutions, for the privilege of retaining temporary possession of such items, may advance to the board the money necessary to procure from the salvager or permittee such items as the board might determine should remain the property of the State of Mississippi, upon the condition that at any time the board may choose to repay to such person, firm, corporation, or institution such sum so advanced, without interest or additional charge of any kind, it may do so and may recover possession of such items. During the time these items are in the possession of the person, firm, corporation, or institution advancing the money for the purchase thereof, they shall be available for viewing by the general public without charge or at no more than a nominal admission fee, and such items may not be removed from the State of Mississippi for appraisal, exhibition, or restorative purposes, except upon written authorization of the board.

#### § 39-13-1. Short title.

This chapter shall be cited as the "Mississippi Local Government Historic Preservation Law of 1978."

**SOURCES:** Laws, 1978, ch. 472, § 1, eff from and after passage (approved April 4, 1978).

#### ATTORNEY GENERAL OPINIONS

While the commission has statutory authority pursuant to this section to study and survey resources, to recommend to the city adoption of ordinances designating districts, landmarks and landmark sites, and to recommend subdistricts, the commission does not have statutory authority to grant or deny certificates of appropriateness for constructing, altering or demolishing buildings, to employ staff, or to make contracts with technical personnel. Regan, December 11, 1998, A.G. Op. #98-0790.

Any ordinance that the governing authorities of a city adopt must comply with the provisions of §§ 39-13-1 et seq., governing the area of local historic preservation; an ordinance making the preservation commission advisory only and providing that all decisions as to designations under the statute will lie solely with the board of aldermen is not in compliance. Carter, Sept. 27, 2002, A.G. Op. #02-0493.

A local historic preservation commission established under Sections 39-13-1 et

seq. cannot be solely an advisory body.  
Nowak, Apr. 28, 2006, A.G. Op. 06-0143.

A municipal court judge would be violating the separation of powers doctrine

by serving on an historic preservation commission. Belk, June 30, 2006, A.G. Op. 06-0244.

## § 39-13-2. Definitions.

The following words and phrases shall have the meanings ascribed herein unless the context clearly indicates otherwise:

(a) "Alteration" means any change in the exterior appearance or materials of a landmark or a structure within a historic district or on a landmark site.

(b) "Certificate of appropriateness" means an official signed and dated governmental document issued by either a local historic preservation commission or a governing authority to permit specific work in a historic district or at a landmark site or landmark which has been reviewed and approved.

(c) "Construction" means work which is neither alteration nor demolition. Essentially, it is the erection of a new structure which did not previously exist, even if such a structure is partially joined to an existing structure.

(d) "Demolition" means the intentional removal of a structure within a local historic district or on a landmark site or which has been designated as a landmark.

(e) "Demolition by neglect" means substantial deterioration of a historic structure that results from improper maintenance or a lack of maintenance.

(f) "Design review guidelines," if adopted by a local historic preservation commission, shall be in a written form designed to inform local property owners about historical architectural styles prevalent in a community and to recommend preferred treatments and discourage treatments that would compromise the architectural integrity of structures in a historic district or on a landmark site or individually designated as landmarks.

(g) "Historic landmark" means a structure of exceptional individual significance and typically is a structure which could not be included within a local historic district.

(h) "Historic preservation commission" means a municipal or county body established to advise a local government on matters relating to historic preservation, including the designation of historic districts, landmarks and landmark sites, and which may be empowered to review applications for permits for alteration, construction, demolition, relocation or subdivision for structures in historic districts or on landmark sites or designated as landmarks.

(i) "Historic district" means a group of two (2) or more tax parcels and their structures, and may be an entire neighborhood of structures linked by historical association or historical development. It is not necessary that all structures within a historic district share the same primary architectural style or be from the same primary historical period. A historic district may also include both commercial and residential structures, and may include structures covered by two (2) or more zoning classifications. A historic district may include both contributing and noncontributing structures.

(j) "Landmark site" means a location where a primary architectural or historical resource formerly stood or a significant historic event took place or an important archeological resource remains.

(k) "Period of greatest historic significance for a landmark" means the time period during which the landmark had been essentially completed but not yet altered. It is also the period during which the style of architecture of the landmark was commonplace or typical. If a landmark also achieved historical importance in part because of designed landscape features, the period of greatest historic significance includes the time period during which such landscape features were maintained.

(l) "Relocation" means the moving of a structure to a new location on its tax parcel or the relocation of such a structure to a new tax parcel.

(m) "Structure" means a man-made object and typically will be visible because of portions which exist above grade. Structures built during the historic period, 1700 forward, may in some instances not be visible above grade if they are cellars, cisterns, icehouses or similar objects which by their nature are intended to be built into the ground. A structure includes both interior components and visible exterior surfaces, as well as attached elements such as signs and related features such as walks, walls, fences and other nearby secondary structures or landmark features.

(n) "Subdistricts" means discrete areas within a larger historic district within which separate design guidelines are appropriate and that may be created to recognize different zoning classifications or historic development patterns which have caused adjacent historic areas to develop at different times.

(o) "Subdivision" includes any change in the boundaries of a single tax parcel, whether the change results in expansion or reduction or a boundary relocation.

(p) "Substantial deterioration" means structural degradation of such a nature that water penetration into a historic structure can no longer be prevented, or structural degradation that causes stress or strain on structural members when supports collapse or warp, evidence of which includes defective roofing materials, broken window coverings and visible interior decay.

(q) "Survey of resources" means the documentation, by historical research or a photographic record, of structures of historical interest within a specified area or jurisdiction or of existing structures within a proposed historic district.

(r) "Unauthorized demolition" means the deliberate demolition of a historic structure without prior review and approval by a local historic preservation commission or a governing authority to which such a commission has made a recommendation.

(s) "Unreasonable economic hardship" means the definition under constitutional standards used to determine whether a "taking" exists.

**Cross References** — Exemption from municipal ad valorem tax for certain structures in historic preservation districts, see § 17-21-5.

**§ 39-13-3. Authority to create local historic preservation commissions; authority and procedure for establishment of districts and designation of landmarks.**

The governing authority of each municipality and county, either independently or jointly with the governing authority of an adjacent municipality or county, or both, is hereby empowered, in its discretion, to enact ordinances providing for the creation of one or more local historic preservation commissions to advise on the establishment and location of potential historic districts and the designation of potential historic landmarks and landmark sites within the jurisdictional area of the governing authority. The governing authorities of each municipality and county, either independently or jointly with the governing authorities of an adjacent municipality, may enact ordinances for the establishment of such local historic districts, historic landmarks and landmark sites within the jurisdictional area of the governing authorities as these authorities shall choose to designate. Each such ordinance shall be adopted after investigation of the historical, architectural, archaeological and cultural significance of the buildings, structures, features, sites and surroundings of such districts, landmarks or landmark sites and after having held public hearing thereon. Notice of such public hearing, specifying the boundaries of any proposed historic district and the location of proposed historic landmarks and landmark sites shall be published once a week for at least three (3) consecutive weeks in at least one (1) newspaper published in such municipality or county. The first publication of such resolution shall be made not less than twenty-one (21) days prior to the date fixed in such resolution for the public hearing and the last publication shall be made not more than seven (7) days prior to such date. If no newspaper be published in such municipality or county, then such notice shall be given by publishing the resolution for the required time in some newspaper having a general circulation in such municipality or county.

An ordinance to establish a local historic preservation commission may precede an ordinance to designate one or more local historic districts and one or more landmarks or landmark sites. Whenever governing authorities enact such an ordinance creating a historic preservation commission before an ordinance or ordinances designating one or more local historic districts and one

or more landmarks or landmark sites, the local historic preservation commission shall review such potential local historic districts or potential landmarks or landmark sites and make a recommendation to the governing authorities before such designation.

(a) The commission shall conduct or cause to be conducted a continuing study and survey of resources within the county or municipality or combination thereof.

(b) The commission shall recommend to the county or municipality or combination thereof the adoption of ordinances designating historic districts, landmarks and landmark sites.

(c) The commission may recommend that the county or municipality or combination thereof recognize subdistricts within any historic district in order that the commission may adopt specific guidelines for the regulation of properties within such a subdistrict.

(d) The commission shall review applications proposing construction, alteration, demolition or relocation of any resource or subdivision of tax parcels designated as landmarks or landmark sites contained within a historic district. The document granting such an application shall be known as a certificate of appropriateness. No commission may deny a certificate of appropriateness for demolition if denial of such a certificate would cause unreasonable economic hardship to an owner.

(e) The commission shall use as a basis for its decisions on applications for certificates of appropriateness the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings as well as any more specific design review guidelines adopted by the commis-

sion or the governing authority of the county or municipality or combination thereof.

(f) The commission, at the discretion of the governing authority, may grant or deny the certificates of appropriateness in whole or in part and may grant certificates of appropriateness contingent upon the acceptance by the applicant of specified conditions.

(g) The commission shall not consider interior arrangements of buildings and structures except that it may when requested by the Department of Archives and History to advise the department on questions relating to the interiors of publicly owned historic buildings. Interior arrangements not to be considered by the commission shall include floor plans, architectural details and finishes, but the commission may consider interior structural elements visible through doors or windows if they become deteriorated because of demolition by neglect. Such interior structural elements may include walls, floors and ceilings, as well as other supporting elements of a composite structure.

(h) The commission may, by local ordinance, review proposed governmental actions affecting governmentally owned structures included within local historic districts, located on landmark sites or designated as landmarks.

(i) The commission, subject to the consent of and requirements of the county or municipality or combination thereof, may apply for, receive, hold and spend funds from private and public sources in addition to appropriations made by the county or municipality or combination thereof for the purpose of carrying out the duties of the commission.

(j) The commission, subject to the consent of and the requirements of the county or municipality or combination thereof, may employ such staff or contract with technical experts or other persons as may be required for the performance of its duties and may obtain the equipment, supplies and other materials necessary for its effective operation.

(k) The commission, solely in the performance of its official duties and only at reasonable times, may enter upon private land for the examination or survey thereof. No member, employee or agent of the commission shall enter any private dwelling or structure without the express consent of the owner of record or occupant thereof.

(l) A municipality, by ordinance, may specify that color changes are outside the jurisdiction of the commission.

Such commission shall consist of not fewer than five (5) nor more than nine (9) residents of the county or municipality, or combination thereof, establishing the commission who shall be appointed by the governing authority with due regard to proper representation in such fields as history, architecture, urban planning, archaeology and law. All members of the commission shall serve at the will and pleasure of the governing authority appointing them and shall serve staggered terms. The precise method of appointment, and general terms of appointment, shall be specified in a local ordinance. If a documented good faith effort has been made unsuccessfully by the governing authority to locate

residents of the county or municipality to serve on the commission, the governing authority may appoint individuals who own property within the boundary of the county or municipality, or both, or are in the service of an employer located within the boundary of the county or municipality, or both. The commission annually shall elect from its membership a chairman and a vice chairman and may employ such qualified staff personnel and counsel as it deems necessary. The commission shall retain as evidence of its discussions and decisions a complete set of minutes and may additionally create tape recordings or transcripts of its meetings. In addition, the commission shall retain copies of all applications filed with it including supporting documentation that may be added during open public meetings to supplement an original application or comment thereon. The commission shall advise the governing authority as to the designation of historic districts and the designation of historic landmarks and landmark sites. If any governing authority, in its discretion, chooses to divide the duties and responsibilities of the commission into no more than two (2) commissions or boards, each commission or board shall be established as directed in this section.

#### **§ 39-13-7. Notification to Department of Archives and History of proposed designation of historic district or local historic preservation commission; comments by department concerning proposed district or commission.**

No historic district or districts shall be designated until the Mississippi Department of Archives and History has been notified by certified letter by the governing authority of a municipality or county and invited to make recommendations concerning the proposed district boundaries. The Mississippi Department of Archives and History may comment by letter, telephone, e-mail or in person through designated staff. The boundary of a historic district or landmark or landmark site may follow the formal legal description of a tax parcel or parcels or, because of historical justification or topographical conditions, may deviate from such formal legal descriptions. When a boundary deviates from formal legal descriptions, there must be written justification for such a deviation in any local designating ordinance.

When a municipality or county has already created by ordinance a local historic preservation commission, that commission shall jointly notify both the governing authority of the municipality or county and the Mississippi Department of Archives and History that a historic district is being proposed and recommended and shall provide to the Mississippi Department of Archives and

History the dates of the next two (2) public meetings of the governing authority at which action on the designation of such a district might be taken so that the Mississippi Department of Archives and History may comment in a timely manner. Failure of the Mississippi Department of Archives and History to comment by the date of the second such meeting shall relieve the municipality or county of any responsibility for awaiting and responding to such analysis, and the body may at any time thereafter take any necessary action to create the proposed historic district.

When a municipality or county has not previously created by ordinance a local historic preservation commission and the governing authority proposes to create such a commission, the governing authority must give the Mississippi Department of Archives and History an opportunity to comment on the proposed provisions for such an ordinance, unless such ordinance is substantially identical to any model local historic preservation ordinance which has been recommended and promulgated by the Mississippi Department of Archives and History. Whenever the Mississippi Department of Archives and History is invited to comment on the terms of a proposed local historic preservation ordinance, failure of the department to comment within forty-five (45) days after a written request for comments has been received shall relieve the governing authority of any responsibility to wait further for such comments.

### **§ 39-13-9. Appropriations; application by locality to participate in Certified Local Government Program of the National Park Service; eminent domain.**

The governing authority of any county or municipality, individually or jointly, is authorized to make appropriations to a historic preservation commission, in any amount that it may determine necessary for the expenses of the operation of such commission. A governing authority may apply to participate in the Certified Local Government Program of the National Park Service, which is administered in Mississippi by the Department of Archives and History and may on behalf of a local historic preservation commission apply for funding from the Department of Archives and History to supplement funds available from the governing authority itself. Said governing authorities shall not be empowered to acquire by eminent domain any historic preservation

properties unless such properties are needed for governmental purposes other than historic preservation.

### ATTORNEY GENERAL OPINIONS

The governing authorities of a municipality are authorized pursuant to the statute to make appropriations to a historic preservation commission for the expenses of operating the commission; however,

there is no authority for the commission to hold and spend funds from public and private sources independently of the governing authorities. Regan, December 11, 1998, A.G. Op. #98-0790.

## **§ 39-13-11. Designation of historic districts, landmarks, and landmark sites; procedures; vote of historic preservation commission; public hearing; vote of local governing authority to adopt or reject designation.**

A governing authority may provide by local ordinance the procedures to be followed to designate historic districts, landmarks and landmark sites. Such an ordinance may provide that a governing authority may designate such properties upon the recommendation of a local historic preservation commission.

A potential historic district or landmark or landmark site may be proposed for designation by either a majority of the members of a local historic preservation commission or an owner of a potential landmark or landmark site or an organization which has as one of its central purposes the promotion of historic preservation objectives. If in private ownership, a landmark site must include significant surviving landscape features to qualify for designation unless its primary significance is archeological, and new construction after review and approval, shall be built to fit into such landscape features rather than replace them or shall be designed to avoid insofar as possible an archeological resource rather than replace it. If in public ownership, a local historic preservation commission shall discourage new construction on a site of great significance to the entire community unless the new construction can be located on a portion of the site which will permit a continuing understanding of its historical character and will avoid damage to surviving landscape features or an archeological resource.

Once a nomination has been filed with an existing historic preservation commission or the governing authority of a municipality or county proposing to create such a commission and designate one or more local properties, a decision on whether to proceed with the designation must be made within six (6) months.

When a historic preservation commission already exists within a community, a majority of the commission's members must vote in favor of any proposed designation in order for the file supporting the designation to be sent forward to the local governing authority for its consideration. No file purporting to justify a proposed designation may be forwarded to a governing authority unless the commission's recommendation includes a map that clearly delineates boundaries for the proposed designation, a verbal description and justification of the proposed boundaries and a written statement of significance for the historic district or landmark or landmark site proposed for designation. Unless justification is contained in a designating ordinance, the boundary for any historic landmark shall include an entire tax parcel and may include adjoining tax parcels that were historically linked to the primary parcel during the period of greatest historic significance for the landmark structure.

The local governing authority must conduct at least one public hearing on the proposed designation and notice of the public hearing must be published weekly for at least three (3) consecutive weeks in a local newspaper authorized to publish legal notices.

The local governing authority must take action on the proposed designation within sixty (60) days of the public hearing, either to adopt a designating ordinance or to reject the proposed designation.

As quickly as would be reasonably possible, a local historic preservation commission must notify other municipal agencies and any appropriate county or state agencies of the designation of a historic district, landmark or landmark site. The commission must maintain in its official files an updated list and map of local designations and provide copies of such a map to other governmental agencies within one (1) week of the preparation of a new version of the map.

**§ 39-13-13. Issuance of certificates of appropriateness for certain construction, alteration, demolition or relocation of structures within a historic district or landmark property.**

A local historic preservation commission, if so empowered by a local ordinance or a local government acting upon the advice of a local historic preservation commission, may approve an application and issue a certificate of appropriateness if it finds that a proposed construction, alteration, demolition, subdivision or relocation is consistent with the design review guidelines established by the commission, would be compatible with the character of a historic district or landmark or landmark site and does not compromise the historic and architectural integrity of the historic district, landmark or landmark site. A governing authority may require that a property owner post

a bond to guarantee satisfactory completion of a relocation project. Any local historic preservation ordinance shall specify whether partial demolition shall be considered an alteration or demolition, as it may not be both.

Whenever a local historic preservation commission shall deny or recommend denial of a certificate of appropriateness, the commission must state the reasons for such denial in writing. Thereafter, an applicant may resubmit a new application at any time, except that an applicant must wait six (6) months whenever an application for a certificate of appropriateness is denied for a landmark property of statewide or national significance and notice of any second or subsequent application must be sent to the Mississippi Department of Archives and History as well as to the local historic preservation commission.

A governing authority may require that denial of a certificate of appropriateness shall be binding upon a local building inspector or the agency responsible for issuing building permits and shall prevent the issuance of other building permits for the same parcel until a certificate of appropriateness is approved. A certificate of appropriateness may be required for work which does not require a building permit. A certificate of appropriateness may be evidenced by either a written and dated letter to an owner or applicant or such a letter accompanied by a signed and dated stamp on the face of any and all architectural or project drawings prepared for a project. A governing authority may provide by ordinance that a certificate of appropriateness shall expire at the end of a specified time period if work has not begun.

**SOURCES:** Laws, 2001, ch. 443, § 8, eff from and after July 1, 2001.

**§ 39-13-15. Demolition by neglect; demolition of historic landmark or landmark site without review and approval by historic preservation commission.**

The governing authority of any county or municipality, individually or jointly, may enact local legislation governing “demolition by neglect,” defined as improper maintenance or lack of maintenance of any property in a historic district, or any historic landmark or landmark site, which results in substantial deterioration of such a property and threatens its continued stability and preservation. The governing authority of any county or municipality, individually or jointly, is further authorized, in its discretion, to fine any property owner who has been found to own a property that has been determined to be threatened by demolition by neglect as defined herein. Such property owner, from the date such property is found to be in demolition by neglect by the governing authority until such repairs are made to remove the danger to the property, shall be in violation of the provisions of this section.

In addition to the powers specified in Section 21-19-11(1), a governing authority, if the Historic Preservation Division of the Department of Archives and History concurs, may make repairs necessary to correct demolition by neglect, and the cost of such repairs shall become a lien against the property in accordance with Section 21-19-11(3).

If a property in a historic district or a historic landmark or landmark site is demolished without review and approval by a local historic preservation commission, the governing authority may require that the owner rebuild on the site using as much of the original building material as possible, but in general following the same form. A governing authority may specify by ordinance that unauthorized demolition of a portion of a structure shall not serve as justification for a demolition permit whenever it can be shown that restoration or rehabilitation would still be feasible.

Whenever a structure or structures is demolished without review and approval by a local historic preservation commission, the governing authority may require that no permit be issued for any structure or structures proposed for the same parcel which would require a footprint larger than the footprint of the demolished structure or structures.

If a historic landmark or landmark site of statewide or national significance is demolished without review and approval by a local historic preservation commission, the governing authority may require that no permit for any construction on the parcel from which the landmark or landmark site has been removed may be issued for a period of up to twenty-four (24) months.

### **§ 39-13-17. Penalties for violations; separate offense for each day violation exists.**

Any person who violates any of the provisions of this chapter shall be guilty of a misdemeanor and, upon conviction, shall be fined not less than Ten Dollars (\$10.00) nor more than Five Hundred Dollars (\$500.00).

Each day that a violation continues to exist shall constitute a separate offense.

### **§ 39-13-19. Appeal.**

If a property owner in a historic district, or the owner of a historic landmark or landmark site, is denied a certificate of appropriateness, the property owner may appeal such decision either to the governing authority of the city or county or combination thereof or may, if such venue has been made available at the discretion of the governing authority, appeal directly to the chancery court. Any such appeal shall be reviewed upon the record established before the local historic preservation commission. Any local property owner or organization aggrieved or damaged by such a decision may appeal in the same manner.

**SOURCES:** Laws, 2001, ch. 443, § 11, eff from and after July 1, 2001.

**§ 39-13-21. In general.**

The governing authorities of each municipality and county may stabilize the economy of the areas within the boundary of such municipality or county through the continued use, preservation and revitalization of key historic and architectural resources. It is recognized that the protection and enhancement of such attractions help to attract tourists and visitors, and that the further development of local heritage tourism programs supports and stimulates local business and industry. This chapter permits governing authorities to strengthen civic pride and ensure cultural stability through neighborhood conservation and historic preservation activities. This chapter establishes a review process for the preservation and appropriate redevelopment of the key historic and architectural resources of a governing authority and creates procedures which ensure adequate public notice before the creation of local historic preservation commissions or the designation of local historic districts, landmarks and landmark sites.

**SOURCES:** Laws, 2001, ch. 443, § 1, eff from and after July 1, 2001.

**§ 39-13-23. Effect on existing historic preservation commissions and historic district or landmark designations.**

Nothing in Laws, 2001, ch. 443 shall require the dissolution of any local historic preservation commission created in Mississippi before July 1, 2001. Any local historic preservation commission created by ordinance before July 1, 2001 shall continue in existence and continue to have all of the purposes, powers and authority set out in the ordinance creating such commission. Any such previously created commission may be given the powers set forth in this chapter if a governing authority reenacts a local ordinance in conformity with this chapter.

No designation of a historic district or landmark or landmark site shall be invalidated because the designation was made under a valid ordinance before July 1, 2001.

SEC.

39-15-1. Authority of municipal and county government to expend general fund monies in support of the arts.

#### **§ 39-15-1. Authority of municipal and county government to expend general fund monies in support of the arts.**

The governing authorities of any municipality or county are hereby authorized and empowered, in their discretion, to expend monies from the municipal or county general fund to match any other funds available for the purpose of supporting the development, promotion and coordination of the arts within such municipality or county.

**SOURCES:** Laws, 1986, ch. 496, eff from and after passage (approved April 16, 1986).

#### ATTORNEY GENERAL OPINIONS

Pursuant to Section 39-15-1, a City has authority to expend \$100,000.00 to match funds of the Arts Council to restore and renovate a building for the purposes of the Arts Council, i.e., development, promotion and coordination of the arts. Mims, November 8, 1996, A.G. Op. #96-0750.

The City of Brookhaven may make a contribution of \$60,000.00 to the Brookhaven Trust to secure matching funds for the renovation and repair of the Mary Jane Lambton Auditorium, a Mississippi landmark, if the governing authorities of the city finds that the contribution would support the development, promotion, and coordination of the arts within the municipality pursuant to the statute. Fernald, September 4, 1998, A.G. Op. #98-0530.

Governing authorities of the City of Vicksburg may spend funds to match other funds for the development and promotion of the Blues Museum and for programs coordinating the arts at the museum. Thomas, Sept. 27, 2002, A.G. Op. #02-0557.

While a county or municipality may condition a donation upon the availability of matching funds by evidencing an intent to expend the funds, the funds may not actually be spent until the matching funds are actually available. The pertinent inquiry is not how much time is reasonable before matching funds are secured, but whether, when the public funds are expended, the matching funds are in fact "available." Brooks, Apr. 7, 2006, A.G. Op. 06-0061.
